

Request for Proposals Information Systems

Design, Supply and Installation

(Two-Envelope Procurement Process)

(Without Prequalification)

Procurement of:

**Supply, Installation and Commissioning of
Tools as a Service (TaaS) and Big Data
Analytics Tools for National Data Center
(NDC)**

Purchaser: Bangladesh Computer Council (BCC)

Project: Enhancing Digital Government and Economy (EDGE) Project

Contract title: Supply, Installation and Commissioning of Tools as a Service (TaaS) and Big Data Analytics Tools for National Data Center (NDC)

Country: Bangladesh

Credit No. : 6675-BD

RFP No: EDGE-G4

Issued on: 20 March 2024

Section I - Instructions to Proposers

A. GENERAL

- 1. Scope of Proposal**
- 1.1. The Purchaser, as indicated in the PDS, or its duly authorized Purchasing Agent if so specified in the PDS (interchangeably referred to as “the Purchaser” issues this request for proposals document for the supply and installation of the Information System as specified in Section VII, Purchaser’s Requirements. The name, identification and number of lots (contracts) of this RFP are specified in the PDS.
- 1.2. Unless otherwise stated, throughout this request for proposals document definitions and interpretations shall be as prescribed in the Section VIII, General Conditions of Contract.

Throughout this request for proposals document:

- (a) the term “in writing” means communicated in written form (e.g. by mail, e-mail, fax, including if specified in the PDS, distributed or received through the electronic-procurement system used by the Purchaser) with proof of receipt;
- (b) if the context so requires, “singular” means “plural” and vice versa; and
- (c) “Day” means calendar day, unless otherwise specified as “Business Day”. A Business Day is any day that is an official working day of the Borrower. It excludes the Borrower’s official public holidays.
- (d) “ES” means environmental and social (including Sexual Exploitation and Abuse (SEA), and Sexual Harassment (SH));
- (e) “Sexual Exploitation and Abuse” “(SEA)” means the following:

Sexual Exploitation is defined as any actual or attempted abuse of position of vulnerability, differential power or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another;

Sexual Abuse is defined as the actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions.

- (f) “Sexual Harassment” “(SH)” is defined as unwelcome sexual advances, requests for sexual favors, and other verbal

or physical conduct of a sexual nature by the Supplier's Personnel with other Supplier's Personnel or Purchaser's Personnel.

(g) "Supplier's Personnel" is as defined in GCC Clause 1.1; and

(h) "Purchaser's Personnel" is as defined in GCC Clause 1.1.

A non-exhaustive list of (i) behaviors which constitute SEA and (ii) behaviors which constitute SH is attached to the Code of Conduct form in Section IV

2. Source of Funds

2.1. The Borrower or Recipient (hereinafter called "Borrower") indicated in the PDS has applied for or received financing (hereinafter called "funds") from the International Bank for Reconstruction and Development or the International Development Association (hereinafter called "the Bank") in an amount specified in the PDS toward the project named in the PDS. The Borrower intends to apply a portion of the funds to eligible payments under the contract(s) for which this request for proposals document is issued.

2.2. Payments by the Bank will be made only at the request of the Borrower and upon approval by the Bank in accordance with the terms and conditions of the Loan (or other financing) Agreement between the Borrower and the Bank (hereinafter called the Loan Agreement), and will be subject in all respects to the terms and conditions of that Loan (or other financing) Agreement. The Loan (or other financing) Agreement prohibits a withdrawal from the loan account for the purpose of any payment to persons or entities, or for any import of equipment, materials or any other goods, if such payment or import is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the Loan (or other financing) Agreement or have any claim to the funds.

3. Fraud and Corruption

3.1. The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section VI.

3.2. In further pursuance of this policy, Proposers shall permit and shall cause their agents (where declared or not), subcontractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any initial selection process,

prequalification process, bid submission, proposal submission and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.

4. Eligible Proposers 4.1.

A Proposer may be a firm that is a private entity, a state-owned enterprise or institution subject to ITP 4.6, or any combination of such entities in the form of a joint venture (JV) under an existing agreement or with the intent to enter into such an agreement supported by a letter of intent. In the case of a joint venture, all members shall be jointly and severally liable for the execution of the Contract in accordance with the Contract terms. The JV shall nominate a Representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the procurement process and, in the event the JV is awarded the Contract, during contract execution. Unless specified in the PDS, there is no limit on the number of members in a JV.

4.2. A Proposer shall not have a conflict of interest. Any Proposer found to have a conflict of interest shall be disqualified. A Proposer may be considered to have a conflict of interest for the purpose of this procurement process, if the Proposer:

- (a) directly or indirectly controls, is controlled by or is under common control with another Proposer; or
- (b) receives or has received any direct or indirect subsidy from another Proposer; or
- (c) has the same legal representative as another Proposer; or
- (d) has a relationship with another Proposer, directly or through common third parties, that puts it in a position to influence the Proposal of another Proposer, or influence the decisions of the Purchaser regarding this procurement process; or
- (e) any of its affiliates participates as a consultant in the preparation of the design or technical specifications of the Information System that are the subject of the Proposal; or
- (f) or any of its affiliates has been hired (or is proposed to be hired) by the Purchaser or Borrower as Project Manager for the Contract implementation; or
- (g) would be providing goods, works, or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of the

project specified in the PDS ITP 2.1 that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm; or

- (h) has a close business or family relationship with a professional staff of the Borrower (or of the project implementing agency, or of a recipient of a part of the loan) who: (i) are directly or indirectly involved in the preparation of the request for proposals document or specifications of the Contract, and/or the Proposal evaluation process of such Contract; or (ii) would be involved in the implementation or supervision of such Contract unless the conflict stemming from such relationship has been resolved in a manner acceptable to the Bank throughout the procurement process and execution of the Contract.

4.3. A firm that is a Proposer (either individually or as a JV member) shall not participate as a Proposer or as JV member in more than one Proposal except for permitted alternative Proposals. Such participation shall result in the disqualification of all Proposals in which the firm is involved. However, this does not limit the participation of a Proposer as subcontractor in another Proposal or of a firm as a subcontractor in more than one Proposal.

4.4. A Proposer may have the nationality of any country, subject to the restrictions pursuant to ITP 4.8. A Proposer shall be deemed to have the nationality of a country if the Proposer is constituted, incorporated or registered in and operates in conformity with the provisions of the laws of that country, as evidenced by its articles of incorporation (or equivalent documents of constitution or association) and its registration documents, as the case may be. This criterion also shall apply to the determination of the nationality of proposed sub-contractors or sub-consultants for any part of the Contract including related Services.

- 4.5. A Proposer that has been sanctioned by the Bank, pursuant to the Bank's Anti-Corruption Guidelines, and in accordance with its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework as described in Section VI paragraph 2.2 d., shall be ineligible to be initially selected for, prequalified for, bid for, propose for, or be awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified in the PDS.
- 4.6. Proposers that are state-owned enterprises or institutions in the Purchaser's Country may be eligible to compete and be awarded a Contract(s) only if they can establish, in a manner acceptable to the Bank, that they (i) are legally and financially autonomous (ii) operate under commercial law, and (iii) are not under supervision of the Purchaser.
- 4.7. A Proposer shall not be under suspension from bidding or submitting proposals by the Purchaser as the result of the operation of a Bid-Securing Declaration or Proposal-Securing Declaration.
- 4.8. Firms and individuals may be ineligible if so indicated in Section V and (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the supply of goods or the contracting of works or services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's country prohibits any import of goods or contracting of works or services from that country, or any payments to any country, person, or entity in that country.
- 4.9. This request for proposal process is open for all eligible Proposers, unless otherwise specified in ITP 15.2.
- 4.10. A Proposer shall provide such documentary evidence of eligibility satisfactory to the Purchaser, as the Purchaser shall reasonably request.
- 4.11. A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption,

and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

5. Eligible Goods and Services

- 5.1. The Information Systems to be supplied under the Contract and financed by the Bank may have their origin in any country in accordance with Section V, Eligible Countries.
- 5.2. For the purposes of this request for proposals document, the term “Information System” means all:
- (a) the required information technologies, including all information processing and communications-related hardware, software, supplies, and consumable items that the Supplier is required to design, supply and install under the Contract, plus all associated documentation, and all other materials and goods to be designed, supplied, installed, integrated, and made operational; and
 - (b) the related software development, transportation, insurance, installation, customization, integration, commissioning, training, technical support, maintenance, repair, and other services necessary for proper operation of the Information System to be provided by the selected Proposer and as specified in the Contract.
- 5.3. For purposes of ITP 5.1 above, “origin” means the place where the goods and services making the Information System are produced in or supplied from. An Information System is deemed to be produced in a certain country when, in the territory of that country, through software development, manufacturing, or substantial and major assembly or integration of components, a commercially recognized product results that is substantially different in basic characteristics or in purpose or utility from its components.

B. CONTENTS OF THE REQUEST FOR PROPOSALS DOCUMENT

6. Sections of the Request for Proposals Document

- 6.1. The request for proposals document consists of Parts 1, 2, and 3, which include all the sections indicated below, and should be read in conjunction with any Addenda issued in accordance with ITP 8:

PART 1 - Request for Proposals Procedures

Section I - Instructions to Proposers (ITP)

Section II - Proposal Data Sheet (PDS)

Section III - Evaluation and Qualification Criteria

Section IV - Proposal Forms

Section V - Eligible Countries

Section VI - Fraud and Corruption

PART 2 - Purchaser's Requirements

Section VII - Requirements of the IS, including:

- Technical Requirements
- Implementation Schedule
- System Inventory Tables
- Background and Informational Materials

PART 3 - Contract

Section VIII - General Conditions of Contract

Section IX -Special Conditions of Contract

Section X - Contract Forms

- 6.2. The Specific Procurement Notice – Request for Proposals (RFP) issued by the Purchaser is not part of this request for proposals document.
- 6.3. Unless obtained directly from the Purchaser, the Purchaser is not responsible for the completeness of the document, responses to requests for clarification, the Minutes of the pre-Proposal meeting (if any), or Addenda to the request for proposals document in accordance with ITP 8. In case of any contradiction, documents obtained directly from the Purchaser shall prevail.
- 6.4. The Proposer is expected to examine all instructions, forms, terms, and specifications in the request for proposals document and to furnish with its Proposal all information or documentation as is required by the request for proposals document.

7. Clarification of Request for Proposals Document, Site Visit, Pre-Proposal Meeting

- 7.1. A Proposer requiring any clarification of the request for proposals document shall contact the Purchaser in writing at the Purchaser’s address specified in the PDS or raise its enquiries during the pre-Proposal meeting if provided for in accordance with ITP 7.4. The Purchaser will respond in writing to any request for clarification, provided that such request is received prior to the deadline for submission of Proposals within a period specified in the PDS. The Purchaser’s shall forward copies of its response to all Proposers who have acquired the request for proposals document in accordance with ITP 6.3, including a description of the inquiry but without identifying its source. If so specified in the PDS, the Purchaser shall also promptly publish its response at the web page identified in the PDS. Should the Purchaser deem it necessary to amend the request for proposals document as a result of a request for clarification, it shall do so following the procedure under ITP 8 and ITP 23.2.
- 7.2. The Proposer may wish to visit and examine the site where the Information System is to be installed and its surroundings and obtain for itself on its own responsibility all information that may be necessary for preparing the Proposal and entering into a contract. The costs of visiting the site shall be at the Proposer’s own expense.
- 7.3. The Proposer and any of its personnel or agents will be granted permission by the Purchaser to enter upon its premises and lands for the purpose of such visit, but only upon the express condition that the Proposer, its personnel, and agents will release and indemnify the Purchaser and its personnel and agents from and against all liability in respect thereof, and will be responsible for death or personal injury, loss of or damage to property, and any other loss, damage, costs, and expenses incurred as a result of the inspection.
- 7.4. The Proposer’s designated representative is invited to attend a pre-Proposal meeting and/or a site visit, if provided for in the PDS. The purpose of the meeting will be to clarify issues and to answer questions on any matter that may be raised at that stage.
- 7.5. The Proposer is requested, as far as possible, to submit any questions in writing, to reach the Purchaser not later than one week before the meeting.
- 7.6. Minutes of the pre-Proposal meeting, including the text of the questions raised without identifying the source, and the responses given, together with any responses prepared after the meeting, will be transmitted promptly to all Proposers who have acquired the request for proposals document in accordance with ITP 6.3. Any

modification to the request for proposals document that may become necessary as a result of the pre-Proposal meeting shall be made by the Purchaser exclusively through the issue of an Addendum pursuant to ITP 8 and not through the minutes of the pre-Proposal meeting.

- 7.7. Nonattendance at the pre-Proposal meeting will not be a cause for disqualification of a Proposer.
- 8. Amendment of Request for Proposals Document**
- 8.1. At any time prior to the deadline for submission of Proposals, the Purchaser may amend the request for proposals document by issuing addenda.
- 8.2. Any addendum issued shall be part of the request for proposals document and shall be communicated in writing to all who have obtained the request for proposals document from the Purchaser in accordance with ITP 6.3. The Purchaser shall also promptly publish the addendum on the Purchaser's web page in accordance with ITP 7.1.
- 8.3. To give prospective Proposers reasonable time in which to take an addendum into account in preparing their Proposals, the Purchaser may, at its discretion, extend the deadline for the submission of Proposals, pursuant to ITP 23.2.

C. PREPARATION OF PROPOSALS

- 9. Cost of Proposals**
- 9.1. The Proposer shall bear all costs associated with the preparation and submission of its Proposal, and the Purchaser shall not be responsible or liable for those costs, regardless of the conduct or outcome of the Request for Proposals process.
- 10. Language of Proposal**
- 10.1. The Proposal, as well as all correspondence and documents relating to the Proposal exchanged by the Proposer and the Purchaser, shall be written in the language specified in the PDS. Supporting documents and printed literature that are part of the Proposal may be in another language provided they are accompanied by an accurate translation of the relevant passages in the language specified in the PDS, in which case, for purposes of interpretation of the Proposal, such translation shall govern.
- 11. Documents Comprising the Proposal**
- 11.1. The Proposal shall comprise two Parts, namely the Technical Part and the Financial Part. These two Parts shall be submitted simultaneously in two separate sealed envelopes (two-envelope procurement process). One envelope shall contain only information relating to the Technical Part and the other, only information relating to the Financial Part. These two envelopes

shall be enclosed in a separate sealed outer envelope marked “Original Proposal”.

11.2. The Technical Part shall contain the following:

- (a) **Letter of Proposal**-Technical Part, **prepared** in accordance with ITP 12;
- (b) **Proposal Security or Proposal-Securing Declaration** in accordance with ITP 20;
- (c) **Alternative Proposal**- Technical Part: if permissible, in accordance with ITP 13, the Technical Part of any Alternative Proposal;
- (d) **Authorization**: written confirmation authorizing the signatory of the Proposal to commit the Proposer, in accordance with ITP 21.3;
- (e) **Eligibility of Information System**: documentary evidence established in accordance with ITP 14.1 that the Information System offered by the Proposer in its Proposal or in any alternative Proposal, if permitted, are eligible;
- (f) **Proposer’s Eligibility and qualifications**: documentary evidence in accordance with ITP 15 establishing the Proposer’s eligibility and qualifications to perform the contract if its Proposal is accepted;
- (g) **Conformity**: documentary evidence established in accordance with ITP 16 that the Information System offered by the Proposer conform to the **request for proposals** document;
- (h) **Subcontractors**: list of subcontractors, in accordance with ITP 16.4;
- (i) **Intellectual Property**: a list of: Intellectual Property as defined in GCC Clause 15;
 - (i) all Software included in the Proposal, assigning each item to one of the software categories defined in GCC Clause 1.1 (c):
 - a. System, General Purpose, and Application Software;
or
 - b. Standard and Custom Software;
 - (ii) all Custom Materials, as defined in GCC Clause 1.1 (c), included in the Proposal;

All Materials not identified as Custom Materials shall be deemed Standard Materials, as defined in GCC Clause 1.1 (c);

Re-assignments among the Software and Materials categories, if necessary, will be made during the implementation of the Contract according to GCC Clause 39 (Changes to the Information System); and

- (j) any other document required in the PDS.

11.3. The Financial Part shall contain the following:

- (a) Letter of Proposal – Financial Part: prepared in accordance with ITP 12 and ITP 17;
- (b) Schedule: Price Schedules completed in accordance with ITP 12 and ITP 17;
- (c) Alternative Proposal - Financial Part: if permissible in accordance with ITP 13, the Financial Part of any Alternative Proposal; and
- (d) any other document required in the PDS.

11.4. The Technical Part shall not include any information related to the Proposal price. Where material financial information related to the Proposal price is contained in the Technical Part the Proposal shall be declared non-responsive.

11.5. In addition to the requirements under ITP 11.2, Proposals submitted by a JV shall include in the Technical Part a copy of the Joint Venture Agreement entered into by all members indicating at least the parts of the Information System to be executed by the respective members. Alternatively, a letter of intent to execute a Joint Venture Agreement in the event of a successful Proposal shall be signed by all members and submitted with the Proposal, together with a copy of the proposed Agreement indicating at least the parts of the Information System to be executed by the respective members.

11.6. The Proposer shall furnish in the Letter of Proposal - Financial Part information on commissions and gratuities, if any, paid or to be paid to agents or any other party relating to this procurement process.

12. Letters of Proposal and Price Schedules

12.1. The Letter of Proposal - Technical Part, Letter of Proposal-Financial Part and Price Schedules shall be prepared using the relevant forms furnished in Section IV, Proposal Forms. The forms must be completed without any alterations to the text, and no

substitutes shall be accepted except as provided under ITP 21.3. All blank spaces shall be filled in with the information requested.

13. Alternative Proposals

- 13.1. The PDS indicates whether alternative Proposals are allowed. If they are allowed, the PDS will also indicate whether they are permitted in accordance with ITP 13.3, or invited in accordance with ITP 13.2 and/or ITP 13.4.
- 13.2. When alternatives to the Time Schedule are explicitly invited, a statement to that effect will be included in the PDS, and the method of evaluating different time schedules will be described in Section III, Evaluation and Qualification Criteria.
- 13.3. Except as provided under ITP 13.4 below, Proposers wishing to offer technical alternatives to the Purchaser's requirements as described in the request for proposals document must also provide: (i) a price at which they are prepared to offer an Information System meeting the Purchaser's requirements; and (ii) all information necessary for a complete evaluation of the alternatives by the Purchaser, including drawings, design calculations, technical specifications, breakdown of prices, and proposed installation methodology and other relevant details. Only the technical alternatives, if any, of the Proposer with the Most Advantageous Proposal conforming to the basic technical requirements shall be considered by the Purchaser.
- 13.4. When Proposers are invited in the PDS to submit alternative technical solutions for specified parts of the system, such parts shall be described in Section VII, Purchaser's Requirements. Technical alternatives that comply with the performance and technical criteria specified for the Information System shall be considered by the Purchaser on their own merits, pursuant to ITP 32.

14. Documents Establishing the Eligibility of the Information System

- 14.1. To establish the eligibility of the Information System in accordance with ITP 5, Proposers shall complete the country of origin declarations in the Price Schedule Forms, included in Section IV, Proposal Forms.

15. Documents Establishing the Eligibility and Qualifications of the Proposer

- 15.1. To establish its eligibility and qualifications to perform the Contract in accordance with Section III, Evaluation and Qualification Criteria, the Proposer shall provide the information requested in the corresponding information sheets included in Section IV, Proposal Forms.
- 15.2. In the event that prequalification of potential Proposers has been undertaken as stated in the PDS, only Proposals from prequalified

Proposers shall be considered for award of Contract. These qualified Proposers should submit with their Proposals any information updating their original prequalification applications or, alternatively, confirm in their Proposals that the originally submitted prequalification information remains essentially correct as of the date of Proposal submission.

- 15.3. Any change in the structure or formation of a Proposer after being prequalified and invited to submit Proposals, if applicable, (including, in the case of a JV, any change in the structure or formation of any member and also including any change in any specialized subcontractor whose qualifications were considered to prequalify the Applicant) shall be subject to the written approval of the Purchaser prior to the deadline for submission of Proposals. Such approval shall be denied if (i) a Proposer proposes to associate with a disqualified Proposer or in case of a disqualified joint venture, any of its members; (ii) as a consequence of the change, the Proposer no longer substantially meets the qualification criteria; or (iii) in the opinion of the Purchaser, the change may result in a substantial reduction in competition. Any such change should be submitted to the Purchaser not later than fourteen (14) days after the date of the notice for RFP sent to the prequalified Proposers.

**16. Documents
Establishing
Conformity of
the
Information
System**

- 16.1. Pursuant to ITP 11.2 (g), the Proposer shall furnish, as part of its Proposal, documents establishing the conformity to the request for proposals documents of the Information System that the Proposer proposes to design, supply and install under the Contract.
- 16.2. The documentary evidence of conformity of the Information System to the request for proposals documents including:
- (a) Preliminary Project Plan describing, among other things, the methods by which the Proposer will carry out its overall management and coordination responsibilities if awarded the Contract, and the human and other resources the Proposer proposes to use. The Preliminary Project Plan must also address any other topics specified in the PDS. In addition, the Preliminary Project Plan should state the Proposer's assessment of what it expects the Purchaser and any other party involved in the implementation of the Information System to provide during implementation and how the Proposer proposes to coordinate the activities of all involved parties;
 - (b) written confirmation that the Proposer accepts responsibility for the successful integration and inter-operability of all

- components of the Information System as required by the request for proposals documents;
- (c) an item-by-item commentary on the Purchaser's Technical Requirements, demonstrating the substantial responsiveness of the Information System offered to those requirements. In demonstrating responsiveness, the Proposer should use the Technical Responsiveness Checklist (or Checklist Format) in the Sample Proposal Forms (Section IV). The commentary shall include explicit cross-references to the relevant pages in the supporting materials included in the Proposal. Whenever a discrepancy arises between the item-by-item commentary and any catalogs, technical specifications, or other preprinted materials submitted with the Proposal, the item-by-item commentary shall prevail;
 - (d) support material (e.g., product literature, white papers, narrative descriptions of technologies and/or technical approaches), as required and appropriate; and
 - (e) any separate and enforceable contract(s) for Recurrent Cost items which the PDS ITP 17.2 requires Proposers to propose.
- 16.3. References to brand names or model numbers or national or proprietary standards designated by the Purchaser in the request for proposals documents are intended to be descriptive and not restrictive. Except as specified in the PDS for specific items or standards, the Proposer may substitute alternative brand/model names or standards in its Proposal, provided that it demonstrates to the Purchaser's satisfaction that the use of the substitute(s) will result in the Information System being able to perform substantially equivalent to or better than that specified in the Technical Requirements.
- 16.4. For major items of the Information System as listed by the Purchaser in Section III, Evaluation and Qualification Criteria, which the Proposer intends to purchase or subcontract, the Proposer shall give details of the name and nationality of the proposed subcontractors, including manufacturers, for each of those items. In addition, the Proposer shall include in its Proposal information establishing compliance with the requirements specified by the Purchaser for these items. Quoted rates and prices will be deemed to apply to whichever subcontractor is appointed, and no adjustment of the rates and prices will be permitted.
- 16.5. The Proposer shall be responsible for ensuring that any subcontractor proposed complies with the requirements of ITP 4, and that any goods or services to be provided by the subcontractor comply with the requirements of ITP 5 and ITP 16.1.

- 17. Proposal Prices**
- 17.1. All Goods and Services identified in the Supply and Installation Cost Sub-Tables in System Inventory Tables in Section VII, and all other Goods and Services proposed by the Proposer to fulfill the requirements of the Information System, must be priced separately and summarized in the corresponding cost tables in the Sample Proposal Forms (Section IV), in accordance with the instructions provided in the tables and in the manner specified below.
- 17.2. Unless otherwise specified in the PDS, the Proposer must also propose Recurrent Cost Items specified in the Technical Requirements, Recurrent Cost Sub-Table of the System Inventory Tables in Section VII (if any). These must be priced separately and summarized in the corresponding cost tables in the Sample Proposal Forms (Section IV), in accordance with the instructions provided in the tables and in the manner specified below:
- (a) if specified **in the PDS**, the Proposer must also propose separate enforceable contracts for the Recurrent Cost Items not included in the main Contract;
 - (b) prices for Recurrent Costs are all-inclusive of the costs of necessary Goods such as spare parts, software license renewals, labor, etc., needed for the continued and proper operation of the Information System and, if appropriate, of the Proposer's own allowance for price increases;
 - (c) prices for Recurrent Costs beyond the scope of warranty services to be incurred during the Warranty Period, defined in GCC Clause 29.4 and prices for Recurrent Costs to be incurred during the Post-Warranty Period, defined in SCC Clause 1.1. (e) (xiii), shall be quoted as Service prices on the Recurrent Cost Sub-Table in detail, and on the Recurrent Cost Summary Table in currency totals.
- 17.3. Unit prices must be quoted at a level of detail appropriate for calculation of any partial deliveries or partial payments under the contract, in accordance with the Implementation Schedule in Section VII), and with GCC and SCC Clause 12 – Terms of Payment. Proposers may be required to provide a breakdown of any composite or lump-sum items included in the Cost Tables
- 17.4. The price of items that the Proposer has left blank in the cost tables provided in the Sample Proposal Forms (Section IV) shall be assumed to be included in the price of other items. Items omitted altogether from the cost tables shall be assumed to be omitted from the Proposal and, provided that the Proposal is substantially

responsive, an adjustment to the Proposal price will be made during Proposal evaluation in accordance with ITP 34.1.

17.5. The prices for Goods components of the Information System are to be expressed and shall be defined and governed in accordance with the rules prescribed in the edition of Incoterms specified in the PDS, as follows:

(a) Goods supplied from outside the Purchaser's country:

Unless otherwise specified **in the PDS**, the prices shall be quoted on a CIP (named place of destination) basis, exclusive of all taxes, stamps, duties, levies, and fees imposed in the Purchaser's country. The named place of destination and special instructions for the contract of carriage are as specified in the SCC for GCC 1.1 (e) (iii). In quoting the price, the Proposer shall be free to use transportation through carriers registered in any eligible countries. Similarly, the Proposer may obtain insurance services from any eligible source country;

(b) Locally supplied Goods:

Unit prices of Goods offered from within the Purchaser's Country, shall be quoted on an EXW (ex factory, ex works, ex warehouse or off-the-shelf, as applicable) basis, including all customs duties, levies, fees, sales and other taxes incurred until delivery of the Goods, but excluding all VAT or sales and other taxes and duties/fees incurred for the Goods at the time of invoicing or sales transaction, if the Contract is awarded;

(c) Inland transportation.

17.6. Unless otherwise stated in the PDS, inland transportation, insurance and related local costs incidental to the delivery of the Goods to the designated Project Sites must be quoted separately as a Service item in accordance with ITP 17.5, whether the Goods are to be supplied locally or from outside the Purchaser's country, except when these costs are already included in the price of the Goods, as is, e.g., the case, when ITP 17.5 (a) specifies CIP, and the named places of destination are the Project Sites.

17.7. The price of Services shall be separated into their local and foreign currency components and where appropriate, broken down into unit prices. Prices must include all taxes, duties, levies and fees whatsoever, except only VAT or other indirect taxes, or stamp duties, that may be assessed and/or apply in the Purchaser's country on/to the price of the Services invoiced to the Purchaser, if the Contract is awarded.

- 17.8. Unless otherwise specified in the PDS, the prices must include all costs incidental to the performance of the Services, as incurred by the Supplier, such as travel, subsistence, office support, communications, translation, printing of materials, etc. Costs incidental to the delivery of the Services but incurred by the Purchaser or its staff, or by third parties, must be included in the price only to the extent such obligations are made explicit in these request for proposals documents (as, e.g., a requirement for the Proposer to include the travel and subsistence costs of trainees).
- 17.9. Unless otherwise specified in the PDS, prices quoted by the Proposer shall be fixed during the Proposer's performance of the Contract and not subject to increases on any account. Proposals submitted that are subject to price adjustment will be rejected.

18. Currencies of Proposal and Payment

- 18.1. The currency(ies) of the Proposal and currencies of payment shall be the same. The Proposer shall quote in the currency of the Purchaser's Country the portion of the Proposal price that corresponds to expenditures incurred in the currency of the Purchaser's Country, unless otherwise specified in the PDS.
- 18.2. The Proposer may express the Proposal price in any currency. If the Proposer wishes to be paid in a combination of amounts in different currencies, it may quote its price accordingly but shall use no more than three foreign currencies in addition to the currency of the Purchaser's Country.

19. Period of Validity of Proposals

- 19.1. Proposals shall remain valid until the date specified in the PDS or any extended date if amended by the Purchaser in accordance with ITP 8. A Proposal that is not valid until the date specified in the PDS, or any extended date if amended by the Purchaser in accordance with ITP 8, shall be rejected by the Purchaser as nonresponsive.
- 19.2. In exceptional circumstances, prior to the date of expiry of the Proposal validity, the Purchaser may request Proposers to extend the date of validity until a specified date. The request and the responses shall be made in writing. If a Proposal Security is requested in accordance with ITP 20, it shall also be extended for twenty-eight days (28) beyond the deadline of the extended validity period. A Proposer may refuse the request without forfeiting its Proposal Security. A Proposer granting the request shall not be required or permitted to modify its Proposal, except as provided in ITP 19.3.
- 19.3. If the award is delayed by a period exceeding fifty-six (56) days beyond the expiry of the initial Proposal validity specified in

accordance with ITP 19.1, the Contract price shall be determined as follows:

- (a) in case of fixed price contracts, the contract price shall be the Proposal price adjusted by a factor or factors specified **in the PDS**;
- (b) in the case of an adjustable price contracts, no adjustments shall be made;
- (c) in any case, Proposal evaluation shall be based on the Proposal Price without taking into consideration the applicable correction from those indicated above.

20. Proposal Security

- 20.1. The Proposer shall furnish as part of the Technical Part of its Proposal, either a Proposal-Securing Declaration or a Proposal Security as specified in the PDS, in original form and, in the case of a Proposal Security, in the amount and currency specified in the PDS.
- 20.2. A Proposal-Securing Declaration shall use the form included in Section IV, Proposal Forms.
- 20.3. If a Proposal Security is specified pursuant to ITP 20.1, the Proposal security shall be a demand guarantee in any of the following forms at the Proposer's option:
 - (a) an unconditional guarantee issued by a non-bank financial institution (such as an insurance, bonding or surety company);
 - (b) an irrevocable letter of credit;
 - (c) a cashier's or certified check; or
 - (d) another security indicated **in the PDS**,

from a reputable source from an eligible country. If an unconditional guarantee is issued by a non-bank financial institution located outside the Purchaser's Country the issuing non-bank financial institution shall have a correspondent financial institution located in the Purchaser's Country to make it enforceable unless the Purchaser has agreed in writing, prior to Proposal submission, that a correspondent financial institution is not required. In the case of a bank guarantee, the Proposal Security shall be submitted either using the Proposal Security Form included in Section IV, Proposal Forms or in another substantially similar format approved by the Purchaser prior to Proposal submission. In either case, the form must include the complete name of the Proposer. The Proposal Security shall be valid for twenty-eight (28) days beyond the original date of expiry of the Proposal validity, or beyond any extended date if requested under ITP 19.2.

- 20.4. If a Proposal Security or a Proposal-Securing Declaration is specified pursuant to ITP 20.1, any Proposal not accompanied by a substantially responsive Proposal Security or Proposal-Securing Declaration shall be rejected by the Purchaser as non-responsive.
- 20.5. If a Proposal Security is specified pursuant to ITP 20.1, the Proposal Security of unsuccessful Proposers shall be returned as promptly as possible upon the successful Proposer's furnishing of the Performance Security pursuant to ITP 48.
- 20.6. The Proposal Security of the successful Proposer shall be returned as promptly as possible once the successful Proposer has signed the Contract and furnished the required Performance Security.
- 20.7. The Proposal Security may be forfeited:
 - (a) if a Proposer withdraws its Proposal prior to the expiry date of Proposal validity specified by the Proposer on the Letter of Proposal or any extended date provided by the Proposer; or
 - (b) if the successful Proposer fails to:
 - (i) sign the Contract in accordance with ITP 47; or
 - (ii) furnish a performance security in accordance with ITP 48.

20.8. The Proposal Security or the Proposal-Securing Declaration of a JV shall be in the name of the JV that submits the Proposal. If the JV has not been legally constituted into a legally enforceable JV at the time of submission of Proposals, the Proposal Security or the Proposal-Securing Declaration shall be in the names of all future members as named in the letter of intent referred to in ITP 4.1 and ITP 11.5.

- 20.9. If a Proposal Security is not required in the PDS, and;
- (a) if a Proposer withdraws its Proposal prior to the expiry date of the Proposal validity specified by the Proposer on the Letter of Proposal, or any extended date provided by the Proposer; or
 - (b) if the successful Proposer fails to: sign the Contract in accordance with ITP 47; or furnish a Performance Security in accordance with ITP 48;

the Purchaser may, if provided for **in the PDS**, declare the Proposer disqualified to be awarded a contract by the Purchaser for a period of time as stated **in the PDS**.

**21. Format and
Signing of
Proposal**

21.1. The Proposer shall prepare one original and copies/sets of the documents comprising the Proposal as described in ITP 11 and Proposer22.

21.2. Proposers shall mark as “CONFIDENTIAL” information in their Proposals which is confidential to their business. This may include proprietary information, trade secrets, or commercial or financially sensitive information.

21.3. The original and all copies of the Proposal shall be typed or written in indelible ink and shall be signed by a person duly authorized to sign on behalf of the Proposer. This authorization shall consist of a written confirmation as specified in the PDS and shall be attached to the Proposal. The name and position held by each person signing the authorization must be typed or printed below the signature. All pages of the Proposal where entries or amendments have been made shall be signed or initialed by the person signing the Proposal.

- 21.4. In case the Proposer is a JV, the Proposal shall be signed by an authorized representative of the JV on behalf of the JV, and so as to be legally binding on all the members as evidenced by a power of attorney signed by their legally authorized representatives.
- 21.5. Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.

D. SUBMISSION OF PROPOSALS

22. Submission, Sealing and Marking of Proposals

- 22.1. The Proposer shall deliver the Proposal in two separate, sealed envelopes (the Technical Part and the Financial Part). These two envelopes shall be enclosed in a separate sealed outer envelope marked “Original PROPOSAL”. In addition, the Proposer shall submit copies of the Proposal in the number specified in the PDS. Copies of the Technical Part shall be placed in a separate sealed envelope marked “COPIES: TECHNICAL PART”. Copies of the Financial Part shall be placed in a separate sealed envelope marked “COPIES: FINANCIAL PART”. The Proposer shall place both of these envelopes in a separate, sealed outer envelope marked “PROPOSAL COPIES”. In the event of any discrepancy between the original and the copies, the original shall prevail.
- 22.2. If alternative Proposals are permitted in accordance with ITP 14, the alternative Proposals shall be submitted as follows: the original of the alternative Proposal Technical Part shall be placed in a sealed envelope marked “ALTERNATIVE PROPOSAL – TECHNICAL PART” and the Financial Part shall be placed in a sealed envelope marked “ALTERNATIVE PROPOSAL – FINANCIAL PART” and these two separate sealed envelopes then enclosed within a sealed outer envelope marked “ALTERNATIVE PROPOSAL – ORIGINAL”, the copies of the alternative Proposal will be placed in separate sealed envelopes marked “ALTERNATIVE PROPOSAL – COPIES OF TECHNICAL PART”, and “ALTERNATIVE PROPOSAL – COPIES OF FINANCIAL PART” and enclosed in a separate sealed outer envelope marked “ALTERNATIVE PROPOSAL - COPIES.
- 22.3. The envelopes marked “ORIGINAL PROPOSAL” and “PROPOSAL COPIES” (and, if appropriate, a third envelope marked “ALTERNATIVE PROPOSAL”) shall be enclosed in a separate sealed outer envelope for submission to the Purchaser.
- 22.4. The inner and outer envelopes shall:
 - (a) bear the name and address of the Proposer;
 - (b) be addressed to the Purchaser in accordance with ITP 23.1;

- (c) bear the specific identification of this request for proposals process indicated in accordance with ITP 1.1; and
 - (d) bear a warning not to open before the time and date for Proposal opening.
 - 22.5. If all envelopes are not sealed and marked as required, the Purchaser will assume no responsibility for the misplacement or premature opening of the Proposal.
- 23. Deadline for Submission of Proposals**
 - 23.1. Proposals must be received by the Purchaser at the address and no later than the date and time indicated in the PDS. When so specified in the PDS, Proposers shall have the option of submitting their Proposals electronically. Proposers submitting Proposals electronically shall follow the electronic Proposal submission procedures specified in the PDS.
 - 23.2. The Purchaser may, at its discretion, extend this deadline for submission of Proposals by amending the request for proposals documents in accordance with ITP 8, in which case all rights and obligations of the Purchaser and Proposers will thereafter be subject to the deadline as extended.
- 24. Late Proposals**
 - 24.1. The Purchaser shall not consider any Proposal that arrives after the deadline for submission of Proposals, in accordance with ITP 23. Any Proposal received by the Purchaser after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.
- 25. Withdrawal, Substitution, and Modification of Proposals**
 - 25.1. A Proposer may withdraw, substitute, or modify its Proposal after it has been submitted by sending a written notice, duly signed by an authorized representative, and shall include a copy of the authorization in accordance with ITP 21.3, (except that withdrawal notices do not require copies). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be:
 - (a) prepared and submitted in accordance with ITP 21 and ITP 22 (except that withdrawals notices do not require copies), and in addition, the respective envelopes shall be clearly marked “WITHDRAWAL,” “SUBSTITUTION,” “MODIFICATION;” and
 - (b) received by the Purchaser prior to the deadline prescribed for submission of Proposals, in accordance with ITP 23.

- 25.2. Proposals requested to be withdrawn in accordance with ITP 25.1 shall be returned unopened to the Proposers.

No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the date of expiry of the Proposal validity specified by the Proposer on the Letter of Proposal or any extended date thereof.

E. PUBLIC OPENING OF TECHNICAL PARTS OF PROPOSALS

26. Public Opening of Technical Parts of Proposals

- 26.1. Except as in the cases specified in ITP 24 and ITP 25.2, the Purchaser shall conduct the Proposal opening in public, in the presence of Proposers' designated representatives and anyone who chooses to attend, and at the address, date and time specified in the PDS. Any specific electronic Proposal opening procedures required if electronic submission of proposals is permitted in accordance with ITP 23.1, shall be as specified in the PDS.
- 26.2. First, envelopes marked "Withdrawal" shall be opened and read out and the envelope with the corresponding Proposal shall not be opened but returned to the Proposer. No Proposal withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorization to request the withdrawal and is read out at Proposal opening.
- 26.3. Next, envelopes marked "Substitution" shall be opened and read out and exchanged with the corresponding Proposal being substituted, and the substituted Proposal shall not be opened, but returned to the Proposer. No Proposal substitution shall be permitted unless the corresponding substitution notice contains a valid authorization to request the substitution and is read out at Proposal opening.
- 26.4. Envelopes marked "Modification" shall be opened and read out with the corresponding Proposal. No Proposal modification shall be permitted unless the corresponding modification notice contains a valid authorization to request the modification and is read out at Proposal opening. Only Proposals that are opened and read out at Proposal opening shall be considered further.
- 26.5. Next, all other envelopes marked "Technical Part" shall be opened one at a time. All envelopes marked "Second Envelope: Financial Part" shall remain sealed and kept by the Purchaser in safe custody until they are opened at a later public opening, following the evaluation of the Technical Part parts of the Proposals. On opening the envelopes marked "Technical Part" the Purchaser shall read out: the name of the Proposer, the presence or the absence of a Proposal Security, or Proposal-Securing Declaration, if required,

and whether there is a modification; and Alternative Proposal - Technical Part; and any other details as the Purchaser may consider appropriate.

- 26.6. Only Technical Parts of Proposals and Alternative Proposal - Technical Parts that are read out at Proposal opening shall be considered further for evaluation. The Letter of Proposal-Technical Part and the separate sealed envelope marked “Second Envelope: Financial Part” are to be initialed by representatives of the Purchaser attending Proposal opening in the manner specified in the PDS.
- 26.7. The Purchaser shall neither discuss the merits of any Proposal nor reject any Proposal (except for late Proposals, in accordance with ITP 24.1).
- 26.8. The Purchaser shall prepare a record of the Proposal opening that shall include, as a minimum:
 - (a) the name of the Proposer and whether there is a withdrawal, substitution, or modification;
 - (b) any alternative Proposals; and
 - (c) the presence or absence of a Proposal Security or a Proposal-Securing Declaration.
- 26.9. The Proposers’ representatives who are present shall be requested to sign the record. The omission of a Proposer’s signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Proposers.

F. EVALUATION OF PROPOSALS- GENERAL PROVISIONS

- 27. Confidentiality**
- 27.1. Information relating to the evaluation of the Technical Part shall not be disclosed to Proposers or any other persons not officially concerned with the procurement process until the notification of evaluation of the Technical Part in accordance with ITP 33. Information relating to the evaluation of Financial Part, the evaluation of combined Technical Part and Financial Part, and recommendation of contract award shall not be disclosed to Proposers or any other persons not officially concerned with the RFP process until the Notification of Intention to Award the Contract is transmitted to Proposers in accordance with ITP 42ProposerProposer.
 - 27.2. Any effort by a Proposer to influence the Purchaser in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal.

27.3. Notwithstanding ITP 27.2, from the time of Proposal opening to the time of Contract award, if any Proposer wishes to contact the Purchaser on any matter related to the procurement process, it should do so in writing.

28. Clarification of Proposals

28.1. To assist in the examination, evaluation, and comparison of the Proposals, and qualification of the Proposers, the Purchaser may, at its discretion, ask any Proposer for a clarification of its Proposal. Any clarification submitted by a Proposer that is not in response to a request by the Purchaser shall not be considered. The Purchaser's request for clarification and the response shall be in writing. No change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Purchaser in the evaluation of the Proposals, in accordance with ITP 35.

28.2. If a Proposer does not provide clarifications of its Proposal by the date and time set in the Purchaser's request for clarification, its Proposal may be rejected.

29. Deviations, Reservations, and Omissions

29.1. During the evaluation of Proposals, the following definitions apply:

- (a) "Deviation" is a departure from the requirements specified in the request for proposals document;
- (b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the request for proposals document; and
- (c) "Omission" is the failure to submit part or all of the information or documentation required in the request for proposals document.

29.2. Provided that a Proposal is substantially responsive, the Purchaser may waive any nonmaterial nonconformities in the Proposal.

Provided that a Proposal is substantially responsive, the Purchaser may request that the Proposer submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities in the Proposal related to documentation requirements. Requesting information or documentation on such nonconformities shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

G. EVALUATION OF TECHNICAL PART OF PROPOSALS

- 30. Determination of Responsiveness**
- 30.1. The Purchaser’s determination of the Technical Part’s responsiveness shall be based on the contents of the Proposal, as specified in ITP 11.
- 30.2. Preliminary examination of the Technical Part shall be carried out to identify proposals that are incomplete, invalid or substantially nonresponsive to the requirements of the request for proposals documents. A substantially responsive Proposal is one that materially confirms to the requirements of the request for proposals document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that,
- (a) if accepted, would:
 - (i) affect in any substantial way the scope, quality, or performance of the Works specified in the Contract; or
 - (ii) limit in any substantial way, inconsistent with the request for proposals document, the Purchaser’s rights or the Proposer’s obligations under the proposed Contract; or
 - (iii) limit in any substantial way, inconsistent with the request for proposals document, the Purchaser’s rights or the Proposer’s obligations under the proposed Contract; or
 - (b) if rectified, would unfairly affect the competitive position of other Proposers presenting substantially responsive Proposals.
- 30.3. If the Technical Part is not substantially responsive to the requirements of the request for proposals document, it shall be rejected by the Purchaser and may not subsequently be made responsive by correction of the material deviation, reservation, or omission.
- 31. Eligibility and Qualifications of the Proposer**
- 31.1. The Purchaser shall determine to its satisfaction whether the Proposers that have been assessed to have submitted substantially responsive Proposals are eligible, and either continue to meet (if prequalification applies) or meet (if prequalification has not been carried out), the qualifying criteria specified in Section III, Evaluation and Qualification Criteria.
- 31.2. The determination shall be based upon an examination of the documentary evidence of the Proposer’s eligibility and

qualifications submitted by the Proposer, pursuant to ITP 15. The determination shall not take into consideration the qualifications of other firms such as the Proposer’s subsidiaries, parent entities, affiliates, subcontractors (other than Specialized Subcontractors if permitted in the request for proposals document), or any other firm.

- 31.3. Prior to Contract award, the Purchaser will verify that the successful Proposer (including each member of a JV) is not disqualified by the Bank due to noncompliance with contractual SEA/SH prevention and response obligations. The Purchaser will conduct the same verification for each subcontractor proposed by the successful Proposer. If any proposed subcontractor does not meet the requirement, the Purchaser will require the Proposer to propose a replacement subcontractor.
- 31.4. Only substantially responsive Proposals submitted by eligible and qualified Proposers shall proceed to the detailed technical evaluation specified in ITP 32.
- 31.5. The Purchaser’s evaluation of Technical Part will be carried out as specified in Section III, Evaluation and Qualification Criteria.

**32. Detailed
Evaluation of
Technical Part**

- 32.1. The scores to be given to technical factors and sub factors are specified in the PDS.

**H. NOTIFICATION OF EVALUATION OF TECHNICAL PARTS
AND PUBLIC OPENING OF FINANCIAL PARTS**

**33. Notification of
Evaluation of
Technical Parts
and Public
Opening of
Financial Parts**

- 33.1. Following the completion of the evaluation of the Technical Parts of the Proposals, the Purchaser shall notify in writing those Proposers whose Proposals were considered substantially non-responsive to the request for proposals document or failed to meet the eligibility and qualification requirements, advising them of the following information:
 - (a) the grounds on which their Technical Part of Proposal failed to meet the requirements of the request for proposals document;
 - (b) their envelopes marked “SECOND ENVELOPE: FINANCIAL PART” will be returned to them unopened after the completion of the selection process and the signing of the Contract; and

(c) Option 1: when BAFO or negotiations is not to be applied notify them of the date, time and location of the public opening of the envelopes marked ‘Financial Part’’, or;

Option 2: when BAFO or negotiations apply as specified in the PDS, notify them that: (i) the envelopes marked ‘Financial Part’ will not be opened in public, but in the presence of a probity auditor appointed by the Purchaser, and that (ii) the announcement of the names of the Proposers whose Financial Parts will be opened and the total Proposal prices will be deferred to the time that the Notification of Intention to Award the contract is issued.

33.2. The Purchaser shall, simultaneously, notify in writing those Proposers whose Technical Part have been evaluated as substantially responsive to the request for proposals document and met the eligibility and qualification requirements, advising them of the following information:

33.3. their Proposal has been evaluated as substantially responsive to the request for proposals document and met the eligibility and qualification requirements;

33.4. Option 1: when BAFO or negotiations is not to be applied notify them of the date, time and location of the public opening of the envelopes marked ‘Financial Part’’, or;

Option 2: when BAFO or negotiations apply as specified in the PDS, notify them that: (i) the envelopes marked ‘Financial Part’ will not be opened in public, but in the presence of a probity auditor appointed by the Purchaser, and that (ii) the announcement of the names of the Proposers whose Financial Parts will be opened and the total Proposal prices will be deferred to the time that the Notification of Intention to Award the contract is issued.

33.5. When BAFO or negotiations do not apply as specified in the PDS, the Financial Part of the Proposal shall be opened publicly in the presence of Proposers’ designated representatives and anyone who chooses to attend.

33.6. The opening date shall be not less than ten (10) Business Days from the date of notification of the results of the technical evaluation, specified in ITP 33.1 and 33.2. However, if the Purchaser receives a complaint on the results of the technical evaluation within the ten (10) Business Days, the opening date shall be subject to ITP 50.1.

- 33.7. At this public opening, the Financial Parts will be opened by the Purchaser in the presence of Proposers, or their designated representatives and anyone else who chooses to attend. Proposers who met the eligibility and qualification requirements and whose Proposals were evaluated as substantially responsive will have their envelopes marked “SECOND ENVELOPE: FINANCIAL PART” opened at the second public opening. Each of these envelopes marked “SECOND ENVELOPE: FINANCIAL PART” shall be inspected to confirm that they have remained sealed and unopened. These envelopes shall then be opened by the Purchaser. The Purchaser shall read out the names of each Proposer, the technical score and the total Proposal prices, per lot (contract) if applicable, including any discounts and Alternative Proposal - Financial Part, and any other details as the Purchaser may consider appropriate.
- 33.8. Only envelopes of Financial Part of Proposals, Financial Parts of Alternative Proposals and discounts that are opened and read out at Proposal opening shall be considered further for evaluation. The Letter of Proposal – Financial Part and the Price Schedules are to be initialed by a representative of the Purchaser attending the Proposal opening in the manner specified in the PDS.
- 33.9. The Purchaser shall neither discuss the merits of any Proposal nor reject any envelopes marked “SECOND ENVELOPE: FINANCIAL PART” at this public opening.
- 33.10. The Purchaser shall prepare a record of the Financial Part of the Proposal opening that shall include, as a minimum: (a) the name of the Proposer whose Financial Part was opened; (b) the Proposal price, per lot (contract) if applicable, including any discounts; and (c) if applicable, any Alternative Proposal – Financial Part.
- 33.11. The Proposers whose envelopes marked “SECOND ENVELOPE: FINANCIAL PART” have been opened or their representatives who are present shall be requested to sign the record. The omission of a Proposer’s signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Proposers.
- 33.12. When, as specified in the PDS, BAFO or negotiations apply the Financial Parts will not be opened in public and will be opened in the presence of a probity auditor appointed by the Purchaser.
- 33.13. At the opening each of the envelopes marked “Financial Part” shall be inspected to confirm that they have remained sealed and unopened. These envelopes shall then be opened by the Purchaser. The Purchaser shall record the names of each Proposer, and the total Proposal prices and any other details as the Purchaser may consider appropriate. The Letter of Proposal - Financial Part and

the Price Schedules are to be initialed by a representative of the Purchaser attending the opening and by the probity auditor.

33.14. The Purchaser shall prepare a record of the opening of the Financial Part envelopes that shall include, as a minimum:

- (a) the name of the Proposers whose Financial Part was opened;
- (b) the Proposal prices including any discounts. and
- (c) The Probity Auditor's report of the opening of the Financial Part.

33.15. The probity auditor shall sign the record. The contents of the envelopes marked 'Financial Part' and the record of the opening shall be kept in safe custody by the Purchaser and not disclosed to anyone until the time of the transmission of the Notification of Intention to Award the contract.

I. EVALUATION OF FINANCIAL PART OF PROPOSALS

34. Adjustments for Non-material Nonconformities

34.1. Provided that a Proposal is substantially responsive, the Purchaser shall rectify quantifiable nonmaterial nonconformities related to the Proposal Price. To this effect, the Proposal Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component by adding the average price of the item or component quoted by substantially responsive Proposers. If the price of the item or component cannot be derived from the price of other substantially responsive Proposers, the Purchaser shall use its best estimate.

35. Correction of Arithmetic Errors

35.1. In evaluating the Financial Part of each Proposal, the Purchaser shall correct arithmetical errors on the following basis:

- (a) where there are errors between the total of the amounts given under the column for the price breakdown and the amount given under the Total Price, the former shall prevail and the latter will be corrected accordingly;
- (b) where there are errors between the total of the amounts of Schedule Nos. 1 to 5 and the amount given in Schedule No. 6 (Grand Summary), the former shall prevail and the latter will be corrected accordingly; and
- (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

35.2. Proposers shall be requested to accept correction of arithmetical errors. Failure to accept the correction in accordance with ITP 35.1, shall result in the rejection of the Proposal.

36. Evaluation of Proposals Financial Part

36.1. To evaluate the Financial Part, the Purchaser shall consider the following:

- (a) the Proposal price, excluding provisional sums and the provision, if any, for contingencies in the Price Schedules;
- (b) price adjustment for correction of arithmetic errors in accordance with ITP 35.1;
- (c) price adjustment due to discounts offered in accordance with ITP 26;
- (d) price adjustment due to quantifiable nonmaterial nonconformities in accordance with ITP 34.1;
- (e) converting the amount resulting from applying (a) to (c) above, if relevant, to a single currency in accordance with ITP 36.2; and
- (f) the evaluation factors indicated in the PDS and detailed in Section III, Evaluation and Qualification Criteria.

36.2. For evaluation and comparison purposes, the currency(ies) of the **Proposal** shall be converted into a single currency **as specified in the PDS**.

36.3. No margin of domestic preference shall apply.

36.4. If price adjustment is allowed in accordance with ITP 17.7, the estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of execution of the Contract, shall not be taken into account in Proposal evaluation.

36.5. If this request for proposals document allows Proposers to quote separate prices for different lots (contracts), each lot will be evaluated separately to determine the Most Advantageous Proposal using the methodology specified in Section III, Evaluation and Qualification Criteria. Discounts that are conditional on the award of more than one lot or slice shall not be considered for Proposal evaluation.

36.6. The Purchaser will evaluate and compare the Proposals. The evaluation will be performed assuming either that:

- (a) the Contract will be awarded to the Most Advantageous Proposal for the entire Information System; or
- (b) if specified **in the PDS**, Contracts will be awarded to the Proposers for each individual Subsystem, lot, or slice defined in the Technical Requirements whose Proposals result in the Most Advantageous Proposal/Proposals for the entire System.

In the latter case, discounts that are conditional on the award of more than one Subsystem, lot, or slice may be offered in Proposals. Such discounts will be considered in the evaluation of Proposals as specified **in the PDS**.

37. Abnormally Low Proposals

- 37.1. An Abnormally Low Proposal is one where the Proposal price in combination with other constituent elements of the Proposal appears unreasonably low to the extent that the Proposal price raises material concerns as to the capability of the Proposer to perform the Contract for the offered Proposal Price.
- 37.2. In the event of identification of a potentially Abnormally Low Proposal, the Purchaser shall seek written clarifications from the Proposer, including detailed price analyses of its Proposal price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the request for proposals document.
- 37.3. After evaluation of the price analyses, in the event that the Purchaser determines that the Proposer has failed to demonstrate its capability to perform the Contract for the offered Proposal Price, the Purchaser shall reject the Proposal.

38. Unbalanced or Front Loaded Proposals

- 38.1. If the Proposal that is evaluated as the lowest evaluated cost is, in the Purchaser's opinion, seriously unbalanced or front loaded the Purchaser may require the Proposer to provide written clarifications. Clarifications may include detailed price analyses to demonstrate the consistency of the Proposal prices with the scope of information systems, installations, proposed methodology, schedule and any other requirements of the request for proposals document.
- 38.2. After the evaluation of the information and detailed price analyses presented by the Proposer, the Purchaser may:
 - (a) accept the Proposal; or

- (b) if appropriate, require that the total amount of the Performance Security be increased, at the expense of the Proposer, to a level not exceeding twenty percent (20%) of the Contract Price; or
- (c) reject the Proposal.

J. EVALUATION OF COMBINED TECHNICAL AND FINANCIAL PARTS, MOST ADVANTAGEOUS PROPOSAL AND NOTIFICATION OF INTENTION TO AWARD

39. Evaluation of combined Technical and Financial Parts, Most Advantageous Proposal

- 39.1. The Purchaser's evaluation of responsive Proposals will take into account technical factors, in addition to cost factors in accordance with Section III Evaluation and Qualification Criteria. The weight to be assigned for the Technical factors and cost is specified in the PDS. The Purchaser will rank the Proposals based on the evaluated Proposal score (B).
- 39.2. Best and Final Offer (BAFO): After completion of the combined technical and financial evaluation of proposals, If specified in the PDS, the Purchaser may invite those Proposers to submit their BAFOs. The procedure for submitting BAFOs will be specified in the PDS. BAFO is a final opportunity for Proposers to improve their Proposals without changing the specified business function and performance requirements in accordance with the invitation to Submit Second Stage Combined Technical and Financial Proposals, Proposers are not obliged to submit a BAFO. Where BAFO is used there will be no negotiation after BAFO.
- 39.3. BAFO will apply a two envelope procurement process. The submission of BAFOs, opening of the Technical Parts and Financial Parts and the evaluation of Proposals will follow the procedures described for the Technical, Financial and Combined evaluation above, as appropriate.
- 39.4. The Purchaser shall determine the Most Advantageous Proposal. The Most Advantageous Proposal is the Proposal of the Proposer that meets the Qualification Criteria and whose Proposal has been determined to be substantially responsive to the request for proposals document and is the Proposal with the highest combined technical and financial score.
- 39.5. If specified in the PDS, the Purchaser may conduct negotiations following the evaluation of the proposals and before the final

contract award. The procedure of the negotiations will be specified in the PDS.

- 39.6. Negotiations shall be held in the presence of probity auditor appointed by the Purchaser.
- 39.7. Negotiations may address any aspect of the contract so long as they do not materially change the specified business function and performance requirements.
- 39.8. The Purchaser may negotiate first with the Proposer that has the Most Advantageous Proposal. If the negotiations are unsuccessful the Purchaser may negotiate with the Proposer that has the next best Most Advantageous Proposal, and so on down the list until a successful negotiated outcome is achieved.
- 39.9. Unless otherwise specified in the PDS, the Purchaser will NOT carry out tests prior to Contract award, to determine that the performance or functionality of the Information System offered meets those stated in the Technical Requirements. However, if so specified in the PDS the Purchaser may carry out such tests as detailed in the PDS.
- 39.10. Proposer.
- 39.11. Prior to Contract award, the Purchaser may carry out visits or interviews with the Proposer's clients referenced in its Proposal and site inspections.
- 39.12. The capabilities of the manufacturers and subcontractors proposed by the Proposer that is determined to have offered the Most Advantageous Proposal for identified major items of supply or services will also be evaluated for acceptability in accordance with Section III, Evaluation and Qualification Criteria. Their participation should be confirmed with a letter of intent between the parties, as needed. Should a manufacturer or subcontractor be determined to be unacceptable, the Proposal will not be rejected, but the Proposer will be required to substitute an acceptable manufacturer or subcontractor without any change to the Proposal price. Prior to signing the Contract, the corresponding Appendix to the Contract Agreement shall be completed, listing the approved manufacturers or subcontractors for each item concerned.

**40. Purchaser's
Right to Accept
Any Proposal,
and to Reject
Any or All
Proposals**

- 40.1. The Purchaser reserves the right to accept or reject any Proposal, and to annul the procurement process and reject all Proposals at any time prior to contract award, without thereby incurring any liability to Proposers. In case of annulment, all Proposals submitted and specifically, Proposal securities, shall be promptly returned to the Proposers.

- 41. Standstill Period** 41.1. The Contract shall not be awarded earlier than the expiry of the Standstill Period. The Standstill Period shall be ten (10) Business Days unless extended in accordance with ITP 46. The Standstill Period commences the day after the date the Purchaser has transmitted to each Proposer the Notification of Intention to Award the Contract. Where only one Proposal is submitted, or if this contract is in response to an emergency situation recognized by the Bank, the Standstill Period shall not apply.
- 42. Notification of Intention to Award** 42.1. The Purchaser shall send to each Proposer the Notification of Intention to Award the Contract to the successful Proposer. The Notification of Intention to Award shall contain, at a minimum, the following information:
- (a) the name and address of the Proposer submitting the successful Proposal;
 - (b) the Contract price of the successful Proposal;
 - (c) the total combined score of the successful Proposal;
 - (d) the names of all Proposers who submitted Proposals, and their Proposal prices as readout and as evaluated prices and technical scores;
 - (e) a statement of the reason(s) the Proposal (of the unsuccessful Proposer to whom the notification is addressed) was unsuccessful;
 - (f) the expiry date of the Standstill Period; and
 - (g) instructions on how to request a debriefing or submit a complaint during the standstill period;

K. AWARD OF CONTRACT

- 43. Award Criteria** 43.1. Subject to ITP 40, the Purchaser shall award the Contract to the successful Proposer. This is the Proposer whose Proposal has been determined to be the Most Advantageous Proposal..
- Proposer.
- 44. Purchaser's Right to Vary Quantities at Time of Award** 44.1. The Purchaser reserves the right at the time of Contract award to increase or decrease, by the percentage(s) for items as indicated in the PDS.

45. Notification of Award

- 45.1. Prior to the date of expiry of the Proposal validity and upon expiry of the Standstill Period, specified in ITP 41.1 or any extension thereof, and, upon satisfactorily addressing any complaint that has been filed within the Standstill Period, the Purchaser shall notify the successful Proposer, in writing, that its Proposal has been accepted. The notification letter (hereinafter and in the Contract Forms called the “Letter of Acceptance”) shall specify the sum that the Purchaser will pay the Supplier in consideration of the execution of the Contract (hereinafter and in the Conditions of Contract and Contract Forms called “the Contract Price”).
- 45.2. Within ten (10) Business days after the date of transmission of the Letter of Acceptance, the Purchaser shall publish the Contract Award Notice which shall contain, at a minimum, the following information:
- (a) name and address of the Purchaser;
 - (b) name and reference number of the contract being awarded, and the selection method used;
 - (c) names of all Proposers that submitted Proposals, and their Proposal prices as read out at Proposal opening, and as evaluated;
 - (d) name of Proposers whose Proposals were rejected and the reasons for their rejection;
 - (e) the name of the successful Proposer, the final total contract price, the contract duration and a summary of its scope; and
 - (f) successful Proposer’s Beneficial Ownership Disclosure Form.
- 45.3. The Contract Award Notice shall be published on the Purchaser’s website with free access if available, or in at least one newspaper of national circulation in the Purchaser’s Country, or in the official gazette. The Purchaser shall also publish the Contract Award Notice in UNDB online.
- 45.4. Until a formal contract is prepared and executed, the Notification of Award shall constitute a binding Contract.

46. Debriefing by the Purchaser

- 46.1. On receipt of the Purchaser’s Notification of Intention to Award referred to in ITP 42, an unsuccessful Proposer has three (3) Business Days to make a written request to the Purchaser for a debriefing. The Purchaser shall provide a

debriefing to all unsuccessful Proposers whose request is received within this deadline.

- 46.2. Where a request for debriefing is received within the deadline, the Purchaser shall provide a debriefing within five (5) Business Days, unless the Purchaser decides, for justifiable reasons, to provide the debriefing outside this timeframe. In that case, the standstill period shall automatically be extended until five (5) Business Days after such debriefing is provided. If more than one debriefing is so delayed, the standstill period shall not end earlier than five (5) Business Days after the last debriefing takes place. The Purchaser shall promptly inform, by the quickest means available, all Proposers of the extended standstill period.
- 46.3. Where a request for debriefing is received by the Purchaser later than the three (3) Business Day deadline, the Purchaser should provide the debriefing as soon as practicable, and normally no later than fifteen (15) Business Days from the date of publication of Public Notice of Award of contract. Requests for debriefing received outside the three (3)-day deadline shall not lead to extension of the standstill period.
- 46.4. Debriefings of unsuccessful Proposers may be done in writing or verbally. The Proposer shall bear their own costs of attending such a debriefing meeting.

47. Signing of Contract

- 47.1. The Purchaser shall send to the successful Proposer the Letter of Acceptance including the Contract Agreement, and a request to submit the Beneficial Ownership Disclosure Form providing additional information on its beneficial ownership. The Beneficial Ownership Disclosure Form shall be submitted within eight (8) Business Days of receiving this request.
- 47.2. The successful Proposer shall sign, date and return to the Purchaser, the Contract Agreement within twenty-eight (28) days of its receipt.
- 47.3. Notwithstanding ITP 47.2 above, in case signing of the Contract Agreement is prevented by any export restrictions attributable to the Purchaser, to the country of the Purchaser, or to the use of the Information System to be supplied, where such export restrictions arise from trade regulations from a country supplying those Information System, the Proposer shall not be bound by its Proposal, always provided, however, that the Proposer can demonstrate to the satisfaction of the Purchaser and of the Bank that signing of the Contract Agreement has not been prevented by any lack of diligence on

the part of the Proposer in completing any formalities, including applying for permits, authorizations and licenses necessary for the export of the Information System under the terms of the Contract.

48. Performance Security

- 48.1. Within twenty-eight (28) days of the receipt of the Letter of Acceptance from the Purchaser, the successful Proposer shall furnish the performance security in accordance with the General Conditions, subject to ITP 38.2 (b), using for that purpose the Performance Security Form included in Section X, Contract Forms, or another form acceptable to the Purchaser. If the Performance Security furnished by the successful Proposer is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Proposer to be acceptable to the Purchaser. A foreign institution providing a Performance Security shall have a correspondent financial institution located in the Purchaser's Country.
- 48.2. Failure of the successful Proposer to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Proposal Security. In that event the Purchaser may award the Contract to the Proposer offering the next Most Advantageous Proposal.

49. Adjudicator

- 49.1. Unless the PDS states otherwise, the Purchaser proposes that the person named in the PDS be appointed as Adjudicator under the Contract to assume the role of informal Contract dispute mediator, as described in GCC Clause 43.1. In this case, a résumé of the named person is attached to the PDS. The proposed hourly fee for the Adjudicator is specified in the PDS. The expenses that would be considered reimbursable to the Adjudicator are also specified in the PDS. If a Proposer does not accept the Adjudicator proposed by the Purchaser, it should state its non-acceptance in its Proposal Form and make a counterproposal of an Adjudicator and an hourly fee, attaching a résumé of the alternative. If the successful Proposer and the Adjudicator nominated in the PDS happen to be from the same country, and this is not the country of the Purchaser too, the Purchaser reserves the right to cancel the Adjudicator nominated in the PDS and propose a new one. If by the day the Contract is signed, the Purchaser and the successful Proposer have not agreed on the appointment of the Adjudicator, the Adjudicator shall be appointed, at the request of either party, by the Appointing Authority specified in the

SCC clause relating to GCC Clause 43.1.4, or if no Appointing Authority is specified there, the Contract will be implemented without an Adjudicator.

**50. Procurement
Related
Complaint**

- 50.1. The procedures for making a Procurement-related Complaint are as specified in the PDS.

Unofficially Copy

SECTION II - PROPOSAL DATA SHEET (PDS)

The following specific data for the Information System to be procured shall complement, supplement, or amend the provisions in the Instructions to Proposers (ITP). Whenever there is a conflict, the provisions in the PDS shall prevail over those in ITP.

ITP Reference	A. General
ITP 1.1	<p>The reference number of the Request for Proposals is: EDGE-G4</p> <p>The Purchaser is: Bangladesh Computer Council (BCC), Represented by Project Director, Enhancing Digital Government and Economy (EDGE) Project</p> <p>The name of the RFP is: Supply, Installation and Commissioning of Tools as a Service (TaaS) and Big Data Analytics Tools for National Data Center (NDC).</p> <p>The Purchaser shall accept Proposal for multiple lots under this request for proposals document.</p> <p>The lots are:</p> <p>Lot-1: Supply, Installation and Commissioning of Tools as a Service (TaaS) for National Data Center (NDC).</p> <p>Lot: 2: Supply, Installation and Commissioning of Big Data Analytics Tools for National Data Center (NDC).</p> <p>Proposer can quote for one or more than one lot. If more than one lot is quoted, the proposer must meet the cumulative experience as described in Qualifications and capabilities under Section III.</p>
ITP 1.3 (a)	<p>Electronic Procurement shall not be applicable to this procurement.</p> <p>The Purchaser shall use the following electronic-procurement system to manage this procurement process: not applicable.</p> <p>The electronic-procurement system shall be used to manage the following aspects of the Procurement process: not applicable.</p>
ITP 2.1	<p>The Borrower is: The People’s Republic of Bangladesh</p> <p>Loan or Financing Agreement amount: US\$ 295.00 Million</p> <p>The name of the Project is: Enhancing Digital Government and Economy (EDGE) Project</p>
ITP 4.1	<p>Maximum number of members in the JV shall be: Four (04).</p>

ITP 4.5	A list of debarred firms and individuals is available on the Bank’s external website: http://www.worldbank.org/debarr .
B. Request for proposals Document	
ITP 7.1	For <u>Clarification of Proposal purposes</u> only, the Purchaser’s address is: Address: Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh Telephone: +88 02 55007193 Facsimile number: +88-02-55006791 Electronic mail address: piu.edge@bcc.gov.bd and copy pd.edge@bcc.gov.bd Requests for clarification should be received by the Purchaser no later than: 14 days from publication of Request for Proposals.
ITP 7.1	Web page: www.bcc.gov.bd
ITP 7.4	A Pre-Proposal meeting shall take place at the following date, time and place: Date: 21 April 2024 Time: 11.00 hours Bangladesh Standard Time (BST= GMT + 6:00 hours). Address: Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh A site visit conducted by the Purchaser shall not be organized.
C. Preparation of Proposals	
ITP 10.1	The language of the Proposal is: English . All correspondence exchange shall be in English language. Language for translation of supporting documents and printed literature is English .
ITP 11.2 (j)	The Proposer shall submit with its Proposal the following additional documents the Technical Part of its Proposal: j.1: Declaration confirming that all hardware, software, tool, systems would be in the name of purchaser "Bangladesh Computer Council" during sourcing and supply. The Proposer must follow the authorized OEM's channel for the end purchaser's territory to ensure originality of the supplied products and future support services and warranty/replacement. j.2: Code of Conduct for Supplier’s Personnel (ES)

	<p>The Proposer shall submit its Code of Conduct that will apply to the Supplier’s Personnel (as defined in GCC Clause 1.1) employed in the execution of the Contract at the Project Site/s to ensure compliance with the Supplier’s Environmental and/or Social obligations under the Contract, as applicable. The Proposer shall use for this purpose the Code of Conduct form provided in Section IV. No substantial modifications shall be made to this form, except that the Proposer may introduce additional requirements, including as necessary to take into account specific Contract issues/risks.</p> <p>j.3: Management Strategies and Implementation Plans (MSIP) to manage the (ES) risks</p> <p>The Proposer shall submit Management Strategies and Implementation Plans (MSIPs) to manage the following key Environmental and Social (ES) risks: Sexual Exploitation, and Abuse (SEA) and Sexual Harassment (SH) prevention and response action plan.</p>
ITP 11.3(d)	The Proposer shall submit the following additional documents in the Financial Part of its Proposal: no additional document.
ITP 13.1	Alternative Proposals are not permitted.
ITP 13.2	<p>Alternatives to the Time Schedule are not permitted.</p> <p>If alternatives to the Time Schedule are permitted, the evaluation method will be as specified in Section III, Evaluation and Qualification Criteria.</p>
ITP 13.4	Alternative technical solutions shall be permitted for the following parts of the Information System: none.
ITP 15.2	Prequalification has not been undertaken.
ITP 16.2 (a)	<p>In addition to the topics described in ITP Clause 16.2 (a), the Preliminary Project Plan must address the following topics:</p> <ul style="list-style-type: none"> (i) Project Organization and Management Sub-Plan, including management authorities, responsibilities, and contacts, as well as task, time and resource-bound schedules (in GANTT format); (ii) Implementation Sub-Plan; (iii) Training Sub-Plan; (iv) Testing and Quality Assurance Sub-Plan; (v) Warranty Defect Repair and Technical Support Service Sub-Plan

ITP 16.3	In the interest of effective integration, cost-effective technical support, and reduced re-training and staffing costs, Proposers shall offer the following items: None.
ITP 17.2	The Proposer must not propose Recurrent Cost Items
ITP 17.2	The Proposer must not propose for contracts for Recurrent Cost Items not included in the main Contract.
ITP 17.5	The Incoterms edition is: Incoterms 2020.
ITP 17.5 (a)	<p>Named place of destination is:</p> <p>Enhancing Digital Government and Economy (EDGE) Project Bangladesh Computer Council (BCC), 3rd Floor, ICT Tower, Plot # E-14/X, Agargaon, Sher-e-Bangla Nagar, Dhaka – 1207, Bangladesh.</p> <p>Customs duties and Value Added Taxes (CD-VAT) of the imported Goods under the Contract (incurred at the port of entry) will be paid by the Purchaser. However, customs formalities including appointment of, and payment to, Clearing and Forwarding (C&F) Agent shall be done by the Supplier. Port dues and all other charges shall be borne by the Supplier.</p> <p>The Supplier shall send the CD-VAT Assessment Report (Assessment Notice) of Customs Authorities to the Purchaser. The Purchaser will pay the assessed amount (CD -VAT) to the Government within 2 (two) weeks from received of assessment report.</p> <p>The Supplier shall submit the supporting documents including appointment of, and payment to, Clearing and Forwarding (C&F) Agent and the Purchaser will reimburse the same, within 30 days.</p>
ITP 17.6	<p>Named place of final destination (or Project site) is:</p> <p>Bangladesh Computer Council (BCC), 3rd Floor, ICT Tower, Plot # E-14/X, Agargaon, Sher-e-Bangla Nagar, Dhaka – 1207, Bangladesh.</p>
ITP 17.8	ITP 17.8 is modified as follows: There are no modifications to ITP 17.8.
ITP 17.9	The prices quoted by the Proposer shall not be subject to adjustment during the performance of the Contract.
ITP 18.1	The Proposer is required to quote in the currency of the Purchaser’s Country the portion of the Proposal price that corresponds to expenditures incurred in that currency.
ITP 19.1	The Proposal shall be valid until: 180 days from the date of proposal submission.

ITP 19.3 (a)	The Proposal price shall be adjusted by the following factor(s): not applicable.
ITP 20.1	<p>A Proposal Security shall be required.</p> <p>For Lot-1: The amount and currency of the Proposal Security shall be United States Dollar (US\$) 40,000.00 (US\$ Forty Thousand only) or Bangladesh Taka (BDT) 4,400,000.00 (BDT Four Million Four Hundred Thousand Only).</p> <p>For Lot-2: The amount and currency of the Proposal Security shall be United States Dollar (US\$) 25,000.00 (US\$ Twenty-Five Thousand only) or Bangladesh Taka (BDT) 2,750,000.00 (BDT Two Million Seven Hundred Fifty Thousand Only).</p> <p>Proposal Security shall be issued by an internationally reputable Bank or Financial Institution. If an unconditional guarantee is issued by a Financial Institution located outside the Employer’s Country, the issuing Financial Institution shall have a correspondent financial institution located in the Purchaser’s Country to make security enforceable.</p> <p>Proposal Security shall be submitted using the Proposal Security Form included in Section IV.</p> <p>The Proposer shall furnish the Proposal Security in favour of: Project Director, Enhancing Digital Government and Economy (EDGE) Project.</p> <p>Also, Proposers have the option of submitting one Proposal Security for all lots (for the combined total amount of all lots) for which Proposals have been submitted, however if the amount of Proposal Security is less than the total required amount, the Purchaser will determine for which lot or lots the Proposal Security amount shall be applied.</p>
ITP 20.3 (d)	Other types of acceptable securities: None.
ITP 20.9	Not Applicable.
ITP 21.3	<p>The written confirmation of authorization to sign on behalf of the Proposer shall consist of:</p> <p>(a) In case of proposal signed by the Proposer’s Director, Manager or other Officer, whose authority to commit the Proposer is granted by the Company Charter, Articles of Association, or equivalent statutory document: an extract from the Trade License indicating the name, position and authorization of proposal’s signatory; or a copy of the Company Charter (or equivalent statutory document), accompanied by a copy of Resolution, Order, Minutes of Board Meeting, or equivalent document evidencing appointment of Proposal’s signatory to the position in question.</p>

	(b) In case of Proposal signed by any person whose authority to commit the Proposer is not granted by the Company Charter, Articles of Association, or equivalent statutory document then the person shall have an appropriate Power of Attorney issued on Proposer's letterhead.
D. Submission and Opening of Proposals	
ITP 22.1	In addition to the original of the Proposal, the number of copies is: Three (03) . In addition, the original proposal shall include an electronic copy of the proposal on a Flash Drive. In case of any discrepancy in between the paper-based proposal and the electronic copy of the proposal, the paper-based proposal shall prevail.
ITP 23.1	For Proposal submission purposes only, the Purchaser's address is: Attention: Project Director, Enhancing Digital Government and Economy (EDGE) Project Address: Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh The deadline for Proposal submission is: Date: 16 May 2024 Time: 12.00 hours Bangladesh Standard Time (BST= GMT + 6:00 hours)
ITP 23.1	Proposers shall not have the option of submitting their Proposals electronically. The electronic proposals submission procedures shall be: not applicable .
E. Public Opening of Technical Parts of Proposals	
ITP 26.1	The Proposal opening shall take place at: Address: Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh Date: 16 May 2024 Time: 12.30 hours Bangladesh Standard Time (BST= GMT + 6:00 hours)
ITP 26.1	The electronic Proposal opening procedures shall be: not applicable .
G. Evaluation of Technical Part of Proposals	

ITP 32.2	For Lot-1:	
	The technical factors (sub-factors) and the corresponding weight out of 100% are:	
	Sl.No.	Technical Factor
		Weight (%)
	1.	Project Organization and Management Sub-Plan
	2.	Implementation Sub-Plan
	3.	Training Sub-Plan
	4.	Testing and Quality Assurance Sub-Plan
	5.	Warranty Defect Repair and Technical Support Service Sub-Plan
	6.	Project Manager and Team Leader's qualifications and competence for the Assignment
The technical proposal scoring methodology is specified in Section III-Evaluation and Qualification Criteria		
For Lot-2:		
The technical factors (sub-factors) and the corresponding weight out of 100% are:		
Sl.No.	Technical Factor	
	Weight (%)	
1.	Project Organization and Management Sub-Plan	
2.	Implementation Sub-Plan	
3.	Training Sub-Plan	
4.	Testing and Quality Assurance Sub-Plan	
5.	Warranty Defect Repair and Technical Support Service Sub-Plan	

	6.	Big Data Project Manager qualifications and competence for the Assignment	20%
The technical proposal scoring methodology is specified in Section III- Evaluation and Qualification Criteria			
H. Notification of Evaluation of Technical Parts and Public Opening of Financial Parts			
ITP 33.8	The Letter of Proposal - Financial Part and the Price Schedules shall be initialed by all representatives of the Purchaser conducting Proposal opening. Each Financial Part of Proposal shall be initialed by all representatives and shall be numbered, any modification to the unit or total price shall be initialed by the Representative of the Purchaser, etc.		
I. Evaluation of Financial Part of Proposals			
36.1(f)	The adjustments shall be determined using the following criteria, from amongst those set out in Section III, Evaluation and Qualification Criteria: Not Applicable.		
ITP 36.2	<p>The currency(ies) of the Proposal shall be converted into a single currency as follows: Bangladesh Taka (BDT)</p> <p>The currency that shall be used for Proposal evaluation and comparison purposes to convert all Proposal prices expressed in various currencies into a single currency is: Bangladesh Taka (BDT)</p> <p>The source of exchange rate shall be: Bangladesh Bank (web site: https://www.bb.org.bd/en/index.php/econdata/exchangerate)</p> <p>The date for the exchange rate shall be: Fourteen (14) days prior to the date of proposal submission.</p>		
ITP 36.6	<p>Proposals for Subsystems, lots, or slices of the overall Information System will be accepted.</p> <p>Discount that are conditional on the award of more than one Subsystem, lot, or slice may be offered in Proposals and such discounts shall not be considered in the price evaluation.</p>		
J. Evaluation of Combined Technical and Financial Parts and Most Advantageous Proposal			
ITP 39.1	<p>The weight to be given for cost is: for each lot 0.80.</p> <p>Discount Rate (I) for net present value calculations of recurrent costs - Not Applicable.</p>		

ITP 39.2	BAFO does not apply. If BAFO applies, the procedure will be: Not Applicable.
ITP 39.5	Negotiation does not apply. If negotiation applies, the procedure: Not Applicable.
ITP 39.9	As additional qualification measures, the Information System (or components/parts of it) offered by the Proposer with the Most Advantageous Proposal may be subjected to the following tests and performance benchmarks prior to Contract award: none .
K. AWARD OF CONTRACT	
ITP 44	The maximum percentage by which quantities may be increased is: <i>20%</i> . The maximum percentage by which quantities may be decreased is: <i>20%</i> . The items for which the Purchaser may increase or decrease the quantities are the following: all Item.
ITP 49	The proposed Adjudicator is: Prof. Md. Mostofa Akbar, Dept. of CSE, BUET, Dhaka 1000, Bangladesh. The proposed hourly fee is BDT 5,000.00. The reimbursable expenses are travel, lodging, food, etc.
ITP 50.1	The procedures for making a Procurement-related Complaint are detailed in the “Procurement Regulations for IPF Borrowers (Annex III).” A Procurement-related Complaint may challenge any of the following: <ol style="list-style-type: none"> 1. The terms of the request for proposals document; 2. the Purchaser’s decision to exclude a Proposer from the procurement process prior to the award of contract; and 3. The Purchaser’s decision to award the contract. <p>If a Proposer wishes to make a Procurement-related Complaint, the Proposer should submit its complaint following these procedures, in writing (by the quickest means available, that is either by email or fax), to:</p> <p style="padding-left: 40px;">For the attention: Md Shakhawat Hossain</p> <p style="padding-left: 40px;">Title/position: Project Director, Enhancing Digital Government and Economy (EDGE) Project</p> <p style="padding-left: 40px;">Purchaser: Bangladesh Computer Council (BCC)</p> <p style="padding-left: 40px;">Email address: piu.edge@bcc.gov.bd</p> <p style="padding-left: 40px;">Fax number: Not applicable</p>

Résumé of the proposed Adjudicator.

The biographical data of the proposed Adjudicator is as follows:

Professor Prof. Md. Mostofa Akbar

Department of Computer Science and Engineering
Bangladesh University of Engineering and Technology
Dhaka 1000, Bangladesh.

Academic Background:

Ph.D., 2002, University of Victoria, Canada

M.Sc. in Computer Science and Engineering, 1998, BUET

B.Sc. in Computer Science and Engineering, 1996, BUET.

Unofficially Copy

SECTION III - EVALUATION AND QUALIFICATION CRITERIA (WITHOUT PREQUALIFICATION)

This Section contains all the criteria that the Purchaser shall use to evaluate Proposals and qualify Proposers. No other factors, methods or criteria shall be used. The Proposer shall provide all the information requested in the forms included in Section IV, Proposal Forms.

1. Qualification

1.1 Qualification Requirements

The Proposer's qualification shall be assessed in accordance with the Qualification table included in this section.

1.2 Financial Resources

The Proposer's financial resources shall be assessed in accordance with the Qualification table included in this section.

1.3 Key Personnel

The Proposer must demonstrate that it will have suitably qualified key personnel. The Proposer shall complete the relevant Forms in Section IV, Proposal Forms.

1.3.1 Key Personnel for Lot-1

No.	Position	Qualification and Experience
1	Project Manager and Team Leader (1)	5 years in project management, with a broad experience in IT projects, including software testing, ITSM, performance testing, security, and DevOps.
2	Security Specialist (1)	5 years in cybersecurity, skilled in vulnerability scanning, application security testing, and privileged session management.
3	Training and Documentation Specialist (1):	3 years in technical training and documentation, essential for user training and process documentation across various tools.

The Proposer shall provide details of the proposed personnel and their experience records in the relevant Forms included in Section IV, Proposal Forms.

1.3.2 Key Personnel for Lot-2

No.	Position	Qualification and Experience
1.	Big Data Project Manager (1)	5 years in project management, with a focus on Big Data projects. Experienced in coordinating complex data analytics initiatives and managing cross-functional teams.
2.	Training Coordinator (1)	3 years in technical training, responsible for educating team members and end-users on big data tools and analytics techniques.

The Proposer shall provide details of the proposed personnel and their experience records in the relevant Forms included in Section IV, Proposal Forms.

1.4 Subcontractors/vendors/manufacturers

Subcontractors for the following additional major items of supply or services must meet the following minimum criteria, herein listed for that item:

For Lot-1

Item No.	Description of Item	Minimum Criteria to be met
1	UI Testing Tools	Must be operating in the international market for a minimum of three (3) years. The product should have been implemented by at least one (1) customer / organization.
2	IT Service Management Software	
3	Performance Test Tool	
4	Vulnerability Scanner Software Tool	
5	Application Security Testing Tool	
6	Privileged Session Manager	
7	Self-Service Password Management and Identity Verification Solution	
8	Container Registry	
9	Continuous Integration (CI)/Continuous Delivery (CD) Tool- Software Build Repository Manager Tool	

For Lot-2

Item No.	Description of Item	Minimum Criteria to be met
1.	Big Data Tool - 1	Must be operating in the international market for a minimum of three (3) years. The product should have been implemented by at least one (1) customer / organization.
2.	Big Data Tool - 2	

Failure to comply with this requirement will result in the rejection of the subcontractor.

1.5 Manufacturer’s authorization for each Lot

For all powered (active) hardware and/or software components of the Information System which the Proposer does not itself produce, by submission of documentary evidence in its Proposal, the Proposer must establish to the Purchaser’s satisfaction that it is not prohibited to supply those components in the Purchaser’s country under the Contract(s) that may result from this procurement.

- (i) In the case of powered (active) hardware and other powered equipment, this must be documented by including Manufacturer’s Authorizations in the Proposal (based on the sample found in the Sample Proposal Forms in Section IV.);
- (ii) In the case of proprietary commercial software (i.e., excluding open source or “freeware” software) that the Proposer does not manufacture itself and for which the Proposer has or will establish an Original Equipment Manufacturer (OEM) relationship with the manufacture, the Proposer must provide Manufacture’s Authorizations;
- (iii) In the case of proprietary commercial software (i.e., excluding open source or “freeware” software) that the Proposer does not manufacture itself and for which the Proposer does not or will not establish an OEM relationship with the manufacturer, the Proposer must document to the Purchaser’s satisfaction that the Proposer is not excluded from sourcing these items from the manufacturer’s distribution channels and proposing offering these items for supply in the Borrower’s Country.
- (iv) In the case of open-source software, the Proposer must identify the software item as open source and provide copies of the relevant open-source license(s).

The Proposer is responsible for ensuring that the manufacturer or producer complies with the requirements of ITP 4 and ITP 5 and meets the minimum criteria listed above for that item.

1.6 Local Representative

In the case of a Proposer not doing business within the Purchaser's country, the Proposer shall submit documentary evidence in its Proposal to establish to the Purchaser's satisfaction that it is or will be (if awarded the Contract) represented by an agent in that country who is equipped and able to carry out / manage the Proposer's maintenance, technical support, training, and warranty repair obligations specified in the Purchaser's Requirements (including any response time, problem-resolution norms or other aspects that may be specified in the Contract).

2. Technical Evaluation

2.1 Assessment of adequacy of Technical Proposal with Requirements in accordance with ITP 32.1

Proposer must meet Purchaser's Technical Requirements mentioned in Section VII for each lot prior to being considered for detailed technical evaluation by applying the scored technical factors/subfactors in accordance with PDS ITP 32.2.

2.2 Technical Evaluation (ITP 32.2) –

The technical features to be evaluated are generally defined below and specifically identified in the PDS:

For Lot-1:

1. Project Organization and Management Sub-Plan, including management authorities, responsibilities, and contacts, as well as task, time and resource-bound schedules (in GANTT format): A detailed 'Project Organization and Management Plan' is required. This plan should delineate management hierarchies, allocate responsibilities, and identify key points of contact. It must also include comprehensive schedules that are time-bound, resource-allocated, and task-specific, presented in GANTT chart format for clarity.
2. Implementation Sub-Plan: An 'Implementation Sub-Plan' must be provided. This plan should outline the step-by-step process for deploying the Tools as a Service (TaaS), including the timeline for each tool, the resources required, and the specific activities to be undertaken. It should ensure a smooth transition from development to operational status, detailing strategies for testing, training, and go-live phases.
3. Training Sub-Plan: This document should specify the approach for educating and empowering end-users and administrators on the effective utilization and management of the Tools as a Service (TaaS). It must encompass the training

schedule, formats, resource allocation, and content areas, ensuring comprehensive coverage of system functionalities and maintenance procedures.

4. **Testing and Quality Assurance Sub-Plan:** This plan should detail the methodologies and processes to be employed for ensuring the Tools as a Service (TaaS)'s functionality, reliability, and security through rigorous testing phases. It should cover unit, system, and user acceptance testing strategies, along with the criteria for quality assurance and the mechanisms for issue tracking and resolution, to guarantee the platform's adherence to the highest standards of quality.
5. **Warranty Defect Repair and Technical Support Service Sub-Plan:** This plan should outline the provisions for post-deployment support, detailing the warranty period, the process for identifying and rectifying defects, and the framework for offering ongoing technical assistance. It must specify the response times, support channels (e.g., phone, email, on-site), and the resources dedicated to ensuring the Tools as a Service (TaaS)'s continuous, optimal performance post-launch.
6. **Project Manager and Team Leader's qualifications and competence for the Assignment:** The bidder should highlight the Project Manager's prior experience in successfully implementing Tools as a Service (TaaS), emphasizing the relevance, scale, and complexity of past projects. They must detail their expertise in project management methodologies, leadership abilities, problem-solving skills, and their track record in delivering projects on time, demonstrating their capability to lead the current project to success.

For Lot-2:

1. **Project Organization and Management Sub-Plan, including management authorities, responsibilities, and contacts, as well as task, time and resource-bound schedules (in GANTT format):** A detailed 'Project Organization and Management Plan' is required. This plan should delineate management hierarchies, allocate responsibilities, and identify key points of contact. It must also include comprehensive schedules that are time-bound, resource-allocated, and task-specific, presented in GANTT chart format for clarity.
2. **Implementation Sub-Plan:** An 'Implementation Sub-Plan' must be provided. This plan should outline the step-by-step process for deploying the Big Data Analytics Tools, including the timeline for each tool, the resources required, and the specific activities to be undertaken. It should ensure a smooth transition from development to operational status, detailing strategies for testing, training, and go-live phases.
3. **Training Sub-Plan:** This document should specify the approach for educating and empowering end-users and administrators on the effective utilization and management of the Big Data Analytics Tools. It must encompass the training

schedule, formats, resource allocation, and content areas, ensuring comprehensive coverage of system functionalities and maintenance procedures.

4. **Testing and Quality Assurance Sub-Plan:** This plan should detail the methodologies and processes to be employed for ensuring the Big Data Analytics Tools's functionality, reliability, and security through rigorous testing phases. It should cover unit, system, and user acceptance testing strategies, along with the criteria for quality assurance and the mechanisms for issue tracking and resolution, to guarantee the platform's adherence to the highest standards of quality.
5. **Warranty Defect Repair and Technical Support Service Sub-Plan:** This plan should outline the provisions for post-deployment support, detailing the warranty period, the process for identifying and rectifying defects, and the framework for offering ongoing technical assistance. It must specify the response times, support channels (e.g., phone, email, on-site), and the resources dedicated to ensuring the Big Data Analytics Tools's continuous, optimal performance post-launch.
6. **Big Data Project Manager qualifications and competence for the Assignment:** The bidder should highlight the Big Data Project Manager's prior experience in successfully implementing Big Data Analytics Tools, emphasizing the relevance, scale, and complexity of past projects. They must detail their expertise in project management methodologies, leadership abilities, problem-solving skills, and their track record in delivering projects on time, demonstrating their capability to lead the current project to success.

The total technical points assigned to each Proposal in the Evaluated Proposal Formula will be determined by adding and weighting the scores assigned by an evaluation committee to technical features of the Proposal **in accordance with the PDS** and the scoring methodology below:

Technical proposal scoring methodology

- (a) During the evaluation process, the evaluation committee will assign each desirable bellow for each Lot:

Score (of the total score for the factor/subfactor as applicable)	Description	Remarks
0	Required information is absent; no relevant information to demonstrate how the requirement is met	

1	Required information present with deficiencies such as insufficient or information that lacks clarity	
2	Sufficient information to demonstrate how the requirement will be met	
3	Sufficient information to demonstrate that the requirement will be marginally exceeded	
4	Sufficient information that significantly exceed the requirement/bid contributes to significant value addition	

- (b) The score for each feature (i) within a category (j) will be combined with the scores of features in the same category as a weighted sum to form the Category Technical Score using the following formula:

$$S_j \equiv \sum_{i=1}^k t_{ji} * w_{ji}$$

where:

t_{ji} = the technical score for feature “i” in category “j”

w_{ji} = the weight of feature “i” in category “j”

k = the number of scored features in category “j”

and $\sum_{i=1}^k w_{ji} = 1$

- (c) The Category Technical Scores will be combined in a weighted sum to form the total Technical Proposal Score using the following formula:

$$T \equiv \sum_{j=1}^n S_j * W_j$$

where:

S_j = the Category Technical Score of category “j”

W_j = the weight of category “j” as specified in the PDS

n = the number of categories

and $\sum_{j=1}^n W_j = 1$

3. Technical alternatives

If invited in accordance with ITP 13.4, will be evaluated as follows: *none*.

4. Financial Evaluation

The following factors and methods will apply:

(a) Time Schedule:

The number of weeks, from the effective date specified in Article 3 of the Contract Agreement, to achieve Operational Acceptance must be no more than: 18 (eighteen) weeks for each lot.

A Proposal offering to achieve Operational Acceptance earlier than the maximum number of weeks shall not be given credit for proposal evaluation purposes. The proposal offering to achieve Operational Acceptance of more than 18 weeks for each lot shall be treated as non-responsive.

(b) Recurrent Costs: Not Applicable

(c) Specific additional criteria

The relevant evaluation method, if any, shall be as follows:

Not Applicable

5. Combined Evaluation:

The Purchaser will evaluate and compare the Proposals that have been determined to be substantially responsive.

An Evaluated Proposal Score (B) will be calculated for each responsive Proposal using the following formula, which permits a comprehensive assessment of the evaluated cost and the technical merits of each Proposal:

$$B \equiv \frac{C_{low}}{C} * X * 100 + \frac{T}{Thigh} * (1 - X) * 100$$

where

C = Evaluated Proposal Price

C_{low} = the lowest of all Evaluated Proposal Prices among responsive Proposals

T = the total Technical Score awarded to the Proposal

T_{high} = the Technical Score achieved by the Proposal that was scored best among all responsive Proposals

X = weight for the Cost as specified in the PDS

The Proposal with the best evaluated Proposal Score (B) among responsive Proposals shall be the Most Advantageous Proposal provided the Proposer was prequalified and/or it was found to be qualified to perform the Contract.

1. Qualification

Factor	1.1 ELIGIBILITY FOR EACH LOT					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.1 <u>Nationality</u>	Nationality in accordance with ITP 4.4.	Must meet requirement	Must meet requirement	Must meet requirement	N / A	Form ELI –1.1 and 1.2, with attachments
1.2 <u>Conflict of Interest</u>	No- conflicts of interests as described in ITP 4.2.	Must meet requirement	Must meet requirement	Must meet requirement	N / A	Letter of Proposal
1.3 <u>Bank Ineligibility</u>	Not having been declared ineligible by the Bank as described in ITP 4.5.	Must meet requirement	Must meet requirement	Must meet requirement	N / A	Letter of Proposal
1.4 <u>State owned Entity of the Borrower country</u>	Compliance with conditions of ITP 4.6	Must meet requirement	Must meet requirement	Must meet requirement	N / A	Form ELI –1.1 and 1.2, with attachments

Factor	1.1 ELIGIBILITY FOR EACH LOT					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.1.5 United Nations resolution or Borrower's country law	Not having been excluded as a result of prohibition in the Borrower's country laws or official regulations against commercial relations with the Proposer's country, or by an act of compliance with UN Security Council resolution, both in accordance with ITP 4.8	Must meet requirement	Must meet requirement	Must meet requirement	N / A	Letter of Proposal

Factor	1.2 HISTORICAL CONTRACT NON-PERFORMANCE FOR EACH LOT					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
				All members combined		Each member
1.2.1 History of non-performing contracts	Non-performance of a contract ¹ did not occur as a result of Proposer’s default since 1 st January 2019.	Must meet requirement by itself or as member to past or existing JV	N / A	Must meet requirement ²	N / A	Form CON - 2
1.2.2 Suspension	Not under suspension based on execution of a Proposal Securing Declaration or Proposal Securing Declaration pursuant to ITP 4.7 and ITP 20.10	Must meet requirement	N / A	Must meet requirement	N / A	Letter of Proposal

¹ Nonperformance, as decided by the Purchaser, shall include all contracts where (a) nonperformance was not challenged by the contractor, including through referral to the dispute resolution mechanism under the respective contract, and (b) contracts that were so challenged but fully settled against the contractor. Nonperformance shall not include contracts where Purchaser decision was overruled by the dispute resolution mechanism. Nonperformance must be based on all information on fully settled disputes or litigation, i.e. dispute or litigation that has been resolved in accordance with the dispute resolution mechanism under the respective contract and where all appeal instances available to the applicant have been exhausted.

² This requirement also applies to contracts executed by the Applicant as JV member.

1.2.3 Pending Litigation	Proposer’s financial position and prospective long term profitability still sound according to criteria established in 2.3.1 below and assuming that all pending litigation will be resolved against the Proposer.	Must meet requirement by itself or as member to past or existing JV	N / A	Must meet requirement	N / A	Form CON – 2
1.2.4 Litigation History	No consistent history of court/arbitral award decisions against the Proposer ³ since 1 st January 2021	Must meet requirement	Must meet requirement	Must meet requirement	N/A	Form CON – 2
1.2.5 Bank’s SEA and/or SH Disqualification ⁴	At the time of Contract Award, not subject to disqualification by the Bank for non-compliance with SEA/ SH obligations	Must meet requirement (including each subcontractor proposed by the Proposer)	N/A	Must meet requirement (including each subcontractor proposed by the Proposer)	N/A	Letter of Proposal, Form CON-3

³ The Proposer shall provide accurate information on the related Letter of Proposal about any litigation or arbitration resulting from contracts completed or ongoing under its execution over the last five years. A consistent history of awards against the Proposer or any member of a joint venture may result in failure of the Proposal.

Factor	1.3 FINANCIAL SITUATION FOR LOT-1					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
				All members combined	Each member	At least one member
1.3.1 Historical Financial Performance	Submission of audited balance sheets or if not required by the law of the Proposer’s country, other financial statements acceptable to the Purchaser, for the last three [3] years (FY 2022-2023, 2021-2022 and 2020-2021) to demonstrate the current soundness of the Proposers financial position and its prospective long term profitability.	Must meet requirement	N / A	Must meet requirement	N / A	Form FIN – 1.3.1 with attachments
1.3.2 Average Annual Turnover	Minimum average annual turnover of US\$ 1.7 Million or equivalent amount, calculated as total certified payments received for contracts in progress or completed, in best three (3) within the last five (5) years from the Proposal submission date.	Must meet requirement	Must meet requirement	Must meet 25% of the requirement	Must meet 40% of the requirement	Form FIN –1.3.2

Factor	1.3 FINANCIAL SITUATION FOR LOT-1					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.3.3 Financial Resources	The Proposer must demonstrate access to, or availability of, financial resources such as liquid assets, unencumbered real assets, lines of credit, and other financial means, other than any contractual advance payments to meet the following cash-flow requirement: meet the following cash-flow requirement: minimum US\$ 1.2 million or equivalent amount.	Must meet requirement	Must meet requirement	Must meet 25% of the requirement	Must meet 40% of the requirement	Form FIN –1.3.3

Factor	1.3 FINANCIAL SITUATION FOR LOT- 2					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.3.1 Historical Financial Performance	Submission of audited balance sheets or if not required by the law of the Proposer’s country, other financial statements acceptable to the Purchaser, for the last three [3] years (FY 2022-2023, 2021-2022 and 2020-2021) to demonstrate the current soundness of the Proposers financial position and its prospective long term profitability.	Must meet requirement	N / A	Must meet requirement	N / A	Form FIN – 1.3.1 with attachments
1.3.2 Average Annual Turnover	Minimum average annual turnover of US\$ 1 million or equivalent amount, calculated as total certified payments received for contracts in progress or completed, in best three (3) within the last five (5) years from the Proposal submission date.	Must meet requirement	Must meet requirement	Must meet 25% of the requirement	Must meet 40% of the requirement	Form FIN –1.3.2

Factor	1.3 FINANCIAL SITUATION FOR LOT- 2					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.3.3 Financial Resources	The Proposer must demonstrate access to, or availability of, financial resources such as liquid assets, unencumbered real assets, lines of credit, and other financial means, other than any contractual advance payments to meet the following cash-flow requirement: US\$ 0.70 million or equivalent amount.	Must meet requirement	Must meet requirement	Must meet 25% of the requirement	Must meet 40% of the requirement	Form FIN –1.3.3

Note: To qualify for multiple number of contracts/lots for this Request for Proposals, the Proposer shall demonstrate having resources (i.e., (i) Average Annual Turnover and (ii) Financial Resources) sufficient to meet the aggregate of the qualifying criteria for the individual contracts.

Factor	1.4 EXPERIENCE FOR LOT-1					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.4.1 General Experience	Experience under Information System contracts in the role of prime supplier, management contractor, JV member, or subcontractor for at least the last five [5] years prior to the proposal submission deadline.	Must meet requirement	N / A	Must meet requirement	N / A	Form EXP-1.4.1
1.4.2 Specific Experience	Participation as a prime supplier, management contractor, JV ¹ member, sub-contractor, with a minimum amount of contract value US\$ 1.5 million or equivalent amount under maximum two (2) similar contract(s), that have been successfully and substantially ² completed and that are similar to the proposed Information System. The contract will be treated as similar, which includes similar type of installation as described in	Must meet requirement	Must meet requirements	N / A	Must meet the requirement of one (1) similar contract as prime supplier/management contractor.	Form EXP 1.4.2

¹ For contracts under which the Proposer participated as a joint venture member or sub-contractor, only the Proposer’s share, by value, and role and responsibilities shall be considered to meet this requirement.

² Substantial completion shall be based on 80% or more value completed under the contract.

Factor	1.4 EXPERIENCE FOR LOT-1					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
	<p>Section VII Purchaser's Requirements/any licensed software tools.</p> <p>The successfully completed similar contracts shall be documented by a copy of an Operational acceptance certificate (or equivalent documentation satisfactory to the Purchaser) issued by the purchaser(s). The successful supply completion certificate issued by the Proposer's parent/subsidiary/sister/affiliate firm will not be considered for specific experience.</p>					

Factor	1.4 EXPERIENCE FOR LOT-2					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
1.4.1 General Experience	Experience under Information System contracts in the role of prime supplier, management contractor, JV member, or subcontractor for at least the last five [5] years prior to the proposal submission deadline.	Must meet requirement	N / A	Must meet requirement	N / A	Form EXP-1.4.1
1.4.2 Specific Experience	Participation as a prime supplier, management contractor, JV ¹ member, sub-contractor, with a minimum amount of contract value US\$ 1 million or equivalent amount under maximum two (2) similar contract(s), that has been successfully and substantially ² completed and that is similar to the proposed Information System. The contract will be treated as similar, which includes similar type of installation as described in Section VII, Purchaser's Requirements/any licensed	Must meet requirement	Must meet requirements	N / A	Must meet the requirement.	Form EXP 1.4.2

¹ For contracts under which the Proposer participated as a joint venture member or sub-contractor, only the Proposer's share, by value, and role and responsibilities shall be considered to meet this requirement.

² Substantial completion shall be based on 80% or more value completed under the contract.

Factor	1.4 EXPERIENCE FOR LOT-2					
Sub-Factor	Criteria					Documentation Required
	Requirement	Proposer				
		Single Entity	Joint Venture (existing or intended)			
All members combined			Each member	At least one member		
	software tools. The successfully completed similar contract shall be documented by a copy of an Operational acceptance certificate (or equivalent documentation satisfactory to the Purchaser) issued by the purchaser(s). The successful supply completion certificate issued by the Proposer's parent/subsidiary/sister/affiliate firm will not be considered for specific experience.					

Note: To qualify for multiple number of contracts/lots for this Request for Proposals, the proposer must meet the cumulative specific experience for supply of respective lots.

SECTION IV - PROPOSAL FORMS

Table of Forms

Letter of Proposal- Technical Part	77

Letter of Proposal- Technical Part

INSTRUCTIONS TO PROPOSERS: DELETE THIS BOX ONCE YOU HAVE COMPLETED THE DOCUMENT

The Proposer must prepare this Letter of Proposal on stationery with its letterhead clearly showing the Proposer's complete name and business address.

Note: All italicized text is to help Proposers in preparing this form.

Date of this Proposal submission: *[insert date (as day, month and year) of Proposal submission]*

RFP No.: *[insert number of RFP process]*

Alternative No.: *[insert identification No if this is a Proposal for an alternative, otherwise state "not applicable"]*

We, the undersigned, declare that:

To: *[insert complete name of Purchaser]*

- (a) **No reservations:** We have examined and have no reservations to the request for proposals document, including Addenda issued in accordance with Instructions to Proposers (ITP 8);
- (b) **Eligibility:** We meet the eligibility requirements and have no conflict of interest in accordance with ITP 4;
- (c) **Proposal-Securing Declaration:** We have not been suspended nor declared ineligible by the Purchaser based on execution of a Proposal-Securing Declaration or Proposal-Securing Declaration in the Purchaser's Country in accordance with ITP 4.7;
- (d) **Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH):** *[select the appropriate option from (i) to (v) below and delete the others. In case of JV members and/or subcontractors, indicate the status of disqualification by the Bank of each JV member and/or subcontractor].*

We, including any of our subcontractors:

- (i) [have not been subject to disqualification by the Bank for non-compliance with SEA/ SH obligations.]
- (ii) [are subject to disqualification by the Bank for non-compliance with SEA/ SH obligations.]
- (iii) [had been subject to disqualification by the Bank for non-compliance with SEA/ SH obligations, and were removed from the disqualification list. An arbitral award on the disqualification case has been made in our favor.]

- (e) **Conformity:** We offer to provide design, supply and installation services in conformity with the request for proposals document of the following: *[insert a brief description of the IS Design, Supply and Installation Services]*;
- (f) **Proposal Validity:** Our Proposal shall be valid until *[insert day, month and year in accordance with ITP 19.1]*, and it shall remain binding upon us and may be accepted at any time before the expiration of that period;
- (g) **Performance Security:** If our Proposal is accepted, we commit to obtain a Performance Security in accordance with the request for proposals document;
- (h) **One Proposal Per Proposer:** We are not submitting any other Proposal(s) as an individual Proposer, and we are not participating in any other Proposal(s) as a Joint Venture member, and meet the requirements of ITP 4.3, other than alternative Proposals submitted in accordance with ITP 13;
- (i) **Suspension and Debarment:** We, along with any of our subcontractors, suppliers, consultants, manufacturers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by the World Bank Group or a debarment imposed by the World Bank Group in accordance with the Agreement for Mutual Enforcement of Debarment Decisions between the World Bank and other development banks. Further, we are not ineligible under the Purchaser’s Country laws or official regulations or pursuant to a decision of the United Nations Security Council;
- (j) **State-owned enterprise or institution:** *[select the appropriate option and delete the other: We are not a state-owned enterprise or institution / We are a state-owned enterprise or institution but meet the requirements of ITP 4.6]*;
- (k) **Commissions, gratuities and fees:** We have paid, or will pay the following commissions, gratuities, or fees with respect to the procurement process or execution of the Contract: *[insert complete name of each Recipient, its full address, the reason for which each commission or gratuity was paid and the amount and currency of each such commission or gratuity]*

Name of Recipient	Address	Reason	Amount

[If none has been paid or is to be paid, indicate “none.”]

- (l) **Binding Contract:** We understand that this Proposal, together with your written acceptance thereof included in your Letter of Acceptance, shall constitute a binding contract between us, until a formal contract is prepared and executed;

- (m) **Not Bound to Accept:** We understand that you are not bound to accept the lowest evaluated cost Proposal, the Most Advantageous Proposal or any other Proposal that you may receive; and
- (n) **Fraud and Corruption:** We hereby certify that we have taken steps to ensure that no person acting for us or on our behalf engages in any type of Fraud and Corruption.

Name of the Proposer: **[insert complete name of the Proposer]*

Name of the person duly authorized to sign the Proposal on behalf of the Proposer: ***[insert complete name of person duly authorized to sign the Proposal]*

Title of the person signing the Proposal: *[insert complete title of the person signing the Proposal]*

Signature of the person named above: *[insert signature of person whose name and capacity are shown above]*

Date signed *[insert number]* day of *[insert month]*, *[insert year]*

*: In the case of the Proposal submitted by joint venture specify the name of the Joint Venture as Proposer

** : Person signing the Proposal shall have the power of attorney given by the Proposer to be attached with the Proposal

CODE OF CONDUCT FOR SUPPLIER’S PERSONNEL FORM

Note to the Purchaser:

The following minimum requirements shall not be modified. The Purchaser may add additional requirements to address identified issues, informed by relevant environmental and social assessment.

Delete this Box prior to issuance of the Request for Proposals document.

Note to the Proposer:

The minimum content of the Code of Conduct form as set out by the Purchaser shall not be substantially modified. However, the Proposer may add requirements as appropriate, including to take into account Contract-specific issues/risks.

The Proposer shall initial and submit the Code of Conduct form as part of its proposal.

CODE OF CONDUCT FOR SUPPLIER’S PERSONNEL

We are the Supplier, [*enter name of Supplier*]. We have signed a contract with [*enter name of Purchaser*] for [*enter description of the Information System*]. The Information System will be supplied to and installed at [*enter the Project Site/s*]. Our contract requires us to implement measures to address environmental and social risks.

This Code of Conduct identifies the behavior that we require from Supplier’s Personnel employed in the execution of the Contract at the Project Site/s.

Our workplace is an environment where unsafe, offensive, abusive or violent behavior will not be tolerated and where all persons should feel comfortable raising issues or concerns without fear of retaliation.

REQUIRED CONDUCT

Supplier’s Personnel employed in the execution of the Contract at the Project Site/s shall:

1. carry out his/her duties competently and diligently;
2. comply with this Code of Conduct and all applicable laws, regulations and other requirements, including requirements to protect the health, safety and well-being of other Supplier’s Personnel and any other person;
3. maintain a safe working environment including by:

- a. ensuring that workplaces, machinery, equipment and processes under each person’s control are safe and without risk to health;
 - b. wearing required personal protective equipment;
 - c. using appropriate measures relating to chemical, physical and biological substances and agents; and
 - d. following applicable emergency operating procedures.
4. report work situations that he/she believes are not safe or healthy and remove himself/herself from a work situation which he/she reasonably believes presents an imminent and serious danger to his/her life or health;
 5. treat other people with respect, and not discriminate against specific groups such as women, people with disabilities, migrant workers or children;
 6. not engage in any form of sexual harassment including unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature with other Supplier’s or Purchaser’s Personnel;
 7. not engage in Sexual Exploitation, which means any actual or attempted abuse of position of vulnerability, differential power or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another;
 8. not engage in Sexual Abuse, which means the actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions;
 9. not engage in any form of sexual activity with individuals under the age of 18, except in case of pre-existing marriage;
 10. complete relevant training courses that will be provided related to the environmental and social aspects of the Contract, including on health and safety matters, and Sexual Exploitation and Abuse, and Sexual Harassment (SH);
 11. report violations of this Code of Conduct; and
 12. not retaliate against any person who reports violations of this Code of Conduct, whether to us or the Purchaser, or who makes use of the grievance mechanism for Supplier’s Personnel or the project’s Grievance Redress Mechanism.

RAISING CONCERNS

If any person observes behavior that he/she believes may represent a violation of this Code of Conduct, or that otherwise concerns him/her, he/she should raise the issue promptly. This can be done in either of the following ways:

1. Contact [*enter name of the Supplier’s Social Expert with relevant experience in handling sexual exploitation, sexual abuse and sexual harassment cases, or if such person is not required under the Contract, another individual designated by the Supplier to handle these matters*] in writing at this address [] or by telephone at [] or in person at []; or
2. Call [] to reach the Supplier’s hotline (*if any*) and leave a message.

The person’s identity will be kept confidential, unless reporting of allegations is mandated by the country law. Anonymous complaints or allegations may also be submitted and will be given all due and appropriate consideration. We take seriously all reports of possible misconduct and will investigate and take appropriate action. We will provide warm referrals to service providers that may help support the person who experienced the alleged incident, as appropriate.

There will be no retaliation against any person who raises a concern in good faith about any behavior prohibited by this Code of Conduct. Such retaliation would be a violation of this Code of Conduct.

CONSEQUENCES OF VIOLATING THE CODE OF CONDUCT

Any violation of this Code of Conduct by the Supplier’s Personnel may result in serious consequences, up to and including termination and possible referral to legal authorities.

FOR SUPPLIER’S PERSONNEL:

I have received a copy of this Code of Conduct written in a language that I comprehend. I understand that if I have any questions about this Code of Conduct, I can contact [*enter name of Supplier’s contact person(s) with relevant experience*] requesting an explanation.

Name of Supplier’s Personnel: [*insert name*]

ATTACHMENT 1: Behaviors constituting SEA and behaviors constituting SH

ATTACHMENT 1 TO THE CODE OF CONDUCT FORM

BEHAVIORS CONSTITUTING SEXUAL EXPLOITATION AND ABUSE (SEA) AND BEHAVIORS CONSTITUTING SEXUAL HARASSMENT (SH)

The following non-exhaustive list is intended to illustrate types of prohibited behaviors.

(1) **Examples of sexual exploitation and abuse** include, but are not limited to:

- A Supplier's Personnel tells a member of the community that he/she can get them jobs related to the project site in exchange for sex.
- A Supplier's Personnel rapes, or otherwise sexually assaults a member of the community.
- A Supplier's Personnel denies a person access to the Project Site/s unless he/she performs a sexual favor.
- A Supplier's Personnel tells a person applying for employment under the Contract that he/she will only hire him/her if he/she has sex with him/her.

(2) **Examples of sexual harassment in a work context**

- A Supplier's Personnel comment on the appearance of another Supplier's Personnel (either positive or negative) and sexual desirability.
- When a Supplier's Personnel complains about comments made by another Supplier's Personnel on his/her appearance, the other Supplier's Personnel comment that he/she is "asking for it" because of how he/she dresses.
- Unwelcome touching of a Supplier's Personnel or Purchaser's Personnel by another Supplier's Personnel.
- A Supplier's Personnel tells another Supplier's Personnel that he/she will get him/her a salary raise, or promotion if he/she sends him/her naked photographs of himself/herself.

INTELLECTUAL PROPERTY FORMS

Notes to Proposers on working with the Intellectual Property Forms

In accordance with ITP 11.1(j), Proposers must submit, as part of their proposals, lists of all the Software included in the proposal assigned to one of the following categories: (a) System, General-Purpose, or Application Software; (b) Standard or Custom Software; (c) Proprietary or Open Source. Proposers must also submit a list of all Custom Materials. These categorizations are needed to support the Intellectual Property in the GCC and SCC. The Proposer must also include the text of the software licenses for the software titles proposed.

CONFORMANCE OF INFORMATION SYSTEM MATERIALS

Format of the Technical Proposal

In accordance with ITP 16.2, the documentary evidence of conformity of the Information System to the request for proposals documents includes (but is not restricted to):

- (a). The Proposer's Preliminary Project Plan, including, but not restricted, to the topics specified in the PDS ITP 16.2. The Preliminary Project Plan should also state the Proposer's assessment of the major responsibilities of the Purchaser and any other involved third parties in System supply and installation, as well as the Proposer's proposed means for coordinating activities by each of the involved parties to avoid delays or interference.
- (b). A written confirmation by the Proposer that, if awarded the Contract, it shall accept responsibility for successful integration and interoperability of all the proposed Information Technologies included in the System, as further specified in the Technical Requirements.
- (c). Item-by-Item Commentary on the Technical Requirements demonstrating the substantial responsiveness of the overall design of the System and the individual Information Technologies, Goods, and Services offered to those Technical Requirements.

In demonstrating the responsiveness of its proposal, the Proposer must use the Technical Responsiveness Checklist (Format). Failure to do so increases significantly the risk that the Proposer's Technical Proposal will be declared technically non-responsive. Among other things, the checklist should contain explicit cross-references to the relevant pages in supporting materials included the Proposer's Technical Proposal.

Note: The Technical Requirements are voiced as requirements of the *Supplier* and/or the *System*. The Proposer's response must provide clear evidence for the evaluation team to assess the credibility of the response. A response of "yes" or "will do" is unlikely to convey the credibility of the response. The Proposer should indicate *that* – and to the greatest extent practical – *how* the Proposer would comply with the requirements if awarded the contract. Whenever the technical requirements relate to feature(s) of existing products (e.g., hardware or software), the features should be described and the relevant product literature referenced. When the technical requirements relate to professional services (e.g., analysis, configuration, integration, training, etc.) some effort should be expended to describe how they would be rendered – not just a commitment to perform the [cut-and-paste] requirement. Whenever a technical

requirement is for the Supplier to provide certifications (e.g., ISO 9001), copies of these certifications must be included in the Technical Proposal.

Note: As required in PDS 11.2 (j), include method statement, management strategies and implementation plans and innovations, to manage cyber security risks.

Note: The Manufacture's Authorizations (and any Subcontractor Agreements) are to be included in Attachment 2 (Proposer Qualifications), in accordance with and ITP 15.

Note: As a matter of practice, the contract cannot be awarded to a Proposer whose Technical Proposal deviates (materially) from the Technical Requirements – *on any Technical Requirement*. Such deviations include omissions (e.g., non-responses) and responses that do not meet or exceed the requirement. Extreme care must be exercised in the preparation and presentation of the responses to all the Technical Requirements.

(d). Supporting materials to underpin the Item-by-item Commentary on the Technical Requirements (e.g., product literature, white-papers, narrative descriptions of technical approaches to be employed, etc.). In the interest of timely proposal evaluation and contract award, Proposers are encouraged not to overload the supporting materials with documents that do not directly address the Purchaser's requirements.

(e). Any separate and enforceable contract(s) for Recurrent Cost items which the PDS ITP 17.2 required Proposers to propose.

Note: To facilitate proposal evaluation and contract award, Proposers encouraged to provide electronic copies of their Technical Proposal – preferably in a format that the evaluation team can extract text from to facilitate the proposal clarification process and to facilitate the preparation of the Proposal Evaluation Report.

Technical Responsiveness Checklist (Format)

Tech. Require. No. _	Technical Requirement: <i>[insert: abbreviated description of Requirement]</i>
Proposer’s technical reasons supporting compliance:	
Proposer’s cross references to supporting information in Technical Proposal:	

[Note to the Purchaser: The Technical Responsiveness tables submitted by each Proposer can help structure the Purchaser’s technical evaluation. In particular, the Purchaser can append rows to each of the Proposer’s submitted responsiveness tables to record the Purchaser’s assessment of the compliance, partial compliance, and non-compliance of the Proposer’s response to the specific Technical Requirement – including the Purchaser’s rationale for its conclusion (including, as appropriate, clear indications of the gaps in the Proposer’s response/supporting documentation). These assessments can provide a standardized presentation of the detailed underlying logic of the Purchaser’s final assessment of the responsiveness / non-responsiveness of the Proposer’s technical proposal. Typically, the detailed response/assessment tables would appear as an attachment to the Proposal Evaluation Report].

FORM OF PROPOSAL SECURITY (BANK GUARANTEE)

[The bank shall fill in this Bank Guarantee Form in accordance with the instructions indicated.]

[Guarantor letterhead or SWIFT identifier code]

Beneficiary: *[Purchaser to insert its **name and address**]*

RFP No.: *[Purchaser to insert reference **number for the RFP**]*

Alternative No.: *[Insert identification No if this is a Proposal for an alternative]*

Date: *[Insert **date of issue**]*

PROPOSAL GUARANTEE No.: *[Insert **guarantee reference number**]*

We have been informed that *[insert **name of the Proposer**, which in the case of a joint venture shall be the name of the joint venture (whether legally constituted or prospective) or the names of all members thereof]* (hereinafter called “the Applicant”) has submitted or will submit the Beneficiary its proposal (hereinafter called “the Proposal”) for the execution of *[insert **Name of Contract**]* under Request for Proposals No. *[insert **number**]* (“the RFP”).

Furthermore, we understand that, according to the Beneficiary’s, Proposals must be supported by a Proposal guarantee.

At the request of the Applicant, we as Guarantor, hereby irrevocably undertake to pay the Beneficiary any sum or sums not exceeding in total an amount of *[insert **amount in figures** (**insert amount in words**)]* upon receipt by us of the Beneficiary’s complying demand supported by the Beneficiary’s statement, whether in the demand itself or a separate signed document accompanying the demand, stating that either the Applicant:

- (a) has withdrawn its Proposal prior to the Proposal validity expiry date set forth in the Applicant’s Letter of Proposal, or any extended date provided by the Applicant; or
- (b) having been notified of the acceptance of its Proposal by the Beneficiary prior to the expiry date of the Proposal validity or any extension thereof provided by the Applicant has failed to: (i) execute the Contract Agreement, if required, or (ii) furnish the performance security, in accordance with the Instructions to Proposers (“ITP”) of the Beneficiary’s request for proposals document.

This guarantee will expire: (a) if the Applicant is the successful Proposer, upon our receipt of copies of the contract agreement signed by the Applicant and the Performance Security issued to the Beneficiary in relation to such Contract Agreement; or (b) if the Applicant is not the successful Proposer, upon the earlier of (i) our receipt of a copy of the Beneficiary’s

notification to the Applicant of the results of the request for proposals process; or (ii) twenty-eight days after the expiry date of the Proposal validity.

Consequently, any demand for payment under this guarantee must be received by us at the office on or before that date.

This guarantee is subject to the Uniform Rules for Demand Guarantees (URDG) 2010 Revision, ICC Publication No. 758.

[signature(s)]

FORM OF PROPOSAL SECURITY (PROPOSAL BOND)

Not Applicable

BOND NO. *[insert number]*

BY THIS BOND *[insert Name]* as Principal (hereinafter called “the Principal”), and *[insert Name]*, **authorized to transact business in** *[insert Jurisdiction]*, as Surety (hereinafter called “the Surety”), are held and firmly bound unto *[insert Purchaser Name]* as Obligee (hereinafter called “the Purchaser”) in the sum of *[insert amount in figures]*¹ (*[insert amount in words]*), for the payment of which sum, well and truly to be made, we, the said Principal and Surety, bind ourselves, our successors and assigns, jointly and severally, firmly by these presents.

WHEREAS the Principal has submitted or will submit a written Proposal to the Purchaser dated the *[insert ordinal number]* day of *[insert month]* *[insert year]*, for *[insert name of Contract]* (hereinafter called the “Proposal”).

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION is such that if the Principal:

- (a) withdraws its Proposal prior to the Proposal validity expiry date set forth in the Principal’s Letter of Proposal, or any extended date provided by the Principal; or
- (b) having been notified of the acceptance of its Proposal by the Purchaser prior to the expiry date of the Proposal validity or any extension thereto provided by the Applicant has failed to; (i) execute the Contract Agreement, or (ii) furnish the Performance Security in accordance with the Instructions to Proposers (“ITP”) of the Purchaser’s request for proposals document.

then the Surety undertakes to immediately pay to the Purchaser up to the above amount upon receipt of the Purchaser’s first written demand, without the Purchaser having to substantiate its demand, provided that in its demand the Purchaser shall state that the demand arises from the occurrence of any of the above events, specifying which event(s) has occurred.

The Surety hereby agrees that its obligation will remain in full force and effect up to and including the date 28 days after the date of expiry of the Proposal validity set forth in the Principal’s Letter of Proposal or extended thereto provided by the Principal.

IN TESTIMONY WHEREOF, the Principal and the Surety have caused these presents to be executed in their respective names this *[insert number]* day of *[insert month]* *[insert year]*.

Principal: _____

Surety: _____

¹ The amount of the Bond shall be denominated in the currency of the Purchaser’s Country or the equivalent amount in a freely convertible currency.

FORM OF PROPOSAL-SECURING DECLARATION

Not Applicable

[The Proposer shall fill in this Form in accordance with the instructions indicated.]

Date: *[insert **date** (as day, month and year)]*

Proposal No.: *[insert **number of request for proposals process**]*

Alternative No.: *[insert **identification No if this is a Proposal for an alternative**]*

To: *[insert **complete name of Purchaser**]*

We, the undersigned, declare that:

We understand that, according to your conditions, Proposals must be supported by a Proposal-Securing Declaration.

We accept that we will automatically be suspended from being eligible for bidding or submitting proposals in any contract with the Purchaser for the period of time specified in Section II – Proposal Data Sheet, if we are in breach of our obligation(s) under the proposal conditions, because we:

- (a) have withdrawn our Proposal prior to the expiry date of the Proposal validity specified in the Letter of Proposal or any extended date provided by us; or
- (b) having been notified of the acceptance of our Proposal by the Purchaser prior to the expiry date of the Proposal validity in the Letter of Proposal or any extended date provided by us, (i) fail to sign the Contract agreement; or (ii) fail or refuse to furnish the Performance Security, if required, in accordance with the ITP.

We understand this Proposal-Securing Declaration shall expire if we are not the successful Proposer, upon the earlier of (i) our receipt of your notification to us of the name of the successful Proposer; or (ii) twenty-eight days after the expiry date of the Proposal validity.

Name of the Proposer* *[insert **Name of Proposer**]*

Name of the person duly authorized to sign the Proposal on behalf of the Proposer** *[insert **Name of authorized person**]*

Title of the person signing the Proposal *[insert **Title of authorized person**]*

Signature of the person named above _____

Date signed *[insert **ordinal number**]* day of *[insert **month**]* , *[insert **year**]*

*: In the case of the Proposal submitted by joint venture specify the name of the Joint Venture as Proposer

**.: Person signing the Proposal shall have the power of attorney given by the Proposer attached to the Proposal

[Note: In case of a Joint Venture, the Proposal-Securing Declaration must be in the name of all members to the Joint Venture that submits the Proposal.]

Letter of Proposal - Financial Part

INSTRUCTIONS TO PROPOSERS: DELETE THIS BOX ONCE YOU HAVE COMPLETED THE DOCUMENT

The Proposer must prepare this Letter of Proposal on stationery with its letterhead clearly showing the Proposer's complete name and business address.

Note: All italicized text is to help Proposers in preparing this form.

Date of this Proposal submission: *[insert date (as day, month and year) of Proposal submission]*

Request for Proposal No.: *[insert identification]*

Alternative No.: *[insert identification No if this is a Proposal for an alternative]*

To: *[insert complete name of Purchaser]*

We, the undersigned, hereby submit the second part of our Proposal, the Proposal Price and Priced Activity Schedule. This accompanies the Letter of Proposal- Technical Part.

In submitting our Proposal, we make the following additional declarations:

(a) **Proposal Validity:** Our Proposal shall be valid until *[insert day, month and year in accordance with ITP 19.1]*, and it shall remain binding upon us and may be accepted at any time on or before this date;

(b) **Total Price:** The total price of our Proposal, excluding any discounts offered in item (c) below is: *[Insert one of the options below as appropriate]*

[Option 1, in case of one lot:] Total price is: [insert the total price of the Proposal in words and figures, indicating the various amounts and the respective currencies];

Or

[Option 2, in case of multiple lots:] (a) Total price of each lot [insert the total price of each lot in words and figures, indicating the various amounts and the respective

currencies]; and (b) Total price of all lots (sum of all lots) [*insert the total price of all lots in words and figures, indicating the various amounts and the respective currencies*];

(c) **Discounts:** The discounts offered and the methodology for their application are:

(i) The discounts offered are: [*Specify in detail each discount offered*]

(ii) The exact method of calculations to determine the net price after application of discounts is shown below: [*Specify in detail the method that shall be used to apply the discounts*];

(d) **Commissions, gratuities and fees:** We have paid, or will pay the following commissions, gratuities, or fees with respect to the procurement process or execution of the Contract: [*insert complete name of each Recipient, its full address, the reason for which each commission or gratuity was paid and the amount and currency of each such commission or gratuity*].

Name of Recipient	Address	Reason	Amount

(If none has been paid or is to be paid, indicate “none.”)

Name of the Proposer: * [*insert complete name of the Proposer*]

Name of the person duly authorized to sign the Proposal on behalf of the Proposer: ** [*insert complete name of person duly authorized to sign the Proposal*]

Title of the person signing the Proposal: [*insert complete title of the person signing the Proposal*]

Signature of the person named above: [*insert signature of person whose name and capacity are shown above*]

Date signed [*insert date of signing*] **day of** [*insert month*], [*insert year*]

*: In the case of the Proposal submitted by a Joint Venture specify the name of the Joint Venture as Proposer.

**: Person signing the Proposal shall have the power of attorney given by the Proposer. The power of attorney shall be attached with the Proposal Schedules

PRICE SCHEDULE FORMS

Notes to Proposers on working with the Price Schedules

General

1. The Price Schedules are divided into separate Schedules as follows:
 - 3.1 Grand Summary Cost Table
 - 3.2 Supply and Installation Cost Summary Table
 - 3.3 Recurrent Cost Summary Table
 - 3.4 Supply and Installation Cost Sub-Table(s)
 - 3.5 Recurrent Cost Sub-Tables(s)
 - 3.6 Country of Origin Code Table

[insert: any other Schedules as appropriate]
2. The Schedules do not generally give a full description of the information technologies to be supplied, installed, and operationally accepted, or the Services to be performed under each item. However, it is assumed that Proposers shall have read the Technical Requirements and other sections of these request for proposals documents to ascertain the full scope of the requirements associated with each item prior to filling in the rates and prices. The quoted rates and prices shall be deemed to cover the full scope of these Technical Requirements, as well as overhead and profit.
3. If Proposers are unclear or uncertain as to the scope of any item, they shall seek clarification in accordance with the Instructions to Proposers in the request for proposals documents prior to submitting their proposal.

Pricing

4. Prices shall be filled in indelible ink, and any alterations necessary due to errors, etc., shall be initialed by the Proposer. As specified in the Proposal Data Sheet, prices shall be fixed and firm for the duration of the Contract.
5. Proposal prices shall be quoted in the manner indicated and in the currencies specified in ITP 18.1 and ITP 18.2. Prices must correspond to items of the scope and quality defined in the Technical Requirements or elsewhere in these request for proposals documents.
6. The Proposer must exercise great care in preparing its calculations, since there is no opportunity to correct errors once the deadline for submission of proposals has passed. A single error in specifying a unit price can therefore change a Proposer's overall total proposal price substantially, make the proposal noncompetitive, or subject the Proposer to possible loss. The Purchaser will correct any arithmetic error in accordance with the provisions of ITP 32.
7. Payments will be made to the Supplier in the currency or currencies indicated under each respective item. As specified in ITP 18.2, no more than three foreign currencies may be used.

3.1 Grand Summary Cost Table

		<i>[insert: Local Currency] Price</i>	<i>[insert: Foreign Currency A] Price</i>	<i>[insert: Foreign Currency B] Price</i>	<i>[insert: Foreign Currency C] Price</i>

SECTION V - ELIGIBLE COUNTRIES

Eligibility for the Provision of Information System

In reference to ITP 4.8 and ITP 5.1, for the information of the Proposers, at the present time firms and information systems from the following countries are excluded from this procurement process:

Under ITP 4.8(a) and ITP 5.1: *Israel.*

Under ITP 4.8(b) and ITP 5.1: *None.*

Unofficially Copy

SECTION VI - FRAUD AND CORRUPTION

(Section VI shall not be modified)

1. Purpose

1.1 The Bank's Anti-Corruption Guidelines and this annex apply with respect to procurement under Bank Investment Project Financing operations.

2. Requirements

2.1 The Bank requires that Borrowers (including beneficiaries of Bank financing); bidders (applicants/proposers), consultants, contractors and suppliers; any sub-contractors, sub-consultants, service providers or suppliers; any agents (whether declared or not); and any of their personnel, observe the highest standard of ethics during the procurement process, selection and contract execution of Bank-financed contracts, and refrain from Fraud and Corruption.

2.2 To this end, the Bank:

a. Defines, for the purposes of this provision, the terms set forth below as follows:

- i. "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;
- ii. "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation;
- iii. "collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- iv. "coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
- v. "obstructive practice" is:
 - (a) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or
 - (b) acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under paragraph 2.2 e. below.

b. Rejects a proposal for award if the Bank determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly,

engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

- c. In addition to the legal remedies set out in the relevant Legal Agreement, may take other appropriate actions, including declaring misprocurement, if the Bank determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the loan engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the procurement process, selection and/or execution of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner at the time they knew of the practices;
- d. Pursuant to the Bank's Anti-Corruption Guidelines, and in accordance with the Bank's prevailing sanctions policies and procedures, may sanction a firm or individual, either indefinitely or for a stated period of time, including by publicly declaring such firm or individual ineligible (i) to be awarded or otherwise benefit from a Bank-financed contract, financially or in any other manner;¹ (ii) to be a nominated² sub-contractor, consultant, manufacturer or supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract; and (iii) to receive the proceeds of any loan made by the Bank or otherwise to participate further in the preparation or implementation of any Bank-financed project;
- e. Requires that a clause be included in bidding/request for proposals documents and in contracts financed by a Bank loan, requiring (i) bidders (applicants/proposers), consultants, contractors, and suppliers, and their sub-contractors, sub-consultants, service providers, suppliers, agents, personnel, permit the Bank to inspect³ all accounts, records and other documents relating to the procurement process, selection and/or contract execution, and to have them audited by auditors appointed by the Bank.

¹ For the avoidance of doubt, a sanctioned party's ineligibility to be awarded a contract shall include, without limitation, (i) applying for pre-qualification, expressing interest in a consultancy, and bidding, either directly or as a nominated sub-contractor, nominated consultant, nominated manufacturer or supplier, or nominated service provider, in respect of such contract, and (ii) entering into an addendum or amendment introducing a material modification to any existing contract.

² A nominated sub-contractor, nominated consultant, nominated manufacturer or supplier, or nominated service provider (different names are used depending on the particular bidding document) is one which has been: (i) included by the bidder in its pre-qualification application or bid because it brings specific and critical experience and know-how that allow the bidder to meet the qualification requirements for the particular bid; or (ii) appointed by the Borrower.

³ Inspections in this context usually are investigative (i.e., forensic) in nature. They involve fact-finding activities undertaken by the Bank or persons appointed by the Bank to address specific matters related to investigations/audits, such as evaluating the veracity of an allegation of possible Fraud and Corruption, through the appropriate mechanisms. Such activity includes but is not limited to: accessing and examining a firm's or individual's financial records and information, and making copies thereof as relevant; accessing and examining any other documents, data and information (whether in hard copy or electronic format) deemed relevant for the investigation/audit, and making copies thereof as relevant; interviewing staff and other relevant individuals; performing physical inspections and site visits; and obtaining third party verification of information.

A. ACRONYMS USED IN THE TECHNICAL REQUIREMENTS

0.1 Acronym Table

Term	Explanation
bps	bits per second
cps	characters per second
DBMS	Database Management System
DOS	Disk Operating System
dpi	dots per inch
Ethernet	IEEE 802.3 Standard LAN protocol
GB	gigabyte
Hz	Hertz (cycles per second)
IEEE	Institute of Electrical and Electronics Engineers
ISO	International Standards Organization
KB	kilobyte
LAN	Local area network
lpi	lines per inch
lpm	lines per minute
MB	megabyte
MTBF	Mean time between failures
NIC	Network interface card
NOS	Network operating system
ODBC	Open Database Connectivity
OLE	Object Linking and Embedding
OS	Operating system
PCL	Printer Command Language
ppm	pages per minute
PS	PostScript -- Adobe page description language
RAID	Redundant array of inexpensive disks

	Term	Explanation
	RAM	Random access memory
	RISC	Reduced instruction-set computer
	SCSI	Small Computer System Interface
	SNMP	Simple Network Management Protocol
	SQL	Structured Query Language
	TCP/IP	Transmission Control Protocol / Internet Protocol
	V	Volt
	WLAN	Wireless LAN
	UTT	UI Testing Tools
	PeTT	Performance Test Tool
	ITSM	IT Service Management Tool
	ApST	Application Security Testing Tool
	VST	Vulnerability Scanner Software Tool
	CoRe	Container Registry
	PriSeM	Privileged Session Manager
	SSPaMIV	Self-Service Password Management and Identity Verification Solution Tool
	CICD-SBRM	Continuous Integration (CI)/Continuous Delivery (CD) To Software Build Repository Manager Tool
	BDA	Big Data Analytics Tools

B. FUNCTIONAL, ARCHITECTURAL AND PERFORMANCE REQUIREMENTS

1.1 Legal and Regulatory Requirements to be met for the Tools as a Service (TaaS)

1.1.1 The Information System MUST comply with the following laws and regulations:

1.1.1.1 *Acts/Rules/Regulations:*

- ICT Act 2006
- National Cyber Security Act 2023
- Digital Security Rules 2020

1.1.1.2 *Policies, Guidelines Policies, Guidelines, and Standards:*

- Government of Bangladesh Information Security Manual 2016
- Information Security Policy 2014
- National Cyber Security Strategy 2021-25
- ISO 27001:2013
- ISO 27017:2015
- BNDA

1.2 Business Function Requirements to be met for the Tools as a Service (TaaS)

The Tools as a Service (TaaS) MUST support the following business functions:

1.2.1 Under the Digital Bangladesh initiative, it is envisioned to "make all Government services accessible to the citizen in his locality, through common service delivery outlets and ensure efficiency, transparency & reliability of such services at affordable costs to realize the basic needs of the citizen".

In order to make this vision a reality, the Government of Bangladesh (GoB) recognized the potential of Information and Communication Technology (ICT) for rapid and all-around development in general and transforming governance in particular. Initially there were islands of ICT initiatives at the Country, District, Upazilla, Union and even Village level. The learnings by way of both the challenges and opportunities faced during the development and implementation of such initiatives contributed to refining the overall e-Governance strategy. One of the key learning's that emerged was an urgent need to develop the core and other supporting infrastructure for sustaining e-Governance initiatives across the country.

1.2.2 As part of the Smart Nation initiative, the Bangladesh Computer Council (BCC) intends to provide Tools as a Service (TaaS) to NDC users through its National Data Center (NDC). By leveraging modern IT to optimize the delivery and management of government services, these technologies seek to create a strong, safe, and effective smart ecosystem that will improve public participation and service dependability. In order to create a smart Bangladesh, the following factors make Tools as a Service (TaaS) crucial:

- **Accessibility and Cost-Effectiveness:** TaaS provides access to a wide range of tools and applications over the cloud, making them accessible to a broader range of users, including government agencies, and academia. This reduces the need for substantial upfront investments in software and hardware.
- **Scalability and Flexibility:** With TaaS, tools can be scaled up or down based on demand. This is particularly beneficial for government which may have fluctuating requirements, ensuring that resources are used efficiently.
- **Rapid Deployment and Updates:** TaaS enables quick deployment and regular updates of tools, ensuring that the latest functionalities are always available. This is vital for keeping up with the fast-paced technological advancements and changing citizen needs.
- **Enhanced Collaboration and Integration:** TaaS facilitates better collaboration and integration of various tools and services, essential for a cohesive and efficient digital government ecosystem.
- **Economic Growth and Innovation:** TaaS can drive economic growth by providing insights that help in identifying new opportunities, optimizing operations, and fostering innovation across various sectors.
- **Transparency and Accountability:** The use of these tools can also increase transparency and accountability in government operations, building public trust and ensuring more effective governance.

The adoption of these tools can assist NDC and its users in several ways. These advantages consist of the following:

Benefits for the National Data Center:

- **Optimized Operations and Efficiency:** The use of performance testing and IT Service Management tools leads to optimized operations, ensuring the data center runs efficiently and cost-effectively.
- **Enhanced Security Posture:** Vulnerability scanners and application security testing tools strengthen the data center's defense against cyber threats, essential for protecting infrastructure and stored data.
- **Scalability and Flexibility:** Container registries and CI/CD tools facilitate the scalable and agile deployment of services. This allows the data center to quickly adapt to changing demands and technological advancements.
- **Compliance and Quality Control:** The integration of these tools ensures adherence to regulatory standards and quality benchmarks, vital for maintaining credibility and trust.

Benefits for National Data Center clients:

- **User-Friendly Access to Services:** UI testing tools ensure that the interfaces of government services are intuitive and tailored to user needs, data management enhancing their overall experience.
- **Reliable and Consistent Service Quality:** The robust infrastructure, underpinned by performance testing and ITSM tools, assures users of high service availability and reliability.
- **Secure Data and Privacy Protection:** Advanced security measures, backed by analytical insights, safeguard user data, enhancing trust and confidence in using the data center’s services.
- **Self-Managed Security and Identity:** Self-service password management and identity verification solutions empower users with secure and convenient control over their digital identities and access.
- **Assured Quality and Compliance:** Users benefit from high-quality services that comply with national and international standards, ensuring a safe and reliable experience.
- **Project Management:** Users will get reuse and refactoring, documenting, publishing, team interaction, workspaces, history and collaboration support under a single window.

The BCC has devised a plan to implement Tools as a Service (TaaS), crucial elements for both NDC and its clients, to create a smart nation that meets contemporary needs. These tools should be recognized as a fundamental part of any government's digital transformation strategy. The use of these tools plays a pivotal role in transforming the country's digital landscape towards smart Bangladesh.

1.3 Objectives

The objectives of this Bidding Document are the following:

- a) Supply, Installation, Configuration, and Commissioning of Tools as a Service (TaaS);
- b) Offer scalable and easily accessible tools and applications via cloud-based services, catering to varying organizational needs without the requirement for significant upfront investment;
- c) Enhance operational efficiency through data-driven optimizations and provide cost-effective solutions through subscription-based models, minimizing the need for extensive in-house resources;
- d) Drive innovation in product and service development and customer service by leveraging data insights and a diverse range of tools;

- e) Ensure high standards of security and compliance with regulatory requirements while simplifying the management and maintenance of tools and data through centralized platforms and services;
- f) Support the Smart Nation Initiative by boosting governmental efficiency through digital transformation.
- g) To leverage common / shared Platforms to speed up the process of service delivery.

1.4 Characteristics of Tools as a Service (TaaS)

The following are the important characteristics of well-managed Tools as a Service (TaaS):

Tools as a Service (TaaS) have distinct characteristics that define their functionality and utility, especially in the context of digital transformation and smart nation initiatives. Understanding these characteristics is crucial for effectively leveraging these technologies.

1.4.1 Characteristics of Tools as a Service (TaaS)

- a. **Cloud-Based Delivery:** TaaS is typically delivered over the cloud, meaning users can access tools and applications through the internet without needing to install or maintain them locally.
- b. **Scalability:** One of the key features of TaaS is its scalability. Users can easily scale their usage up or down based on their current needs, making it ideal for fluctuating workloads.
- c. **Subscription-Based Model:** TaaS usually operates on a subscription model, where users pay for the tools as they use them. This can be more cost-effective than traditional licensing models.
- d. **Accessibility and Convenience:** These tools are accessible from anywhere with an internet connection, offering high convenience and flexibility for users.
- e. **Automatic Updates and Maintenance:** The service provider typically handles updates and maintenance, ensuring that users always have access to the latest features and security updates.
- f. **Integration and Customization:** TaaS solutions often offer a range of integration options with other tools and services, and some level of customization to suit specific user needs.
- g. **Centralized Management:** TaaS allows for centralized management of tools and applications, simplifying administration and oversight.

C. SERVICE SPECIFICATIONS – SUPPLY & INSTALL ITEMS

2.1 System Analysis, Design and Customization/Development

2.1.1 High Level Design:

The supplier must submit a High-Level Design (HLD) of the Tools as a Service (TaaS). This HLD, if agreed upon by the purchaser will be the basis of low-level architectural requirements.

2.1.2 Low Level Design:

The Low-Level Design (LLD) of the solution will be provided according to the approved High-Level Design (HLD) by the purchaser. The supplier should incorporate the provided LLD with the comprehensive technical architectures for computing, storage, and networking, taking into account the need for high availability and failover capacity for the proposed solution.

2.1.3 Configuration:

Leveraging insights from both the high-level design and low-level design, the selected supplier will identify the key configuration requirements, develop a detailed documentations and configure the solution accordingly. Comprehensive details of the configuration must be recorded and submitted to the purchaser for approval.

2.1.4 Implementation & System Testing:

A thorough documentation outlining the implementation and system testing should be compiled and presented to the purchaser for approval. This document should also detail procedures for testing each individual unit, as well as a post-implementation test of the entire system or service.

2.2 Service Customization and Optimization

2.2.1 Service Customization and Optimization

Installation, configuration, customization, optimization and commissioning will be performed by the supplier.

2.3 System Integration (to other existing systems) (Not Applicable)

2.3.1 The Supplier MUST perform the following Integration Services [*for example, describe: **existing information systems** (as appropriate, reference the relevant subsection of the Background and Informational Materials Section containing any detailed description of existing systems); and specify: **technical and functional level of integration with the Information System.**]*

2.4 Training and Training Materials

2.3.1 The Supplier MUST provide the following on-site knowledge transfer services along with course curriculum, training materials, trainer for the training, certifications, etc. as mentioned in below table:

Tools as a Service (TaaS) for NDC

Sl.	Training/Workshop Name (3 sessions per day)	Number of Participants	Duration
1.	Pre-Deployment Workshop	10	2 Days
2.	Pre-deployment training on the TaaS	10	3 Days
3.	Post-deployment knowledge transfer training to the NDC officials and govt. agencies	40	10 Days

2.5 Data Conversion and Migration

No Data Conversion and/or Migration activity is considered.

2.6 Documentation Requirements

The Supplier MUST prepare and provide the following Documentation.

2.5.1 End-User Documents: User Manual

2.5.2 Technical Documents:

- System Architecture and Design Documents:
 - High-Level Architecture: An overview of the system's architecture, including components, modules, and their interactions.
 - Detailed Design: In-depth descriptions of each component/module, including their functions, interfaces, data flows, and dependencies.
- Technical Data Sheet
- Solution Documentation of the Tools as a Service (TaaS)
- Installation and Setup Guides:
 - Hardware and Software Requirements: Specify the hardware, operating systems, databases, frameworks, and other software needed for the system to run.
 - Installation Steps: Step-by-step instructions for installing and configuring the system on various environments.
- Configuration and Customization Guides:
 - Configuration Options: Explain the system's configurable parameters and settings, along with their impact on behavior.
 - Customization Guidelines: Instructions for making customizations or modifications to suit specific needs.
- Operational Manual (Entire System)
- Troubleshooting Guide
- Compatibility and Interoperability Guide
- OEM certification after installation verifying the supply of software from an authorized source for the territory of Bangladesh

Note: All technical documents must be written in English and should be drafted in a simple and comprehensible manner.

2.7 Requirements of the Supplier’s Technical Team

2.7.1 The Supplier MUST maintain a technical team of the following roles and skill levels during the Supply and Installation Activities under the Contract:

2.7.1.1 Project Manager and Team Leader (1 person): 5 years experience in project management, with a broad experience in IT projects, including software testing, ITSM, performance testing, security, and DevOps.

2.7.1.2 Security Specialist (1 person): 5 years in cybersecurity, skilled in vulnerability scanning, application security testing, and privileged session management.

2.7.1.3 Training and Documentation Specialist (1 person): 3 years in technical training and documentation, essential for user training and process documentation across various tools.

D. TECHNOLOGY SPECIFICATIONS – SUPPLY & INSTALL ITEMS

3.0 General Technical Requirements

General Technical Requirements

3.0.1 Language Support: All information technologies must provide support for the English language.

3.0.2 Tools as a Service (TaaS) Specifications

Tools specifications are provided in 3.1

3.0.3 Consumables: No consumables are considered under this bidding document:

3.1 Detailed Technical Specifications and Requirements

3.1.1 : Tools as a Service (TaaS) for NDC

3.1.1.1 UI Testing

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features, please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Workflow Management	The prospective software should embody the following essential features and capabilities as we intend to deploy a comprehensive solution that not only meets our current needs but is also scalable for future requirements.
5.	Service Request Management	<ol style="list-style-type: none"> 1. Automated UI Testing Mechanism: Automate UI tests to ensure they are scalable, robust, and easy to maintain across over 500 controls, thus providing a sturdy foundation for our testing ecosystem. 2. GUI Object Recognition: Accurately identify dynamic UI elements leveraging both property-based and AI-powered visual recognition, ensuring precise interaction and validation during testing. 3. Data-Driven Testing Framework: Facilitate the separation of data from test commands for ease of maintenance and support the execution of tests with varying sets of input data to augment test coverage. 4. Automated Test Reporting & Analysis: Obtain real-time information on test progress and status from a single interface, and ensure seamless

Sl.	Feature	Requirement of Purchaser
		<p>integration with popular defect tracking tools for a holistic testing analysis.</p> <p>5. Keyword-Driven Testing Capability: Enable easy separation of test steps, objects, actions, and data, allowing team members to contribute to test automation without necessitating programming knowledge.</p> <p>6. Continuous Testing for DevOps: Support continuous testing within a DevOps environment to ensure rapid feedback and early detection of issues, fostering a culture of continual improvement.</p> <p>7. Web and Mobile Testing Scalability with BitBar: Scale testing efforts across web and mobile platforms to ensure comprehensive coverage and quality assurance across diverse digital touchpoints.</p> <p>8. Parallel Testing Execution: Execute tests in parallel to expedite the testing process and deliver faster feedback, aiding in quicker iterations and releases.</p> <p>9. Behavior-Driven Development (BDD) Support: Support BDD to ensure that development aligns with desired behaviors and outcomes, fostering a collaborative development and testing environment.</p> <p>10. Centralized UI Test Management: Centralize the management of all UI tests for better organization, efficiency, and oversight of the testing processes.</p> <p>11. Script less Record and Replay Functionality: Utilize scripless record and replay functionality to easily create</p>

Sl.	Feature	Requirement of Purchaser
		<p>automated UI tests across a wide spectrum of applications, promoting ease of use and rapid test generation.</p> <p>12. Dynamic UI Elements Identification: Save time in test creation and maintenance by accurately identifying dynamic UI elements, ensuring up-to-date and relevant test cases.</p> <p>13. Single Repository Object Management: Manage objects in a single repository, set up locally or shared depending on needs, ensuring organized and easily accessible object management.</p> <p>14. Real-Time Test Progress Monitoring: Get real-time updates on the progress and status of tests from a unified interface, enabling timely analysis and decision-making.</p> <p>15. Defect Tracking Integration: Ensure easy integration with defect tracking tools like Jira and Bugzilla for instant feedback and continuous learning, promoting a culture of continual improvement.</p> <p>16. No Programming Language Requirement: Create automated functional UI tests without any programming language, handling complex scenarios efficiently and enabling broader team participation.</p> <p>17. Unwanted Windows Handling: Handle unwanted windows in testing scenarios effectively to ensure accurate testing outcomes and a smooth testing experience.</p>

Sl.	Feature	Requirement of Purchaser
		18. Database Information Access: Access database information within testing scenarios to ensure comprehensive testing coverage, promoting a thorough validation of all interactions and data transactions.
6.	License	10 users with floated license
7.	Support	3 years

Unofficially Copy

3.1.1.2 IT Service Management Software

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple product is offered for all the feature please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Workflow Management	Codeless user defined and process based workflow configuration and management
5.	Service Request Management	<ol style="list-style-type: none"> 1. Self-Service Portals Capability: The software should enable Self-Service Portals, allowing users to easily submit requests and find the services they need. 2. AI-Powered Virtual Agent Capability: The AI-Powered Virtual Agent should be a feature to enhance self-service experiences through automated workflows and mobile capabilities. 3. Service Catalog Builder Capability: The Service Catalog Builder is a necessary feature for creating a service catalog, where products and services are made discoverable via self-service, enriched by a visual guided design experience. 4. Native Mobile App Capability: A Native Mobile App capability should be present, enabling the management of requests and collaboration on the go with real-time notifications and immediate action capabilities. 5. Embedded Experiences Capability: Embedded Experiences should allow for the integration with collaboration tools already in use by teams to support user-friendly requests. 6. Unified Service Center Capability: The Unified Service Center should facilitate requesting services from different departments like IT, HR, and more in one place, with relevant information and easy collaboration. 7. Graphical Workflow Capability: Graphical Workflow is a feature that should facilitate designing drag-and-drop request workflows and differentiating catalog items with built-in automation.

Sl.	Feature	Requirement of Purchaser
		<p>8. Service Level Agreements (SLAs) Capability: The software should have a capability for understanding and adhering to all SLAs for requested services to ensure commitments are met.</p> <p>9. Single-pane Agent View Capability: Single-pane Agent View should provide agents with a centralized location to respond to user needs with access to the Service Catalog from the Agent Workspace.</p> <p>10. Quick and Easy Approvals Capability: Quick and Easy Approvals should expedite request processes and minimize delays with approvals via email, virtual agent, or mobile.</p> <p>11. Two-way Notifications Capability: Two-way Notifications should encourage transparency and expedite Mean Time to Resolution (MTTR) with automatic notifications.</p> <p>12. Reports and Dashboards Capability: Reports and Dashboards should enable measuring service levels and driving continual improvement with built-in metrics and surveys.</p>
6.	Incident Management	<p>1. Major Incident Management Capability: The software should incorporate Major Incident Management, utilizing embedded, proven practice workflows to identify, track, and resolve high-impact incidents.</p> <p>2. Single-pane Agent View Capability: It should feature a Single-pane Agent View, providing agents with a consolidated view of necessary information to prioritize and resolve issues quickly, enhanced with AI recommendations.</p> <p>3. AI-Powered Insight Capability: AI-Powered Insight should be a core capability, accelerating incident resolution through built-in machine learning and contextual help, aimed at eliminating bottlenecks.</p> <p>4. Native Mobile App Capability: A Native Mobile App should offer a mobile interface for IT agents to triage, address, and resolve incidents or requests on the move.</p> <p>5. AIOps Integration Capability: The software should include AIOps Integration, aiding in reducing incidents and</p>

Sl.	Feature	Requirement of Purchaser
		<p>the Mean Time to Resolution (MTTR) by eliminating noise, prioritizing, and remediating issues.</p> <ol style="list-style-type: none"> 6. Omni-channel Notifications Capability: Omni-channel Notifications should allow employees to submit incidents through various channels including a self-service portal, chatbot, email, phone, or mobile. 7. Incident Response Playbook Capability: The Incident Response Playbook should provide a task-oriented view of incident resolution workflows to automate manual steps. 8. On-call Scheduling Capability: On-call Scheduling should ensure 24-hour support by using a single-pane view to automatically escalate incidents to the correct teams. 9. Visual Task Boards Capability: Visual Task Boards should facilitate team collaboration through intuitive, Kanban-style boards. 10. Single System of Record Capability: The Single System of Record should help in understanding the impact of incidents, problems, and change requests with a consolidated system of record. 11. Calculated Priority Capability: Calculated Priority should manage high and low-priority work by addressing incidents based on impact and urgency. 12. Guided Setup Capability: Guided Setup should streamline the setup and deployment of Incident Management with simple steps, embedded help, and visual status checks. 13. Automated Test Framework Capability: The Automated Test Framework should facilitate easy upgrades with an out-of-the-box testing framework, allowing admins to create and maintain tests to run on various applications, even with different sets of data or UI pages that are part of the Now Platform
7.	Problem Management	<ol style="list-style-type: none"> 1. Single System of Record Capability: The software should feature a Single System of Record, allowing for the identification and addressing of potential failure points, and determining issue impact all in a consolidated place.

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> <li data-bbox="607 268 1419 436">2. Contextual Knowledge Capability: Contextual Knowledge should speed up resolution, minimize impact, and reduce disruptions by enabling the publishing of solutions and workarounds. <li data-bbox="607 443 1419 569">3. Remediation Plans Capability: Remediation Plans should reduce future disruptions from repeat incidents by providing IT the means to halt issues at their source. <li data-bbox="607 575 1419 743">4. Out-of-the-box Best Practices Capability: Out-of-the-box Best Practices should support and manage six states: New, Assess, Root Cause Analysis, Fix in Progress, Resolved, Closed, aiding in structured incident management. <li data-bbox="607 749 1419 917">5. Automated Notifications Capability: Automated Notifications should heighten transparency and foster effective collaboration by sharing updates with service subscribers. <li data-bbox="607 924 1419 1092">6. Reports and Dashboards Capability: The software should provide operational transparency through role-based dashboards for problem managers and coordinators via the Reports and Dashboards capability. <li data-bbox="607 1098 1419 1224">7. Real-time Analytics Capability: Real-time Analytics should identify and remediate abnormal patterns and trends before they escalate into problems. <li data-bbox="607 1230 1419 1398">8. Root Cause Analysis Capability: Root Cause Analysis should thoroughly investigate and diagnose the underlying problems responsible for recurring incidents, promoting effective problem resolution. <li data-bbox="607 1404 1419 1614">9. Known Error Database Capability: Maintaining a comprehensive repository of documented problems and their corresponding solutions should be enabled by the Known Error Database, facilitating quicker incident resolution through easy access to proven remedies. <li data-bbox="607 1621 1419 1789">10. Change Coordination Capability: Change Coordination should implement controlled changes to prevent future incidents, ensuring that any modifications are carried out with minimal disruption to ongoing operations. <li data-bbox="607 1795 1419 1879">11. Proactive Analysis Capability: Proactive Analysis should utilize built-in dashboards to proactively analyze service

Sl.	Feature	Requirement of Purchaser
		<p>performance and configurations, thereby minimizing service disruptions.</p> <p>12. Accelerated Root Cause Resolution Capability: Accelerated Root Cause Resolution should hasten service restoration by granting immediate visibility into known errors and workarounds, thus accelerating the resolution of root causes.</p>
8.	Change Management	<ol style="list-style-type: none"> 1. Multimodal Change Capability: The software should offer Multimodal Change, customizing change activities and workflows per specific use cases, allowing change managers to tailor change processes to meet varying needs. 2. Change Success Score Capability: The Change Success Score should utilize a numeric score to automate approvals for low-risk changes and evaluate the probability of success. 3. Change Approval Policies Capability: Change Approval Policies should dynamically generate approvals based on individual business requirements, assisting change teams in balancing velocity, stability, and compliance. 4. Risk Intelligence Capability: Risk Intelligence should apply machine learning similarity algorithms and classification for data-driven risk predictions, aiding in built-in risk assessment and enhancing risk-assessment effectiveness. 5. Conflict Scheduling Capability: Conflict Scheduling should avoid potential conflicts by selecting available dates and times from a consolidated view, and identify and resolve scheduling conflicts based on configuration items. 6. Concurrent Change Management Capability: Concurrent Change Management should allow viewing of planned changes, blackouts, and maintenance schedules using an interactive timeline calendar, facilitating better planning and coordination. 7. Single System of Record Capability: The Single System of Record should aid in understanding the impact of changes and release plans by viewing configuration items

Sl.	Feature	Requirement of Purchaser
		<p>and connected services in one consolidated system of record.</p> <p>8. Guided Setup Capability: Guided Setup should deploy Change Management in a streamlined manner with simple steps, embedded help, and visual status checks.</p> <p>9. CAB Workbench Capability: The CAB Workbench should run efficient Change Advisory Board meetings to obtain guidance on proposed high-risk changes, and create strategies for guidance, assessment, and potential failed changes.</p> <p>10. Standard, Emergency, or Normal Change Classification Capability: The software should classify all changes as either standard, emergency, or normal, with a heavy reliance on automation wherever possible to ensure smooth transitions from conceptualization to closure.</p> <p>11. Improved Compliance Capability: Improved Compliance should ensure changes align with organizational policies, procedures, and regulatory requirements, aiding in meeting compliance standards, avoiding expensive penalties, and maintaining accountability.</p>
9.	Knowledge Management	<ol style="list-style-type: none"> 1. Feature to create, maintain, share and use knowledge articles based on category 2. Integration of knowledge management with Incident and Problem Management 3. Can be shareable to customer to enable self-service support or can be used internally by service desk engineers based on the type of knowledge 4. Knowledge has to searchable with free text or with category and sub-category
10.	Configuration Management	<ol style="list-style-type: none"> 1. Centralized CMDB Tooling: <ul style="list-style-type: none"> • The software should facilitate natural language search within the CMDB, ensuring ease of use and effective data retrieval. • Should provide capabilities to attest the health and track the activity within the CMDB, delivering real-time insights into the system’s state.

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 2. Service Graph Connectors: The solution should possess the capability to harmonize external data swiftly and effortlessly from pivotal IT systems into the CMDB. 3. Data Acquisition: Should support both agentless and agent-based discovery, alongside Service Graph Connectors, to enrich the CMDB’s data pool. 4. Single System of Record: We anticipate the software to efficiently manage and orchestrate the system, presenting an organized view of configuration data and interrelations between components. 5. CMDB Health Monitoring: Should possess the capability to continually monitor and maintain the health of the CMDB ensuring data accuracy and reliability. 6. Identification and Reconciliation: The software should proactively identify and reconcile data discrepancies to uphold an accurate CMDB. 7. Lifecycle Management: Should enable the management of configuration items (CIs) lifecycles within the CMDB. 8. Baseline Management: Should support the establishment and management of baselines to chronicle changes and sustain the CMDB’s integrity over time. 9. Cost Efficiency: By enhancing visibility into our environment through a well-configured CMDB, the solution should contribute to reducing IT costs and improving service performance. 10. Discovery Simplification: Should simplify the data population process ensuring it's current and reliable using Discovery. 11. End-to-End Visibility: Should grant comprehensive visibility across all assets and their dependencies within our environment. 12. Business Impact Analysis Acceleration: Should aid in expediting business impact analysis, averting service outages, and refining incident and change management processes.

Sl.	Feature	Requirement of Purchaser
		<p>13. CloudOps Data Platform: The CMDB should evolve as the data platform for CloudOps, accommodating various IT Ops business use cases.</p> <p>14. Serverless Functions Discovery: Should fully support the discovery of serverless functions like Lambda and Azure within the Discovery framework.</p> <p>15. Cloud Discovery Setup: Should enable Cloud Discovery setup, visualization of results, and opt-in for the Store application to receive monthly updates on new pattern content.</p> <p>16. Automated IT Discovery: Should leverage automated IT discovery for high-quality CMDB data, facilitating periodic scanning for up-to-date information.</p> <p>17. Real-time Monitoring: Should endorse real-time monitoring and issue prediction to efficiently meet business needs.</p> <p>18. Multi-Cloud Visibility: Should provide visibility into multi-cloud environments, bolstering the management of cloud resources and services.</p> <p>19. Discovery Framework Support: Should leverage the Discovery framework to fully support various discovery tasks and maintain an accurate, updated CMDB</p>
11.	Service Level Management	<ol style="list-style-type: none"> 1. Ability to configure service level management for teams and process 2. SLM Dashboard 3. Ability to prioritize tasks, check statuses, reassign ownership, escalate issues, and manage SLAs
12.	Reporting	<ol style="list-style-type: none"> 1. Reporting Dashboard, Creation of custom dashboard 2. Ability to design custom report based on KPIs, Process, team, SLM 3. Scheduling generation of report with key decision data and sending via email to top management 4. Report export capability as CSV/PDF/HTML
13.	Integration Support	<ol style="list-style-type: none"> 1. Must be able to integrate with Active Directory, openLDAP, SMTP for sending emails, POP/IMAP for pulling email and create SR and Incident, Slack or Mattermost

Sl.	Feature	Requirement of Purchaser
14.	MFA	1. Must support MFA with authenticator (TOTP) for users
15.	Mobile App/Agent	1. Must have mobile app/agent to connect on-prem IT management SW.
16.	Compatibility	1. The solution must be compatible with ITIL and ISO 20000 for incident, service request fulfillment, change management, and asset management.
17.	License	1. Unlimited Router & Administrator Management User
18.	Support	3 years

3.1.1.3 Performance Test Tool

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Performance Testing Capabilities	<ol style="list-style-type: none"> 1. Proposed solution should support testing a wide range of application technologies and should be able to simulate lakhs of users and provide the results and analysis 2. Performance testing solution should be capable of testing Web/API and mobile applications. 3. Should allow selection of different network bandwidth and mobile network conditions 4. Performance testing tool should also provide a report to identify bottlenecks and finetune the applications 5. Tool Should have out of the box (OOTB) integration to APM Tools (like Dynatrace, AppDynamics, New Relic) 6. Should support IP Spoofing of Virtual Users to test load balancing algorithms 7. Tool should provide capability to record and replay functionality (including automated correlation) from client application 8. Should enable creation of data-driven tests without any programmatic effort 9. Should be able to generate following reports and shared for analysis: Transaction Response Time, Transaction per Second (Passed), Transaction per Second (Failed), Web Transaction breakdown Graphs, Hits per Second, Throughput, HTTP Responses per Second, Pages Downloaded per Second, System infrastructure performance metrics 10. Should use a suite of integrated performance monitors to quickly isolate system bottlenecks without having to install any data capturing agents on the monitored servers/components within the systems architecture.

Sl.	Feature	Requirement of Purchaser
a.	Integration and Cloud Support	<ol style="list-style-type: none"> 1. Proposed solution should be a industry standard/leading tool and should be listed in either World quality report or Giga Om Radar 2. Performance testing solution should have integrations with AWS/AZURE/Google cloud to test application on geo locations and run heavy user loads as well 3. Should have out of the box (OOTB) integration with a Service virtualization solution, that allows configuration and deployment of Virtual services from inside the load testing tool.
b.	Test Management and Collaboration	<ol style="list-style-type: none"> 1. Tool should provide capability to load test multiple performance test runs parallely with a central repository to store scripts, results.
c.	User’s license	300
d.	Support	3 years

3.1.1.4 Vulnerability Scanner Software Tool

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Product Capabilities - Manual Penetration Testing	<ol style="list-style-type: none"> 1. Capability to intercept and modify every HTTP/HTTPS message passing through its built-in browser. 2. Quick assessment of target applications through auto-enumeration of static and dynamic URLs, and URL parameters. 3. Granular workflow acceleration by modifying and reissuing individual HTTP and WebSocket messages, and analyzing the responses within a single window. 4. Recon data management with aggregated target data stored in a target site map, equipped with filtering and annotation functions. 5. Uncovering hidden attack surfaces with an advanced automatic discovery function for "invisible" content. 6. Effective handling of secure HTTPS traffic using instrumented browsers. 7. Support for HTTP/2-based testing, allowing work with HTTP/2 requests in ways other tools cannot. 8. Manual testing for out-of-band vulnerabilities using a dedicated client with the inclusion of OAST capabilities. 9. DOM XSS vulnerability testing facilitated by built-in browsers using DOM Invader. 10. Token strength assessment to test the quality of randomness in data items intended to be unpredictable.

Sl.	Feature	Requirement of Purchaser
5.	Product Capabilities - Advanced/Custom Automated Attacks	<ol style="list-style-type: none"> 1. Deployment of custom sequences of HTTP requests containing multiple payload sets for faster brute-forcing and fuzzing. 2. Capturing automated attack results in customized tables, then filtering and annotating to find interesting entries/improve subsequent attacks. 3. Generation of CSRF proof-of-concept attacks easily by selecting any suitable request to generate exploit HTML. 4. Facilitation of deeper manual testing by seeing reflected/stored inputs even when a bug is not confirmed, aiding in testing for issues like XSS. 5. Employing pioneering, friction-free, out-of-band-application security testing (OAST) technology for high signal, low noise scanning.
6.	Specialized Testing Modules	<ol style="list-style-type: none"> 1. Intruder Module: Capability for automated or semi-automated security assessments with customizable attack simulations. 2. Sequencer Tool: Assessing the quality of randomness and predicting session tokens to ensure secure session management. 3. Repeater Tool: Facilitating the ability to manually resend individual requests, modify them, and analyze the responses. 4. Comparer Tool: Enabling the comparison of responses or other data to aid in security analysis.
7.	Efficiency and Effectiveness	<ol style="list-style-type: none"> 1. Automated Web Scanning: Accelerate the vulnerability discovery process by utilizing automated web scanning capabilities. 2. Automated HTTP Message Modification: Settings to automatically modify responses with match and replace rules for both responses and requests.

Sl.	Feature	Requirement of Purchaser
		3. Passive and Active Scanning: Options to passively scan every request made or perform active scans on specific URLs.
8.	Extensibility	<ol style="list-style-type: none"> 1. BApp Extensions: Over 250 free curated extensions available from the BApp Store for specialized testing needs. 2. Custom Wordlist and Thread Management: Enhancing attack simulations with custom wordlists and efficient thread management.
9.	User Interface and Experience	<ol style="list-style-type: none"> 1. Targeted Scanning: Selective scanning capabilities for focused analysis and resource optimization. 2. Project File Management: Saving all work done during an engagement to facilitate easier report writing post-engagement and ensure no loss of crucial data during testing. 3. Search Functionality: Quick search across all open items for specific references, supporting regex searching, and dynamic updating of search results.
10.	Integration and Deployment	<ol style="list-style-type: none"> 1. Integration with Existing Systems: Information on how system can integrate with existing systems and the ease of deployment. 2. Collaborative Testing: Extensible features that allow for collaborative testing to enhance the overall security assessment process.
11.	Support and Updates	<ol style="list-style-type: none"> 1. Regular Software Updates: Frequency of product updates, bug fixes, and the addition of new features to enhance user experience. 2. Support Services: Description of available service and support for Professional users.
12.	Users	10
13.	Support	3 years

3.1.1.5 Application Security Testing Tool

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Static Application Security Testing (SAST)	<ol style="list-style-type: none"> 1. The solution must be able to perform source code scanning and pinpoint the root cause of software security vulnerabilities 2. The solution must be able to integrate with SDLC to perform Code Review checks at the time of development 3. The solution must be able to integrate with our code repositories and with common IDEs such as Eclipse, Visual Studio, WebStorm, PyCharm, Android Studio and IntelliJ for source code analysis and/or vulnerabilities remediation. 4. The solution must be able to analyze a wide array of programming languages including Java, .Net, C/C++, Objective-C, Android, PHP, COBOL, Ruby, Swift, HTML 5, Scala, APEX, TypeScript, Go, Kotlin and ABAP etc but not limited to these alone 5. The solution must be able to detect different categories of security vulnerabilities per language 6. The solution must support a variety of operating systems: Windows, Linux, MacOS 7. The solution must be able to operate in both distributed (i.e., without requiring connection to a server) and centralized modes 8. The solution must offer the flexibility to begin, continue and end a scan locally without requiring connection to a centralized server 9. The solution must have regular (at least quarterly) updates to its vulnerability/rule’s knowledgebase 10. The solution must provide the capability to create custom checks via a wizard 11. Custom checks created must be in an easily understood format, e.g., XML

Sl.	Feature	Requirement of Purchaser
		<p>12. Existing custom checks must continue to work without any additional effort when there is a version upgrade</p> <p>13. The solution must support a variety of static analysis techniques including multi-tier multi-language data flow analysis, global control flow analysis, programmatic structural analysis, semantic analysis</p> <p>14. The solution must support automated invocation of source code scans and vulnerability data report generation through integration with the application build process.</p> <p>15. The solution shall provide a default prioritization of vulnerabilities according to severity and risk but offers the flexibility to change the prioritization easily according to organizational needs.</p> <p>16. The solution must report vulnerabilities that have been fixed, newly introduced, or continue to exist across multiple scans.</p> <p>17. Any issue marked as a false positive or suppressed automatically retains the status in the next scan</p> <p>18. The solution shall maintain knowledge of vulnerabilities within code bases. Vulnerabilities found should not be tagged to LOC (line of code) position within the source codes, to avoid the loss of history should there be insertion of new codes</p> <p>19. The solution shall maintain local audit information & issue suppressions between scans without requiring database connectivity</p> <p>20. The solution allows the user to “drill down” to and “trace through” the suspect source code and show the root cause and supporting evidence of vulnerability in textual and pictorial formats.</p> <p>21. The solution must provide vulnerability explanation and fix recommendations to the developer during the vulnerability remediation process, including line-of-code details and descriptions on how to remediate each vulnerability, and in the correct programming language.</p> <p>22. The solution supports collaborative auditing where multiple auditors can work on the same scan result and audit the scan at the same time through a common user interface.</p>

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 23. The solution has the capability to generate out-of-the-box and custom reports such as high-level executive analysis summaries and low-level (detailed) technical reports. 24. The solution must support separation of the code translation and analysis phases, which may be run on different machines. This allows the offloading of complex CPU and IO intensive codebase parsing off the developers’ workstation, application servers, or version management servers and onto dedicated analysis appliances or servers. 25. The solution shall integrate into a web management console, to be correlated with security vulnerabilities found from dynamic Security testing solution 26. Solution should support Machine learning and Analysis based on the archived results 27. Solution should provide Immediate identification of the vulnerability in the Eclipse and VS IDEs while developer is typing the code 28. The solution must have Security Assistant feature to quickly identify and alert on potential security issues as developers write their code 29. The solution should be able to perform scan offline (translate in one machine and scan in another) 30. Solution should support Out of the Box integration capabilities with dev-ops supporting multiple Build environments - Jenkins, Maven, ANT, Bamboo, XCode Build, MS Build, Gradle etc.
5.	Dynamic Application Security Testing (DAST)	<ol style="list-style-type: none"> 1. The solution should have capability to scan web, mobile as well as thick client applications. 2. The solution should be capable of performing scans on internal as well as external applications. 3. The solution should be capable of automating / schedule scans. 4. The solution should be capable of performing Black box as well as Grey box testing. 5. The solution shall support simultaneous Crawl & Audit during scans. 6. The solution shall allow for multiple concurrent scans.

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 7. The solution shall provide a built-in scan profiler to assist in tuning the scan configuration to a target server to improve the effectiveness and accuracy of the scan. 8. The solution allows for real-time review and investigation of vulnerabilities found while a test is still in progress. 9. The solution offers the capability to pause a scan for continuation later without the loss of data. 10. The solution offers the capability to schedule a single or multiple recurring scans in advance. 11. The solution has the capability to maintain false positive tags across scans 12. The solution supports Web Services security testing. 13. The solution provides REST/URL Rewriting (Variable) detection and support. 14. The solutions allow custom checks to be added 15. The solution comes with an array of out-of-the-box scan policies and all major compliance reports which may be further added to and customized. 16. The solution provides the ability to compare and report on two different scans to enable a delta analysis, including a visual representation of vulnerability differences between the two scans and the ability to drill-down into the differences. 17. The solution allows for a re-run of the entire scan with the same settings 18. The solution provides a shortcut to quickly re-test all vulnerabilities 19. The solution provides automatic vulnerability signature updates via the internet. Updates may also be performed manually for offline machines. 20. The solution integrates with a defect-tracking system for easy creation of defects from within the solution itself. 21. The solution must support deployment on premises. 22. The solution has the capability to export scan data for upload to a web management console, to be correlated with security vulnerabilities found from static and interactive time testing. This offers a holistic view of the security status of applications and projects within an enterprise.

Sl.	Feature	Requirement of Purchaser
		<p>23. The solution shall have the ability to feed details of vulnerabilities found during a scan into Web Application Firewall and/or Intrusion Prevention Systems to block potential application exploits</p> <p>24. The proposed solution must be able to record macros against Web 2.0 applications</p> <p>25. The solution integrates and works out-of-the-box with a real-time application security technology within Java and .NET servers to:</p> <ul style="list-style-type: none"> ● Gather internal, code-level vulnerability information by observing the attacks in the code as they happen in real-time. ● Inspect parts of the application that it may not find through normal crawling. ● Collect information about the internal behaviors of a target application during dynamic tests. ● Detects new types of vulnerabilities, e.g., privacy violation and log fogging. ● Provide stack trace and line-of-code detail during dynamic web application scanning. <p>26. Must support CAPTCHA/OTP/Composite Login process configuration in the proposed solution.</p> <p>27. Skip an attack while the scan is in progress.</p> <p>28. Solution should support Swagger API Scan.</p> <p>29. Solution should support Integration with other pen-testing tools, BURP and Postman can be integrated</p> <p>30. View the actual attack during a scan session.</p> <p>31. Solution should generate rules to send to WAF.</p> <p>32. The solution should also come with the Interactive Application Security Testing feature.</p> <p>33. Integration with tools like POSTMAN and BURP.</p> <p>34. Solution should support scanning only the vulnerabilities from previous scan, scan incremental, scan crawl and Audit from previous configurations</p> <p>35. Solution should have the REST API to initiate/pause/stop/ scans and for various other functionalities</p> <p>36. Should be able to scan and test a wide breadth of application security vulnerabilities.</p>

Sl.	Feature	Requirement of Purchaser
		<p>37. Should employ the latest algorithms and techniques to ensure the most accurate testing and minimize false positives.</p> <p>38. The solution must be capable to generate report in following format:</p> <ul style="list-style-type: none">● The Title.● The Location (URL and/or line of code).● Specific vulnerability description.● Risk likelihood, business impact, and severity.● Code snippets.● Specific remediation recommendations.
6.	User	Single License for all the users
7.	Support	3 years

3.1.1.6 Privileged Session Manager

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Access Control and Management	<ol style="list-style-type: none"> 1. Demonstrates capabilities in centralizing access control, crucial for RFPs requiring consolidated access management. 2. Proves efficiency in managing multiple remote sessions from a single console, meeting RFP requirements for streamlined management. 3. Showcases strong authentication mechanisms, aligning with RFPs mandating robust security measures. 4. Exhibits capabilities in automating user group imports and custom role creations, essential for RFPs focused on user management efficiency. 5. Provides a request-release mechanism, crucial for RFPs requiring granular access control and approval workflows. 6. Integrates with help desk systems for ticket validation, demonstrating workflow enhancement capabilities necessary for certain RFPs. 7. Offers simplified connectivity to remote data centers, showcasing capabilities essential for RFPs demanding reliable remote access. 8. Provides one-click access to remote sessions, aligning with RFPs requiring user-friendly remote access solutions. 9. Supports seamless integration of remote applications, meeting RFP requirements for remote application access. 10. Features secure file transfer capabilities, crucial for RFPs mandating secure data transmission.
5.	Audit and Compliance	<ol style="list-style-type: none"> 1. Records privileged sessions securely, demonstrating audit trail capabilities required in many RFPs.

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 2. Offers live monitoring and collaboration, meeting RFP requirements for real-time oversight and control. 3. Provides detailed audit trails, crucial for RFPs demanding compliance with regulatory standards. 4. Features session shadowing for real-time anomaly detection, aligning with RFPs requiring proactive security measures. 5. Archives recorded sessions for forensic investigations, showcasing security assurance capabilities necessary for certain RFPs. 6. Supports compliance audits through detailed logging and reporting, meeting RFP requirements for regulatory adherence. 7. Regulates access through secure channels, demonstrating protected access capabilities as required in RFPs. 8. Features session playback, showcasing review and analysis capabilities necessary for certain RFPs. 9. Provides session archiving, meeting RFP requirements for long-term data retention. 10. Auto-detects anomalies in privileged account activities, aligning with RFPs requiring advanced security analytic
6.	Users	100
7.	Support	3 years

3.1.1.7 Self-Service Password Management and Identity Verification Solution

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the proposer, if multiple products is offered for all the features, please mention all of them
2.	Country of Origin	To be mentioned by the proposer
3.	Solution Type	N/A
4.	Self-Service Password Management	<ol style="list-style-type: none"> 1. The product should enable self-service password reset functionality, empowering users to reset their passwords autonomously. 2. The software should provide self-service account unlock capabilities, allowing users to unlock their accounts independently. 3. The product should allow cached credentials updates, ensuring a seamless user experience even in disconnected network scenarios. 4. The solution should enable password self-service from logon screens, facilitating easy password resets and account unlocks. 5. The product should provide mobile password management, allowing users to manage their passwords on the go.
5.	Password Policy Management	<ol style="list-style-type: none"> 1. The solution should enforce password policy compliance, adhering to organizational password standards and security policies. 2. The software should uphold password security and compliance standards, adhering to regulatory and organizational requirements. 3. The solution should facilitate Active Directory password audits, providing insights into the strength and security of passwords.
6.	Multi-Factor Authentication (MFA)	<ol style="list-style-type: none"> 1. The software should support password synchronization across multiple systems, promoting uniformity and reducing password fatigue. 2. The product should support Active Directory Multi-Factor Authentication (MFA), enhancing security during logon processes.

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 3. The product should provide two-factor authentication, adding an additional layer of security during logins. 4. The software should support endpoint MFA, securing access from various endpoints. 5. The solution should facilitate MFA for remote and local Windows, macOS, and Linux logons, ensuring secure access across different operating systems. 6. The product should support MFA for VPN and OWA logons, securing remote access to organizational resources. 7. The software should provide offline MFA, ensuring secure access even without network connectivity.
7.	Password Management and Notifications	<ol style="list-style-type: none"> 1. The solution should facilitate web-based domain password changes, ensuring easy password modifications through a web interface. 2. The product should deliver password expiration notifications, alerting users in advance about upcoming password expirations. 3. The software should offer comprehensive reporting and auditing features, tracking self-service operations and promoting accountability. 4. The software should implement conditional access policies, ensuring secure and controlled access to resources. 5. The solution should offer passwordless authentication, facilitating secure and convenient user access.
8.	Users	Initially, support for 100, with the potential to scale up to 500.
9.	Support	3 years

3.1.1.8 Container Registry

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the prosper, if multiple products is offered for all the features please mention all of them
2.	Solution Type	On premise Self-hosted
3.	Feature	<ol style="list-style-type: none"> 1. The solution must have feature to push container images, build/binaries, packages, files, components of different types and pull/deploy them in different environments specifically in k8s cluster as and when needed 2. The solution shall work as single source of truth for DevOps operation 3. The solution must be able to capture standard and customizable metadata properties for better insights and policy enforcement 4. Store and/or proxy package & file types natively supported in the repository manager 5. Native integrations with every major build, security & deployment tool with robust API and CLI to automate 6. Must be able to host containers, IaC, and helm charts for k8s registry 7. The binary lifecycle management has to be automated and in control fashion 8. Must have in built security feature for scanning images and binaries
4.	High Availability	<ol style="list-style-type: none"> 1. Must support active/active high availability setup for both read and writes. Must support distributed development teams, multi-Pull and multi-Push via scheduled and event-based replication.
5.	Supported Software Package Types	<ol style="list-style-type: none"> 1. Must support a minimum 20 package repository including php, maven, npm, gradle, go, ruby, python, nuget, rpm, debian, android, vscode, etc.
6.	Container Registry	<ol style="list-style-type: none"> 1. Must have support for advanced registry for OCI/Docker compliant containers.
7.	Repository Feature	<ol style="list-style-type: none"> 1. Must have local, remote and virtual repository for greater flexibility, must provide automated mirroring of artifacts and their metadata with other repositories

Sl.	Feature	Requirement of Purchaser
		of an associated federation located on remote site in a multisite environment.
8.	Object Storage Support	1. Must support S3 compatible object storage for storing artefacts
9.	Caching Support	1. Must be able to cache all pulled dependencies for faster, more reliable builds and version control.
10.	Webhook Support	1. Must be able to integrate the solution to trigger events to other systems and applications for notification and actions, e.g. build promotion.
11.	Integration Support	1. The solution must be able to integrate with other DevOps & CICD tools like Git/Gitlab, ArgoCD, Bamboo, Teamcity CI, Jenkins, Travis CI, Helm Charts, Openshift etc. The solution shall also support integration with any k8s implementation including Nutanix Kubernetes Engine.
12.	Security Feature	<ol style="list-style-type: none"> 1. Must have native security features for reducing software supply chain risks. 2. Centralize visibility and control of 3rd party packages to protect against known and unknown threats. 3. Must be able to examine the CVE applicability for the artifacts entering into the repository 4. Must have shift left approach to block unwanted dependencies at the entry point of software supply chain 5. The solution must support automated vulnerability scanning of container images and binaries 6. The solution must have a comprehensive vulnerability database integrating vulnerability data from different sources like NVD, VulnDB, Ubuntu, Debian, Red Hat, PHP and from native sources to discover and eliminate malicious packages. 7. The solution must have Static Application Security Testing (SAST) and Software Composition Analysis (SCA) features to scan source code for zero-day security vulnerabilities to fix before build time. 8. The solution must be able to scan AI/ML models to protect against known and unknown threats Secure Infrastructure as Code (IaC) files stored in

Sl.	Feature	Requirement of Purchaser
		<p>repository for early detection of misconfigurations that might be exploitable.</p> <p>9. The solution must be able to detect secrets left exposed in any containers stored in the repository to prevent from accidental leak of internal tokens or credentials.</p> <p>10. The solution must be able to detect configuration issues, security malpractices, and insecure usage of popular OSS libraries related to application frameworks.</p>
13.	Authentication Technology	1. Must support integration with authentication technologies like OAuth, SAML and LDAP.
14.	Installation & Commissioning	1. OEM must be engaged in providing remote support for the installation and commissioning of the tools by delivering necessary installation guides, software and other materials.
15.	License/Subscription & Support	1. Must support unlimited users with 3 years of subscriptions and support (24x7x365) for all tools offered. The license must include at least one annual health check of the configurations. Users/Licenses 10.

3.1.1.9 Continuous Integration (CI)/Continuous Delivery (CD) Tool- Software Build Repository Manager Tool

Sl.	Feature	Requirement of Purchaser
1.	Brand/Product	To be mentioned by the prosper, if multiple products is offered for all the features please mention all of them
2.	Solution Type	On premise Self-hosted
3.	Architecture	1. The solution must be able to integrate with an external version control system for continuous integration. The solution shall work as Server - Client based architecture for the build process.
4.	General Statement on the product	1. The proposed solution must support flexible workflows, collaboration and development practices. The solution shall provide continuous integration, continuous delivery, and continuous deployment within the DevOps process.
5.	Functional Feature	<ol style="list-style-type: none"> 1. For the CI, the tool must be able to integrate with version control systems like git, gitlab, svn etc. The solution must support out of the box continuous unit testing, code quality testing feature 2. Able to suggest or automatically assign investigations to team members based on a number of heuristics 3. Able to assign investigation of problems in one build to multiple person 4. Able to track different stages of the build and reports all the information on the fly - both in the web UI and in all supported IDEs 5. Must be able to detect flaky tests based on a set of different heuristics 6. Must have capability to instantly notify about build problems or any other changes in the projects. 7. The solution must be able to create projects, build configurations, and build chains programmatically, as code, using native programming language/declarative language to work as configuration as code. 8. Solution must support parameters to generalize version control settings, template or build configuration, making them reusable and easily customizable

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 9. The solution must be able to create template with the common (shared) settings, and then inherit any number of build configurations from this template 10. The solution must have the feature to support composite builds with other CI/CD Tools 11. The solution must have the option to reuse a set of build tasks from existing build steps 12. Must be able to build on different platforms hosted locally or in cloud-based infrastructure with build agents. 13. Able to run agents on different machine type including Linux, Windows, or macOS directly or via a Docker container. 14. Communication between build server and agents must be over a secure connection for a reliable continuous integration and deployment process. 15. Must be able to define individual build steps, link them together by defining dependencies, and automate the tasks to run them in series or in parallel. 16. The solution shall have intelligence to detect automatic build steps to help get up and running faster, native support for popular testing frameworks, static analyzers, code coverage tools, and more means you can turn your existing toolchain into a fully automated pipeline. 17. The solution must have the feature to ensure getting test results faster with parallel processing of test tasks. 18. The solution must keep record of test metadata, history, and flaky test detection to help investigate failures. 19. The solution must have CI/CD support for the mobile applications too in popular platforms including Android and iOS. 20. The solution must be able to automate entire workflow, including publishing new version of mobile app into the App Store, Google Play Store, or any other service
6.	User Management	<ol style="list-style-type: none"> 1. The solution shall support integration with external user directories like LDAP/Active Directory 2. The solution shall have feature to authenticate user with SAML/OAuth

Sl.	Feature	Requirement of Purchaser
		<ol style="list-style-type: none"> 3. The solution shall have RBAC feature to configure strict access control policy based on roles and requirements 4. The solution shall support 2FA based on TOTP authenticator app 5. The solution shall support SSO with external tools including Gitlab, Azure DevOps etc. 6. The solution shall have feature to manage groups
7.	Supported Languages	<ol style="list-style-type: none"> 1. Must support a minimum 20 languages including but limited to .net, C, C++, Objective-C, Swift, Java, Javascript, php, python, Golang etc.
8.	Integration Support	<ol style="list-style-type: none"> 1. The solution must be able to integrate with other DevOps & CICD tools like Git/Gitlab, Azure DevOps, BitBucket, Maven, Gradle, Ant, MS Build, NuGet, JUnit, NUnit etc.
9.	Supported Database	<ol style="list-style-type: none"> 1. The solution must support deployment in any of the following database: <ul style="list-style-type: none"> ● Oracle ● PostgreSQL ● SQL Server ● MySQL
10.	Supported OS	<ol style="list-style-type: none"> 1. The server must be able to deploy in Windows and Linux based environments. And the agents must be able to deploy in Windows, Linux and macOS environments.
11.	Installation & Commissioning	<ol style="list-style-type: none"> 1. OEM must be engaged in providing remote support for the installation and commissioning of the tools by delivering necessary installation guides, software and other materials.
12.	License/Subscription & Support	<ol style="list-style-type: none"> 1. The license shall include: <ul style="list-style-type: none"> ● unlimited users ● unlimited build configurations ● unlimited build time ● 20 build agents ● 3 years of subscriptions and comprehensive support (24x7x365)

3.1.2 Service Level Agreement (SLA):

Service Requests (SR) can be requested via email or the support portal. Considering the severity and time of reporting SR, **Mean Time to Respond (MTTR)** and **Mean Time to Solve (MTTS)** is given below:

Priority Level	Description	MTTR (hrs.)	MTTS (hrs.)
Priority Level 1: Emergency/ Urgent/Critical Business Impact	A problem that severely impacts the use of the software in a production environment (such as loss of production data or in which production systems are not functioning). The situation halts the operations, and no procedural workaround exists.	1	8
Priority Level 2: High/Major Business Impact	A problem where the software is functioning but the use in a production environment is severely reduced. The situation is causing a high impact on portions of the operations and no procedural workaround exists.	2	16
Priority Level 3: Medium/Moderate Business Impact	A problem that involves partial, non-critical loss of use of the software in a production environment or development environment. For production environments, there is a medium-to-low impact, but it continues to function, including by using a procedural workaround. For development environments, where the situation is causing the project to no longer continue or migrate into production.	4	32
Priority Level 4: Low/Minimal Business Impact	A general usage question, reporting of a documentation error, or recommendation for a future product enhancement or modification. For production environments, there is a low-to-no impact on the operation or the performance or functionality of the system. For development environments, there is a medium-to-low impact on the operation, but it continues to function, including by using a procedural workaround.	8	96

E. TESTING AND QUALITY ASSURANCE REQUIREMENTS

4.1 Inspections

- 4.1.1 No factory inspection from the Purchaser is necessary.
- 4.1.2 Inspections following delivery shall be arranged in the office of the Project Director or in a designated location as per the instruction of the office of the project director. The inspection activities will include checks whether the hardware and software supplied under this bid comply with the minimum requirements set forth in the technical requirements section of this request for proposals document. It will also check the physical condition of the items as well as ingenuity of their source and other obligations mentioned in this request for proposals document and the agreement signed between the purchaser and the selected supplier.

4.2 Pre-commissioning Tests

- 4.2.0 In addition to the Supplier’s standard check-out and set-up tests, the Supplier (with the assistance of the Purchaser) must perform the following tests on the System and its Subsystems before Installation will be deemed to have occurred and the Purchaser will issue the Installation Certificate(s) (pursuant to GCC Clause 26 and related SCC clauses).
- 4.2.1 Test of all individual software systems must be performed and desired performance indicators and technical specifications mentioned in this tender must be met by each and every software component / system included in this Request for Proposals.
- 4.2.2 Test of all individual hardware components must be performed and desired performance indicators and technical specifications mentioned in this tender must be met by each and every hardware component / system included in this Request for Proposals.

4.2.3 The Entire System:

Pre-commissioning Tests for the entire System must be performed and the entire platform must be operate as an integrated system and fulfill all performance requirements of the information system stated above in section B (Functional, Architectural and Performance Requirements).

4.3 Operational Acceptance Tests

- 4.3.0 Pursuant to GCC Clause 27 and related SCC clauses, the Purchaser (with the assistance of the Supplier) will perform the following tests on the System and its Subsystems following Installation to determine whether the System and the Subsystems meet all the requirements mandated for Operational Acceptance.

4.3.1 The Purchaser (with the assistance of the Supplier) shall perform Operational Acceptance Tests to ascertain whether the System, or a specified Subsystem, is able to attain the functional and performance requirements specified in the Technical Requirements and Agreed and Finalized Project Plan, in accordance with the provisions of GCC Clause 27.2 (Operational Acceptance Test).

The Supplier shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies and/or other reasons for the failure of the Operational Acceptance Test that the Project Manager has notified the Supplier of. Once such remedies have been made by the Supplier, the Supplier shall notify the Purchaser, and the Purchaser, with the full cooperation of the Supplier, shall use all reasonable endeavors to promptly carry out retesting of the System or Subsystem. Upon the successful conclusion of the Operational Acceptance Tests, the Supplier shall notify the Purchaser of its request for Operational Acceptance Certification, in accordance with GCC Clause 27.3.3. The Purchaser shall then issue to the Supplier the Operational Acceptance Certification in accordance with GCC Clause 27.3.3 (a), or shall notify the Supplier of further defects, deficiencies, or other reasons for the failure of the Operational Acceptance Test. The procedure set out in this GCC Clause 27.3.4 shall be repeated, as necessary, until an Operational Acceptance Certificate is issued.

The Supplier shall submit the system integration test report detailing the test results from the successful completion of the tests to the purchaser for review at least two (2) weeks before the commencement of the OAT. The Government reserves the right to hold back the OAT until the evidence of the successful completion of the tests is produced.

F. SERVICE SPECIFICATIONS – RECURRENT COST ITEMS

5.1 Warranty Defect Repair

5.1.1 The Supplier MUST provide the following services under the Contract or, as appropriate under separate contracts (as specified in the request for proposals documents).

5.1.1.1 Warranty Defect Repair Service: Three (3) years warranty should be provided for Tools as a Service (Defects of the total information system (IS) will be addressed at on-site/off-site in accordance with the assigned priority level mentioned in subsection 3.1.2 Service Level Agreement (SLA) of Warranty Defect Repair including on-site defects remedy service, as applicable.

5.2 Technical Support

5.2.1 The Supplier MUST provide the following services under the Contract or, as appropriate under separate contracts (as specified in the request for proposals documents).

5.2.1.1 User support / hot line: Not Applicable

5.2.1.2 Technical Assistance: Not Applicable

5.2.1.3 Post-Warranty Maintenance Services: Not Applicable.

5.3 Requirements of the Supplier’s Technical Team

5.3.1 The Supplier MUST provide a technical team to cover the Purchaser’s anticipated Post-Operational Acceptance Technical Assistance Activities Requirements (e.g., modification of the Information System to comply with changing legislation and regulations) with the roles and skill levels that are specified below. The minimum expected quantities of inputs by the Supplier’s technical support team are specified in the relevant System Inventory Tables for Recurrent Cost Items.

Not Applicable.

Implementation Schedule

Table of Contents: Implementation Schedule

A.	Implementation Schedule Table.....	179
B.	Site Table(s).....	180
C.	Table of Holidays and Other Non-Working Days	181

Unofficially Copy

A. IMPLEMENTATION SCHEDULE TABLE

The implementation part of assignment mentioned in this Request for Proposals must be completed within 18 (eighteen) weeks from the date of effective of the contract. Detailed technical designs and relevant documentation must be provided including physical, logical and service oriented layout designs, etc. Roles and responsibilities of all stakeholders regarding the activities and services must be provided in detail with clear separation of duties.

Line Item No.	Subsystem / Item	Configuration Table No.	Site / Site Code	Delivery (weeks from Effective Date)	Installation (weeks from Effective Date)	Acceptance (weeks from Effective Date)	Liquidated Damages Milestone
0	Project Plan (Including High Level Design)	N/A	NDC, ICT Tower	W3	-	W5	No
1	System Design, Configuration & Implementation	N/A	NDC, ICT Tower	W6	W8	W12	No
2	Service Customization and Optimization	N/A	NDC, ICT Tower	W12	W12	W16	No
3	Training and delivery of documentations	N/A	NDC, ICT Tower	W12	N/A	W16	No
4	Operational Acceptance of the System	N/A	NDC, ICT Tower	N/A	N/A	W18	Operational Acceptance

B. SITE TABLE(S)

[Specify: the detailed information regarding the site(s) at which the System is to be operated]

Site Code	Site	City / Town / Region	Primary Street Address	Drawing Reference No. (if any)
HQ	Headquarters			
R1	Region 1	Not Applicable		
R1.1	Region 1 Head Office			
R1.2	ABC Branch Office			
R1.3	DEF Branch Office			

C. TABLE OF HOLIDAYS AND OTHER NON-WORKING DAYS

[Specify: the days for each month for each year that are non-working days, due to Holidays or other business reasons (other than weekends).]

Month	2024	2025	2026

Background and Informational Materials

A. BACKGROUND

0.1 The Purchaser

0.1.1 Bangladesh Computer Council (BCC) is a statutory body under the Ministry of Posts, Telecommunications and Information Technology, Government of Bangladesh (GOB). It was established by Act No IX of 1990 passed by the Parliament. The main activities are (not limited to) encouraging and providing support for ICT related activities, formulating national ICT strategy and policy, creating standards and specifications of ICT tools for government organizations according to their necessity, working for human resource development in ICT sector. It has also established the National Data Center for hosting all the government websites, e-mail services and web applications. It is the only TIER – 3 certified Government Data Center in Bangladesh. In the near future, it will act as the only Gateway to access internet services for all of the government organizations. BCC is continuing ICT infrastructure development of government through several development projects/programs to facilitate access to government services from root level. BCC is steadily growing and relies heavily on the IT Infrastructure to enable growth and operationalize efficiencies.

0.2 The Purchaser’s Business Objectives for the Information System

0.2.1 As part of the Smart Nation initiative, the Bangladesh Computer Council (BCC) intends to provide Tools as a Service (TaaS) to NDC users through its National Data Center (NDC). By leveraging modern IT to optimize the delivery and management of government services, these technologies seek to create a strong, safe, and effective smart ecosystem that will improve public participation and service dependability. In order to create a smart Bangladesh, the following factors make Tools as a Service (TaaS) crucial:

- **Accessibility and Cost-Effectiveness:** TaaS provides access to a wide range of tools and applications over the cloud, making them accessible to a broader range of users, including government agencies, and academia. This reduces the need for substantial upfront investments in software and hardware.
- **Scalability and Flexibility:** With TaaS, tools can be scaled up or down based on demand. This is particularly beneficial for government which may have fluctuating requirements, ensuring that resources are used efficiently.
- **Rapid Deployment and Updates:** TaaS enables quick deployment and regular updates of tools, ensuring that the latest functionalities are always available. This is vital for keeping up with the fast-paced technological advancements and changing citizen needs.
- **Enhanced Collaboration and Integration:** TaaS facilitates better collaboration and integration of various tools and services, essential for a cohesive and efficient digital government ecosystem.

- **Economic Growth and Innovation:** TaaS can drive economic growth by providing insights that help in identifying new opportunities, optimizing operations, and fostering innovation across various sectors.
- **Transparency and Accountability:** The use of these tools can also increase transparency and accountability in government operations, building public trust and ensuring more effective governance.

The adoption of these tools can assist NDC and its users in several ways. These advantages consist of the following:

Benefits for the National Data Center:

- **Optimized Operations and Efficiency:** The use of performance testing and IT Service Management tools, leads to optimized operations, ensuring the data center runs efficiently and cost-effectively.
- **Enhanced Security Posture:** Vulnerability scanners and application security testing tools strengthen the data center's defense against cyber threats, essential for protecting infrastructure and stored data.
- **Scalability and Flexibility:** Container registries and CI/CD tools facilitate the scalable and agile deployment of services. This allows the data center to quickly adapt to changing demands and technological advancements.
- **Compliance and Quality Control:** The integration of these tools ensures adherence to regulatory standards and quality benchmarks, vital for maintaining credibility and trust.

Benefits for National Data Center clients:

- **User-Friendly Access to Services:** UI testing tools ensure that the interfaces of government services are intuitive and tailored to user needs, data management enhancing their overall experience.
- **Reliable and Consistent Service Quality:** The robust infrastructure, underpinned by performance testing and ITSM tools, assures users of high service availability and reliability.
- **Secure Data and Privacy Protection:** Advanced security measures, backed by analytical insights, safeguard user data, enhancing trust and confidence in using the data center’s services.
- **Self-Managed Security and Identity:** Self-service password management and identity verification solutions empower users with secure and convenient control over their digital identities and access.
- **Assured Quality and Compliance:** Users benefit from high-quality services that comply with national and international standards, ensuring a safe and reliable experience.
- **Project Management:** Users will get reuse and refactoring, documenting, publishing, team interaction, workspaces, history and collaboration support under a single window.

The BCC has devised a plan to implement Tools as a Service (TaaS), crucial elements for both NDC and its clients, to create a smart nation that meets contemporary needs. These tools should be recognized as a fundamental part of any government's digital transformation strategy. The use of these tools plays a pivotal role in transforming the country's digital landscape towards smart Bangladesh.

B. INFORMATIONAL MATERIALS

0.3 The Legal, Regulatory, and Normative Context for the Information System

0.3.1 Cyber Security Act 2023

0.3.2 Policies, Guidelines, and Standards

- ❖ Government of Bangladesh Information Security Manual 2016
- ❖ ICT Policy 2009 amended in 2015
- ❖ Information Security Policy Guideline 2014
- ❖ National Cyber Security Strategy 2014
- ❖ Cyber Security Policy 2010
- ❖ ISO 27001:2013
- ❖ Data Protection Act, 2022 (soon to be enacted)

0.4 Existing Information Systems / Information Technologies Relevant to the Information System

0.4.1 Not Applicable.

0.4.2 Not Applicable.

0.5 Available Training Facilities to Support the Implementation of the Information System

0.5.1 Not Applicable.

0.6 Site Drawings and Site Survey Information Relevant to the Information System

0.6.1 Not Applicable.

**PART 2 – PURCHASER’S
REQUIREMENTS (FOR LOT-2)**

**SECTION VII - REQUIREMENTS OF THE INFORMATION
SYSTEM**

A. ACRONYMS USED IN THE TECHNICAL REQUIREMENTS

0.1 Acronym Table

Term	Explanation
bps	bits per second
cps	characters per second
DBMS	Database Management System
DOS	Disk Operating System
dpi	dots per inch
Ethernet	IEEE 802.3 Standard LAN protocol
GB	gigabyte
Hz	Hertz (cycles per second)
IEEE	Institute of Electrical and Electronics Engineers
ISO	International Standards Organization
KB	kilobyte
kVA	Kilovolt ampere
LAN	Local area network
lpi	lines per inch
lpm	lines per minute
MB	megabyte
MTBF	Mean time between failures
NIC	Network interface card
NOS	Network operating system
ODBC	Open Database Connectivity
OLE	Object Linking and Embedding
OS	Operating system
PCL	Printer Command Language
ppm	pages per minute
PS	PostScript -- Adobe page description language

	Term	Explanation
	RAID	Redundant array of inexpensive disks
	RAM	Random access memory
	RISC	Reduced instruction-set computer
	SCSI	Small Computer System Interface
	SNMP	Simple Network Management Protocol
	SQL	Structured Query Language
	TCP/IP	Transmission Control Protocol / Internet Protocol
	V	Volt
	WLAN	Wireless LAN

Unofficially Copy

B. FUNCTIONAL, ARCHITECTURAL AND PERFORMANCE REQUIREMENTS

1.1 Legal and Regulatory Requirements to be met for Big Data Analytics Tools

1.1.1 The Information System MUST comply with the following laws and regulations:

1.1.1.1 *Acts/Rules/Regulations:*

- ICT Act 2006
- National Cyber Security Act 2023
- Digital Security Rules 2020

1.1.1.2 *Policies, Guidelines Policies, Guidelines, and Standards:*

- Government of Bangladesh Information Security Manual 2016
- Information Security Policy 2014
- National Cyber Security Strategy 2021-25
- ISO 27001:2013
- ISO 27017:2015
- BNDA

1.2 Business Function Requirements to be met by the Big Data Analytics Tools

The Big Data Analytics Tools MUST support the following business functions:

1.2.1 Under the Digital Bangladesh initiative, it is envisioned to "make all Government services accessible to the citizen in his locality, through common service delivery outlets and ensure efficiency, transparency & reliability of such services at affordable costs to realize the basic needs of the citizen".

In order to make this vision a reality, the Government of Bangladesh (GoB) recognized the potential of Information and Communication Technology (ICT) for rapid and all round development in general and transforming governance in particular. Initially there were islands of ICT initiatives at the Country, District, Upazilla, Union and even Village level. The learnings by way of both the challenges and opportunities faced during the development and implementation of such initiatives contributed to refining the overall e-Governance strategy. One of the key learning's that emerged was an urgent need to develop the core and other supporting infrastructure for sustaining e-Governance initiatives across the country.

1.2.2 As part of the Smart Nation initiative, the Bangladesh Computer Council (BCC) intends to provide Big Data Analytics Tools to NDC users through its National Data Center (NDC). By leveraging big data analytics, this technology seeks to create a strong, safe, and effective smart ecosystem that will improve public participation, service dependability, and data-driven decision-making. In order to create a smart Bangladesh, the following factors Big Data Analytics solutions crucial:

- **Accessibility and Cost-Effectiveness:** Big Data Analytics Tools provide access to a wide range of tools and applications over the cloud, making them accessible to a broader range of users, including government agencies, and academia. This reduces the need for substantial upfront investments in software and hardware.
- **Scalability and Flexibility:** With Big Data Analytics Tools, tools can be scaled up or down based on demand. This is particularly beneficial for government which may have fluctuating requirements, ensuring that resources are used efficiently.
- **Rapid Deployment and Updates:** Big Data Analytics Tools enables quick deployment and regular updates of tools, ensuring that the latest functionalities are always available. This is vital for keeping up with the fast-paced technological advancements and changing citizen needs.
- **Informed Decision-Making:** Big data analytics allow for the analysis of large volumes of data to derive insights for informed decision-making. In the context of a smart nation, this translates to data-driven policies and initiatives, better resource allocation, and more effective public services.
- **Enhanced Public Services:** By analyzing data from various sources, government agencies can improve public services, tailor them to citizen needs, and predict future demands. This leads to more efficient and user-centric service delivery.
- **Predictive Analytics for Proactive Governance:** Big data tools enable predictive analytics, which can be used for proactive governance. This includes anticipating and mitigating potential issues before they escalate, such as traffic congestion, public health concerns, and environmental threats.
- **Economic Growth and Innovation:** Big data analytics can drive economic growth by providing insights that help in identifying new opportunities, optimizing operations, and fostering innovation across various sectors.
- **Transparency and Accountability:** The use of these tools can also increase transparency and accountability in government operations, building public trust and ensuring more effective governance.

The adoption of these tools can assist NDC and its users in several ways. These advantages consist of the following:

Benefits for the National Data Center:

- **Optimized Operations and Efficiency:** The use of big data analytics, leads to optimized operations, ensuring the data center runs efficiently and cost-effectively.

- **Data-Driven Decision Making:** Big data analytics provide insights into operational patterns, user behavior, and service usage, enabling the data center to make informed decisions about resource allocation and service enhancements.
- **Compliance and Quality Control:** The integration of these tools ensures adherence to regulatory standards and quality benchmarks, vital for maintaining credibility and trust.

Benefits for National Data Center clients:

- **User-Friendly Access to Services:** Big data analytics ensure that the interfaces of government services are intuitive and tailored to user needs, data management enhancing their overall experience.
- **Secure Data and Privacy Protection:** Advanced security measures, backed by analytical insights, safeguard user data, enhancing trust and confidence in using the data center’s services.
- **Personalized and Agile Service Offerings:** The data center's use of big data analytics helps in offering personalized services that are quickly updated and improved based on user feedback and data.
- **Assured Quality and Compliance:** Users benefit from high-quality services that comply with national and international standards, ensuring a safe and reliable experience.
- **Coding and Extensibility Support:** Users will get coding and extensibility support. For example, multiple programming language support under one roof, versioning system support, library/third party support, interactive/jupyter notebook support.
- **Data Exploration and Visualization:** Users will perform his/her file and data browsing, data quality analysis, augmented exploratory data analysis, statistical analysis and visualization via this option.
- **Machine Learning and Operationalization:** Algorithm completeness, feature transformation, model evaluation and interpretation, model optimization, data workflow automation, model deployment, cluster (Hadoop, Spark, Docker) integration can be performed by the user.

The BCC has devised a plan to implement Big Data Analytics Tools, crucial elements for both NDC and its clients, to create a smart nation that meets contemporary needs. These tools should be recognized as a fundamental part of any government's digital transformation strategy. The use of these tools plays a pivotal role in transforming the country's digital landscape towards smart Bangladesh.

1.3 Objectives

The objectives of this Proposal Document are the following:

- a. Supply, Installation, Configuration, and Commissioning of Big Data Analytics Tools;

- b. Facilitate informed decision-making by analyzing large datasets to uncover trends, predict future outcomes, and provide real-time analytics;
- c. Enhance operational efficiency through data-driven optimizations and provide cost-effective solutions through subscription-based models, minimizing the need for extensive in-house resources;
- d. Drive innovation in product and service development and customer service by leveraging data insights and a diverse range of tools;
- e. Support the Smart Nation Initiative by boosting governmental efficiency through digital transformation.

1.4 Characteristics of Big Data Analytics Tools

The following are the important characteristics of well-managed Big Data Analytics Tools:

Big Data Analytics Tools each have distinct characteristics that define their functionality and utility, especially in the context of digital transformation and smart nation initiatives. Understanding these characteristics is crucial for effectively leveraging these technologies.

1.4.1 Characteristics of Big Data Analytics Tools

- a. **Handling Large Volumes of Data:** Big Data Analytics tools are specifically designed to process and analyze large and complex data sets that traditional data processing software cannot handle efficiently.
- b. **Advanced Analytical Capabilities:** These tools use advanced analytics techniques like machine learning, predictive analytics, data mining, and statistical analysis.
- c. **Real-Time Processing:** Many big data tools are capable of processing data in real-time, providing immediate insights and enabling quick decision-making.
- d. **Diverse Data Sources:** They can integrate and analyze data from a wide variety of sources, including structured, semi-structured, and unstructured data.
- e. **Data Visualization:** Big data tools often include advanced data visualization capabilities, helping to convert complex data sets into understandable and actionable insights.
- f. **Scalability and Performance:** These tools are designed for high performance and scalability to manage the increasing volume, variety, and velocity of data.
- g. **Security and Privacy Features:** Given the sensitive nature of data, big data analytics tools usually incorporate strong security and privacy features to protect data integrity and comply with regulations.

C. SERVICE SPECIFICATIONS – SUPPLY & INSTALL ITEMS

2.1 System Analysis, Design and Customization/Development

1.1 High Level Design

The supplier must submit a High-Level Design (HLD) of the Big Data Analytics Tools. This HLD, if agreed upon by the purchaser will be the basis of low-level architectural requirements.

1.2 Low-Level Design

The Low-Level Design (LLD) of the solution will be provided according to the approved High-Level Design (HLD) by the purchaser. The supplier should incorporate the provided LLD with the comprehensive technical architectures for computing, storage, and networking, taking into account the need for high availability and failover capacity for the proposed solution

1.3 Configuration:

Leveraging insights from both the high-level design and low-level design, the selected supplier will identify the key configuration requirements, develop detailed documentation and configure the solution accordingly. Comprehensive details of the configuration must be recorded and submitted to the purchaser for approval.

1.4 Implementation & System Testing:

A thorough documentation outlining the implementation and system testing should be compiled and presented to the purchaser for approval. This document should also detail procedures for testing each individual unit, as well as a post-implementation test of the entire system or service.

2.2 Service Customization and Optimization

2.2.1 Service Customization and Optimization

Installation, configuration, customization, optimization and commissioning will be performed by the supplier.

2.3 System Integration (to other existing systems) (Not Applicable)

- 2.3.1 The Supplier MUST perform the following Integration Services [*for example, describe: **existing information systems** (as appropriate, reference the relevant subsection of the Background and Informational Materials Section containing any detailed description of existing systems); and specify: **technical and functional level of integration with the Information System.**]*

2.4 Training and Training Materials

2.3.1 The Supplier MUST provide the following on-site knowledge transfer services along with course curriculum, training materials, trainer for the training, certifications, etc. as mentioned in below table:

Big Data Analytics Tools for NDC

Sl.	Training/Workshop Name (3 sessions per day)	Number of Participants	Duration
1.	Pre-Deployment Workshop	10	2 Days
2.	Pre-deployment training on Big Data Analytics Tools	10	3 Days
3.	Training on Big Data Analytics Tools to different govt. agencies.	40	3 Days

2.5 Data Conversion and Migration

2.4.1 No Data Conversion and/or Migration activity is considered.

2.6 Documentation Requirements

The Supplier MUST prepare and provide the following Documentation.

2.5.1 End-User Documents: User Manual

2.5.2 Technical Documents:

- System Architecture and Design Documents:
 - High-Level Architecture: An overview of the system's architecture, including components, modules, and their interactions.
 - Detailed Design: In-depth descriptions of each component/module, including their functions, interfaces, data flows, and dependencies.
- Technical Data Sheet
- Solution Documentation of the Big Data Analytics Tools
- Installation and Setup Guides:
 - Hardware and Software Requirements: Specify the hardware, operating systems, databases, frameworks, and other software needed for the system to run.
 - Installation Steps: Step-by-step instructions for installing and configuring the system on various environments.
- Configuration and Customization Guides:
 - Configuration Options: Explain the system's configurable parameters and settings, along with their impact on behavior.
 - Customization Guidelines: Instructions for making customizations or modifications to suit specific needs.
- Operational Manual (Entire System)

- Troubleshooting Guide
- Compatibility and Interoperability Guide
- OEM certification after installation verifying the supply of software from an authorized source for the territory of Bangladesh

Note: All technical documents must be written in English and should be drafted in a simple and comprehensible manner.

2.7 Requirements of the Supplier’s Technical Team

2.7.1 The Supplier MUST maintain a technical team of the following roles and skill levels during the Supply and Installation Activities under the Contract:

2.7.1.1 Big Data Project Manager (1 person): 5 years in project management, with a focus on Big Data projects. Experienced in coordinating complex data analytics initiatives and managing cross-functional teams.

2.7.1.2 Training Coordinator (1 person): 3 years in technical training, responsible for educating team members and end-users on big data tools and analytics techniques.

D. TECHNOLOGY SPECIFICATIONS – SUPPLY & INSTALL ITEMS

3.0 General Technical Requirements

3.0.1 General Technical Requirements

Language Support: All information technologies must provide support for the English language.

3.0.2 Big Data Analytics Tools Specifications

Tools specifications are provided in 3.1.

3.0.3 Consumables

No consumables are considered under this proposal document.

3.1 Detailed Technical Specifications and Requirements

3.1.1 Big Data Analytics Tools for NDC

Technical Specification for Bigdata Tool - 1

Sl.	Features	Requirement of Purchaser
1	Brand	To be mentioned by the proposer
2	Model	To be mentioned by the proposer
3	Country of Origin	USA /EU or Equivalent

Sl.	Features	Requirement of Purchaser
4	Country of Manufacturing	To be mentioned by the proposer
5	Quality Certification	ISO 27001:2013, ISO 27701:2019 (data processor) & SOC 2 Type II certified for manufacturer.
6	Quantity	Admin Account: 02 (Two) Designer Account: 10 (Ten) Explorer Account: 15 (Fifteen)
	Access	
	Browser based Connectivity	
7	Browser access	The product shall support accessing the platform through browsers such as Chrome, Firefox and MS Edge.
	Data Management	
	Data Connectivity	
8	Cloud Connectors	The product shall support cloud storage solutions, such as the object storage from Amazon, Azure, or Google and other Cloud DBs such as Redshift, BigQuery, Azure Datalake and Snowflake etc..
9	Database Connectors	The product shall connect effectively to databases, including the ability to leverage some native database connectivity for bulk import or export of data.
10	File Format Support	The product shall provide capabilities to parse different file formats, including flat files, spreadsheets, vendor native database files, XML, etc..
11	NoSQL Support	The product shall provide capabilities to connect to NoSQL databases, such as MongoDB, ElasticSearch, CouchDB, etc.
12	Hadoop File Support	The product shall connect effectively to every possible way to store data in Hadoop (RC, Parquet, etc.)
	Data Transformation and Preparation	
13	Ability to normalize data (parsing different values, fill missing values, etc.)	The product shall provide capabilities to parse date, normalize data, and fill missing values.
14	Ability to enrich with third party data	The product shall provide capabilities to easily enrich a dataset with third party data.

Sl.	Features	Requirement of Purchaser
15	Ability to preview and interact visually during data preparation	The product shall enable interactive data visualization during transformation.
16	Ability to aggregate data	The product shall enable data aggregation in various ways (multiple fields, aggregation options, window analytics, etc.).
17	Ability to perform arbitrarily complex (SQL-level) transformation	The product shall enable performing complex transformations, possibly leveraging SQL or a similar language.
Data Discovery		
18	Ability to search in projects / folders / tables / models / tags / other objects within the platform	The product shall enable searching in tables, folders, etc., from data sources in order to better locate and source data .
19	Ability to search in custom metadata and field names	The product shall enable searching in existing metadata / field names, etc., in order to locate data.
Coding and Extensibility		
Programming Language Support		
20	Support for Python	The product shall support syntax highlighting, error detection, and completion for Python language.
21	Support for Python versions	Can different versions of Python be used on a single project.
22	Support for R	The product shall support syntax highlighting, error detection, and completion for R language.
23	Support for Scala	The product shall support syntax highlighting, error detection, and completion for Scala language.
24	Support for JavaScript, Bokeh, Shiny, Dash	The product shall support syntax highlighting, error detection, and completion for JavaScript, Bokeh, Shiny, Dash.

Sl.	Features	Requirement of Purchaser
25	Support for SQL	The product shall support syntax highlighting, error detection, and completion for SQL language.
Development Environment Support		
26	Versioning System	Is the system able to support versioning of code, including support for systems such as an internal configuration system (e.g., Git) and support for an external configuration system (e.g., GitHub).
27	Library / Third Party Support	The product shall have the ability to include and maintain third party python / R libraries.
28	Jupyter Notebooks	The product should support Jupyter Notebook for Coders to write their models, transformations.
29	Interactive Notebooks	The product shall have the ability to support Interactive Notebooks such as Sublime, PyCharm etc.
Enterprise-Wide Adoption		
Usability by Business User		
30	Ability for business users to perform advanced learning tasks	The product shall offer the ability to perform the full scale of machine learning tasks by business users, with no coding.
31	Ability for business users to perform data preparation etc. easily	The product shall offer the ability to perform the full scale of data management tasks by business users, with no coding.
32	In-Product Help and Suggestion	The product shall offer extensive in-product help and suggestions.
34	Template and Use Cases Accessible for Business Users	The product shall offer verticalized solutioning templates and/or use cases to permit the enablement of data analysts/business users.
Project management		
35	Project Management	The product shall enable easily segmenting work into projects, and managing the status, tasks, and lifecycle of a project.
36	Reuse and Refactoring	The product shall enable reusing components across different projects, with possibly the ability to refactor transformation.
37	Documenting	Does the project enable the writing, sharing and exporting of documentation associated with a project.

Sl.	Features	Requirement of Purchaser
38	Publishing	The product shall enable the sharing and publishing of the results or intermediary products in analytics for the benefits of stakeholders. Does it enable easy commenting, sharing and interacting with the different analytics artifacts.
39	Team Interaction	The product shall help a team to easily interact while building a project. Does it enable information sharing, comments, and questions.
40	Workspaces	Does the solution provide business users simplified access to outputs they might find useful for various business initiatives.
41	History and Collaboration	The product shall enable archiving the different elements: data transformations, models, and data. Can modification history be easily browser, element per element and also globally.
Data Exploration and Visualization		
Simple and Advanced Data Exploration		
42	File and Data browsing	The product shall enable fast browsing in files and tables, including rendering data as a table, regardless of the number of rows or columns of such data.
43	Data Quality Analysis	The product shall enable users to easily asses the quality of the data, including checking missing data and inconsistency in data formats/data types.
44	Augmented Exploratory Data Analysis	The product shall provide the ability to quickly interpret data with automated analysis suggestions
45	Statistical Analysis	The product shall enable users to perform statistical analysis, including distinction of variable and evaluating correlations.
Charting, Reporting, Advanced Interactive Visualizations		
46	GUI Based Modelling Capabilities	AutoML through GUI for non coders to quickly build models. The GUI should easily be extensible through codes.
47	GUI Based Model Versioning Capabilities	A GUI based solution to version control model experiments which captures the configurations.
48	Support for Multiple Libraries	The product shall have the ability to support/test multiple libraries implementation (Scikit/H2O/MMLib/Torch/TensorFlow) in the platform

Sl.	Features	Requirement of Purchaser
49	Bringing Own Algorithm	The product shall have the ability to bring your own code/methods and mix it with the methods available on the platform
50	Machine Learning for Natural Language Processing	The product shall have the ability to support natural language processing uses cases, including text parsing, text classification, sentiment analysis, and overall leveraging text data into machine learning.
51	Support for Time Series	The product shall have the ability to support time series analysis and learning within the platform
52	Support for Image Vision	The product shall have the ability to support image vision uses cases, including deep learning algorithms and their control, and evaluation for image uses cases
Feature Transformation		
53	Ability to transform / normalize / optimize numerical values	The product shall have the ability to transform, normalize, optimize numerical values without performing extra data preparation. The product shall have the ability to perform customized transformation through code if necessary.
54	Ability to transform / optimize categorical values	The product shall have the ability to transform & optimize categorical values without performing extra data preparation. The product shall have the ability to perform customized transformation through code if necessary.
55	Ability to transform / optimize textual values	The product shall have the ability to tokenize, hash, TD-IDF without performing extra textual preparation with clicks. The product shall have the ability to perform customized transformation through code if necessary.
Model Evaluation and Interpretation		
56	Visual Model Evaluation	The product shall provide the ability to evaluate the performance of the model, including visualizing the ROC curve, simulating the global response.
57	Cross-Validation Options	The product shall provide a variety of cross-validation options, including K-Fold and temporal-based.
58	Model Comparison	The product shall provide the ability to compare model effectiveness across multiple experiments in one place before model deployment.

Sl.	Features	Requirement of Purchaser
59	Model Fairness	The product shall provide the ability to check the model fairness.
60	Model Guardrails	The product shall provide the ability to put guardrails when building the model to avoid the common pitfalls.
61	Model Assertions	The product shall provide the ability to embed sanity checks to the models.
62	What if Analysis	The product shall provide the ability to visual perform what if analysis.
63	Counterfactuals (Advanced what if analysis)	The product shall provide interactive stress tests and counterfactuals.
64	Variable Importance	The product shall provide the ability to visualize the importance of variables. Does it provide a solution even for algorithms for which interpretability is not supported.
	Model Optimization	
65	Grid Search / Random / Bayesian Search for Hyperparameters	The product shall have the ability to perform grid search for parameters/hyperparameters in the data through GUI.
66	Automated Model Selection	The product shall have the ability to automatically select a "best" model with the solution through the GUI.
67	Model Ensemble	The product shall have the ability to create "ensemble" models that combine several models with the solution through the GUI
68	Distributed Hyper Parameter Search	The product shall have the ability to push hyperparameter search to Kubernetes Cluster
	Operationalization	
	Data Workflow Automation	
69	Workflow trigger	The product shall enable the workflow to be triggered based on detecting delta change in the workflow. (vs. scheduled based)
70	Scheduling	The product shall enable users to schedule a data workflow.

Sl.	Features	Requirement of Purchaser
71	Workflow Orchestration	Be able to schedule and/or re-schedule data for workflows within the data analytics platform, e.g., including but not limited to creating and scheduling / automating workflows to connect to multiple sources, clean and produce a final data set for users
72	Workflow Orchestration	Be able to perform data preparation tasks using repeatable drag and drop workflow without coding and scripting. The data preparation tasks include but not limited to removing nulls and duplicate entries, grouping or summarizing data, finding unique values.
73	Workflow Orchestration	Be able to perform tasks to improve data quality using repeatable drag and drop workflow without coding and scripting. These tasks include but not limited to appending, impute values, parsing and fuzzy matching.
74	Workflow Orchestration	Be able to perform data preparation/engineering tasks using repeatable drag and drop workflow without coding and scripting (Low Code / No Code)
75	Workflow Orchestration	Be able to schedule and/or re-schedule data for workflows within the data analytics platform
76	Task Automation	The product shall provide long list of operations that can be operated (i.e. cleaning the unnecessary datasets, spinning up and down of the clusters, turning off Jupyter notebook etc.)
77	Monitoring	The product shall enable users to monitor a data workflow, including checking for data quality, data and model drift in production.
78	Alert	The product should provide a GUI based interface for a User to send notifications to email, Microsoft teams, slack, internal dataset
Model Lifecycle Management		
79	Operationalize Retrain	The product shall provide facilities to operationalize retraining, including historization and model comparison.
80	Model Drift and Evaluation	The product shall provide the means to evaluate the drift for a model, and more generally the evolution of performance of a model across several stages (dev, prod, etc.) and across time.
Model Deployment		

Sl.	Features	Requirement of Purchaser
81	Deploy as API	The product shall provide support for managed predictive model scoring APIs and their scale.
82	Champion / Challenger Test	The product shall enable users to perform champion/challenger tests, possibly with multiple champions and challengers.
83	AB Testing	The product shall enable users to perform AB testing.
84	Centralized / Governed Deployment	The product shall provide a centralized hub to operationalize models, pipelines, applications, scoring APIs, and custom code APIs. The solution should provide high level overview of the current number of models in production (numbers in batch / numbers in API)
85	Deployment Options	The product shall provide a wide range of deployment options, including code generation, native support, deploying as an API, deploying in database, etc..
	Solution Architecture	
	Deployment Options	
86	Server Deployment	The product shall easily set up on on-premise servers.
87	Ease of managing deployment / upgrade	Does the system provide feature to deploy, upgrade, backup, restore and configure one or several instances on the cloud from a central instance management console.
88	SaaS offering	The product shall provide SaaS offering where the user will not be required to perform any installation / upgrades on their end.
89	Cloud Deployment	The product shall easily setup on the cloud, either by as-a-service offering or packaged on top of existing cloud infrastructure (AWS, Azure, Google, etc.).
	Scalability / Performance	
90	Scalable Deployment	The product shall have an "auto-scale" approach, where new users/capacity can be provisioned automatically.
91	Incremental Data	The product shall have some mechanism (like partitioning support, etc.) to support properly incremental data.

Sl.	Features	Requirement of Purchaser
92	Smart Computation Strategy	The product shall have smart capabilities to optimize the computation (e.g., avoiding recomputing everything). The product shall use any techniques (e.g., Hadoop, Spark, in-memory, parallelization, grid computing, multithreading and/or in-database) to speed up computationally intensive operations.
93	GPU Support	The product shall support any form of GPU compute for training and scoring model.
94	Large File Support	The product shall provide functionality to handle data sets larger than server memory. The product shall scale to handle data volumes of at least 2TB with a satisfactory user experience.
Cluster (Hadoop, Spark, Docker) Integration		
95	Support for Computation in Hadoop/Spark	The product shall support performing computation in Hadoop/Spark in a flexible manner. For full support, all operations, including visual operations by non-coders should be supported in Hadoop.
96	Docker / Kubernetes Support	The product shall orchestrate the either Docker or Kubernetes for distributed computing.
Extensibility of the Existing Platform		
102	Extensibility Completeness	The product shall allow users to extend the existing platform to be customized with third party components or plugins.
103	External Programmability	The product shall allow users to integrate with other system and automate tasks internally through programmable API or Interfaces
Security & Governance		
Authentication, access control, network, governance		
104	Data Sources and Operation Security Compliant	The product shall properly reflect the existing authorizations as set up in data source systems (Hadoop and databases).
105	External Authorization / Directory	The product shall support external services, such as a LDAP, for authorization of users and groups.

Sl.	Features	Requirement of Purchaser
106	Encryption and Security	The product shall enforce best practices, such as network encryption, 2-step authentication, etc..
	Compliance	
107	Audit Logs	The product shall provide logs suitable for audit purposes, tracing the various actions performed on the platform by each user.
108	Model Documentation	The product shall generate documentation of models in MS Word document.
109	Flow Documentation	The product shall generate documentation of whole data or ai project lineage in MS Word document with details on datasets, metadata of datasets, and logic applied on the flow.
	DataOps	
110	DevOps	Tracking failures, automated alerting, UI to see success, failures, easy interface to troubleshooting as pipelines mushroom.
		Ability to Trigger pipelines using API controls
		sophisticated telemetry to provide holistic monitoring interface
111	Extendibility	Extend available package with custom connectors (build your own) using open source
112	Enterprise Support	Enterprise-grade collaboration, security, and performance
		Supports all model types i.e., AI, ML, rule based, optimization
		Supports all model languages and frameworks i.e. R, Python,, Scala, etc.
		Supports all execution environment i.e. Kubernetes, Docker, Azure, GCP, Sagemaker, Spark etc.

Sl.	Features	Requirement of Purchaser
113	Governance Management Platform – & ML	Should have discoverability, reusability and shareability of ML assets across platform.
		Capability to retrain the existing models using newer data.
		Have a centralized store for viewing, managing and maintaining all models regardless of platform, language etc.
		Allow the extension of definition of the standard model using new custom data.
		Allows users to onboard developed model in the MLOps system.
		Model registration should be enabled via CLI, import from a git repository, or via model factory plugins e.g., Jupyter or Rstudio plugin.
		Supports auditability of all the models developed and deployed.
		Allows rapid reproduction of training, evaluation, scoring of specific version of models
		Process any type of data e.g. structured, unstructured, audio, video etc.
		Support should be for multiple model execution platform regardless of where the model is executed - on prem, cloud or hybrid.
		Integrate the existing ML pipeline monitoring capability
		Custom metadata has to be available during model life cycle whenever required.
		Manage and allow the automation of MLC and creation of custom MLC for each business unit, team etc.
Ability to collect and persist each step in each version of models for auditability.		
Integrate with the enterprise's oauth2 and LDAP/AD systems for authentication		

Sl.	Features	Requirement of Purchaser
		Provide overarching job orchestration and monitoring models
		Alerting and automated notification via WhatsApp, email and SMS to be allowed when required.
		Enable the registration, orchestration, and tracking of model monitors for data-drift, volumetric, concept-drift, statistical performance.
	NLP and LLMs	
114	ML Model – Integration & Support	Compute power / Memory
		Training / Inference time
		Model conversions and feasibility to download / deploy / inference
		Cloud integration feasibilities
		Documentation
		Feature to serve/deploy models trained outside the platform
		Support for downloading models trained on the platform for further use
		Supported NLP Plugins & Dependencies
		Ease of use
		Learning Curve for Non-Technical Users
115	LLMs & Generative AI	Data Preparation No Code Features
		LLM deployment support like langchain, RAG
		Caching capabilities to answer frequent queries
		Decoupling of service layer from underlying infrastructure
		Content Moderation & PII Detection capabilities for security and data privacy
		Ability to integrate with open source and proprietary LLMs with no code
		Thorough audit and logging capabilities
		Ability to view and manage cost estimates at granular level
		Ability to host self-hosted LLMs
		The OEM should provide 8X5XNBD Global TAC support.

Sl.	Features	Requirement of Purchaser
116	Manufacturer’s Authorization letter, Warranty and TAC support	Manufacturer’s warranty part number should be mentioned, minimum 3 (Three) years warranty for OEM.
		Proposer must be submitted Manufacturer Authorization form (MAF).
117	Installation, Testing and Commissioning	Proposer must carry out on site installation, testing and commissioning. Proposer must configure appropriate security and administration related policies, must do integration with other related hardware/software required to make the tool functional and shall provide respective documentation.

Technical Specification for Bigdata Tool – 2

Sl.	Features	Requirement of Purchaser
1.	Brand	To be mentioned by the proposer
2.	Model	To be mentioned by the proposer
3.	Country of Origin	To be mentioned by the proposer
4.	Country of Manufacturing	To be mentioned by the proposer
5.	Quantity	Proposed BI Premium licenses per capacity for the organization for 3 years. BI solution should propose Unified self-service and enterprise business intelligence platform.
6.	Scope	<ul style="list-style-type: none"> • Implementation of Proposed Solution, including data integration, data modeling, data transformation, data visualization, and data security • Training of the organization's staff on how to use the proposed BI, including the creation and sharing of dashboards and reports, and the use of advanced features such as Power Query, Power Pivot, and Power Automate.
7.	Core Technical Specification	<ul style="list-style-type: none"> • Proposed BI solution should propose Unified self-service and enterprise business intelligence platform • Self-service capabilities with data visualizations, built-in AI, and pre-built and custom data connectors • Propose solutions should provide sensitivity classification and data loss prevention. • This solution should be Seamless scalable.

Technical Specification for Bigdata Tool – 2		
Sl.	Features	Requirement of Purchaser
		<ul style="list-style-type: none"> • Should have built-in automation and intelligence for data preparation, modeling, and analysis • Should have compliant, secure, and governed platform for enterprise BI • Proposed BI should ensure data accuracy and compliance at scale • Solution should provide End-to-end data protection and risk mitigation. • Built-in and pro-dev capabilities with autoML, cognitive services, and Azure Machine Learning 7 • Solution should have Mobile app and ability to embed reports in apps or websites. • Solution should have Flexible licensing options with per-user and per-capacity options. • Solution should have the ability to scale beyond resource capacity with auto-scale. • Solution should provide Utilization analysis and predictability. • Embedding capabilities with REST APIs and fully documented SDKs • Deployment flexibility with Azure consumption-based pricing model • Solution should provide Governance capabilities and centralized data management. • Must have richer integration with Excel for data discovery, connection, and refresh. • Solution should have Data security and governance standards. • Reduced analytics learning curve with familiar tools.
8.	Training	Training of the organization's staff on how to use the proposed BI solution, including the creation and sharing of dashboards and reports, and the use of advanced features such as Query, Pivot and Automate.
9.	Support Services	Support services for Proposed BI, including technical support, maintenance, updates, and troubleshooting.
10.	Manufacturer’s Authorization letter,	<p>The OEM should provide 8X5XNBD Global TAC support.</p> <p>Manufacturer’s warranty part number should be mentioned, minimum 3 (Three) years warranty for OEM.</p>

Technical Specification for Bigdata Tool – 2		
Sl.	Features	Requirement of Purchaser
	Warranty and TAC support	Proposer must be submitted Manufacturer Authorization form (MAF).
11.	Installation, Testing and Commissioning	Proposer must carry out on site installation, testing and commissioning. Proposer must configure appropriate security and administration related policies, must do integration with other related hardware/software required to make the tool functional and shall provide respective documentation.

3.2 Service Level Agreement (SLA):

Service Requests (SR) can be requested via email or the support portal. Considering the severity and time of reporting SR, **Mean Time to Respond (MTTR)** and **Mean Time to Solve (MTTS)** is given below:

Priority Level	Description	MTTR (hrs.)	MTTS (hrs.)
Priority Level 1: Emergency/ Urgent/Critical Business Impact	A problem that severely impacts the use of the software in a production environment (such as loss of production data or in which production systems are not functioning). The situation halts the operations, and no procedural workaround exists.	1	8
Priority Level 2: High/Major Business Impact	A problem where the software is functioning but the use in a production environment is severely reduced. The situation is causing a high impact on portions of the operations and no procedural workaround exists.	2	16
Priority Level 3: Medium/Moderate Business Impact	A problem that involves partial, non-critical loss of use of the software in a production environment or development environment. For production environments, there is a medium-to-low impact, but it continues to function, including by using a procedural workaround. For development environments, where the situation is causing the project to no longer continue or migrate into production.	4	32
Priority Level 4: Low/Minimal Business Impact	A general usage question, reporting of a documentation error, or recommendation for a future product enhancement or modification. For production environments, there is a low-to-no impact on the operation or the performance or functionality of the system. For development environments, there is a medium-to-low impact on the operation, but it continues to function, including by using a procedural workaround.	8	96

E. TESTING AND QUALITY ASSURANCE REQUIREMENTS

4.1 Inspections

- 4.1.1 No factory inspection from the Purchaser is necessary.
- 4.1.2 Inspections following delivery shall be arranged in the office of the Project Director or in a designated location as per the instruction of the office of the project director. The inspection activities will include checks whether the hardware and software supplied under this bid comply with the minimum requirements set forth in the technical requirements section of this bidding document. It will also check the physical condition of the items as well as ingenuity of their source and other obligations mentioned in this bidding document and the agreement signed between the purchaser and the selected supplier.

4.2 Pre-commissioning Tests

- 4.2.0 In addition to the Supplier’s standard check-out and set-up tests, the Supplier (with the assistance of the Purchaser) must perform the following tests on the System and its Subsystems before Installation will be deemed to have occurred and the Purchaser will issue the Installation Certificate(s) (pursuant to GCC Clause 26 and related SCC clauses).
- 4.2.1 Test of all individual software systems must be performed and desired performance indicators and technical specifications mentioned in this tender must be met by each and every software component / system included in this Request for Proposals.
- 4.2.2 Test of all individual hardware components must be performed and desired performance indicators and technical specifications mentioned in this tender must be met by each and every hardware component / system included in this Request for Proposals.

4.2.3 The Entire System:

Pre-commissioning Tests for the entire System must be performed and the entire platform must be operated as an integrated system and fulfill all performance requirements of the information system stated above in section B (Functional, Architectural and Performance Requirements).

4.3 Operational Acceptance Tests

- 4.3.0 Pursuant to GCC Clause 27 and related SCC clauses, the Purchaser (with the assistance of the Supplier) will perform the following tests on the System and its Subsystems following Installation to determine whether the System and the Subsystems meet all the requirements mandated for Operational Acceptance.

4.3.1 The Purchaser (with the assistance of the Supplier) shall perform Operational Acceptance Tests to ascertain whether the System, or a specified Subsystem, is able to attain the functional and performance requirements specified in the Technical Requirements and Agreed and Finalized Project Plan, in accordance with the provisions of GCC Clause 27.2 (Operational Acceptance Test).

The Supplier shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies and/or other reasons for the failure of the Operational Acceptance Test that the Project Manager has notified the Supplier of. Once such remedies have been made by the Supplier, the Supplier shall notify the Purchaser, and the Purchaser, with the full cooperation of the Supplier, shall use all reasonable endeavors to promptly carry out retesting of the System or Subsystem. Upon the successful conclusion of the Operational Acceptance Tests, the Supplier shall notify the Purchaser of its request for Operational Acceptance Certification, in accordance with GCC Clause 27.3.3. The Purchaser shall then issue to the Supplier the Operational Acceptance Certification in accordance with GCC Clause 27.3.3 (a), or shall notify the Supplier of further defects, deficiencies, or other reasons for the failure of the Operational Acceptance Test. The procedure set out in this GCC Clause 27.3.4 shall be repeated, as necessary, until an Operational Acceptance Certificate is issued.

The Supplier shall submit the system integration test report detailing the test results from the successful completion of the tests to the purchaser for review at least two (2) weeks before the commencement of the OAT. The Government reserves the right to hold back the OAT until the evidence of the successful completion of the tests is produced.

F. SERVICE SPECIFICATIONS – RECURRENT COST ITEMS

5.1 Warranty Defect Repair

5.1.1 The Supplier MUST provide the following services under the Contract or, as appropriate under separate contracts (as specified in the request for proposals documents).

5.1.1.1 Warranty Defect Repair Service: Three (3) years warranty should be provided for Big Data Analytics Tools (Defects of the total information system (IS) will be addressed at on-site/off-site in accordance with the assigned priority level mentioned in subsection 3.2 Service Level Agreement (SLA) of Warranty Defect Repair including on-site defects remedy service, as applicable.

5.2 Technical Support

5.2.1 The Supplier MUST provide the following services under the Contract or, as appropriate under separate contracts (as specified in the request for proposals documents).

5.2.1.1 User support / hot line: Not Applicable

5.2.1.2 Technical Assistance: Not Applicable

5.2.1.3 Post-Warranty Maintenance Services: Not Applicable.

5.3 Requirements of the Supplier’s Technical Team

5.3.1 The Supplier MUST provide a technical team to cover the Purchaser’s anticipated Post-Operational Acceptance Technical Assistance Activities Requirements (e.g., modification of the Information System to comply with changing legislation and regulations) with the roles and skill levels that are specified below. *The minimum expected quantities of inputs by the Supplier’s technical support team are specified in the relevant System Inventory Tables for Recurrent Cost Items.*

Not Applicable.

Implementation Schedule

Table of Contents: Implementation Schedule

A.	Implementation Schedule Table.....	222
B.	Site Table(s).....	223
C.	Table of Holidays and Other Non-Working Days	224

Unofficially Copy

A. IMPLEMENTATION SCHEDULE TABLE

The implementation part of assignment mentioned in this Request for Proposals must be completed within 18 (eighteen) weeks from the date of effective of the contract. Detailed technical designs and relevant documentation must be provided including physical, logical and service oriented layout designs, etc. Roles and responsibilities of all stakeholders regarding the activities and services must be provided in detail with clear separation of duties.

Line Item No.	Subsystem / Item	Configuration Table No.	Site / Site Code	Delivery (weeks from Effective Date)	Installation (weeks from Effective Date)	Acceptance (weeks from Effective Date)	Liquidated Damages Milestone
0	Project Plan (Including High Level Design)	N/A	NDC, ICT Tower	W3	-	W5	No
1	System Design, Configuration & Implementation	N/A	NDC, ICT Tower	W6	W8	W12	No
2	Service Customization and Optimization	N/A	NDC, ICT Tower	W12	W12	W16	No
3	Training and delivery of documentations	N/A	NDC, ICT Tower	W12	N/A	W16	No
4	Operational Acceptance of the System	N/A	NDC, ICT Tower	N/A	N/A	W18	Operational Acceptance

B. SITE TABLE(S)

[Specify: the detailed information regarding the site(s) at which the System is to be operated]

Site Code	Site	City / Town / Region	Primary Street Address	Drawing Reference No. (if any)
HQ	Headquarters			
R1	Region 1	Not Applicable		
R1.1	Region 1 Head Office			
R1.2	ABC Branch Office			
R1.3	DEF Branch Office			

C. TABLE OF HOLIDAYS AND OTHER NON-WORKING DAYS

[Specify: the days for each month for each year that are non-working days, due to Holidays or other business reasons (other than weekends).]

Month	2024	2025	2026

Background and Informational Materials

A. BACKGROUND

0.1 The Purchaser

0.1.1 Bangladesh Computer Council (BCC) is a statutory body under the Ministry of Posts, Telecommunications and Information Technology, Government of Bangladesh (GOB). It was established by Act No IX of 1990 passed by Parliament. The main activities are (not limited to) encouraging and providing support for ICT related activities, formulating national ICT strategy and policy, creating standards and specifications of ICT tools for government organizations according to their necessity, working for human resource development in ICT sector. It has also established the National Data Center for hosting all the government websites, e-mail services and web applications. It is the only TIER – 3 certified Government Data Center in Bangladesh. In the near future, it will act as the only Gateway to access internet services for all of the government organizations. BCC is continuing ICT infrastructure development of government through several development projects/programs to facilitate access to government services from root level. BCC is steadily growing and relies heavily on the IT Infrastructure to enable growth and operationalize efficiencies.

0.2 The Purchaser’s Business Objectives for the Information System

0.2.1 Under the Digital Bangladesh initiative, it is envisioned to "make all Government services accessible to the citizen in his locality, through common service delivery outlets and ensure efficiency, transparency & reliability of such services at affordable costs to realize the basic needs of the citizen".

In order to make this vision a reality, the Government of Bangladesh (GoB) recognized the potential of Information and Communication Technology (ICT) for rapid and all-round development in general and transforming governance in particular. Initially there were islands of ICT initiatives at the Country, District, Upazilla, Union and even Village level. The learnings by way of both the challenges and opportunities faced during the development and implementation of such initiatives contributed to refining the overall e-Governance strategy. One of the key learning's that emerged was an urgent need to develop the core and other supporting infrastructure for sustaining e-Governance initiatives across the country.

0.2.2 As part of the Smart Nation initiative, the Bangladesh Computer Council (BCC) intends to provide Big Data Analytics Tools to NDC users through its National Data Center (NDC). By leveraging big data analytics, this technology seeks to create a strong, safe, and effective smart ecosystem that will improve public participation, service dependability, and data-driven decision-making. In order to create a smart Bangladesh, the following factors Big Data Analytics solutions crucial:

- **Accessibility and Cost-Effectiveness:** Big Data Analytics Tools provide access to a wide range of tools and applications over the cloud, making them accessible

to a broader range of users, including government agencies, and academia. This reduces the need for substantial upfront investments in software and hardware.

- **Scalability and Flexibility:** With Big Data Analytics Tools, tools can be scaled up or down based on demand. This is particularly beneficial for government which may have fluctuating requirements, ensuring that resources are used efficiently.
- **Rapid Deployment and Updates:** Big Data Analytics Tools enables quick deployment and regular updates of tools, ensuring that the latest functionalities are always available. This is vital for keeping up with the fast-paced technological advancements and changing citizen needs.
- **Informed Decision-Making:** Big data analytics allow for the analysis of large volumes of data to derive insights for informed decision-making. In the context of a smart nation, this translates to data-driven policies and initiatives, better resource allocation, and more effective public services.
- **Enhanced Public Services:** By analyzing data from various sources, government agencies can improve public services, tailor them to citizen needs, and predict future demands. This leads to more efficient and user-centric service delivery.
- **Predictive Analytics for Proactive Governance:** Big data tools enable predictive analytics, which can be used for proactive governance. This includes anticipating and mitigating potential issues before they escalate, such as traffic congestion, public health concerns, and environmental threats.
- **Economic Growth and Innovation:** Big data analytics can drive economic growth by providing insights that help in identifying new opportunities, optimizing operations, and fostering innovation across various sectors.
- **Transparency and Accountability:** The use of these tools can also increase transparency and accountability in government operations, building public trust and ensuring more effective governance.

The adoption of these tools can assist NDC and its users in several ways. These advantages consist of the following:

Benefits for the National Data Center:

- **Optimized Operations and Efficiency:** The use of big data analytics, leads to optimized operations, ensuring the data center runs efficiently and cost-effectively.
- **Data-Driven Decision Making:** Big data analytics provide insights into operational patterns, user behavior, and service usage, enabling the data center to make informed decisions about resource allocation and service enhancements.
- **Compliance and Quality Control:** The integration of these tools ensures adherence to regulatory standards and quality benchmarks, vital for maintaining credibility and trust.

Benefits for National Data Center clients:

- **User-Friendly Access to Services:** Big data analytics ensure that the interfaces of government services are intuitive and tailored to user needs, data management enhancing their overall experience.
- **Secure Data and Privacy Protection:** Advanced security measures, backed by analytical insights, safeguard user data, enhancing trust and confidence in using the data center’s services.
- **Personalized and Agile Service Offerings:** The data center's use of big data analytics helps in offering personalized services that are quickly updated and improved based on user feedback and data.
- **Assured Quality and Compliance:** Users benefit from high-quality services that comply with national and international standards, ensuring a safe and reliable experience.
- **Coding and Extensibility Support:** Users will get coding and extensibility support. For example, multiple programming language support under one roof, versioning system support, library/third party support, interactive/jupyter notebook support.
- **Data Exploration and Visualization:** Users will perform his/her file and data browsing, data quality analysis, augmented exploratory data analysis, statistical analysis and visualization via this option.
- **Machine Learning and Operationalization:** Algorithm completeness, feature transformation, model evaluation and interpretation, model optimization, data workflow automation, model deployment, cluster (Hadoop, Spark, Docker) integration can be performed by the user.

The BCC has devised a plan to implement Big Data Analytics Tools, crucial elements for both NDC and its clients, to create a smart nation that meets contemporary needs. These tools should be recognized as a fundamental part of any government's digital transformation strategy. The use of these tools plays a pivotal role in transforming the country's digital landscape towards smart Bangladesh.

B. INFORMATIONAL MATERIALS

0.3 The Legal, Regulatory, and Normative Context for the Information System

0.3.1 Cyber Security Act 2023

0.3.2 Policies, Guidelines, and Standards

- ❖ Government of Bangladesh Information Security Manual 2016
- ❖ ICT Policy 2009 amended in 2015
- ❖ Information Security Policy Guideline 2014
- ❖ National Cyber Security Strategy 2014
- ❖ Cyber Security Policy 2010
- ❖ ISO 27001:2013
- ❖ Data Protection Act, 2022 (soon to be enacted)
- ❖ BNDA

0.4 Existing Information Systems / Information Technologies Relevant to the Information System

0.4.1 Not Applicable.

0.4.2 Not Applicable.

0.5 Available Training Facilities to Support the Implementation of the Information System

0.5.1 Not Applicable.

0.6 Site Drawings and Site Survey Information Relevant to the Information System

0.6.1 Not Applicable.

General Conditions of Contract

A. CONTRACT AND INTERPRETATION

1. Definitions

1.1 In this Contract, the following terms shall be interpreted as indicated below.

(a) contract elements

(i) **“Contract”** means the Contract Agreement entered into between the Purchaser and the Supplier, together with the Contract Documents referred to therein. The Contract Agreement and the Contract Documents shall constitute the Contract, and the term “the Contract” shall in all such documents be construed accordingly.

(ii) **“Contract Documents”** means the documents specified in Article 1.1 (Contract Documents) of the Contract Agreement (including any amendments to these Documents).

(iii) **“Contract Agreement”** means the agreement entered into between the Purchaser and the Supplier using the form of Contract Agreement contained in the Sample Contractual Forms Section of the request for proposals documents and any modifications to this form agreed to by the Purchaser and the Supplier. The date of the Contract Agreement shall be recorded in the signed form.

(iv) **“GCC”** means the General Conditions of Contract.

(v) **“SCC”** means the Special Conditions of Contract.

(vi) **“Technical Requirements”** means the Technical Requirements in Section VII of the request for proposals documents.

(vii) **“Implementation Schedule”** means the Implementation Schedule in Section VII of the request for proposals documents.

(viii) **“Contract Price”** means the price or prices defined in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement.

(ix) **“Procurement Regulations”** refers to the edition specified in the SCC of the World Bank “Procurement_Regulations for IPF Borrowers”.

(x) “request for proposals **document**” refers to the document issued by the Purchaser on the subject procurement process.

(xi) “**Sexual Exploitation and Abuse**” “(SEA)” means the following:

Sexual Exploitation is defined as any actual or attempted abuse of position of vulnerability, differential power or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another.

Sexual Abuse is defined as the actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions.

(xii) “**Sexual Harassment**” “(SH)” is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature by the Supplier’s Personnel with other Supplier’s or Purchaser’s personnel.

(b) entities

(i) “**Purchaser**” means the entity purchasing the Information System, as **specified in the SCC**.

(ii) “**Purchaser’s Personnel**” means all staff, labor and other employees of the Project Manager and of the Purchaser engaged in fulfilling the Purchaser’s obligations under the Contract; and any other personnel identified as Purchaser’s Personnel, by a notice from the Purchaser to the Supplier;

(iii) “**Project Manager**” means the person **named as such in the SCC** or otherwise appointed by the Purchaser in the manner provided in GCC Clause 18.1 (Project Manager) to perform the duties delegated by the Purchaser.

(iv) “**Supplier**” means the firm or Joint Venture whose proposal to **perform the Contract** has been accepted by the Purchaser and is named as such in the Contract Agreement.

(v) “**Supplier’s Representative**” means any person **nominated** by the Supplier and named as such in the Contract Agreement or otherwise approved by the Purchaser in the manner provided in GCC

Clause 18.2 (Supplier’s Representative) to perform the duties delegated by the Supplier.

- (vi) **“Supplier’s Personnel”** means all personnel whom the Supplier utilizes in the execution of the Contract, including the staff, labor and other employees of the Supplier and each Subcontractor; and any other personnel assisting the Supplier in the execution of the Contract;
- (vii) **“Subcontractor”** means any firm to whom any of the obligations of the Supplier, including preparation of any design or supply of any Information Technologies or other Goods or Services, is subcontracted directly or indirectly by the Supplier.
- (viii) **“Adjudicator”** means the person named in Appendix 2 of the Contract Agreement, **appointed** by agreement between the Purchaser and the Supplier to make a decision on or to settle any dispute between the Purchaser and the Supplier referred to him or her by the parties, pursuant to GCC Clause 43.1 (Adjudication).
- (ix) **“The World Bank”** (also called “The Bank”) means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(c) scope

- (i) **“Information System,”** also called “the System,” means all the Information Technologies, Materials, and other Goods to be supplied, installed, integrated, and made operational (exclusive of the Supplier’s Equipment), together with the Services to be carried out by the Supplier under the Contract.
- (ii) **“Subsystem”** means any subset of the System identified as such in the Contract that may be supplied, installed, tested, and commissioned individually before Commissioning of the entire System.
- (iii) **“Information Technologies”** means all information processing and communications-related hardware, Software, supplies, and consumable items that the Supplier is required to supply and install under the Contract.

- (iv) “Goods” means all equipment, machinery, furnishings, Materials, and other tangible items that the Supplier is required to supply or supply and install under the Contract, including, without limitation, the Information Technologies and Materials, but excluding the Supplier’s Equipment.
- (v) “Services” means all technical, logistical, management, and any other Services to be provided by the Supplier under the Contract to supply, install, customize, integrate, and make operational the System. Such Services may include, but are not restricted to, activity management and quality assurance, design, development, customization, documentation, transportation, insurance, inspection, expediting, site preparation, installation, integration, training, data migration, Pre-commissioning, Commissioning, maintenance, and technical support.
- (vi) “The Project Plan” means the document to be developed by the Supplier and approved by the Purchaser, pursuant to GCC Clause 19, based on the requirements of the Contract and the Preliminary Project Plan included in the Supplier’s proposal. The “Agreed Project Plan” is the version of the Project Plan approved by the Purchaser, in accordance with GCC Clause 19.2. Should the Project Plan conflict with the Contract in any way, the relevant provisions of the Contract, including any amendments, shall prevail.
- (vii) “Software” means that part of the System which are instructions that cause information processing Subsystems to perform in a specific manner or execute specific operations.
- (viii) “System Software” means Software that provides the operating and management instructions for the underlying hardware and other components, and is identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Systems Software. Such System Software includes, but is not restricted to, micro-code embedded in hardware (i.e., “firmware”), operating systems, communications,

system and network management, and utility software.

- (ix) “General-Purpose Software” means Software that supports general-purpose office and software development activities and is identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be General- Purpose Software. Such General-Purpose Software may include, but is not restricted to, word processing, spreadsheet, generic database management, and application development software.
- (x) “Application Software” means Software formulated to perform specific business or technical functions and interface with the business or technical users of the System and is identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Application Software.
- (xi) “Standard Software” means Software identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Standard Software.
- (xii) “Custom Software” means Software identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Custom Software.
- (xiii) “Source Code” means the database structures, dictionaries, definitions, program source files, and any other symbolic representations necessary for the compilation, execution, and subsequent maintenance of the Software (typically, but not exclusively, required for Custom Software).
- (xiv) “Materials” means all documentation in printed or printable form and all instructional and informational aides in any form (including audio, video, and text) and on any medium, provided to the Purchaser under the Contract.
- (xv) “Standard Materials” means all Materials not specified as Custom Materials.
- (xvi) “Custom Materials” means Materials developed by the Supplier at the Purchaser’s expense under the Contract and identified as such in Appendix 5 of the

Contract Agreement and such other Materials as the parties may agree in writing to be Custom Materials. Custom Materials includes Materials created from Standard Materials.

(xvii) “Intellectual Property Rights” means any and all copyright, moral rights, trademark, patent, and other intellectual and proprietary rights, title and interests worldwide, whether vested, contingent, or future, including without limitation all economic rights and all exclusive rights to reproduce, fix, adapt, modify, translate, create derivative works from, extract or re-utilize data from, manufacture, introduce into circulation, publish, distribute, sell, license, sublicense, transfer, rent, lease, transmit or provide access electronically, broadcast, display, enter into computer memory, or otherwise use any portion or copy, in whole or in part, in any form, directly or indirectly, or to authorize or assign others to do so.

(xviii) “Supplier’s Equipment” means all equipment, tools, apparatus, or things of every kind required in or for installation, completion and maintenance of the System that are to be provided by the Supplier, but excluding the Information Technologies, or other items forming part of the System.

(d) activities

(i) “Delivery” means the transfer of the Goods from the Supplier to the Purchaser in accordance with the current edition Incoterms specified in the Contract.

(ii) “Installation” means that the System or a Subsystem as specified in the Contract is ready for Commissioning as provided in GCC Clause 26 (Installation).

(iii) “Pre-commissioning” means the testing, checking, and any other required activity that may be specified in the Technical Requirements that are to be carried out by the Supplier in preparation for Commissioning of the System as provided in GCC Clause 26 (Installation).

(iv) “Commissioning” means operation of the System or any Subsystem by the Supplier following Installation, which operation is to be carried out by the Supplier as provided in GCC Clause 27.1

(Commissioning), for the purpose of carrying out Operational Acceptance Test(s).

- (v) “Operational Acceptance Tests” means the tests specified in the Technical Requirements and Agreed Project Plan to be carried out to ascertain whether the System, or a specified Subsystem, is able to attain the functional and performance requirements specified in the Technical Requirements and Agreed Project Plan, in accordance with the provisions of GCC Clause 27.2 (Operational Acceptance Test).
 - (vi) “Operational Acceptance” means the acceptance by the Purchaser of the System (or any Subsystem(s) where the Contract provides for acceptance of the System in parts), in accordance with GCC Clause 27.3 (Operational Acceptance).
- (e) place and time
- (i) “Purchaser’s Country” is the **country named in the SCC**.
 - (ii) “Supplier’s Country” is the country in which the Supplier is legally organized, as named in the Contract Agreement.
 - (iii) **Unless otherwise specified in the SCC** “Project Site(s)” means the place(s) in the Site Table in the Technical Requirements Section for the supply and installation of the System.
 - (iv) “Eligible Country” means the countries and territories eligible for participation in procurements financed by the World Bank as defined in the Procurement Regulations.
 - (v) “Day” means calendar day of the Gregorian Calendar.
 - (vi) “Week” means seven (7) consecutive Days, beginning the day of the week as is customary in the Purchaser’s Country.
 - (vii) “Month” means calendar month of the Gregorian Calendar.
 - (viii) “Year” means twelve (12) consecutive Months.
 - (ix) “Effective Date” means the date of fulfillment of all conditions specified in Article 3 (Effective Date for Determining Time for Achieving Operational

Acceptance) of the Contract Agreement, for the purpose of determining the Delivery, Installation, and Operational Acceptance dates for the System or Subsystem(s).

- (x) “Contract Period” is the time period during which this Contract governs the relations and obligations of the Purchaser and Supplier in relation to the System, as **unless otherwise specified in the SCC**, the Contract shall continue in force until the Information System and all the Services have been provided, unless the Contract is terminated earlier in accordance with the terms set out in the Contract.
- (xi) “Defect Liability Period” (also referred to as the “Warranty Period”) means the period of validity of the warranties given by the Supplier commencing at date of the Operational Acceptance Certificate of the System or Subsystem(s), during which the Supplier is responsible for defects with respect to the System (or the relevant Subsystem[s]) as provided in GCC Clause 29 (Defect Liability).
- (xii) “The Coverage Period” means the Days of the Week and the hours of those Days during which maintenance, operational, and/or technical support services (if any) must be available.
- (xiii) “The Post-Warranty Services Period” means the number of years **defined in the SCC** (if any), following the expiration of the Warranty Period during which the Supplier may be obligated to provide Software licenses, maintenance, and/or technical support services for the System, either under this Contract or under separate contract(s).

2. Contract Documents

2.1 Subject to Article 1.2 (Order of Precedence) of the Contract Agreement, all documents forming part of the Contract (and all parts of these documents) are intended to be correlative, complementary, and mutually explanatory. The Contract shall be read as a whole.

3. Interpretation

3.1 Governing Language

3.1.1 **Unless otherwise specified in the SCC**, all Contract Documents and related correspondence exchanged between Purchaser and Supplier shall be written in the language of the request for proposals document (English),

and the Contract shall be construed and interpreted in accordance with that language.

3.1.2 If any of the Contract Documents or related correspondence are prepared in a language other than the governing language under GCC Clause 3.1.1 above, the translation of such documents into the governing language shall prevail in matters of interpretation. The originating party, with respect to such documents shall bear the costs and risks of such translation.

3.2 Singular and Plural

The singular shall include the plural and the plural the singular, except where the context otherwise requires.

3.3 Headings

The headings and marginal notes in the GCC are included for ease of reference and shall neither constitute a part of the Contract nor affect its interpretation.

3.4 Persons

Words importing persons or parties shall include firms, corporations, and government entities.

3.5 Incoterms

Unless inconsistent with any provision of the Contract, the meaning of any trade term and the rights and obligations of parties thereunder shall be as prescribed by the Incoterms

Incoterms means international rules for interpreting trade terms published by the International Chamber of Commerce (latest edition), 38 Cours Albert 1^{er}, 75008 Paris, France.

3.6 Entire Agreement

The Contract constitutes the entire agreement between the Purchaser and Supplier with respect to the subject matter of Contract and supersedes all communications, negotiations, and agreements (whether written or oral) of parties with respect to the subject matter of the Contract made prior to the date of Contract.

3.7 Amendment

No amendment or other variation of the Contract shall be effective unless it is in writing, is dated, expressly refers to the Contract, and is signed by a duly authorized representative of each party to the Contract.

3.8 Independent Supplier

The Supplier shall be an independent contractor performing the Contract. The Contract does not create any agency, partnership, joint venture, or other joint relationship between the parties to the Contract.

Subject to the provisions of the Contract, the Supplier shall be solely responsible for the manner in which the Contract is performed. All employees, representatives, or Subcontractors engaged by the Supplier in connection with the performance of the Contract shall be under the complete control of the Supplier and shall not be deemed to be employees of the Purchaser, and nothing contained in the Contract or in any subcontract awarded by the Supplier shall be construed to create any contractual relationship between any such employees, representatives, or Subcontractors and the Purchaser.

3.9 Joint Venture

If the Supplier is a Joint Venture of two or more firms, all such firms shall be jointly and severally bound to the Purchaser for the fulfillment of the provisions of the Contract and shall designate one of such firms to act as a leader with authority to bind the Joint Venture. The composition or constitution of the Joint Venture shall not be altered without the prior consent of the Purchaser.

3.10 Nonwaiver

3.10.1 Subject to GCC Clause 3.10.2 below, no relaxation, forbearance, delay, or indulgence by either party in enforcing any of the terms and conditions of the Contract or the granting of time by either party to the other shall prejudice, affect, or restrict the rights of that party under the Contract, nor shall any waiver by either party of any breach of Contract operate as waiver of any subsequent or continuing breach of Contract.

3.10.2 Any waiver of a party's rights, powers, or remedies under the Contract must be in writing, must be dated and signed by an authorized representative of the party granting such waiver, and must specify the right and the extent to which it is being waived.

3.11 Severability

If any provision or condition of the Contract is prohibited or rendered invalid or unenforceable, such prohibition, invalidity, or unenforceability shall not affect the validity or enforceability of any other provisions and conditions of the Contract.

3.12 Country of Origin

“Origin” means the place where the Information Technologies, Materials, and other Goods for the System were produced or from which the Services are supplied. Goods are produced when, through manufacturing, processing, Software development, or substantial and major assembly or integration of components, a commercially recognized product results that is substantially different in basic characteristics or in purpose or utility from its components. The Origin of Goods and Services is distinct from the nationality of the Supplier and may be different.

4. Notices

4.1 Unless otherwise stated in the Contract, all notices to be given under the Contract shall be in writing and shall be sent, pursuant to GCC Clause 4.3 below, by personal delivery, airmail post, special courier, facsimile, electronic mail, or other electronic means, with the following provisions.

4.1.1 Any notice sent by facsimile, electronic mail, or EDI shall be confirmed within two (2) days after dispatch by notice sent by airmail post or special courier, except as otherwise specified in the Contract.

4.1.2 Any notice sent by airmail post or special courier shall be deemed (in the absence of evidence of earlier receipt) to have been delivered ten (10) days after dispatch. In proving the fact of dispatch, it shall be sufficient to show that the envelope containing such notice was properly addressed, stamped, and conveyed to the postal authorities or courier service for transmission by airmail or special courier.

4.1.3 Any notice delivered personally or sent by facsimile, electronic mail, or EDI shall be deemed to have been delivered on the date of its dispatch.

4.1.4 Either party may change its postal, facsimile, electronic mail, or EDI addresses for receipt of such notices by ten (10) days’ notice to the other party in writing.

4.2 Notices shall be deemed to include any approvals, consents, instructions, orders, certificates, information and other communication to be given under the Contract.

4.3 Pursuant to GCC Clause 18, notices from/to the Purchaser are normally given by, or addressed to, the Project Manager, while notices from/to the Supplier are normally given by, or addressed to, the Supplier's Representative, or in its absence its deputy if any. If there is no appointed Project Manager or

Supplier's Representative (or deputy), or if their related authority is limited by the SCC for GCC Clauses 18.1 or 18.2.2, or for any other reason, the Purchaser or Supplier may give and receive notices at their fallback addresses. The address of the Project Manager and the fallback address of the Purchaser are as **specified in the SCC** or as subsequently established/amended. The address of the Supplier's Representative and the fallback address of the Supplier are as specified in Appendix 1 of the Contract Agreement or as subsequently established/amended.

- 5. Governing Law**
- 5.1 The Contract shall be governed by and interpreted in accordance with the laws of the country **specified in the SCC**.
- 5.2 Throughout the execution of the Contract, the Supplier shall comply with the import of goods and services prohibitions in the Purchaser's Country when
- (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or
 - (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.
- 6. Fraud and Corruption**
- 6.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in the Appendix 1 to the GCC.
- 6.2 The Purchaser requires the Suppliers to disclose any commissions or fees that may have been paid or are to be paid to agents or any other party with respect to the procurement process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

B. SUBJECT MATTER OF CONTRACT

- 7. Scope of the System**
- 7.1 Unless otherwise expressly **limited in the SCC** or Technical Requirements, the Supplier's obligations cover the provision of all Information Technologies, Materials and other Goods as well as the performance of all Services required for the design, development, and implementation (including

procurement, quality assurance, assembly, associated site preparation, Delivery, Pre-commissioning, Installation, Testing, and Commissioning) of the System, in accordance with the plans, procedures, specifications, drawings, codes, and any other documents specified in the Contract and the Agreed Project Plan.

- 7.2 The Supplier shall, unless specifically excluded in the Contract, perform all such work and / or supply all such items and Materials not specifically mentioned in the Contract but that can be reasonably inferred from the Contract as being required for attaining Operational Acceptance of the System as if such work and / or items and Materials were expressly mentioned in the Contract.
- 7.3 The Supplier's obligations (if any) to provide Goods and Services as implied by the Recurrent Cost tables of the Supplier's proposal, such as consumables, spare parts, and technical services (e.g., maintenance, technical assistance, and operational support), are as **specified in the SCC**, including the relevant terms, characteristics, and timings.

8. Time for Commencement and Operational Acceptance

- 8.1 The Supplier shall commence work on the System within the period **specified in the SCC**, and without prejudice to GCC Clause 28.2, the Supplier shall thereafter proceed with the System in accordance with the time schedule specified in the Implementation Schedule and any refinements made in the Agreed Project Plan.
- 8.2 The Supplier shall achieve Operational Acceptance of the System (or Subsystem(s) where a separate time for Operational Acceptance of such Subsystem(s) is specified in the Contract) in accordance with the time schedule specified in the Implementation Schedule and any refinements made in the Agreed Project Plan, or within such extended time to which the Supplier shall be entitled under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).

9. Supplier's Responsibilities

9.1 The Supplier shall conduct all activities with due care and diligence, in accordance with the Contract and with the skill and care expected of a competent provider of information technologies, information systems, support, maintenance, training, and other related services, or in accordance with best industry practices. In particular, the Supplier shall provide and employ only technical personnel who are skilled and experienced in their respective callings and supervisory staff who are competent to adequately supervise the work at hand. The Supplier shall ensure that its Subcontractors carryout the work on the Information System in accordance with the Contract, including complying with relevant environmental and social requirements and the obligations set out in GCC Clause 9.9.

The Supplier shall at all times take all reasonable precautions to maintain the health and safety of the Supplier's Personnel employed for the execution of the Contract at the Project Site/s in the Purchaser's country where the Contract is executed.

If **required in the SCC**, the Supplier shall submit to the Purchaser for its approval a health and safety manual which has been specifically prepared for the Contract.

The health and safety manual shall be in addition to any other similar document required under applicable health and safety regulations and laws.

The health and safety manual shall set out any applicable health and safety requirement under the Contract,

(a) which may include:

- (i) the procedures to establish and maintain a safe working environment;
- (ii) the procedures for prevention, preparedness and response activities to be implemented in the case of an emergency event (i.e. an unanticipated incident, arising from natural or man-made hazards);
- (iii) the measures to be taken to avoid or minimize the potential for community exposure to water-borne, water-based, water-related, and vector-borne diseases,
- (iv) the measures to be implemented to avoid or minimize the spread of communicable diseases; and

(b) any other requirements stated in the Purchaser's Requirements.

- 9.2 The Supplier confirms that it has entered into this Contract on the basis of a proper examination of the data relating to the System provided by the Purchaser and on the basis of information that the Supplier could have obtained from a visual inspection of the site (if access to the site was available) and of other data readily available to the Supplier relating to the System as at the date twenty-eight (28) days prior to proposal submission. The Supplier acknowledges that any failure to acquaint itself with all such data and information shall not relieve its responsibility for properly estimating the difficulty or cost of successfully performing the Contract.
- 9.3 The Supplier shall be responsible for timely provision of all resources, information, and decision making under its control that are necessary to reach a mutually Agreed Project Plan (pursuant to GCC Clause 19.2) within the time schedule specified in the Implementation Schedule. Failure to provide such resources, information, and decision-making may constitute grounds for termination pursuant to GCC Clause 41.2.
- 9.4 The Supplier shall acquire in its name all permits, approvals, and/or licenses from all local, state, or national government authorities or public service undertakings in the Purchaser's Country that are necessary for the performance of the Contract, including, without limitation, visas for the Supplier's Personnel and entry permits for all imported Supplier's Equipment. The Supplier shall acquire all other permits, approvals, and/or licenses that are not the responsibility of the Purchaser under GCC Clause 10.4 and that are necessary for the performance of the Contract.
- 9.5 The Supplier shall comply with all laws in force in the Purchaser's Country. The laws will include all national, provincial, municipal, or other laws that affect the performance of the Contract and are binding upon the Supplier. The Supplier shall indemnify and hold harmless the Purchaser from and against any and all liabilities, damages, claims, fines, penalties, and expenses of whatever nature arising or resulting from the violation of such laws by the Supplier or its personnel, including the Subcontractors and their personnel, but without prejudice to GCC Clause 10.1. The Supplier shall not indemnify the Purchaser to the extent that such liability, damage, claims, fines, penalties, and

expenses were caused or contributed to by a fault of the Purchaser.

- 9.6 Any Information Technologies or other Goods and Services that will be incorporated in or be required for the System and other supplies shall have their Origin, as defined in GCC Clause 3.12, in a country that shall be an Eligible Country, as defined in GCC Clause 1.1 (e) (iv).
- 9.7 Pursuant to paragraph 2.2 e. of the Appendix 1 to the General Conditions of Contract, the Supplier shall permit and shall cause its agents (where declared or not), subcontractors, subconsultants, service providers, suppliers, and personnel, to permit, the Bank and/or persons appointed by the Bank to inspect the site and/or the accounts, records and other documents relating to the procurement process, selection and/or contract execution, and to have such accounts, records and other documents audited by auditors appointed by the Bank. The Supplier's and its Subcontractors' and subconsultants' attention is drawn to GCC Clause 6.1 (Fraud and Corruption) which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility pursuant to the Bank's prevailing sanctions procedures).
- 9.8 The Supplier shall conform to the sustainable procurement contractual provisions, if and as **specified in the SCC**.

9.9 **Code of Conduct**

The Supplier shall have a Code of Conduct for the Supplier's Personnel employed for the execution of the Contract at the Project Site/s.

The Supplier shall take all necessary measures to ensure that each such personnel is made aware of the Code of Conduct including specific behaviors that are prohibited, and understands the consequences of engaging in such prohibited behaviors.

These measures include providing instructions and documentation that can be understood by such personnel, and seeking to obtain that person's signature acknowledging receipt of such instructions and/or documentation, as appropriate.

The Supplier shall also ensure that the Code of Conduct is visibly displayed in the Project Site/s as well as, as applicable, in areas outside the Project Site/s accessible to the local

community and any project affected people. The posted Code of Conduct shall be provided in languages comprehensible to the Supplier's Personnel, Purchaser's Personnel and the local community.

The Supplier's Management Strategy and Implementation Plans, if applicable, shall include appropriate processes for the Supplier to verify compliance with these obligations.

9.10 The Supplier shall, in all dealings with its labor and the labor of its Subcontractors currently employed on or connected with the Contract, pay due regard to all recognized festivals, official holidays, religious or other customs, and all local laws and regulations pertaining to the employment of labor.

9.11 The Supplier, including its Subcontractors, shall comply with all applicable safety obligations. The Supplier shall at all times take all reasonable precautions to maintain the health and safety of the Supplier's Personnel employed for the execution of Contract at the Project Site/s.

9.12 Training of Supplier's Personnel

The Supplier shall provide appropriate training to relevant Supplier's Personnel on any applicable environmental and social aspect of the Contract, including appropriate sensitization on prohibition of SEA, health and safety.

As stated in the Purchaser's Requirements or as instructed by the Project Manager, the Supplier shall also allow appropriate opportunities for the relevant personnel to be trained on any applicable environmental and social aspects of the Contract by the Purchaser's Personnel and/or other personnel assigned by the Purchaser.

The Supplier shall provide training on SEA and SH, including its prevention, to any of its personnel who has a role to supervise other Supplier's Personnel.

9.13 Stakeholder engagements

The Supplier shall provide relevant contract-related information, as the Purchaser and/or Project Manager may reasonably request to conduct contract stakeholder engagement. "Stakeholder" refers to individuals or groups who:

- (a) are affected or likely to be affected by the Contract;
and
- (b) may have an interest in the Contract.

The Supplier may also directly participate in contract stakeholder engagements, as the Purchaser and/or Project Manager may reasonably request.

9.14 Forced Labor

The Supplier, including its Subcontractors, shall not employ or engage forced labour. Forced labour consists of any work or service, not voluntarily performed, that is exacted from an individual under threat of force or penalty, and includes any kind of involuntary or compulsory labour, such as indentured labour, bonded labour or similar labour-contracting arrangements.

No persons shall be employed or engaged who have been subject to trafficking. Trafficking in persons is defined as the recruitment, transportation, transfer, harbouring or receipt of persons by means of the threat or use of force or other forms of coercion, abduction, fraud, deception, abuse of power, or of a position of vulnerability, or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purposes of exploitation.

9.15 Child Labor

The Supplier, including its Subcontractors, shall not employ or engage a child under the age of 14 unless the national law specifies a higher age (the minimum age).

The Supplier, including its Subcontractors, shall not employ or engage a child between the minimum age and the age of 18 in a manner that is likely to be hazardous, or to interfere with, the child's education, or to be harmful to the child's health or physical, mental, spiritual, moral, or social development.

The Supplier, including its Subcontractors, shall only employ or engage children between the minimum age and the age of 18 after an appropriate risk assessment has been conducted by the Supplier with the Project Manager's consent. The Supplier shall be subject to regular monitoring by the Project Manager that includes monitoring of health, working conditions and hours of work.

Work considered hazardous for children is work that, by its nature or the circumstances in which it is carried out, is likely to jeopardize the health, safety, or morals of children. Such work activities prohibited for children include work:

- (a) with exposure to physical, psychological or sexual abuse;
- (b) underground, underwater, working at heights or in confined spaces;
- (c) with dangerous machinery, equipment or tools, or involving handling or transport of heavy loads;
- (d) in unhealthy environments exposing children to hazardous substances, agents, or processes, or to temperatures, noise or vibration damaging to health; or
- (e) under difficult conditions such as work for long hours, during the night or in confinement on the premises of the employer.

9.16 Non-Discrimination and Equal Opportunity

The Supplier shall not make decisions relating to the employment or treatment of personnel for the execution of the Contract on the basis of personal characteristics unrelated to inherent job requirements. The Supplier shall base the employment of personnel for the execution of the Contract on the principle of equal opportunity and fair treatment, and shall not discriminate with respect to any aspects of the employment relationship, including recruitment and hiring, compensation (including wages and benefits), working conditions and terms of employment, access to training, job assignment, promotion, termination of employment or retirement, and disciplinary practices.

Special measures of protection or assistance to remedy past discrimination or selection for a particular job based on the inherent requirements of the job shall not be deemed discrimination. The Supplier shall provide protection and assistance as necessary to ensure non-discrimination and equal opportunity, including for specific groups such as women, people with disabilities, migrant workers and children (of working age in accordance with GCC Clause 9.15).

9.17 Personnel Grievance Mechanism

The Supplier shall have a grievance mechanism for personnel employed in the execution of the Contract to raise workplace concerns. The grievance mechanism shall be proportionate to the nature, scale, risks and impacts of the Contract. The grievance mechanism may utilize existing grievance mechanisms, provided that they are properly

designed and implemented, address concerns promptly, and are readily accessible to such personnel.

9.18 Security of the Project Site

If stated in the SCC, the Supplier shall be responsible for the security at the Project Site/s including providing and maintaining at its own expense all lighting, fencing, and watching when and where necessary for the proper execution and the protection of the locations, or for the safety of the owners and occupiers of adjacent property and for the safety of the public.

In making security arrangements, the Supplier shall be guided by applicable laws and any other requirements that may be stated in the Purchaser's Requirements.

The Supplier shall (i) conduct appropriate background checks on any personnel retained to provide security; (ii) train the security personnel adequately (or determine that they are properly trained) in the use of force (and where applicable, firearms), and appropriate conduct towards the Supplier's Personnel, Purchaser's Personnel and affected communities; and (iii) require the security personnel to act within the applicable Laws and any requirements set out in the Purchaser's Requirements.

The Supplier shall not permit any use of force by security personnel in providing security except when used for preventive and defensive purposes in proportion to the nature and extent of the threat.

9.19 Recruitment of Persons

The Supplier shall not recruit, or attempt to recruit, either on limited time or permanent basis or through any other contractual agreement, staff and labor from amongst the Purchaser's Personnel.

9.20 **Unless otherwise specified in the SCC** the Supplier shall have no other Supplier responsibilities.

10. Purchaser's Responsibilities

10.1 The Purchaser shall ensure the accuracy of all information and/or data to be supplied by the Purchaser to the Supplier, except when otherwise expressly stated in the Contract.

10.2 The Purchaser shall be responsible for timely provision of all resources, information, and decision making under its control that are necessary to reach an Agreed Project Plan (pursuant to GCC Clause 19.2) within the time schedule specified in the Implementation Schedule. Failure to

- provide such resources, information, and decision making may constitute grounds for Termination pursuant to GCC Clause 41.3.1 (b).
- 10.3 The Purchaser shall be responsible for acquiring and providing legal and physical possession of the site and access to it, and for providing possession of and access to all other areas reasonably required for the proper execution of the Contract.
- 10.4 If requested by the Supplier, the Purchaser shall use its best endeavors to assist the Supplier in obtaining in a timely and expeditious manner all permits, approvals, and/or licenses necessary for the execution of the Contract from all local, state, or national government authorities or public service undertakings that such authorities or undertakings require the Supplier or Subcontractors or the Supplier's Personnel, as the case may be, to obtain.
- 10.5 In such cases where the responsibilities of specifying and acquiring or upgrading telecommunications and/or electric power services falls to the Supplier, as specified in the Technical Requirements, SCC, Agreed Project Plan, or other parts of the Contract, the Purchaser shall use its best endeavors to assist the Supplier in obtaining such services in a timely and expeditious manner.
- 10.6 The Purchaser shall be responsible for timely provision of all resources, access, and information necessary for the Installation and Operational Acceptance of the System (including, but not limited to, any required telecommunications or electric power services), as identified in the Agreed Project Plan, except where provision of such items is explicitly identified in the Contract as being the responsibility of the Supplier. Delay by the Purchaser may result in an appropriate extension of the Time for Operational Acceptance, at the Supplier's discretion.
- 10.7 Unless otherwise specified in the Contract or agreed upon by the Purchaser and the Supplier, the Purchaser shall provide sufficient, properly qualified operating and technical personnel, as required by the Supplier to properly carry out Delivery, Pre-commissioning, Installation, Commissioning, and Operational Acceptance, at or before the time specified in the Implementation Schedule and the Agreed Project Plan.
- 10.8 The Purchaser will designate appropriate staff for the training courses to be given by the Supplier and shall make

all appropriate logistical arrangements for such training as specified in the Technical Requirements, SCC, the Agreed Project Plan, or other parts of the Contract.

- 10.9 The Purchaser assumes primary responsibility for the Operational Acceptance Test(s) for the System, in accordance with GCC Clause 27.2, and shall be responsible for the continued operation of the System after Operational Acceptance. However, this shall not limit in any way the Supplier's responsibilities after the date of Operational Acceptance otherwise specified in the Contract.
- 10.10 The Purchaser is responsible for performing and safely storing timely and regular backups of its data and Software in accordance with accepted data management principles, except where such responsibility is clearly assigned to the Supplier elsewhere in the Contract.
- 10.11 All costs and expenses involved in the performance of the obligations under this GCC Clause 10 shall be the responsibility of the Purchaser, save those to be incurred by the Supplier with respect to the performance of the Operational Acceptance Test(s), in accordance with GCC Clause 27.2.
- 10.12 **Unless otherwise specified in the SCC** the Purchaser shall have no other Purchaser responsibilities.

C. PAYMENT

- 11. Contract Price**
 - 11.1 The Contract Price shall be as specified in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement.
 - 11.2 Unless an adjustment clause is **provided for in the SCC**, the Contract Price shall be a firm lump sum not subject to any alteration, except in the event of a Change in the System pursuant to GCC Clause 39 or to other clauses in the Contract;
 - 11.3 The Supplier shall be deemed to have satisfied itself as to the correctness and sufficiency of the Contract Price, which shall, except as otherwise provided for in the Contract, cover all its obligations under the Contract.

12. Terms of Payment

12.1 The Supplier's request for payment shall be made to the Purchaser in writing, accompanied by an invoice describing, as appropriate, the System or Subsystem(s), Delivered, Pre-commissioned, Installed, and Operationally Accepted, and by documents submitted pursuant to GCC Clause 22.5 and upon fulfillment of other obligations stipulated in the Contract.

The Contract Price shall be paid as **specified in the SCC**.

12.2 No payment made by the Purchaser herein shall be deemed to constitute acceptance by the Purchaser of the System or any Subsystem(s).

12.3 Payments shall be made promptly by the Purchaser, but in no case later than forty five (45) days after submission of a valid invoice by the Supplier. In the event that the Purchaser fails to make any payment by its respective due date or within the period set forth in the Contract, the Purchaser shall pay to the Supplier interest on the amount of such delayed payment at the rate(s) **specified in the SCC** for the period of delay until payment has been made in full, whether before or after judgment or arbitration award.

12.4 Payments shall be made in the currency(ies) specified in the Contract Agreement, pursuant to GCC Clause 11. For Goods and Services supplied locally, payments shall be made **as specified in the SCC**.

12.5 **Unless otherwise specified in the SCC**, payment of the foreign currency portion of the Contract Price for Goods supplied from outside the Purchaser's Country shall be made to the Supplier through an irrevocable letter of credit opened by an authorized bank in the Supplier's Country and will be payable on presentation of the appropriate documents. It is agreed that the letter of credit will be subject to Article 10 of the latest revision of *Uniform Customs and Practice for Documentary Credits*, published by the International Chamber of Commerce, Paris.

12.6 **As specified in the SCC**, if the Supplier fails to perform its cyber security obligations under the Contract, an assessed amount, as determined by the Project Manager, may be withheld until the obligation has been performed.

13. Securities

13.1 Issuance of Securities

The Supplier shall provide the securities specified below in favor of the Purchaser at the times and in the amount, manner, and form specified below.

13.2 Advance Payment Security

13.2.1 The Supplier shall provide within twenty-eight (28) days of the notification of Contract award an Advance Payment Security in the amount and currency of the Advance Payment specified in SCC for GCC Clause 12.1 above and valid until the System is Operationally Accepted.

13.2.2 The security shall be in the form provided in the request for proposal document or in another form acceptable to the Purchaser. The amount of the security shall be reduced in proportion to the value of the System executed by and paid to the Supplier from time to time and shall automatically become null and void when the full amount of the advance payment has been recovered by the Purchaser. **Unless otherwise specified in the SCC**, the reduction in value and expiration of the Advance Payment Security are calculated as follows:

$P*a/(100-a)$, where “P” is the sum of all payments effected so far to the Supplier (excluding the Advance Payment), and “a” is the Advance Payment expressed as a percentage of the Contract Price pursuant to the SCC for GCC Clause 12.1.

The security shall be returned to the Supplier immediately after its expiration.

13.3 Performance Security

13.3.1 The Supplier shall, within twenty-eight (28) days of the notification of Contract award, provide a security for the due performance of the Contract in the amount and currency **specified in the SCC**.

13.3.2 The security shall be a bank guarantee in the form provided in the Sample Contractual Forms Section of the request for proposal document, or it shall be in another form acceptable to the Purchaser.

13.3.3 The security shall automatically become null and void once all the obligations of the Supplier under the Contract have been fulfilled, including, but not limited

to, any obligations during the Warranty Period and any extensions to the period. The security shall be returned to the Supplier no later than twenty-eight (28) days after its expiration.

13.3.4 Upon Operational Acceptance of the entire System, the security shall be reduced to the amount **specified in the SCC**, on the date of the Operational Acceptance, so that the reduced security would only cover the remaining warranty obligations of the Supplier.

14. Taxes and Duties

14.1 For Goods or Services supplied from outside the Purchaser's country, the Supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the Purchaser's country. Any duties, such as importation or customs duties, and taxes and other levies, payable in the Purchaser's country for the supply of Goods and Services from outside the Purchaser's country are the responsibility of the Purchaser unless these duties or taxes have been made part of the Contract Price in Article 2 of the Contract Agreement and the Price Schedule it refers to, in which case the duties and taxes will be the Supplier's responsibility.

14.2 For Goods or Services supplied locally, the Supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted Goods or Services to the Purchaser. The only exception are taxes or duties, such as value-added or sales tax or stamp duty as apply to, or are clearly identifiable, on the invoices and provided they apply in the Purchaser's country, and only if these taxes, levies and/or duties are also excluded from the Contract Price in Article 2 of the Contract Agreement and the Price Schedule it refers to.

14.3 If any tax exemptions, reductions, allowances, or privileges may be available to the Supplier in the Purchaser's Country, the Purchaser shall use its best efforts to enable the Supplier to benefit from any such tax savings to the maximum allowable extent.

14.4 For the purpose of the Contract, it is agreed that the Contract Price specified in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement is based on the taxes, duties, levies, and charges prevailing at the date twenty-eight (28) days prior to the date of proposal submission in the Purchaser's Country (also called "Tax" in this GCC Clause 14.4). If any Tax rates are increased or

decreased, a new Tax is introduced, an existing Tax is abolished, or any change in interpretation or application of any Tax occurs in the course of the performance of the Contract, which was or will be assessed on the Supplier, its Subcontractors, or their employees in connection with performance of the Contract, an equitable adjustment to the Contract Price shall be made to fully take into account any such change by addition to or reduction from the Contract Price, as the case may be.

D. INTELLECTUAL PROPERTY

15. Copyright

- 15.1 The Intellectual Property Rights in all Standard Software and Standard Materials shall remain vested in the owner of such rights.
- 15.2 The Purchaser agrees to restrict use, copying, or duplication of the Standard Software and Standard Materials in accordance with GCC Clause 16, except that additional copies of Standard Materials may be made by the Purchaser for use within the scope of the project of which the System is a part, in the event that the Supplier does not deliver copies within thirty (30) days from receipt of a request for such Standard Materials.
- 15.3 The Purchaser's contractual rights to use the Standard Software or elements of the Standard Software may not be assigned, licensed, or otherwise transferred voluntarily except in accordance with the relevant license agreement or **unless otherwise specified in the SCC** to a legally constituted successor organization (e.g., a reorganization of a public entity formally authorized by the government or through a merger or acquisition of a private entity).
- 15.4 **Unless otherwise specified in the SCC**, the Intellectual Property Rights in all Custom Software and Custom Materials specified in Appendices 4 and 5 of the Contract Agreement (if any) shall, at the date of this Contract or on creation of the rights (if later than the date of this Contract), vest in the Purchaser. The Supplier shall do and execute or arrange for the doing and executing of each necessary act, document, and thing (as legally sufficient) that the Purchaser may consider necessary or desirable to perfect the right, title, and interest of the Purchaser in and to those rights. In respect of such Custom Software and Custom Materials, the Supplier shall ensure that the holder of a moral right in such an item does not assert it, and the

Supplier shall, if requested to do so by the Purchaser and where permitted by applicable law, ensure that the holder of such a moral right waives it.

15.5 **Unless otherwise specified in the SCC**, escrow arrangements shall NOT be required.

16. Software License Agreements

16.1 Except to the extent that the Intellectual Property Rights in the Software vest in the Purchaser, the Supplier hereby grants to the Purchaser license to access and use the Software, including all inventions, designs, and marks embodied in the Software.

Such license to access and use the Software shall:

- (a) be:
 - (i) nonexclusive;
 - (ii) fully paid up and irrevocable (except that it shall terminate if the Contract terminates under GCC Clauses 41.1 or 41.3);
 - (iii) **unless otherwise specified in the SCC** valid throughout the territory of the Purchaser's Country;
 - (iv) **unless otherwise specified in the SCC** subject to NO additional restrictions.
- (b) permit the Software to be:
 - (i) used or copied for use on or with the computer(s) for which it was acquired (if specified in the Technical Requirements and/or the Supplier's proposal), plus a backup computer(s) of the same or similar capacity, if the primary is(are) inoperative, and during a reasonable transitional period when use is being transferred between primary and backup;
 - (ii) used or copied for use on or transferred to a replacement computer(s), (and use on the original and replacement computer(s) may be simultaneous during a reasonable transitional period) provided that, if the Technical Requirements and/or the Supplier's proposal specifies a class of computer to which the license is restricted, the replacement computer(s) is(are) within that class;
 - (iii) if the nature of the System is such as to permit such access, accessed from other computers connected

to the primary and/or backup computer(s) by means of a local or wide-area network or similar arrangement, and used on or copied for use on those other computers to the extent necessary to that access;

- (iv) reproduced for safekeeping or backup purposes;
- (v) customized, adapted, or combined with other computer software for use by the Purchaser, provided that derivative software incorporating any substantial part of the delivered, restricted Software shall be subject to same restrictions as are set forth in this Contract;
- (vi) **unless otherwise specified in the SCC**, disclosed to, and reproduced for use by, support service suppliers and their subcontractors, to the extent reasonably necessary to the performance of their support service contracts, subject to the same restrictions as are set forth in this Contract; and
- (vii) **unless otherwise specified in the SCC** disclosed to, and reproduced for use by, NO other parties.

16.2 The Supplier has the right to audit the Standard Software to verify compliance with the above license agreements. **Unless otherwise specified in the SCC**, the Purchaser will make available to the Supplier, within seven (7) days of a written request, accurate and up-to-date records of the number and location of copies, the number of authorized users, or any other relevant data required to demonstrate use of the Standard Software as per the license agreement. If and only if, expressly agreed in writing between the Purchaser and the Supplier, Purchaser will allow, under a pre-specified agreed procedure, the execution of embedded software functions under Supplier's control, and unencumbered transmission of resulting information on software usage.

17. Confidential Information

- 17.1 **Unless otherwise specified in the SCC**, the "Receiving Party" (either the Purchaser or the Supplier) shall keep confidential and shall not, without the written consent of the other party to this Contract ("the Disclosing Party"), divulge to any third party any documents, data, or other information of a confidential nature ("Confidential Information") connected with this Contract, and furnished directly or indirectly by the Disclosing Party prior to or during performance, or following termination, of this Contract.
- 17.2 For the purposes of GCC Clause 17.1, the Supplier is also deemed to be the Receiving Party of Confidential Information generated by the Supplier itself in the course of the performance of its obligations under the Contract and relating to the businesses, finances, suppliers, employees, or other contacts of the Purchaser or the Purchaser's use of the System.
- 17.3 Notwithstanding GCC Clauses 17.1 and 17.2:
- (a) the Supplier may furnish to its Subcontractor Confidential Information of the Purchaser to the extent reasonably required for the Subcontractor to perform its work under the Contract; and
 - (b) the Purchaser may furnish Confidential Information of the Supplier: (i) to its support service suppliers and their subcontractors to the extent reasonably required for them to perform their work under their support service contracts; and (ii) to its affiliates and subsidiaries,
- in which event the Receiving Party shall ensure that the person to whom it furnishes Confidential Information of the Disclosing Party is aware of and abides by the Receiving Party's obligations under this GCC Clause 17 as if that person were party to the Contract in place of the Receiving Party.
- 17.4 The Purchaser shall not, without the Supplier's prior written consent, use any Confidential Information received from the Supplier for any purpose other than the operation, maintenance and further development of the System. Similarly, the Supplier shall not, without the Purchaser's prior written consent, use any Confidential Information received from the Purchaser for any purpose other than those that are required for the performance of the Contract.

- 17.5 The obligation of a party under GCC Clauses 17.1 through 17.4 above, however, shall not apply to that information which:
- (a) now or hereafter enters the public domain through no fault of the Receiving Party;
 - (b) can be proven to have been possessed by the Receiving Party at the time of disclosure and that was not previously obtained, directly or indirectly, from the Disclosing Party;
 - (c) otherwise lawfully becomes available to the Receiving Party from a third party that has no obligation of confidentiality;
 - (d) is being provided to the Bank.
- 17.6 The above provisions of this GCC Clause 17 shall not in any way modify any undertaking of confidentiality given by either of the parties to this Contract prior to the date of the Contract in respect of the System or any part thereof.
- 17.7 **Unless otherwise specified in the SCC**, the provisions of this GCC Clause 17 shall survive the termination, for whatever reason, of the Contract for three (3) years.

E. SUPPLY, INSTALLATION, TESTING, COMMISSIONING, AND ACCEPTANCE OF THE SYSTEM

18. Representatives

18.1 Project Manager

If the Project Manager is not named in the Contract, then within fourteen (14) days of the Effective Date, the Purchaser shall appoint and notify the Supplier in writing of the name of the Project Manager. The Purchaser may from time to time appoint some other person as the Project Manager in place of the person previously so appointed and shall give a notice of the name of such other person to the Supplier without delay. No such appointment shall be made at such a time or in such a manner as to impede the progress of work on the System. Such appointment shall take effect only upon receipt of such notice by the Supplier. **Unless otherwise specified in the SCC** (if any), the Project Manager shall have the authority to represent the Purchaser on all day-to-day matters relating to the System or arising from the Contract, and shall normally be the person giving or receiving notices on behalf of the Purchaser pursuant to GCC Clause 4.

18.2 Supplier's Representative

18.2.1 If the Supplier's Representative is not named in the Contract, then within fourteen (14) days of the Effective Date, the Supplier shall appoint the Supplier's Representative and shall request the Purchaser in writing to approve the person so appointed. The request must be accompanied by a detailed curriculum vitae for the nominee, as well as a description of any other System or non-System responsibilities the nominee would retain while performing the duties of the Supplier's Representative. If the Purchaser does not object to the appointment within fourteen (14) days, the Supplier's Representative shall be deemed to have been approved. If the Purchaser objects to the appointment within fourteen (14) days giving the reason therefor, then the Supplier shall appoint a replacement within fourteen (14) days of such objection in accordance with this GCC Clause 18.2.1.

18.2.2 **Unless otherwise specified in the SCC** (if any), the Supplier's Representative shall have the authority to represent the Supplier on all day-to-day matters relating to the System or arising from the Contract, and shall normally be the person giving or receiving notices on behalf of the Supplier pursuant to GCC Clause 4.

18.2.3 The Supplier shall not revoke the appointment of the Supplier's Representative without the Purchaser's prior written consent, which shall not be unreasonably withheld. If the Purchaser consents to such an action, the Supplier shall appoint another person of equal or superior qualifications as the Supplier's Representative, pursuant to the procedure set out in GCC Clause 18.2.1.

18.2.4 The Supplier's Representative and staff are obliged to work closely with the Purchaser's Project Manager and staff, act within their own authority, and abide by directives issued by the Purchaser that are consistent with the terms of the Contract. The Supplier's Representative is responsible for managing the activities of the Supplier's Personnel.

18.2.5 The Supplier's Representative may, subject to the approval of the Purchaser (which shall not be unreasonably withheld), at any time delegate to any person any of the powers, functions, and authorities vested in him or her. Any such delegation may be

revoked at any time. Any such delegation or revocation shall be subject to a prior notice signed by the Supplier's Representative and shall specify the powers, functions, and authorities thereby delegated or revoked. No such delegation or revocation shall take effect unless and until the notice of it has been delivered.

18.2.6 Any act or exercise by any person of powers, functions and authorities so delegated to him or her in accordance with GCC Clause 18.2.5 shall be deemed to be an act or exercise by the Supplier's Representative.

18.3 Removal of Supplier's Personnel

18.3.1 The Project Manager may require the Supplier to remove (or cause to be removed) the Supplier's Representative or any other person employed by the Supplier in the execution of the Contract, who:

- (a) persists in any misconduct or lack of care;
- (b) carries out duties incompetently or negligently;
- (c) fails to comply with any provision of the Contract;
- (d) persists in any conduct which is prejudicial to safety, health, or the protection of the environment;
- (e) based on reasonable evidence, is determined to have engaged in Fraud and Corruption during the execution of the Contract;
- (f) has been recruited from the Purchaser's Personnel;
- (g) engages in any other behaviour which breaches the Code of Conduct, as applicable;

If appropriate, the Supplier shall then promptly appoint (or cause to be appointed) a suitable replacement with equivalent skills and experience.

Notwithstanding any requirement from the Project Manager to remove or cause to remove any person, the Supplier shall take immediate action as appropriate in response to any violation of (a) through (g) above. Such immediate action shall include removing (or causing to be removed) from work on the System, any person Employed by the Supplier in the execution of the Contract who engages in (a), (b), (c), (d), (e) or (g) above or has been recruited as stated in (f) above.

18.3.2 If any representative or person employed by the Supplier is removed in accordance with GCC Clause 18.3.1, the Supplier shall, where required, promptly appoint a suitable replacement with equivalent skills and experience.

19. Project Plan

- 19.1 In close cooperation with the Purchaser and based on the Preliminary Project Plan included in the Supplier's proposal, the Supplier shall develop a Project Plan encompassing the activities specified in the Contract. The contents of the Project Plan shall be as **specified in the SCC** and/or Technical Requirements.
- 19.2 **Unless otherwise specified in the SCC**, within *thirty (30)* days from the Effective Date of the Contract, the Supplier shall present a Project Plan to the Purchaser. Such submission to the Purchaser shall include any applicable environmental and social management plan to manage environmental and social risks and impacts. The Purchaser shall, within *fourteen (14)* days of receipt of the Project Plan, notify the Supplier of any respects in which it considers that the Project Plan does not adequately ensure that the proposed program of work, proposed methods, and/or proposed Information Technologies will satisfy the Technical Requirements and/or the SCC (in this Clause 19.2 called "non-conformities" below). The Supplier shall, within *five (5)* days of receipt of such notification, correct the Project Plan and resubmit to the Purchaser. The Purchaser shall, within *five (5)* days of resubmission of the Project Plan, notify the Supplier of any remaining non-conformities. This procedure shall be repeated as necessary until the Project Plan is free from non-conformities. When the Project Plan is free from non-conformities, the Purchaser shall provide confirmation in writing to the Supplier. This approved Project Plan ("the Agreed Project Plan") shall be contractually binding on the Purchaser and the Supplier.
- 19.3 If required, the impact on the Implementation Schedule of modifications agreed during finalization of the Agreed Project Plan shall be incorporated in the Contract by amendment, in accordance with GCC Clauses 39 and 40.
- 19.4 The Supplier shall undertake to supply, install, test, and commission the System in accordance with the Agreed Project Plan and the Contract.

19.5 **Unless otherwise specified in the SCC**, the Supplier shall submit to the Purchaser Monthly Progress Reports summarizing:

- (i) results accomplished during the prior period;
- (ii) cumulative deviations to date from schedule of progress milestones as specified in the Agreed Project Plan;
- (iii) corrective actions to be taken to return to planned schedule of progress; proposed revisions to planned schedule;
- (iv) other issues and outstanding problems; proposed actions to be taken;
- (v) resources that the Supplier expects to be provided by the Purchaser and/or actions to be taken by the Purchaser in the next reporting period;
- (vi) status of compliance to environmental and social requirements, as applicable;
- (vii) other issues or potential problems the Supplier foresees that could impact on project progress and/or effectiveness.

19.6 The Supplier shall submit to the Purchaser other (periodic) reports as specified in the SCC.

19.7 Immediate Reporting requirement

The Supplier shall inform the Project Manager immediately of any allegation, incident or accident in Project Site/s, which has or is likely to have a significant adverse effect on the environment, the affected communities, the public, Purchaser's Personnel or Supplier's Personnel. This includes, but is not limited to, any incident or accident causing fatality or serious injury; significant adverse effects or damage to private property; any cyber security incidents as **specified in the SCC**; or any allegation of SEA and/or SH. In case of SEA and/or SH, while maintaining confidentiality as appropriate, the type of allegation (sexual exploitation, sexual abuse or sexual harassment), gender and age of the person who experienced the alleged incident should be included in the information.

The Supplier, upon becoming aware of the allegation, incident or accident, shall also immediately inform the Purchaser of any such incident or accident on the

Subcontractors' or suppliers' premises relating to the Contract which has or is likely to have a significant adverse effect on the environment, the affected communities, the public, Purchaser's Personnel or Supplier's Personnel. The notification shall provide sufficient detail regarding such incidents or accidents.

The Supplier shall provide full details of such incidents or accidents to the Project Manager within the timeframe agreed with the Purchaser.

The Purchaser shall require its Subcontractors to immediately notify it of any incidents or accidents referred to in this Sub- Clause.

20. Subcontracting

- 20.1 Appendix 3 (List of Approved Subcontractors) to the Contract Agreement specifies critical items of supply or services and a list of Subcontractors for each item that are considered acceptable by the Purchaser. If no Subcontractors are listed for an item, the Supplier shall prepare a list of Subcontractors it considers qualified and wishes to be added to the list for such items. The Supplier may from time to time propose additions to or deletions from any such list. The Supplier shall submit any such list or any modification to the list to the Purchaser for its approval in sufficient time so as not to impede the progress of work on the System. Submission by the Supplier, for addition of any Subcontractor not named in the Contract, shall also include the Subcontractor's declaration in accordance with Appendix 2 to the GCC- Sexual exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Performance Declaration. Approval by the Purchaser of a Subcontractor(s) shall not relieve the Supplier from any of its obligations, duties, or responsibilities under the Contract.
- 20.2 The Supplier may, at its discretion, select and employ Subcontractors for such critical items from those Subcontractors listed pursuant to GCC Clause 20.1. If the Supplier wishes to employ a Subcontractor not so listed, or subcontract an item not so listed, it must seek the Purchaser's prior approval under GCC Clause 20.3.
- 20.3 For items for which pre-approved Subcontractor lists have not been specified in Appendix 3 to the Contract Agreement, the Supplier may employ such Subcontractors as it may select, provided: (i) the Supplier notifies the Purchaser in writing at least twenty-eight (28) days prior to

the proposed mobilization date for such Subcontractor, including by providing the Subcontractor's declaration in accordance with Appendix 2 to the GCC- Sexual exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Performance Declaration; and (ii) by the end of this period either the Purchaser has granted its approval in writing or fails to respond. The Supplier shall not engage any Subcontractor to which the Purchaser has objected in writing prior to the end of the notice period. The absence of a written objection by the Purchaser during the above specified period shall constitute formal acceptance of the proposed Subcontractor. Except to the extent that it permits the deemed approval of the Purchaser of Subcontractors not listed in the Contract Agreement, nothing in this Clause, however, shall limit the rights and obligations of either the Purchaser or Supplier as they are specified in GCC Clauses 20.1 and 20.2, or in Appendix 3 of the Contract Agreement.

20.4 The Supplier shall ensure that its Subcontractors comply with the relevant ES requirements and the obligations set out in GCC Clause 9.9.

21. Design and Engineering

21.1 Technical Specifications and Drawings

21.1.1 The Supplier shall execute the basic and detailed design and the implementation activities necessary for successful installation of the System in compliance with the provisions of the Contract or, where not so specified, in accordance with good industry practice.

The Supplier shall be responsible for any discrepancies, errors or omissions in the specifications, drawings, and other technical documents that it has prepared, whether such specifications, drawings, and other documents have been approved by the Project Manager or not, provided that such discrepancies, errors, or omissions are not because of inaccurate information furnished in writing to the Supplier by or on behalf of the Purchaser.

21.1.2 The Supplier shall be entitled to disclaim responsibility for any design, data, drawing, specification, or other document, or any modification of such design, drawings, specification, or other documents provided or designated by or on behalf of the Purchaser, by giving a notice of such disclaimer to the Project Manager.

21.2 Codes and Standards

Wherever references are made in the Contract to codes and standards in accordance with which the Contract shall be executed, the edition or the revised version of such codes and standards current at the date twenty-eight (28) days prior to date of proposal submission shall apply. During Contract execution, any changes in such codes and standards shall be applied after approval by the Purchaser and shall be treated in accordance with GCC Clause 39.3.

21.3 Approval/Review of Controlling Technical Documents by the Project Manager

21.3.1 **Unless otherwise specified in the SCC**, there will NO Controlling Technical Documents required. However, **if the SCC specifies** Controlling Technical Documents, the Supplier shall prepare and furnish such documents for the Project Manager's approval or review.

Any part of the System covered by or related to the documents to be approved by the Project Manager shall be executed only after the Project Manager's approval of these documents.

GCC Clauses 21.3.2 through 21.3.7 shall apply to those documents requiring the Project Manager's approval, but not to those furnished to the Project Manager for its review only.

21.3.2 Within fourteen (14) days after receipt by the Project Manager of any document requiring the Project Manager's approval in accordance with GCC Clause 21.3.1, the Project Manager shall either return one copy of the document to the Supplier with its approval endorsed on the document or shall notify the Supplier in writing of its disapproval of the document and the reasons for disapproval and the modifications that the Project Manager proposes. If the Project Manager fails to take such action within the fourteen (14) days, then the document shall be deemed to have been approved by the Project Manager.

21.3.3 The Project Manager shall not disapprove any document except on the grounds that the document does not comply with some specified provision of the Contract or that it is contrary to good industry practice.

21.3.4 If the Project Manager disapproves the document, the Supplier shall modify the document and resubmit it for

the Project Manager's approval in accordance with GCC Clause 21.3.2. If the Project Manager approves the document subject to modification(s), the Supplier shall make the required modification(s), and the document shall then be deemed to have been approved, subject to GCC Clause 21.3.5. The procedure set out in GCC Clauses 21.3.2 through 21.3.4 shall be repeated, as appropriate, until the Project Manager approves such documents.

21.3.5 If any dispute occurs between the Purchaser and the Supplier in connection with or arising out of the disapproval by the Project Manager of any document and/or any modification(s) to a document that cannot be settled between the parties within a reasonable period, then, in case the Contract Agreement includes and names an Adjudicator, such dispute may be referred to the Adjudicator for determination in accordance with GCC Clause 43.1 (Adjudication). If such dispute is referred to an Adjudicator, the Project Manager shall give instructions as to whether and if so, how, performance of the Contract is to proceed. The Supplier shall proceed with the Contract in accordance with the Project Manager's instructions, provided that if the Adjudicator upholds the Supplier's view on the dispute and if the Purchaser has not given notice under GCC Clause 43.1.2, then the Supplier shall be reimbursed by the Purchaser for any additional costs incurred by reason of such instructions and shall be relieved of such responsibility or liability in connection with the dispute and the execution of the instructions as the Adjudicator shall decide, and the Time for Achieving Operational Acceptance shall be extended accordingly.

21.3.6 The Project Manager's approval, with or without modification of the document furnished by the Supplier, shall not relieve the Supplier of any responsibility or liability imposed upon it by any provisions of the Contract except to the extent that any subsequent failure results from modifications required by the Project Manager or inaccurate information furnished in writing to the Supplier by or on behalf of the Purchaser.

21.3.7 The Supplier shall not depart from any approved document unless the Supplier has first submitted to the Project Manager an amended document and obtained

the Project Manager's approval of the document, pursuant to the provisions of this GCC Clause 21.3. If the Project Manager requests any change in any already approved document and/or in any document based on such an approved document, the provisions of GCC Clause 39 (Changes to the System) shall apply to such request.

22. Procurement, Delivery, and Transport

22.1 Subject to related Purchaser's responsibilities pursuant to GCC Clauses 10 and 14, the Supplier shall manufacture or procure and transport all the Information Technologies, Materials, and other Goods in an expeditious and orderly manner to the Project Site.

22.2 Delivery of the Information Technologies, Materials, and other Goods shall be made by the Supplier in accordance with the Technical Requirements.

22.3 Early or partial deliveries require the explicit written consent of the Purchaser, which consent shall not be unreasonably withheld.

22.4 Transportation

22.4.1 The Supplier shall provide such packing of the Goods as is required to prevent their damage or deterioration during shipment. The packing, marking, and documentation within and outside the packages shall comply strictly with the Purchaser's instructions to the Supplier.

22.4.2 The Supplier will bear responsibility for and cost of transport to the Project Sites in accordance with the terms and conditions used in the specification of prices in the Price Schedules, including the terms and conditions of the associated Incoterms.

22.4.3 **Unless otherwise specified in the SCC**, the Supplier shall be free to use transportation through carriers registered in any eligible country and to obtain insurance from any eligible source country.

22.5 **Unless otherwise specified in the SCC**, the Supplier will provide the Purchaser with shipping and other documents, as specified below:

22.5.1 For Goods supplied from outside the Purchaser's Country:

Upon shipment, the Supplier shall notify the Purchaser and the insurance company contracted by the Supplier

to provide cargo insurance by cable, facsimile, electronic mail, or EDI with the full details of the shipment. The Supplier shall promptly send the following documents to the Purchaser by mail or courier, as appropriate, with a copy to the cargo insurance company:

- (a) two copies of the Supplier's invoice showing the description of the Goods, quantity, unit price, and total amount;
- (b) usual transportation documents;
- (c) insurance certificate;
- (d) certificate(s) of origin; and
- (e) estimated time and point of arrival in the Purchaser's Country and at the site.

22.5.2 For Goods supplied locally (i.e., from within the Purchaser's country):

Upon shipment, the Supplier shall notify the Purchaser by cable, facsimile, electronic mail, or EDI with the full details of the shipment. The Supplier shall promptly send the following documents to the Purchaser by mail or courier, as appropriate:

- (a) two copies of the Supplier's invoice showing the Goods' description, quantity, unit price, and total amount;
- (b) delivery note, railway receipt, or truck receipt;
- (c) certificate of insurance;
- (d) certificate(s) of origin; and
- (e) estimated time of arrival at the site.

22.6 Customs Clearance

- (a) The Purchaser will bear responsibility for, and cost of, customs clearance into the Purchaser's country in accordance the particular Incoterm(s) used for Goods supplied from outside the Purchaser's country in the Price Schedules referred to by Article 2 of the Contract Agreement.
- (b) At the request of the Purchaser, the Supplier will make available a representative or agent during the process of customs clearance in the Purchaser's country for goods supplied from outside the Purchaser's country. In the event of delays in

customs clearance that are not the fault of the Supplier:

- (i) the Supplier shall be entitled to an extension in the Time for Achieving Operational Acceptance, pursuant to GCC Clause 40;
- (ii) the Contract Price shall be adjusted to compensate the Supplier for any additional storage charges that the Supplier may incur as a result of the delay.

23. Product Upgrades

23.1 At any point during performance of the Contract, should technological advances be introduced by the Supplier for Information Technologies originally offered by the Supplier in its proposal and still to be delivered, the Supplier shall be obligated to offer to the Purchaser the latest versions of the available Information Technologies having equal or better performance or functionality at the same or lesser unit prices, pursuant to GCC Clause 39 (Changes to the System).

23.2 At any point during performance of the Contract, for Information Technologies still to be delivered, the Supplier will also pass on to the Purchaser any cost reductions and additional and/or improved support and facilities that it offers to other clients of the Supplier in the Purchaser's Country, pursuant to GCC Clause 39 (Changes to the System).

23.3 During performance of the Contract, the Supplier shall offer to the Purchaser all new versions, releases, and updates of Standard Software, as well as related documentation and technical support services, within thirty (30) days of their availability from the Supplier to other clients of the Supplier in the Purchaser's Country, and no later than twelve (12) months after they are released in the country of origin. In no case will the prices for these Software exceed those quoted by the Supplier in the Recurrent Costs tables in its proposal.

23.4 **Unless otherwise specified in the SCC**, during the Warranty Period, the Supplier will provide at no additional cost to the Purchaser all new versions, releases, and updates for all Standard Software that are used in the System, within thirty (30) days of their availability from the Supplier to other clients of the Supplier in the Purchaser's country, and

no later than twelve (12) months after they are released in the country of origin of the Software.

- 23.5 The Purchaser shall introduce all new versions, releases or updates of the Software within eighteen (18) months of receipt of a production-ready copy of the new version, release, or update, provided that the new version, release, or update does not adversely affect System operation or performance or require extensive reworking of the System. In cases where the new version, release, or update adversely affects System operation or performance, or requires extensive reworking of the System, the Supplier shall continue to support and maintain the version or release previously in operation for as long as necessary to allow introduction of the new version, release, or update. In no case shall the Supplier stop supporting or maintaining a version or release of the Software less than twenty four (24) months after the Purchaser receives a production-ready copy of a subsequent version, release, or update. The Purchaser shall use all reasonable endeavors to implement any new version, release, or update as soon as practicable, subject to the twenty-four-month-long stop date.

24. Implementation, Installation, and Other Services

- 24.1 The Supplier shall provide all Services specified in the Contract and Agreed Project Plan in accordance with the highest standards of professional competence and integrity.
- 24.2 Prices charged by the Supplier for Services, if not included in the Contract, shall be agreed upon in advance by the parties (including, but not restricted to, any prices submitted by the Supplier in the Recurrent Cost Schedules of its proposal) and shall not exceed the prevailing rates charged by the Supplier to other purchasers in the Purchaser's Country for similar services.

25. Inspections and Tests

- 25.1 The Purchaser or its representative shall have the right to inspect and/or test any components of the System, as specified in the Technical Requirements, to confirm their good working order and/or conformity to the Contract at the point of delivery and/or at the Project Site.
- 25.2 The Purchaser or its representative shall be entitled to attend any such inspections and/or tests of the components, provided that the Purchaser shall bear all costs and expenses incurred in connection with such attendance, including but not limited to all inspection agent fees, travel, and related expenses.

- 25.3 Should the inspected or tested components fail to conform to the Contract, the Purchaser may reject the component(s), and the Supplier shall either replace the rejected component(s), or make alterations as necessary so that it meets the Contract requirements free of cost to the Purchaser.
- 25.4 The Project Manager may require the Supplier to carry out any inspection and/or test not specified in the Contract, provided that the Supplier's reasonable costs and expenses incurred in the carrying out of such inspection and/or test shall be added to the Contract Price. Further, if such inspection and/or test impedes the progress of work on the System and/or the Supplier's performance of its other obligations under the Contract, due allowance will be made in respect of the Time for Achieving Operational Acceptance and the other obligations so affected.
- 25.5 If any dispute shall arise between the parties in connection with or caused by an inspection and/or with regard to any component to be incorporated in the System that cannot be settled amicably between the parties within a reasonable period of time, either party may invoke the process pursuant to GCC Clause 43 (Settlement of Disputes), starting with referral of the matter to the Adjudicator in case an Adjudicator is included and named in the Contract Agreement.

26. Installation of the System

- 26.1 As soon as the System, or any Subsystem, has, in the opinion of the Supplier, been delivered, Pre-commissioned, and made ready for Commissioning and Operational Acceptance Testing in accordance with the Technical Requirements, the SCC and the Agreed Project Plan, the Supplier shall so notify the Purchaser in writing.
- 26.2 The Project Manager shall, within fourteen (14) days after receipt of the Supplier's notice under GCC Clause 26.1, either issue an Installation Certificate in the form specified in the Sample Contractual Forms Section in the request for proposals document, stating that the System, or major component or Subsystem (if Acceptance by major component or Subsystem is specified pursuant to the SCC for GCC Clause 27.2.1), has achieved Installation by the date of the Supplier's notice under GCC Clause 26.1, or notify the Supplier in writing of any defects and/or deficiencies, including, but not limited to, defects or deficiencies in the interoperability or integration of the various components and/or Subsystems making up the

System. The Supplier shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies that the Project Manager has notified the Supplier of. The Supplier shall then promptly carry out retesting of the System or Subsystem and, when in the Supplier's opinion the System or Subsystem is ready for Commissioning and Operational Acceptance Testing, notify the Purchaser in writing, in accordance with GCC Clause 26.1. The procedure set out in this GCC Clause 26.2 shall be repeated, as necessary, until an Installation Certificate is issued.

26.3 If the Project Manager fails to issue the Installation Certificate and fails to inform the Supplier of any defects and/or deficiencies within fourteen (14) days after receipt of the Supplier's notice under GCC Clause 26.1, or if the Purchaser puts the System or a Subsystem into production operation, then the System (or Subsystem) shall be deemed to have achieved successful Installation as of the date of the Supplier's notice or repeated notice, or when the Purchaser put the System into production operation, as the case may be.

27. Commissioning and Operational Acceptance

27.1 Commissioning

27.1.1 Commissioning of the System (or Subsystem if specified pursuant to the SCC for GCC Clause 27.2.1) shall be commenced by the Supplier:

- (a) immediately after the Installation Certificate is issued by the Project Manager, pursuant to GCC Clause 26.2; or
- (b) as otherwise specified in the Technical Requirement or the Agreed Project Plan; or
- (c) immediately after Installation is deemed to have occurred, under GCC Clause 26.3.

27.1.2 The Purchaser shall supply the operating and technical personnel and all materials and information reasonably required to enable the Supplier to carry out its obligations with respect to Commissioning.

Production use of the System or Subsystem(s) shall not commence prior to the start of formal Operational Acceptance Testing.

27.2 Operational Acceptance Tests

27.2.1 The Operational Acceptance Tests (and repeats of such tests) shall be the primary responsibility of the

Purchaser (in accordance with GCC Clause 10.9), but shall be conducted with the full cooperation of the Supplier during Commissioning of the System (or major components or Subsystem[s]), to ascertain whether the System (or major component or Subsystem[s]) conforms to the Technical Requirements and meets the standard of performance quoted in the Supplier's proposal, including, but not restricted to, the functional and technical performance requirements. **Unless otherwise specified in the SCC**, the Operational Acceptance Tests during Commissioning will be conducted as specified in the Technical Requirements and/or the Agreed Project Plan.

At the Purchaser's discretion, Operational Acceptance Tests may also be performed on replacement Goods, upgrades and new version releases, and Goods that are added or field-modified after Operational Acceptance of the System.

27.2.2 If for reasons attributable to the Purchaser, the Operational Acceptance Test of the System (or Subsystem[s] or major components, pursuant to the SCC for GCC Clause 27.2.1) cannot be successfully completed within ninety (90) days from the date of Installation or any other period agreed upon in writing by the Purchaser and the Supplier, the Supplier shall be deemed to have fulfilled its obligations with respect to the technical and functional aspects of the Technical Specifications, SCC and/or the Agreed Project Plan, and GCC Clause 28.2 and 28.3 shall not apply.

27.3 Operational Acceptance

27.3.1 Subject to GCC Clause 27.4 (Partial Acceptance) below, Operational Acceptance shall occur in respect of the System, when

- (a) the Operational Acceptance Tests, as specified in the Technical Requirements, and/or SCC and/or the Agreed Project Plan have been successfully completed; or
- (b) the Operational Acceptance Tests have not been successfully completed or have not been carried out for reasons that are attributable to the Purchaser within the period from the date of Installation or any other agreed-upon period as specified in GCC Clause 27.2.2 above; or

- (c) the Purchaser has put the System into production or use for sixty (60) consecutive days. If the System is put into production or use in this manner, the Supplier shall notify the Purchaser and document such use.

27.3.2 At any time after any of the events set out in GCC Clause 27.3.1 have occurred, the Supplier may give a notice to the Project Manager requesting the issue of an Operational Acceptance Certificate.

27.3.3 After consultation with the Purchaser, and within fourteen (14) days after receipt of the Supplier's notice, the Project Manager shall:

- (a) issue an Operational Acceptance Certificate; or
- (b) notify the Supplier in writing of any defect or deficiencies or other reason for the failure of the Operational Acceptance Tests; or
- (c) issue the Operational Acceptance Certificate, if the situation covered by GCC Clause 27.3.1 (b) arises.

27.3.4 The Supplier shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies and/or other reasons for the failure of the Operational Acceptance Test that the Project Manager has notified the Supplier of. Once such remedies have been made by the Supplier, the Supplier shall notify the Purchaser, and the Purchaser, with the full cooperation of the Supplier, shall use all reasonable endeavors to promptly carry out retesting of the System or Subsystem. Upon the successful conclusion of the Operational Acceptance Tests, the Supplier shall notify the Purchaser of its request for Operational Acceptance Certification, in accordance with GCC Clause 27.3.3. The Purchaser shall then issue to the Supplier the Operational Acceptance Certification in accordance with GCC Clause 27.3.3 (a), or shall notify the Supplier of further defects, deficiencies, or other reasons for the failure of the Operational Acceptance Test. The procedure set out in this GCC Clause 27.3.4 shall be repeated, as necessary, until an Operational Acceptance Certificate is issued.

27.3.5 If the System or Subsystem fails to pass the Operational Acceptance Test(s) in accordance with GCC Clause 27.2, then either:

(a) the Purchaser may consider terminating the Contract, pursuant to GCC Clause 41.2.2;

or

(b) if the failure to achieve Operational Acceptance within the specified time period is a result of the failure of the Purchaser to fulfill its obligations under the Contract, then the Supplier shall be deemed to have fulfilled its obligations with respect to the relevant technical and functional aspects of the Contract, and GCC Clauses 30.3 and 30.4 shall not apply.

27.3.6 If within fourteen (14) days after receipt of the Supplier's notice the Project Manager fails to issue the Operational Acceptance Certificate or fails to inform the Supplier in writing of the justifiable reasons why the Project Manager has not issued the Operational Acceptance Certificate, the System or Subsystem shall be deemed to have been accepted as of the date of the Supplier's said notice.

27.4 Partial Acceptance

27.4.1 If so specified in the SCC for GCC Clause 27.2.1, Installation and Commissioning shall be carried out individually for each identified major component or Subsystem(s) of the System. In this event, the provisions in the Contract relating to Installation and Commissioning, including the Operational Acceptance Test, shall apply to each such major component or Subsystem individually, and Operational Acceptance Certificate(s) shall be issued accordingly for each such major component or Subsystem of the System, subject to the limitations contained in GCC Clause 27.4.2.

27.4.2 The issuance of Operational Acceptance Certificates for individual major components or Subsystems pursuant to GCC Clause 27.4.1 shall not relieve the Supplier of its obligation to obtain an Operational Acceptance Certificate for the System as an integrated whole (if so specified in the SCC for GCC Clauses 12.1 and 27.2.1) once all major components and Subsystems have been supplied, installed, tested, and commissioned.

27.4.3 In the case of minor components for the System that by their nature do not require Commissioning or an Operational Acceptance Test (e.g., minor fittings, furnishings or site works, etc.), the Project Manager

shall issue an Operational Acceptance Certificate within fourteen (14) days after the fittings and/or furnishings have been delivered and/or installed or the site works have been completed. The Supplier shall, however, use all reasonable endeavors to promptly remedy any defects or deficiencies in such minor components detected by the Purchaser or Supplier.

F. GUARANTEES AND LIABILITIES

28. Operational Acceptance Time Guarantee

28.1 The Supplier guarantees that it shall complete the supply, Installation, Commissioning, and achieve Operational Acceptance of the System (or Subsystems, pursuant to the SCC for GCC Clause 27.2.1) within the time periods specified in the Implementation Schedule and/or the Agreed Project Plan pursuant to GCC Clause 8.2, or within such extended time to which the Supplier shall be entitled under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).

28.2 **Unless otherwise specified in the SCC**, if the Supplier fails to supply, install, commission, and achieve Operational Acceptance of the System (or Subsystems pursuant to the SCC for GCC Clause 27.2.1) within the time for achieving Operational Acceptance specified in the Implementation Schedule or the Agreed Project Plan, or any extension of the time for achieving Operational Acceptance previously granted under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance), the Supplier shall pay to the Purchaser liquidated damages at the rate of one half of one percent per week as a percentage of the Contract Price (exclusive of Recurrent Costs if any), or the relevant part of the Contract Price if a Subsystem has not achieved Operational Acceptance. The aggregate amount of such liquidated damages shall in no event exceed the amount of ten (10) percent of the Contract Price (exclusive of Recurrent Costs if any). Once the Maximum is reached, the Purchaser may consider termination of the Contract, pursuant to GCC Clause 41.2.2.

28.3 **Unless otherwise specified in the SCC**, liquidated damages payable under GCC Clause 28.2 shall apply only to the failure to achieve Operational Acceptance of the System (and Subsystems) as specified in the Implementation Schedule and/or Agreed Project Plan. This Clause 28.3 shall not limit, however, any other rights or

remedies the Purchaser may have under the Contract for other delays.

28.4 If liquidated damages are claimed by the Purchaser for the System (or Subsystem), the Supplier shall have no further liability whatsoever to the Purchaser in respect to the Operational Acceptance time guarantee for the System (or Subsystem). However, the payment of liquidated damages shall not in any way relieve the Supplier from any of its obligations to complete the System or from any other of its obligations and liabilities under the Contract.

29. Defect Liability

29.1 The Supplier warrants that the System, including all Information Technologies, Materials, and other Goods supplied and Services provided, shall be free from defects in the design, engineering, Materials, and workmanship that prevent the System and/or any of its components from fulfilling the Technical Requirements or that limit in a material fashion the performance, reliability, or extensibility of the System and/or Subsystems. **Unless otherwise specified in the SCC**, there will be NO exceptions and/or limitations to this warranty with respect to Software (or categories of Software). Commercial warranty provisions of products supplied under the Contract shall apply to the extent that they do not conflict with the provisions of this Contract.

29.2 The Supplier also warrants that the Information Technologies, Materials, and other Goods supplied under the Contract are new, unused, and incorporate all recent improvements in design that materially affect the System's or Subsystem's ability to fulfill the Technical Requirements.

29.3 **Unless otherwise specified in the SCC**, the Supplier warrants that: (i) all Goods components to be incorporated into the System form part of the Supplier's and/or Subcontractor's current product lines, and (ii) they have been previously released to the market.

29.4 **Unless otherwise specified in the SCC**, the Warranty Period shall commence from the date of Operational Acceptance of the System (or of any major component or Subsystem for which separate Operational Acceptance is provided for in the Contract) and shall extend for thirty-six (36) months.

29.5 If during the Warranty Period any defect as described in GCC Clause 29.1 should be found in the design,

engineering, Materials, and workmanship of the Information Technologies and other Goods supplied or of the Services provided by the Supplier, the Supplier shall promptly, in consultation and agreement with the Purchaser regarding appropriate remedying of the defects, and at its sole cost, repair, replace, or otherwise make good (as the Supplier shall, at its discretion, determine) such defect as well as any damage to the System caused by such defect. Any defective Information Technologies or other Goods that have been replaced by the Supplier shall remain the property of the Supplier.

29.6 The Supplier shall not be responsible for the repair, replacement, or making good of any defect, or of any damage to the System arising out of or resulting from any of the following causes:

- (a) improper operation or maintenance of the System by the Purchaser;
- (b) normal wear and tear;
- (c) use of the System with items not supplied by the Supplier, unless otherwise identified in the Technical Requirements, or approved by the Supplier; or
- (d) modifications made to the System by the Purchaser, or a third party, not approved by the Supplier.

29.7 The Supplier's obligations under this GCC Clause 29 shall not apply to:

- (a) any materials that are normally consumed in operation or have a normal life shorter than the Warranty Period; or
- (b) any designs, specifications, or other data designed, supplied, or specified by or on behalf of the Purchaser or any matters for which the Supplier has disclaimed responsibility, in accordance with GCC Clause 21.1.2.

29.8 The Purchaser shall give the Supplier a notice promptly following the discovery of such defect, stating the nature of any such defect together with all available evidence. The Purchaser shall afford all reasonable opportunity for the Supplier to inspect any such defect. The Purchaser shall afford the Supplier all necessary access to the System and the site to enable the Supplier to perform its obligations under this GCC Clause 29.

29.9 The Supplier may, with the consent of the Purchaser, remove from the site any Information Technologies and other Goods that are defective, if the nature of the defect, and/or any damage to the System caused by the defect, is such that repairs cannot be expeditiously carried out at the site. If the repair, replacement, or making good is of such a character that it may affect the efficiency of the System, the Purchaser may give the Supplier notice requiring that tests of the defective part be made by the Supplier immediately upon completion of such remedial work, whereupon the Supplier shall carry out such tests.

If such part fails the tests, the Supplier shall carry out further repair, replacement, or making good (as the case may be) until that part of the System passes such tests. The tests shall be agreed upon by the Purchaser and the Supplier.

29.10 **Unless otherwise specified in the SCC**, the response times and repair/replacement times for Warranty Defect Repair are specified in the Technical Requirements. Nevertheless, if the Supplier fails to commence the work necessary to remedy such defect or any damage to the System caused by such defect within two weeks the Purchaser may, following notice to the Supplier, proceed to do such work or contract a third party (or parties) to do such work, and the reasonable costs incurred by the Purchaser in connection with such work shall be paid to the Purchaser by the Supplier or may be deducted by the Purchaser from any monies due the Supplier or claimed under the Performance Security.

29.11 If the System or Subsystem cannot be used by reason of such defect and/or making good of such defect, the Warranty Period for the System shall be extended by a period equal to the period during which the System or Subsystem could not be used by the Purchaser because of such defect and/or making good of such defect.

29.12 Items substituted for defective parts of the System during the Warranty Period shall be covered by the Defect Liability Warranty for the remainder of the Warranty Period applicable for the part replaced or three (3) months, whichever is greater. For reasons of information security, the Purchaser may choose to retain physical possession of any replaced defective information storage devices.

29.13 At the request of the Purchaser and without prejudice to any other rights and remedies that the Purchaser may have

against the Supplier under the Contract, the Supplier will offer all possible assistance to the Purchaser to seek warranty services or remedial action from any subcontracted third-party producers or licensor of Goods included in the System, including without limitation assignment or transfer in favor of the Purchaser of the benefit of any warranties given by such producers or licensors to the Supplier.

30. Functional Guarantees

30.1 The Supplier guarantees that, once the Operational Acceptance Certificate(s) has been issued, the System represents a complete, integrated solution to the Purchaser's requirements set forth in the Technical Requirements and it conforms to all other aspects of the Contract. The Supplier acknowledges that GCC Clause 27 regarding Commissioning and Operational Acceptance governs how technical conformance of the System to the Contract requirements will be determined.

30.2 If, for reasons attributable to the Supplier, the System does not conform to the Technical Requirements or does not conform to all other aspects of the Contract, the Supplier shall at its cost and expense make such changes, modifications, and/or additions to the System as may be necessary to conform to the Technical Requirements and meet all functional and performance standards. The Supplier shall notify the Purchaser upon completion of the necessary changes, modifications, and/or additions and shall request the Purchaser to repeat the Operational Acceptance Tests until the System achieves Operational Acceptance.

30.3 If the System (or Subsystem[s]) fails to achieve Operational Acceptance, the Purchaser may consider termination of the Contract, pursuant to GCC Clause 41.2.2, and forfeiture of the Supplier's Performance Security in accordance with GCC Clause 13.3 in compensation for the extra costs and delays likely to result from this failure.

31. Intellectual Property Rights Warranty

31.1 The Supplier hereby represents and warrants that:

- (a) the System as supplied, installed, tested, and accepted;
- (b) use of the System in accordance with the Contract; and

- (c) copying of the Software and Materials provided to the Purchaser in accordance with the Contract

do not and will not infringe any Intellectual Property Rights held by any third party and that it has all necessary rights or at its sole expense shall have secured in writing all transfers of rights and other consents necessary to make the assignments, licenses, and other transfers of Intellectual Property Rights and the warranties set forth in the Contract, and for the Purchaser to own or exercise all Intellectual Property Rights as provided in the Contract. Without limitation, the Supplier shall secure all necessary written agreements, consents, and transfers of rights from its employees and other persons or entities whose services are used for development of the System.

32. Intellectual Property Rights Indemnity

32.1 The Supplier shall indemnify and hold harmless the Purchaser and its employees and officers from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability), that the Purchaser or its employees or officers may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights by reason of:

- (a) installation of the System by the Supplier or the use of the System, including the Materials, in the country where the site is located;
- (b) copying of the Software and Materials provided the Supplier in accordance with the Agreement; and
- (c) sale of the products produced by the System in any country, except to the extent that such losses, liabilities, and costs arise as a result of the Purchaser's breach of GCC Clause 32.2.

32.2 Such indemnity shall not cover any use of the System, including the Materials, other than for the purpose indicated by or to be reasonably inferred from the Contract, any infringement resulting from the use of the System, or any products of the System produced thereby in association or combination with any other goods or services not supplied by the Supplier, where the infringement arises because of such association or combination and not because of use of the System in its own right.

32.3 Such indemnities shall also not apply if any claim of infringement:

- (a) is asserted by a parent, subsidiary, or affiliate of the Purchaser's organization;
- (b) is a direct result of a design mandated by the Purchaser's Technical Requirements and the possibility of such infringement was duly noted in the Supplier's Proposal; or
- (c) results from the alteration of the System, including the Materials, by the Purchaser or any persons other than the Supplier or a person authorized by the Supplier.

32.4 If any proceedings are brought or any claim is made against the Purchaser arising out of the matters referred to in GCC Clause 32.1, the Purchaser shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Purchaser's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.

If the Supplier fails to notify the Purchaser within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Purchaser shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Purchaser within the twenty-eight (28) days, the Purchaser shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Purchaser shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.

32.5 The Purchaser shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Supplier or its employees, officers, or Subcontractors may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided to the Supplier in connection with this Contract by the Purchaser or any persons (other than the Supplier) contracted by the

Purchaser, except to the extent that such losses, liabilities, and costs arise as a result of the Supplier's breach of GCC Clause 32.8.

32.6 Such indemnity shall not cover

- (a) any use of the design, data, drawing, specification, or other documents or materials, other than for the purpose indicated by or to be reasonably inferred from the Contract;
- (b) any infringement resulting from the use of the design, data, drawing, specification, or other documents or materials, or any products produced thereby, in association or combination with any other Goods or Services not provided by the Purchaser or any other person contracted by the Purchaser, where the infringement arises because of such association or combination and not because of the use of the design, data, drawing, specification, or other documents or materials in its own right.

32.7 Such indemnities shall also not apply:

- (a) if any claim of infringement is asserted by a parent, subsidiary, or affiliate of the Supplier's organization;
- (b) to the extent that any claim of infringement is caused by the alteration, by the Supplier, or any persons contracted by the Supplier, of the design, data, drawing, specification, or other documents or materials provided to the Supplier by the Purchaser or any persons contracted by the Purchaser.

32.8 If any proceedings are brought or any claim is made against the Supplier arising out of the matters referred to in GCC Clause 32.5, the Supplier shall promptly give the Purchaser notice of such proceedings or claims, and the Purchaser may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Purchaser fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Purchaser has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Purchaser's request, afford all available assistance to the Purchaser in

conducting such proceedings or claim and shall be reimbursed by the Purchaser for all reasonable expenses incurred in so doing.

33. Limitation of Liability

33.1 Provided the following does not exclude or limit any liabilities of either party in ways not permitted by applicable law:

- (a) the Supplier shall not be liable to the Purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the Supplier to pay liquidated damages to the Purchaser; and
- (b) the aggregate liability of the Supplier to the Purchaser, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Price, provided that this limitation shall not apply to any obligation of the Supplier to indemnify the Purchaser with respect to intellectual property rights infringement.

G. RISK DISTRIBUTION

34. Transfer of Ownership

34.1 With the exception of Software and Materials, the ownership of the Information Technologies and other Goods shall be transferred to the Purchaser at the time of Delivery or otherwise under terms that may be agreed upon and specified in the Contract Agreement.

34.2 Ownership and the terms of usage of the Software and Materials supplied under the Contract shall be governed by GCC Clause 15 (Copyright) Clause 16 (Software License Agreements), and any elaboration in the Technical Requirements.

34.3 Ownership of the Supplier's Equipment used by the Supplier and its Subcontractors in connection with the Contract shall remain with the Supplier or its Subcontractors.

35. Care of the System

35.1 The Purchaser shall become responsible for the care and custody of the System or Subsystems upon their Delivery. The Purchaser shall make good at its own cost any loss or damage that may occur to the System or Subsystems from

any cause from the date of Delivery until the date of Operational Acceptance of the System or Subsystems, pursuant to GCC Clause 27 (Commissioning and Operational Acceptance), excepting such loss or damage arising from acts or omissions of the Supplier, its employees, or subcontractors.

35.2 If any loss or damage occurs to the System or any part of the System by reason of:

- (a) (insofar as they relate to the country where the Project Site is located) nuclear reaction, nuclear radiation, radioactive contamination, a pressure wave caused by aircraft or other aerial objects, or any other occurrences that an experienced Supplier could not reasonably foresee, or if reasonably foreseeable could not reasonably make provision for or insure against, insofar as such risks are not normally insurable on the insurance market and are mentioned in the general exclusions of the policy of insurance taken out under GCC Clause 37;
- (b) any use not in accordance with the Contract, by the Purchaser or any third party;
- (c) any use of or reliance upon any design, data, or specification provided or designated by or on behalf of the Purchaser, or any such matter for which the Supplier has disclaimed responsibility in accordance with GCC Clause 21.1.2,

the Purchaser shall pay to the Supplier all sums payable in respect of the System or Subsystems that have achieved Operational Acceptance, notwithstanding that the same be lost, destroyed, or damaged. If the Purchaser requests the Supplier in writing to make good any loss or damage to the System thereby occasioned, the Supplier shall make good the same at the cost of the Purchaser in accordance with GCC Clause 39. If the Purchaser does not request the Supplier in writing to make good any loss or damage to the System thereby occasioned, the Purchaser shall either request a change in accordance with GCC Clause 39, excluding the performance of that part of the System thereby lost, destroyed, or damaged, or, where the loss or damage affects a substantial part of the System, the Purchaser shall terminate the Contract pursuant to GCC Clause 41.1.

35.3 The Purchaser shall be liable for any loss of or damage to any Supplier's Equipment which the Purchaser has

authorized to locate within the Purchaser's premises for use in fulfillment of Supplier's obligations under the Contract, except where such loss or damage arises from acts or omissions of the Supplier, its employees, or subcontractors.

**36. Loss of or
Damage to
Property;
Accident or
Injury to
Workers;
Indemnification**

36.1 The Supplier and each and every Subcontractor shall abide by the job safety, insurance, customs, and immigration measures prevalent and laws in force in the Purchaser's Country.

36.2 Subject to GCC Clause 36.3, the Supplier shall indemnify and hold harmless the Purchaser and its employees and officers from and against any and all losses, liabilities and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Purchaser or its employees or officers may suffer as a result of the death or injury of any person or loss of or damage to any property (other than the System, whether accepted or not) arising in connection with the supply, installation, testing, and Commissioning of the System and by reason of the negligence of the Supplier or its Subcontractors, or their employees, officers or agents, except any injury, death, or property damage caused by the negligence of the Purchaser, its contractors, employees, officers, or agents.

36.3 If any proceedings are brought or any claim is made against the Purchaser that might subject the Supplier to liability under GCC Clause 36.2, the Purchaser shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Purchaser's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Supplier fails to notify the Purchaser within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Purchaser shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Purchaser within the twenty-eight (28) day period, the Purchaser shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Purchaser shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.

36.4 The Purchaser shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from any and all losses, liabilities, and costs (including

losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Supplier or its employees, officers, or Subcontractors may suffer as a result of the death or personal injury of any person or loss of or damage to property of the Purchaser, other than the System not yet achieving Operational Acceptance, that is caused by fire, explosion, or any other perils, in excess of the amount recoverable from insurances procured under GCC Clause 37 (Insurances), provided that such fire, explosion, or other perils were not caused by any act or failure of the Supplier.

36.5 If any proceedings are brought or any claim is made against the Supplier that might subject the Purchaser to liability under GCC Clause 36.4, the Supplier shall promptly give the Purchaser notice of such proceedings or claims, and the Purchaser may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Purchaser fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Purchaser has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Purchaser's request, afford all available assistance to the Purchaser in conducting such proceedings or claim and shall be reimbursed by the Purchaser for all reasonable expenses incurred in so doing.

36.6 The party entitled to the benefit of an indemnity under this GCC Clause 36 shall take all reasonable measures to mitigate any loss or damage that has occurred. If the party fails to take such measures, the other party's liabilities shall be correspondingly reduced.

37. Insurances

37.1 The Supplier shall at its expense take out and maintain in effect, or cause to be taken out and maintained in effect, during the performance of the Contract, the insurance set forth below. The identity of the insurers and the form of the policies shall be subject to the approval of the Purchaser, who should not unreasonably withhold such approval.

(a) Cargo Insurance During Transport

as applicable, 110 percent of the price of the Information Technologies and other Goods in a freely convertible currency, covering the Goods from physical loss or damage during shipment through receipt at the Project Site.

(b) Installation “All Risks” Insurance

as applicable, 110 percent of the price of the Information Technologies and other Goods covering the Goods at the site from all risks of physical loss or damage (excluding only perils commonly excluded under “all risks” insurance policies of this type by reputable insurers) occurring prior to Operational Acceptance of the System.

(c) Third-Party Liability Insurance

On terms as **specified in the SCC**, covering bodily injury or death suffered by third parties (including the Purchaser’s personnel) and loss of or damage to property (including the Purchaser’s property and any Subsystems that have been accepted by the Purchaser) occurring in connection with the supply and installation of the Information System.

(d) Automobile Liability Insurance

In accordance with the statutory requirements prevailing in the Purchaser’s Country, covering use of all vehicles used by the Supplier or its Subcontractors (whether or not owned by them) in connection with the execution of the Contract.

(e) Other Insurance (if any), as **specified in the SCC**.

37.2 The Purchaser shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 37.1, except for the Third-Party Liability, and the Supplier’s Subcontractors shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 37.1 except for Cargo Insurance During Transport. All insurer’s rights of subrogation against such co-insured for losses or claims arising out of the performance of the Contract shall be waived under such policies.

37.3 The Supplier shall deliver to the Purchaser certificates of insurance (or copies of the insurance policies) as evidence that the required policies are in full force and effect.

- 37.4 The Supplier shall ensure that, where applicable, its Subcontractor(s) shall take out and maintain in effect adequate insurance policies for their personnel and vehicles and for work executed by them under the Contract, unless such Subcontractors are covered by the policies taken out by the Supplier.
- 37.5 If the Supplier fails to take out and/or maintain in effect the insurance referred to in GCC Clause 37.1, the Purchaser may take out and maintain in effect any such insurance and may from time to time deduct from any amount due the Supplier under the Contract any premium that the Purchaser shall have paid to the insurer or may otherwise recover such amount as a debt due from the Supplier.
- 37.6 Unless otherwise provided in the Contract, the Supplier shall prepare and conduct all and any claims made under the policies affected by it pursuant to this GCC Clause 37, and all monies payable by any insurers shall be paid to the Supplier. The Purchaser shall give to the Supplier all such reasonable assistance as may be required by the Supplier in connection with any claim under the relevant insurance policies. With respect to insurance claims in which the Purchaser's interest is involved, the Supplier shall not give any release or make any compromise with the insurer without the prior written consent of the Purchaser. With respect to insurance claims in which the Supplier's interest is involved, the Purchaser shall not give any release or make any compromise with the insurer without the prior written consent of the Supplier.

38. Force Majeure

- 38.1 "Force Majeure" shall mean any event beyond the reasonable control of the Purchaser or of the Supplier, as the case may be, and which is unavoidable notwithstanding the reasonable care of the party affected and shall include, without limitation, the following:
- (a) war, hostilities, or warlike operations (whether a state of war be declared or not), invasion, act of foreign enemy, and civil war;
 - (b) rebellion, revolution, insurrection, mutiny, usurpation of civil or military government, conspiracy, riot, civil commotion, and terrorist acts;
 - (c) confiscation, nationalization, mobilization, commandeering or requisition by or under the order of any government or de jure or de facto authority or

- ruler, or any other act or failure to act of any local state or national government authority;
- (d) strike, sabotage, lockout, embargo, import restriction, port congestion, lack of usual means of public transportation and communication, industrial dispute, shipwreck, shortage or restriction of power supply, epidemics, quarantine, and plague;
 - (e) earthquake, landslide, volcanic activity, fire, flood or inundation, tidal wave, typhoon or cyclone, hurricane, storm, lightning, or other inclement weather condition, nuclear and pressure waves, or other natural or physical disaster;
 - (f) failure, by the Supplier, to obtain the necessary export permit(s) from the governments of the Country(s) of Origin of the Information Technologies or other Goods, or Supplier's Equipment provided that the Supplier has made all reasonable efforts to obtain the required export permit(s), including the exercise of due diligence in determining the eligibility of the System and all of its components for receipt of the necessary export permits.
- 38.2 If either party is prevented, hindered, or delayed from or in performing any of its obligations under the Contract by an event of Force Majeure, then it shall notify the other in writing of the occurrence of such event and the circumstances of the event of Force Majeure within fourteen (14) days after the occurrence of such event.
- 38.3 The party who has given such notice shall be excused from the performance or punctual performance of its obligations under the Contract for so long as the relevant event of Force Majeure continues and to the extent that such party's performance is prevented, hindered, or delayed. The Time for Achieving Operational Acceptance shall be extended in accordance with GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).
- 38.4 The party or parties affected by the event of Force Majeure shall use reasonable efforts to mitigate the effect of the event of Force Majeure upon its or their performance of the Contract and to fulfill its or their obligations under the Contract, but without prejudice to either party's right to terminate the Contract under GCC Clause 38.6.

- 38.5 No delay or nonperformance by either party to this Contract caused by the occurrence of any event of Force Majeure shall:
- (a) constitute a default or breach of the Contract;
 - (b) (subject to GCC Clauses 35.2, 38.3, and 38.4) give rise to any claim for damages or additional cost or expense occasioned by the delay or nonperformance, if, and to the extent that, such delay or nonperformance is caused by the occurrence of an event of Force Majeure.
- 38.6 If the performance of the Contract is substantially prevented, hindered, or delayed for a single period of more than sixty (60) days or an aggregate period of more than one hundred and twenty (120) days on account of one or more events of Force Majeure during the time period covered by the Contract, the parties will attempt to develop a mutually satisfactory solution, failing which, either party may terminate the Contract by giving a notice to the other.
- 38.7 In the event of termination pursuant to GCC Clause 38.6, the rights and obligations of the Purchaser and the Supplier shall be as specified in GCC Clauses 41.1.2 and 41.1.3.
- 38.8 Notwithstanding GCC Clause 38.5, Force Majeure shall not apply to any obligation of the Purchaser to make payments to the Supplier under this Contract.

H. CHANGE IN CONTRACT ELEMENTS

39. Changes to the System

39.1 Introducing a Change

- 39.1.1 Subject to GCC Clauses 39.2.5 and 39.2.7, the Purchaser shall have the right to propose, and subsequently require, the Project Manager to order the Supplier from time to time during the performance of the Contract to make any change, modification, addition, or deletion to, in, or from the System (interchangeably called “Change”), provided that such Change falls within the general scope of the System, does not constitute unrelated work, and is technically practicable, taking into account both the state of advancement of the System and the technical compatibility of the Change envisaged with the nature of the System as originally specified in the Contract.

A Change may involve, but is not restricted to, the substitution of updated Information Technologies and

related Services in accordance with GCC Clause 23 (Product Upgrades).

39.1.2 The Supplier may from time to time during its performance of the Contract propose to the Purchaser (with a copy to the Project Manager) any Change that the Supplier considers necessary or desirable to improve the quality or efficiency of the System. The Purchaser may at its discretion approve or reject any Change proposed by the Supplier.

39.1.3 Notwithstanding GCC Clauses 39.1.1 and 39.1.2, no change made necessary because of any default of the Supplier in the performance of its obligations under the Contract shall be deemed to be a Change, and such change shall not result in any adjustment of the Contract Price or the Time for Achieving Operational Acceptance.

39.1.4 The procedure on how to proceed with and execute Changes is specified in GCC Clauses 39.2 and 39.3, and further details and sample forms are provided in the Sample Contractual Forms Section in the request for proposals document.

39.1.5 Moreover, the Purchaser and Supplier will agree, during development of the Project Plan, to a date prior to the scheduled date for Operational Acceptance, after which the Technical Requirements for the System shall be “frozen.” Any Change initiated after this time will be dealt with after Operational Acceptance.

39.2 Changes Originating from Purchaser

39.2.1 If the Purchaser proposes a Change pursuant to GCC Clauses 39.1.1, it shall send to the Supplier a “Request for Change Proposal,” requiring the Supplier to prepare and furnish to the Project Manager as soon as reasonably practicable a “Change Proposal,” which shall include the following:

- (a) brief description of the Change;
- (b) impact on the Time for Achieving Operational Acceptance;
- (c) detailed estimated cost of the Change;
- (d) effect on Functional Guarantees (if any);
- (e) effect on any other provisions of the Contract; and

(f) any additional documents as **specified in the SCC**.

39.2.2 Prior to preparing and submitting the “Change Proposal,” the Supplier shall submit to the Project Manager a “Change Estimate Proposal,” which shall be an estimate of the cost of preparing the Change Proposal, plus a first approximation of the suggested approach and cost for implementing the changes. Upon receipt of the Supplier’s Change Estimate Proposal, the Purchaser shall do one of the following:

- (a) accept the Supplier’s estimate with instructions to the Supplier to proceed with the preparation of the Change Proposal;
- (b) advise the Supplier of any part of its Change Estimate Proposal that is unacceptable and request the Supplier to review its estimate;
- (c) advise the Supplier that the Purchaser does not intend to proceed with the Change.

39.2.3 Upon receipt of the Purchaser’s instruction to proceed under GCC Clause 39.2.2 (a), the Supplier shall, with proper expedition, proceed with the preparation of the Change Proposal, in accordance with GCC Clause 39.2.1. The Supplier, at its discretion, may specify a validity period for the Change Proposal, after which if the Purchaser and Supplier has not reached agreement in accordance with GCC Clause 39.2.6, then GCC Clause 39.2.7 shall apply.

39.2.4 The pricing of any Change shall, as far as practicable, be calculated in accordance with the rates and prices included in the Contract. If the nature of the Change is such that the Contract rates and prices are inequitable, the parties to the Contract shall agree on other specific rates to be used for valuing the Change.

39.2.5 If before or during the preparation of the Change Proposal it becomes apparent that the aggregate impact of compliance with the Request for Change Proposal and with all other Change Orders that have already become binding upon the Supplier under this GCC Clause 39 would be to increase or decrease the Contract Price as originally set forth in Article 2 (Contract Price) of the Contract Agreement by more than fifteen (15) percent, the Supplier may give a written notice of objection to this Request for Change Proposal prior to furnishing the Change Proposal. If

the Purchaser accepts the Supplier's objection, the Purchaser shall withdraw the proposed Change and shall notify the Supplier in writing of its acceptance.

The Supplier's failure to so object to a Request for Change Proposal shall neither affect its right to object to any subsequent requested Changes or Change Orders, nor affect its right to take into account, when making such subsequent objection, the percentage increase or decrease in the Contract Price that any Change not objected to by the Supplier represents.

39.2.6 Upon receipt of the Change Proposal, the Purchaser and the Supplier shall mutually agree upon all matters contained in the Change Proposal. Within fourteen (14) days after such agreement, the Purchaser shall, if it intends to proceed with the Change, issue the Supplier a Change Order. If the Purchaser is unable to reach a decision within fourteen (14) days, it shall notify the Supplier with details of when the Supplier can expect a decision. If the Purchaser decides not to proceed with the Change for whatever reason, it shall, within the said period of fourteen (14) days, notify the Supplier accordingly. Under such circumstances, the Supplier shall be entitled to reimbursement of all costs reasonably incurred by it in the preparation of the Change Proposal, provided that these do not exceed the amount given by the Supplier in its Change Estimate Proposal submitted in accordance with GCC Clause 39.2.2.

39.2.7 If the Purchaser and the Supplier cannot reach agreement on the price for the Change, an equitable adjustment to the Time for Achieving Operational Acceptance, or any other matters identified in the Change Proposal, the Change will not be implemented. However, this provision does not limit the rights of either party under GCC Clause 6 (Settlement of Disputes).

39.3 Changes Originating from Supplier

If the Supplier proposes a Change pursuant to GCC Clause 39.1.2, the Supplier shall submit to the Project Manager a written "Application for Change Proposal," giving reasons for the proposed Change and including the information specified in GCC Clause 39.2.1. Upon receipt of the Application for Change Proposal, the parties shall follow the procedures outlined in GCC Clauses 39.2.6 and

39.2.7. However, should the Purchaser choose not to proceed or the Purchaser and the Supplier cannot come to agreement on the change during any validity period that the Supplier may specify in its Application for Change Proposal, the Supplier shall not be entitled to recover the costs of preparing the Application for Change Proposal, unless subject to an agreement between the Purchaser and the Supplier to the contrary.

39.4 Value engineering. The Supplier may prepare, at its own cost, a value engineering proposal at any time during the performance of the Contract. The value engineering proposal shall, at a minimum, include the following;

- (a) the proposed change(s), and a description of the difference to the existing Contract requirements;
- (b) a full cost/benefit analysis of the proposed change(s) including a description and estimate of costs (including life cycle costs) the Purchaser may incur in implementing the value engineering proposal; and
- (c) a description of any effect(s) of the change on performance/functionality.

The Purchaser may accept the value engineering proposal if the proposal demonstrates benefits that:

- (a) accelerates the delivery period; or
- (b) reduces the Contract Price or the life cycle costs to the Purchaser; or
- (c) improves the quality, efficiency, safety or sustainability of the systems; or
- (d) yields any other benefits to the Purchaser,

without compromising the necessary functions of the systems.

If the value engineering proposal is approved by the Purchaser and results in:

- (a) a reduction of the Contract Price; the amount to be paid to the Supplier shall be the percentage specified in the SCC of the reduction in the Contract Price; or
- (b) an increase in the Contract Price; but results in a reduction in life cycle costs due to any benefit described in (a) to (d) above,

the amount to be paid to the Supplier shall be the full increase in the Contract Price.

40. Extension of Time for Achieving Operational Acceptance

40.1 The time(s) for achieving Operational Acceptance specified in the Schedule of Implementation shall be extended if the Supplier is delayed or impeded in the performance of any of its obligations under the Contract by reason of any of the following:

- (a) any Change in the System as provided in GCC Clause 39 (Change in the Information System);
- (b) any occurrence of Force Majeure as provided in GCC Clause 38 (Force Majeure);
- (c) default of the Purchaser; or
- (d) any other matter specifically mentioned in the Contract;

by such period as shall be fair and reasonable in all the circumstances and as shall fairly reflect the delay or impediment sustained by the Supplier.

40.2 Except where otherwise specifically provided in the Contract, the Supplier shall submit to the Project Manager a notice of a claim for an extension of the time for achieving Operational Acceptance, together with particulars of the event or circumstance justifying such extension as soon as reasonably practicable after the commencement of such event or circumstance. As soon as reasonably practicable after receipt of such notice and supporting particulars of the claim, the Purchaser and the Supplier shall agree upon the period of such extension. In the event that the Supplier does not accept the Purchaser's estimate of a fair and reasonable time extension, the Supplier shall be entitled to refer the matter to the provisions for the Settlement of Disputes pursuant to GCC Clause 43.

40.3 The Supplier shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract.

41. Termination

41.1 Termination for Purchaser's Convenience

41.1.1 The Purchaser may at any time terminate the Contract for any reason by giving the Supplier a notice of termination that refers to this GCC Clause 41.1.

41.1.2 Upon receipt of the notice of termination under GCC Clause 41.1.1, the Supplier shall either as soon as reasonably practical or upon the date specified in the notice of termination

- (a) cease all further work, except for such work as the Purchaser may specify in the notice of termination for the sole purpose of protecting that part of the System already executed, or any work required to leave the site in a clean and safe condition;
- (b) terminate all subcontracts, except those to be assigned to the Purchaser pursuant to GCC Clause 41.1.2 (d) (ii) below;
- (c) remove all Supplier's Equipment from the site, repatriate the Supplier's Personnel from the site, remove from the site any wreckage, rubbish, and debris of any kind;
- (d) in addition, the Supplier, subject to the payment specified in GCC Clause 41.1.3, shall
 - (i) deliver to the Purchaser the parts of the System executed by the Supplier up to the date of termination;
 - (ii) to the extent legally possible, assign to the Purchaser all right, title, and benefit of the Supplier to the System, or Subsystem, as at the date of termination, and, as may be required by the Purchaser, in any subcontracts concluded between the Supplier and its Subcontractors;
 - (iii) deliver to the Purchaser all nonproprietary drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as of the date of termination in connection with the System.

41.1.3 In the event of termination of the Contract under GCC Clause 41.1.1, the Purchaser shall pay to the Supplier the following amounts:

- (a) the Contract Price, properly attributable to the parts of the System executed by the Supplier as of the date of termination;
- (b) the costs reasonably incurred by the Supplier in the removal of the Supplier's Equipment from the site and in the repatriation of the Supplier's Personnel;
- (c) any amount to be paid by the Supplier to its Subcontractors in connection with the

termination of any subcontracts, including any cancellation charges;

- (d) costs incurred by the Supplier in protecting the System and leaving the site in a clean and safe condition pursuant to GCC Clause 41.1.2 (a); and
- (e) the cost of satisfying all other obligations, commitments, and claims that the Supplier may in good faith have undertaken with third parties in connection with the Contract and that are not covered by GCC Clauses 41.1.3 (a) through (d) above.

41.2 Termination for Supplier's Default

41.2.1 The Purchaser, without prejudice to any other rights or remedies it may possess, may terminate the Contract forthwith in the following circumstances by giving a notice of termination and its reasons therefore to the Supplier, referring to this GCC Clause 41.2:

- (a) if the Supplier becomes bankrupt or insolvent, has a receiving order issued against it, compounds with its creditors, or, if the Supplier is a corporation, a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over any part of its undertaking or assets, or if the Supplier takes or suffers any other analogous action in consequence of debt;
- (b) if the Supplier assigns or transfers the Contract or any right or interest therein in violation of the provision of GCC Clause 42 (Assignment); or
- (c) if the Supplier, in the judgment of the Purchaser has engaged in Fraud and Corruption, as defined in paragraph 2.2 a. of the Appendix 1 to the GCC, in competing for or in executing the Contract, including but not limited to willful misrepresentation of facts concerning ownership of Intellectual Property Rights in, or proper authorization and/or licenses from the owner to offer, the hardware, software, or materials provided under this Contract.

41.2.2 If the Supplier:

- (a) has abandoned or repudiated the Contract;

- (b) has without valid reason failed to commence work on the System promptly;
- (c) persistently fails to execute the Contract in accordance with the Contract or persistently neglects to carry out its obligations under the Contract without just cause;
- (d) refuses or is unable to provide sufficient Materials, Services, or labor to execute and complete the System in the manner specified in the Agreed Project Plan furnished under GCC Clause 19 at rates of progress that give reasonable assurance to the Purchaser that the Supplier can attain Operational Acceptance of the System by the Time for Achieving Operational Acceptance as extended;

then the Purchaser may, without prejudice to any other rights it may possess under the Contract, give a notice to the Supplier stating the nature of the default and requiring the Supplier to remedy the same. If the Supplier fails to remedy or to take steps to remedy the same within thirty (30) days of its receipt of such notice, then the Purchaser may terminate the Contract forthwith by giving a notice of termination to the Supplier that refers to this GCC Clause 41.2.

41.2.3 Upon receipt of the notice of termination under GCC Clauses 41.2.1 or 41.2.2, the Supplier shall, either immediately or upon such date as is specified in the notice of termination:

- (a) cease all further work, except for such work as the Purchaser may specify in the notice of termination for the sole purpose of protecting that part of the System already executed or any work required to leave the site in a clean and safe condition;
- (b) terminate all subcontracts, except those to be assigned to the Purchaser pursuant to GCC Clause 41.2.3 (d) below;
- (c) deliver to the Purchaser the parts of the System executed by the Supplier up to the date of termination;
- (d) to the extent legally possible, assign to the Purchaser all right, title and benefit of the Supplier to the System or Subsystems as at the

date of termination, and, as may be required by the Purchaser, in any subcontracts concluded between the Supplier and its Subcontractors;

- (e) deliver to the Purchaser all drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as at the date of termination in connection with the System.

41.2.4 The Purchaser may enter upon the site, expel the Supplier, and complete the System itself or by employing any third party. Upon completion of the System or at such earlier date as the Purchaser thinks appropriate, the Purchaser shall give notice to the Supplier that such Supplier's Equipment will be returned to the Supplier at or near the site and shall return such Supplier's Equipment to the Supplier in accordance with such notice. The Supplier shall thereafter without delay and at its cost remove or arrange removal of the same from the site.

41.2.5 Subject to GCC Clause 41.2.6, the Supplier shall be entitled to be paid the Contract Price attributable to the portion of the System executed as at the date of termination and the costs, if any, incurred in protecting the System and in leaving the site in a clean and safe condition pursuant to GCC Clause 41.2.3 (a). Any sums due the Purchaser from the Supplier accruing prior to the date of termination shall be deducted from the amount to be paid to the Supplier under this Contract.

41.2.6 If the Purchaser completes the System, the cost of completing the System by the Purchaser shall be determined. If the sum that the Supplier is entitled to be paid, pursuant to GCC Clause 41.2.5, plus the reasonable costs incurred by the Purchaser in completing the System, exceeds the Contract Price, the Supplier shall be liable for such excess. If such excess is greater than the sums due the Supplier under GCC Clause 41.2.5, the Supplier shall pay the balance to the Purchaser, and if such excess is less than the sums due the Supplier under GCC Clause 41.2.5, the Purchaser shall pay the balance to the Supplier. The Purchaser and the Supplier shall agree, in writing, on the computation described above and the manner in which any sums shall be paid.

41.3 Termination by Supplier

41.3.1 If:

- (a) the Purchaser has failed to pay the Supplier any sum due under the Contract within the specified period, has failed to approve any invoice or supporting documents without just cause **pursuant to the SCC**, or commits a substantial breach of the Contract, the Supplier may give a notice to the Purchaser that requires payment of such sum, with interest on this sum as stipulated in GCC Clause 12.3, requires approval of such invoice or supporting documents, or specifies the breach and requires the Purchaser to remedy the same, as the case may be. If the Purchaser fails to pay such sum together with such interest, fails to approve such invoice or supporting documents or give its reasons for withholding such approval, fails to remedy the breach or take steps to remedy the breach within fourteen (14) days after receipt of the Supplier's notice; or
- (b) the Supplier is unable to carry out any of its obligations under the Contract for any reason attributable to the Purchaser, including but not limited to the Purchaser's failure to provide possession of or access to the site or other areas or failure to obtain any governmental permit necessary for the execution and/or completion of the System;

then the Supplier may give a notice to the Purchaser of such events, and if the Purchaser has failed to pay the outstanding sum, to approve the invoice or supporting documents, to give its reasons for withholding such approval, or to remedy the breach within twenty-eight (28) days of such notice, or if the Supplier is still unable to carry out any of its obligations under the Contract for any reason attributable to the Purchaser within twenty-eight (28) days of the said notice, the Supplier may by a further notice to the Purchaser referring to this GCC Clause 41.3.1, forthwith terminate the Contract.

41.3.2 The Supplier may terminate the Contract immediately by giving a notice to the Purchaser to that effect, referring to this GCC Clause 41.3.2, if the Purchaser becomes bankrupt or insolvent, has a receiving order issued against it, compounds with its creditors, or,

being a corporation, if a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over any part of its undertaking or assets, or if the Purchaser takes or suffers any other analogous action in consequence of debt.

41.3.3 If the Contract is terminated under GCC Clauses 41.3.1 or 41.3.2, then the Supplier shall immediately:

- (a) cease all further work, except for such work as may be necessary for the purpose of protecting that part of the System already executed, or any work required to leave the site in a clean and safe condition;
- (b) terminate all subcontracts, except those to be assigned to the Purchaser pursuant to Clause 41.3.3 (d) (ii);
- (c) remove all Supplier's Equipment from the site and repatriate the Supplier's Personnel from the site.
- (d) In addition, the Supplier, subject to the payment specified in GCC Clause 41.3.4, shall:
 - (i) deliver to the Purchaser the parts of the System executed by the Supplier up to the date of termination;
 - (ii) to the extent legally possible, assign to the Purchaser all right, title, and benefit of the Supplier to the System, or Subsystems, as of the date of termination, and, as may be required by the Purchaser, in any subcontracts concluded between the Supplier and its Subcontractors;
 - (iii) to the extent legally possible, deliver to the Purchaser all drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as of the date of termination in connection with the System.

41.3.4 If the Contract is terminated under GCC Clauses 41.3.1 or 41.3.2, the Purchaser shall pay to the Supplier all payments specified in GCC Clause 41.1.3 and reasonable compensation for all loss, except for

loss of profit, or damage sustained by the Supplier arising out of, in connection with, or in consequence of such termination.

41.3.5 Termination by the Supplier pursuant to this GCC Clause 41.3 is without prejudice to any other rights or remedies of the Supplier that may be exercised in lieu of or in addition to rights conferred by GCC Clause 41.3.

41.4 In this GCC Clause 41, the expression “portion of the System executed” shall include all work executed, Services provided, and all Information Technologies, or other Goods acquired (or subject to a legally binding obligation to purchase) by the Supplier and used or intended to be used for the purpose of the System, up to and including the date of termination.

41.5 In this GCC Clause 41, in calculating any monies due from the Purchaser to the Supplier, account shall be taken of any sum previously paid by the Purchaser to the Supplier under the Contract, including any advance payment paid **pursuant to the SCC.**

42. Assignment

42.1 Neither the Purchaser nor the Supplier shall, without the express prior written consent of the other, assign to any third party the Contract or any part thereof, or any right, benefit, obligation, or interest therein or thereunder, except that the Supplier shall be entitled to assign either absolutely or by way of charge any monies due and payable to it or that may become due and payable to it under the Contract.

I. SETTLEMENT OF DISPUTES

43. Settlement of Disputes

43.1 Adjudication

43.1.1 If any dispute of any kind whatsoever shall arise between the Purchaser and the Supplier in connection with or arising out of the Contract, including without prejudice to the generality of the foregoing, any question regarding its existence, validity, or termination, or the operation of the System (whether during the progress of implementation or after its achieving Operational Acceptance and whether before or after the termination, abandonment, or breach of the Contract), the parties shall seek to resolve any such dispute by mutual consultation. If

the parties fail to resolve such a dispute by mutual consultation within fourteen (14) days after one party has notified the other in writing of the dispute, then, if the Contract Agreement in Appendix 2 includes and names an Adjudicator, the dispute shall, within another fourteen (14) days, be referred in writing by either party to the Adjudicator, with a copy to the other party. If there is no Adjudicator specified in the Contract Agreement, the mutual consultation period stated above shall last twenty-eight (28) days (instead of fourteen), upon expiry of which either party may move to the notification of arbitration pursuant to GCC Clause 43.2.1.

43.1.2 The Adjudicator shall give his or her decision in writing to both parties within twenty-eight (28) days of the dispute being referred to the Adjudicator. If the Adjudicator has done so, and no notice of intention to commence arbitration has been given by either the Purchaser or the Supplier within fifty-six (56) days of such reference, the decision shall become final and binding upon the Purchaser and the Supplier. Any decision that has become final and binding shall be implemented by the parties forthwith.

43.1.3 The Adjudicator shall be paid an hourly fee at the rate specified in the Contract Agreement plus reasonable expenditures incurred in the execution of duties as Adjudicator, and these costs shall be divided equally between the Purchaser and the Supplier.

43.1.4 Should the Adjudicator resign or die, or should the Purchaser and the Supplier agree that the Adjudicator is not fulfilling his or her functions in accordance with the provisions of the Contract, a new Adjudicator shall be jointly appointed by the Purchaser and the Supplier. Failing agreement between the two within twenty-eight (28) days, the new Adjudicator shall be appointed at the request of either party by the Appointing Authority **specified in the SCC**, or, if no Appointing Authority is **specified in SCC**, the Contract shall, from this point onward and until the parties may otherwise agree on an Adjudicator or an Appointing Authority, be implemented as if there is no Adjudicator.

43.2 Arbitration

43.2.1 If

- (a) the Purchaser or the Supplier is dissatisfied with the Adjudicator's decision and acts before this decision has become final and binding pursuant to GCC Clause 43.1.2, or
- (b) the Adjudicator fails to give a decision within the allotted time from referral of the dispute pursuant to GCC Clause 43.1.2, and the Purchaser or the Supplier acts within the following fourteen (14) days, or
- (c) in the absence of an Adjudicator from the Contract Agreement, the mutual consultation pursuant to GCC Clause 43.1.1 expires without resolution of the dispute and the Purchaser or the Supplier acts within the following fourteen (14) days,

then either the Purchaser or the Supplier may act to give notice to the other party, with a copy for information to the Adjudicator in case an Adjudicator had been involved, of its intention to commence arbitration, as provided below, as to the matter in dispute, and no arbitration in respect of this matter may be commenced unless such notice is given.

43.2.2 Any dispute in respect of which a notice of intention to commence arbitration has been given, in accordance with GCC Clause 43.2.1, shall be finally settled by arbitration. Arbitration may be commenced prior to or after Installation of the Information System.

43.2.3 Arbitration proceedings shall be conducted in accordance with the rules of procedure **specified in the SCC**.

43.3 Notwithstanding any reference to the Adjudicator or arbitration in this clause,

- (a) the parties shall continue to perform their respective obligations under the Contract unless they otherwise agree;
- (b) the Purchaser shall pay the Supplier any monies due the Supplier.

J. CYBER SECURITY

44. Cyber Security

- 44.1 **Pursuant to the SCC**, the Supplier, including its Subcontractors/ suppliers/ manufacturers shall take all technical and organizational measures necessary to protect the information technology systems and data used in connection with the Contract. Without limiting the foregoing, the Supplier, including its Subcontractors/ suppliers/ manufacturers, shall use all reasonable efforts to establish, maintain, implement and comply with, reasonable information technology, information security, cyber security and data protection controls, policies and procedures, including oversight, access controls, encryption, technological and physical safeguards and business continuity/disaster recovery and security plans that are designed to protect against and prevent breach, destruction, loss, unauthorized distribution, use, access, disablement, misappropriation or modification, or other compromise or misuse of or relating to any information technology system or data used in connection with the Contract.

APPENDIX 1

Fraud and Corruption

(Text in this Appendix shall not be modified)

1. Purpose

1.1 The Bank's Anti-Corruption Guidelines and this annex apply with respect to procurement under Bank Investment Project Financing operations.

2. Requirements

2.1 The Bank requires that Borrowers (including beneficiaries of Bank financing); bidders (applicants/proposers), consultants, contractors and suppliers; any sub-contractors, sub-consultants, service providers or suppliers; any agents (whether declared or not); and any of their personnel, observe the highest standard of ethics during the procurement process, selection and contract execution of Bank-financed contracts, and refrain from Fraud and Corruption.

2.2 To this end, the Bank:

a. Defines, for the purposes of this provision, the terms set forth below as follows:

- i. "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;
- ii. "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation;
- iii. "collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- iv. "coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
- v. "obstructive practice" is:

(a) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or

(b) acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under paragraph 2.2 e. below.

- b. Rejects a proposal for award if the Bank determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;
- c. In addition to the legal remedies set out in the relevant Legal Agreement, may take other appropriate actions, including declaring misprocurement, if the Bank determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the loan engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the procurement process, selection and/or execution of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner at the time they knew of the practices;
- d. Pursuant to the Bank's Anti-Corruption Guidelines, and in accordance with the Bank's prevailing sanctions policies and procedures, may sanction a firm or individual, either indefinitely or for a stated period of time, including by publicly declaring such firm or individual ineligible (i) to be awarded or otherwise benefit from a Bank-financed contract, financially or in any other manner;¹ (ii) to be a nominated² sub-contractor, consultant, manufacturer or supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract; and (iii) to receive the proceeds of any loan made by the Bank or otherwise to participate further in the preparation or implementation of any Bank-financed project;
- e. Requires that a clause be included in bidding/request for proposals documents and in contracts financed by a Bank loan, requiring (i) bidders (applicants/proposers), consultants, contractors, and suppliers, and their sub-contractors, sub-consultants, service providers, suppliers, agents, personnel, permit the Bank to inspect³ all accounts, records and other documents relating to the procurement process, selection and/or contract execution, and to have them audited by auditors appointed by the Bank.

¹ For the avoidance of doubt, a sanctioned party's ineligibility to be awarded a contract shall include, without limitation, (i) applying for pre-qualification, expressing interest in a consultancy, and bidding, either directly or as a nominated sub-contractor, nominated consultant, nominated manufacturer or supplier, or nominated service provider, in respect of such contract, and (ii) entering into an addendum or amendment introducing a material modification to any existing contract.

² A nominated sub-contractor, nominated consultant, nominated manufacturer or supplier, or nominated service provider (different names are used depending on the particular bidding document) is one which has been: (i) included by the bidder in its pre-qualification application or bid because it brings specific and critical experience and know-how that allow the bidder to meet the qualification requirements for the particular bid; or (ii) appointed by the Borrower.

³ Inspections in this context usually are investigative (i.e., forensic) in nature. They involve fact-finding activities undertaken by the Bank or persons appointed by the Bank to address specific matters related to investigations/audits, such as evaluating the veracity of an allegation of possible Fraud and Corruption, through the appropriate mechanisms. Such activity includes but is not limited to: accessing and examining a firm's or individual's financial records and information, and making copies thereof as relevant; accessing and examining any other documents, data and information (whether in hard copy or electronic format) deemed relevant for the investigation/audit, and making copies thereof as relevant; interviewing staff and other relevant individuals; performing physical inspections and site visits; and obtaining third party verification of information.

APPENDIX 2

Sexual Exploitation and Abuse (SEA) and/or Sexual Harassment (SH) Performance Declaration for Subcontractors

[The following table shall be filled in by each subcontractor proposed by the Supplier, that was not named in the Contract]

Subcontractor's Name: *[insert full name]*

Special Conditions of Contract

The following Special Conditions of Contract (SCC) shall supplement or amend the General Conditions of Contract (GCC). Whenever there is a conflict, the provisions of the SCC shall prevail over those in the General Conditions of Contract. For the purposes of clarity, any referenced GCC clause numbers are indicated in the left column of the SCC.

A. CONTRACT AND INTERPRETATION

Definitions (GCC Clause 1)

GCC 1.1 (a) (ix)	The applicable edition of the Procurement Regulation is dated: July 2016, Revised September 2023.
GCC 1.1 (b) (i)	The Purchaser is Bangladesh Computer Council (BCC) represented by Project Director, Enhancing Digital Government and Economy (EDGE) Project
GCC 1.1 (b) (ii)	The Project Manager is: Project Director Enhancing Digital Government and Economy (EDGE) Project Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh Telephone: +88 02 55007193 E-mail: piu.edge@bcc.gov.bd
GCC 1.1 (e) (i)	The Purchaser's Country is: Bangladesh.
GCC 1.1 (e) (x)	There are no Special Conditions associated with GCC 1.1 (e) (x).
GCC 1.1 (e) (xiii)	The Post-Warranty Services Period is Not Applicable .

Notices (GCC Clause 4)

GCC 4.3	Address of the Project Manager: Project Director Enhancing Digital Government and Economy (EDGE) Project Youth Tower (Level-5), 822/2, Rokeya Sarani, Dhaka-1216, Bangladesh Telephone: +88 02 55007193 E-mail: piu.edge@bcc.gov.bd
---------	--

	Fallback address of the Purchaser: as above.
--	---

B. SUBJECT MATTER OF CONTRACT

Scope of the System (GCC Clause 7)

GCC 7.3	The Supplier's obligations under the Contract will include the following recurrent cost items, as identified in the Recurrent Cost tables in the Supplier's Proposal: None.
---------	---

Time for Commencement and Operational Acceptance (GCC Clause 8)

GCC 8.1	The Supplier shall commence work on the System within: ten (10) days from the Effective Date of the Contract.
---------	--

Supplier's Responsibilities (GCC Clause 9)

GCC 9.1	health and safety manual is not required.
GCC 9.8	The following sustainable procurement contractual provisions, apply: none.
GCC 9.18	The Supplier not required to make security arrangements for the Project Site/s.

C. PAYMENT

Contract Price (GCC Clause 11)

GCC 11.2	Adjustments to the Contract Price shall be as follows: not applicable.
----------	---

Terms of Payment (GCC Clause 12)

GCC 12.1	Subject to the provisions of GCC Clause 12 (Terms of Payment), the Purchaser shall pay the Contract Price to the Supplier according to the categories and in the manner specified below. Only the categories Advance Payment and Complete System Integration relate to the entire Contract Price. In other payment categories, the term "total Contract Price" means the total cost of goods or services under the specific payment category. Within each such category, the Contract Implementation Schedule may trigger pro-rata payments for the portion
----------	---

	<p>of the total Contract Price for the category corresponding to the goods or services actually Delivered, Installed, or Operationally Accepted, at unit prices and in the currencies specified in the Price Schedules of the Contract Agreement.</p> <p>Payment Schedule will be applicable for each lot.</p> <p>(a) Advance Payment</p> <p>Ten percent (10%) of the entire Contract Price, exclusive of all Recurrent Costs, shall be paid against receipt of a claim accompanied by the Advance Payment Security specified in GCC Clause 13.2.</p> <p>(b) For goods supplied from outside Bangladesh:</p> <p>On Delivery: 40% (forty percent) of the pro rata Contract Price for goods supplied from outside Bangladesh shall be paid after shipment through irrevocable confirmed letter of credit (LC), upon submission of documents specified in GCC Clause 22.5.1 and associated SCC.</p> <p>(c) For goods supplied from Bangladesh:</p> <p>On Delivery: 40% (forty percent) of the pro rata Contract Price for goods supplied from Bangladesh shall be paid after delivery, upon submission of documents specified in GCC Clause 22.5.2 and associated SCC.</p> <p>(d) If advance payment is not taken by the supplier, the amount will be paid with Operational Acceptance.</p> <p>(e) Complete System Installation & Commissioning</p> <p>Fifty percent (50%) of the entire Contract Price, exclusive of all Recurrent Costs, as final payment upon receipt of invoice claim supported by the “Operational Acceptance Certificate” issued by the Purchaser following successful completion of Operational Acceptance Tests.</p>
--	---

GCC 12.3	<p>The Purchaser shall pay to the Supplier interest on the delayed payments at a rate of:</p> <p>On foreign currency: Secured Overnight Financing Rate (SOFR) + 1%</p> <p>On local currency: Dhaka Inter Bank Offered Rate (DIBOR).</p> <p>The payment delay period after which the Purchaser shall pay interest to the supplier shall be 45 days after submission of an invoice or request for payment by the supplier, and after the Purchaser has accepted it.</p>
GCC 12.4	<p>The Supplier will invoice the Purchaser in the currency used in the Contract Agreement and the Price Schedules it refers to, for Goods and Services supplied locally, the payment shall be in <i>Bangladesh Taka</i>.</p>
GCC 12.6	<p>There are no Special Conditions of Contract applicable to GCC Clause 12.6.</p>

Securities (GCC Clause 13)

GCC 13.3.1	<p>The Performance Security shall be denominated in the major currency of the Contract or in a freely convertible currency acceptable to the Purchaser for an amount equal to Ten (10) percent of the Contract Price for each lot.</p>
GCC 13.3.4	<p>During the Warranty Period (i.e., after Operational Acceptance of the System), the Performance Security shall be reduced to five (5) percent of the Contract Price for each lot, excluding any Recurrent Costs.</p>

D. INTELLECTUAL PROPERTY

Copyright (GCC Clause 15)

GCC 19.7	<p>There are no Special Conditions of Contract applicable to GCC Clause 19.7.</p>

Design and Engineering (GCC Clause 21)

GCC 21.3.1	<p>The Supplier shall prepare and furnish to the Project Manager the following documents for which the Supplier must obtain the Project Manager’s approval before proceeding with work on the System or any Subsystem covered by the documents.</p> <p>(a) detailed site surveys;</p> <p>(b) final Subsystem configurations.</p>
------------	--

Product Upgrades (GCC Clause 23)

GCC 23.4	<p>There are no Special Conditions of Contract applicable to GCC Clause 23.4.</p>
----------	--

Inspections and Tests (GCC Clause 25)

GCC 25	There are no Special Conditions of Contract applicable to GCC Clause 25.
--------	---

Commissioning and Operational Acceptance (GCC Clause 27)

GCC 27.2.1	There are no Special Conditions of Contract applicable to GCC Clause 27.2.1.
------------	---

F. GUARANTEES AND LIABILITIES**Operational Acceptance Time Guarantee (GCC Clause 28)**

GCC 28.2	There are no Special Conditions of Contract applicable to GCC Clause 28.2.
GCC 28.3	There are no Special Conditions of Contract applicable to GCC Clause 28.3.

Defect Liability (GCC Clause 29)

GCC 29.1	There are no Special Conditions of Contract applicable to GCC Clause 29.1.
GCC 29.4	The Warranty Period of Thirty-Six (36) months shall begin from the date of Operational Acceptance of the System or Subsystem. The supplier must provide three (3) years comprehensive manufacturer's warranty for all items for each lot supplied under this proposal.
GCC 29.10	There are no Special Conditions of Contract applicable to GCC Clause 29.10

Functional Guarantees (GCC Clause 30)

GCC 30	There are no Special Conditions of Contract applicable to GCC Clause 30.
GCC 32	There are no Special Conditions of Contract applicable to GCC Clause 32.

G. RISK DISTRIBUTION

Insurances (GCC Clause 37)

GCC 37.1 (c)	The Supplier shall obtain Third-Party Liability Insurance in the amount of USD 50,000 or equivalent amount with deductible limits of no more than USD 50,000 or equivalent amount for each lot. The insured Parties shall be the Supplier and the Purchaser. The Insurance shall cover the period from beginning date, relative to the Effective Date of the Contract until expiration date, relative to the Effective Date of the Contract or its completion.
GCC 37.1 (e)	<p>The Supplier shall obtain Worker’s Compensation Insurance in accordance with the statutory requirements of Bangladesh. The Insurance shall cover the period from the beginning date, relative to the Effective Date of the Contract until expiration date, relative to the Effective Date of the Contract or its completion.</p> <p>The Supplier shall obtain Purchaser’s Liability Insurance in accordance with the statutory requirements of Bangladesh. The Insurance shall cover the period from beginning date, relative to the Effective Date of the Contract expiration date, relative to the Effective Date of Contract or its completion.</p>

H. CHANGE IN CONTRACT ELEMENTS

Changes to the System (GCC Clause 39)

GCC 39.2.1	No Additional Requirement.
GCC 39.4	<p>Value Engineering</p> <p>The Purchaser will not consider a Value Engineering Proposal.</p>

I. SETTLEMENT OF DISPUTES

Settlement of Disputes (GCC Clause 43)

GCC 43.1.4	<p>The Appointing Authority for the Adjudicator is:</p> <p>(a) <u>if the Supplier is foreign (including a Joint Venture when at least one partner is outside the Purchaser’s Country):</u></p>
------------	--

	<p><i>International Chamber of Commerce.</i></p> <p>(b) <u>if the Supplier is a national of the Purchaser’s country</u></p> <p><i>President of the Institution of Engineers, Bangladesh (IEB).</i></p>
GCC 43.2.3	<p>If the Supplier is from outside the Purchaser’s Country (<u>including a Joint Venture when at least one partner is outside the Purchaser’s Country</u>) arbitration proceedings shall be conducted in accordance with the rules of arbitration of <i>UNCITRAL</i>. These rules, in the version in force at the time of the request for arbitration, will be deemed to form part of this Contract.</p> <p>If the Supplier is a national of the Purchaser’s Country, any dispute between the Purchaser and a Supplier arising in connection with the present Contract shall be referred to arbitration in accordance with the laws of the Purchaser’s country.</p>
<p>J. CYBER SECURITY</p> <hr style="border: 2px solid black;"/> <p>Cyber Security (GCC Clause 44)</p>	
GCC 44.1	Cyber Security does not apply

SECTION X - CONTRACT FORMS

Notes to the Purchaser on preparing the Contract Forms

Performance Security: Pursuant to GCC Clause 13.3, the successful Proposer is required to provide the Performance Security within twenty-eight (28) days of notification of Contract award.

Advance Payment Security: Pursuant to Clause 13.2, the successful Proposer is required to provide a bank guarantee securing the Advance Payment, if the SCC related to GCC Clause 12.1 provides for an Advance Payment.

Installation and Operational Acceptance Certificates: Recommended formats for these certificates are included in this SPD. Unless the Purchaser has good reason to require procedures that differ from those recommended, or to require different wording in the certificates, the procedures and forms shall be included unchanged. If the Purchaser wishes to amend the recommended procedures and/or certificates, it may propose alternatives for the approval of the World Bank before release of the request for proposals document to potential Proposers.

Change Order Procedures and Forms: Similar to the Installation and Operational Acceptance Certificates, the Change Estimate Proposal, Estimate Acceptance, Change Proposal, Change Order, and related Forms should be included in the request for proposals document unaltered. If the Purchaser wishes to amend the recommended procedures and/or certificates, it may propose alternatives for the approval of the World Bank before release of the request for proposals document.

Notes to Proposers on working with the Sample Contractual Forms

The following forms are to be completed and submitted by the successful Proposer following receipt of the Letter of Acceptance from the Purchaser: (i) Contract Agreement, with all Appendices; (ii) Performance Security; and (iii) Advance Payment Security.

- **Contract Agreement:** In addition to specifying the parties and the Contract Price, the Contract Agreement is where the: (i) Supplier Representative; (ii) if applicable, agreed Adjudicator and his/her compensation; and (iii) the List of Approved Subcontractors are specified. In addition, modifications to the successful Proposer's Proposal Price Schedules are attached to the Agreement. These contain corrections and adjustments to the Supplier's Proposal prices to correct errors, adjust the Contract Price to reflect – if applicable - any extensions to Proposal validity beyond the last day of original Proposal validity plus 56 days, etc.
- **Performance Security:** Pursuant to GCC Clause 13.3, the successful Proposer is required to provide the Performance Security in the form contained in this section of this request for proposals document and in the amount specified in accordance with the SCC.
- **Advance Payment Security:** Pursuant to GCC Clause 13.2, the successful Proposer is required to provide a bank guarantee for the full amount of the Advance Payment - if an Advance Payment is specified in the SCC for GCC Clause 12.1 - in the form contained in this section of this request for proposals document or another form acceptable to the Purchaser. If a Proposer wishes to propose a different Advance Payment Security form, it should submit a copy to the Purchaser promptly for review and confirmation of acceptability before the proposal submission deadline.

The Purchaser and Supplier will use the following additional forms during Contract implementation to formalize or certify important Contract events: (i) the Installation and Operational Acceptance Certificates; and (ii) the various Change Order forms. These and the procedures for their use during performance of the Contract are included in the request for proposals document for the information of Proposers.

NOTIFICATION OF INTENTION TO AWARD

[This Notification of Intention to Award shall be sent to each Proposer that submitted a Proposal, unless the Proposer has previously received notice of exclusion from the process Proposer.]

[Send this Notification to the Proposer's Authorized Representative named in the Proposer Information Form]

For the attention of Proposer's Authorized Representative

Name: *[insert Authorized Representative's name]*

Address: *[insert Authorized Representative's Address]*

Telephone/Fax numbers: *[insert Authorized Representative's telephone/fax numbers]*

Email Address: *[insert Authorized Representative's email address]*

[IMPORTANT: insert the date that this Notification is transmitted to all participating Proposers. The Notification must be sent to all Proposers simultaneously. This means on the same date and as close to the same time as possible.]

DATE OF TRANSMISSION: This Notification is sent by: *[specify email / fax]* on *[specify date]* (local time)

Notification of Intention to Award

Purchaser: *[insert the name of the Purchaser]*

Project: *[insert name of project]*

Contract title: *[insert the name of the contract]*

Country: *[insert country where RFP is issued]*

Loan No. /Credit No. / Grant No.: *[insert reference number for loan/credit/grant]*

RFP No: *[insert RFP reference number from Procurement Plan]*

This Notification of Intention to Award (Notification) notifies you of our decision to award the above contract. The transmission of this Notification begins the Standstill Period. During the Standstill Period you may:

- a) request a debriefing in relation to the evaluation of your Proposal, and/or
- b) submit a Procurement-related Complaint in relation to the decision to award the contract.

1. The successful Proposer

Name:	[insert name of successful Proposer]
Address:	[insert address of the successful Proposer]
Contract price:	[insert contract price of the successful Proposer]
Total combined score:	[insert the total combined score of the successful Proposer]

2. Other Proposers [INSTRUCTIONS: insert names of all Proposers that submitted a Proposal, Proposal prices as read out and evaluated, technical scores and combined scores.]

Name of Proposer	Technical Score (If applicable)	Proposal price	Evaluated Proposal Cost	Combined Score
[insert name]	[insert Technical score]	[insert Proposal price]	[insert evaluated cost]	[insert combined score]
[insert name]	[insert Technical score]	[insert Proposal price]	[insert evaluated cost]	[insert combined score]
[insert name]	[insert Technical score]	[insert Proposal price]	[insert evaluated cost]	[insert combined score]

3. Reason/s why your Proposal was unsuccessful [Delete if the combined score already reveals the reason]

[INSTRUCTIONS; State the reason/s why this Proposer's Proposal was unsuccessful. Do NOT include: (a) a point by point comparison with another Proposer's Proposal or (b) information that is marked confidential by the Proposer in its Proposal.]

4. How to request a debriefing

DEADLINE: The deadline to request a debriefing expires at midnight on [insert date] (local time).

You may request a debriefing in relation to the results of the evaluation of your Proposal. If you decide to request a debriefing your written request must be made within three (3) Business Days of receipt of this Notification of Intention to Award.

Provide the contract name, reference number, name of the Proposer, contact details; and address the request for debriefing as follows:

Attention: *[insert full name of person, if applicable]*

Title/position: *[insert title/position]*

Agency: *[insert name of Purchaser]*

Email address: *[insert email address]*

Fax number: *[insert fax number or state “not applicable”]*

If your request for a debriefing is received within the 3 Business Days deadline, we will provide the debriefing within five (5) Business Days of receipt of your request. If we are unable to provide the debriefing within this period, the Standstill Period shall be extended by five (5) Business Days after the date that the debriefing is provided. If this happens, we will notify you and confirm the date that the extended Standstill Period will end.

The debriefing may be in writing, by phone, video conference call or in person. We shall promptly advise you in writing how the debriefing will take place and confirm the date and time.

If the deadline to request a debriefing has expired, you may still request a debriefing. In this case, we will provide the debriefing as soon as practicable, and normally no later than fifteen (15) Business Days from the date of publication of the Contract Award Notice.

5. How to make a complaint

DEADLINE: The deadline for submitting a Procurement-related Complaint challenging the decision to award the contract expires on midnight, *[insert date]* (local time).

Provide the contract name, reference number, name of the Proposer, contact details; and address the Procurement-related Complaint as follows:

Attention: *[insert full name of person, if applicable]*

Title/position: *[insert title/position]*

Agency: *[insert name of Purchaser]*

Email address: *[insert email address]*

Fax number: *[insert fax number or state “not applicable”]*

At this point in the procurement process, you may submit a Procurement-related Complaint challenging the decision to award the contract. You do not need to have requested, or received, a debriefing before making this complaint. Your complaint must be submitted within the Standstill Period and received by us before the Standstill Period ends.

For more information see the “[Procurement Regulations for IPF Borrowers \(Procurement Regulations\)](#) (Annex III).” You should read these provisions before preparing and submitting your complaint. In addition, the World Bank’s Guidance “[How to make a Procurement-related Complaint](#)” provides a useful explanation of the process, as well as a sample letter of complaint.

In summary, there are four essential requirements:

1. You must be an ‘interested party’. In this case, that means a Proposer who submitted a Proposal in this procurement, and is the recipient of a Notification of Intention to Award.
2. The complaint can only challenge the decision to award the contract.
3. You must submit the complaint within the deadline stated above.
4. You must include, in your complaint, all of the information required by the Procurement Regulations (as described in Annex III).

6. Standstill Period

DEADLINE: The Standstill Period is due to end at midnight on *[insert date]* (local time).

The Standstill Period lasts ten (10) Business Days after the date of transmission of this Notification of Intention to Award.

The Standstill Period may be extended. This may happen where we are unable to provide a debriefing within the five (5) Business Day deadline. If this happens we will notify you of the extension.

If you have any questions regarding this Notification please do not hesitate to contact us.

On behalf of the Purchaser:

BENEFICIAL OWNERSHIP DISCLOSURE FORM

INSTRUCTIONS TO PROPOSERS: DELETE THIS BOX ONCE YOU HAVE COMPLETED THE FORM

This Beneficial Ownership Disclosure Form (“Form”) is to be completed by the successful Proposer. In case of joint venture, the Proposer must submit a separate Form for each member. The beneficial ownership information to be submitted in this Form shall be current as of the date of its submission.

For the purposes of this Form, a Beneficial Owner of a Proposer is any natural person who ultimately owns or controls the Proposer by meeting one or more of the following conditions:

- *directly or indirectly holding 25% or more of the shares*
- *directly or indirectly holding 25% or more of the voting rights*
- *directly or indirectly having the right to appoint a majority of the board of directors or equivalent governing body of the Proposer*

RFP No.: *[insert number of RFP process]*

Request for Proposals No.: *[insert identification]*

To: *[insert complete name of Purchaser]*

In response to your request in the Letter of Acceptance dated *[insert date of letter of Acceptance]* to furnish additional information on beneficial ownership: *[select one option as applicable and delete the options that are not applicable]*

(i) we hereby provide the following beneficial ownership information.

Details of beneficial ownership

Identity of Beneficial Owner	Directly or indirectly holding 25% or more of the shares (Yes / No)	Directly or indirectly holding 25 % or more of the Voting Rights (Yes / No)	Directly or indirectly having the right to appoint a majority of the board of the directors or an equivalent governing body of the Proposer (Yes / No)

<i>[include full name (last, middle, first), nationality, country of residence]</i>			
---	--	--	--

OR

(ii) *We declare that there is no Beneficial Owner meeting one or more of the following conditions:*

- directly or indirectly holding 25% or more of the shares
- directly or indirectly holding 25% or more of the voting rights
- directly or indirectly having the right to appoint a majority of the board of directors or equivalent governing body of the Proposer

OR

(iii) *We declare that we are unable to identify any Beneficial Owner meeting one or more of the following conditions. [If this option is selected, the Proposer shall provide explanation on why it is unable to identify any Beneficial Owner]*

- directly or indirectly holding 25% or more of the shares
- directly or indirectly holding 25% or more of the voting rights
- directly or indirectly having the right to appoint a majority of the board of directors or equivalent governing body of the Proposer”

Name of the Proposer: **[insert complete name of the Proposer]*

Name of the person duly authorized to sign the Proposal on behalf of the Proposer: ***[insert complete name of person duly authorized to sign the Proposal]*

Title of the person signing the Proposal: *[insert complete title of the person signing the Proposal]*

Signature of the person named above: _____

Date signed *[insert ordinal number]* day of *[insert month]*, *[insert year]*

* In the case of the Proposal submitted by a Joint Venture specify the name of the Joint Venture as Proposer. In the event that the Proposer is a joint venture, each reference to “Proposer” in the Beneficial Ownership Disclosure Form (including this Introduction thereto) shall be read to refer to the joint venture member.

** Person signing the Proposal shall have the power of attorney given by the Proposer. The power of attorney shall be attached with the Proposal Schedules.

LETTER OF ACCEPTANCE

Purchaser: *[insert the name of the Purchaser]*

Project: *[insert name of project]*

Contract title: *[insert the name of the contract]*

Country: *[insert country where RFP is issued]*

Loan No. /Credit No. / Grant No.: *[insert reference number for loan/credit/grant]*

RFP No: *[insert RFP reference number from Procurement Plan]*

Date: *[insert Date]*

To: *[insert Name of Proposer]*

This is to notify you that your Proposal dated *[insert Date]* for execution of the *[insert brief description of the Information System]* for the Contract Price in the aggregate of *[insert amount in figures]* (*[insert amount in words]*), as corrected and modified in accordance with the Instructions to Proposers is hereby accepted by our Agency.

You are requested to furnish (i) the Performance Security within 28 days in accordance with the Conditions of Contract, using for that purpose one of the Performance Security Forms and (ii) the additional information on beneficial ownership in accordance with ITP 47.1 within eight (8) Business days using the Beneficial Ownership Disclosure Form, included in Section X, - Contract Forms, of the request for proposals document.

Attachment: Contract Agreement

1. CONTRACT AGREEMENT

THIS CONTRACT AGREEMENT is made

the *[insert: ordinal number]* day of *[insert: month]*, *[insert: year]*.

BETWEEN

- (1) *[insert: Name of Purchaser]*, a *[insert: description of type of legal entity, for example, an agency of the Ministry of . . .]* of the Government of *[insert: country of Purchaser]*, or corporation incorporated under the laws of *[insert: country of Purchaser]* and having its principal place of business at *[insert: address of Purchaser]* (hereinafter called “the Purchaser”), and
- (2) *[insert: name of Supplier]*, a corporation incorporated under the laws of *[insert: country of Supplier]* and having its principal place of business at *[insert: address of Supplier]* (hereinafter called “the Supplier”).

WHEREAS the Purchaser desires to engage the Supplier to supply, install, achieve Operational Acceptance of, and support the following Information System *[insert: brief description of the Information System]* (“the System”), and the Supplier has agreed to such engagement upon and subject to the terms and conditions appearing below in this Contract Agreement.

NOW IT IS HEREBY AGREED as follows:

- | | |
|--------------------|---|
| Article 1. | 1.1 Contract Documents (Reference GCC Clause 1.1 (a) (ii)) |
| Contract Documents | The following documents shall constitute the Contract between the Purchaser and the Supplier, and each shall be read and construed as an integral part of the Contract: <ol style="list-style-type: none">(a) This Contract Agreement and the Appendices attached to the Contract Agreement(b) Special Conditions of Contract(c) General Conditions of Contract(d) Technical Requirements (including Implementation Schedule)(e) The Supplier’s proposal and original Price Schedules(f) Code of Conduct for Supplier’s Personnel(g) <i>[Add here: any other documents]</i> |
| | 1.2 Order of Precedence (Reference GCC Clause 2) |

In the event of any ambiguity or conflict between the Contract Documents listed above, the order of precedence shall be the order in which the Contract Documents are listed in Article 1.1 (Contract Documents) above, provided that Appendix 7 shall prevail over all provisions of the Contract Agreement and the other Appendices attached to the Contract Agreement and all the other Contract Documents listed in Article 1.1 above.

1.3 Definitions (Reference GCC Clause 1)

Capitalized words and phrases used in this Contract Agreement shall have the same meanings as are ascribed to them in the General Conditions of Contract.

Article 2.

Contract Price and
Terms of Payment

2.1 Contract Price (Reference GCC Clause 1.1(a)(viii) and GCC Clause 11)

The Purchaser hereby agrees to pay to the Supplier the Contract Price in consideration of the performance by the Supplier of its obligations under the Contract. The Contract Price shall be the aggregate of: ***[insert: amount of foreign currency A in words], [insert: amount in figures], plus [insert: amount of foreign currency B in words], [insert: amount in figures], plus [insert: amount of foreign currency C in words], [insert: amount in figures], [insert: amount of local currency in words], [insert: amount in figures],*** as specified in the Grand Summary Price Schedule.

The Contract Price shall be understood to reflect the terms and conditions used in the specification of prices in the detailed price schedules, including the terms and conditions of the associated Incoterms, and the taxes, duties and related levies if and as identified.

Article 3.

Effective Date for
Determining Time
for Operational
Acceptance

3.1 Effective Date (Reference GCC Clause 1.1 (e) (ix))

The time allowed for supply, installation, and achieving Operational Acceptance of the System shall be determined from the date when all of the following conditions have been fulfilled:

- (a) This Contract Agreement has been duly executed for and on behalf of the Purchaser and the Supplier;
- (b) The Supplier has submitted to the Purchaser the performance security and the advance payment security, in accordance with GCC Clause 13.2 and GCC Clause 13.3;
- (c) The Purchaser has paid the Supplier the advance payment, in accordance with GCC Clause 12;

Each party shall use its best efforts to fulfill the above conditions for which it is responsible as soon as practicable.

3.2 If the conditions listed under 3.1 are not fulfilled within two (2) months from the date of this Contract Agreement because of reasons not attributable to the Supplier, the parties shall discuss and agree on an equitable adjustment to the Contract Price and the Time for Achieving Operational Acceptance and/or other relevant conditions of the Contract.

Article 4.

4.1 The Appendixes listed below shall be deemed to form an integral part of this Contract Agreement.

Appendixes

4.2 Reference in the Contract to any Appendix shall mean the Appendixes listed below and attached to this Contract Agreement, and the Contract shall be read and construed accordingly.

APPENDIXES

- Appendix 1. Supplier's Representative
- Appendix 2. Adjudicator *[if there is no Adjudicator, state "not applicable"]*
- Appendix 3. List of Approved Subcontractors
- Appendix 4. Categories of Software
- Appendix 5. Custom Materials
- Appendix 6. Revised Price Schedules (if any)
- Appendix 7. Minutes of Contract Finalization Discussions and Agreed-to Contract Amendments

IN WITNESS WHEREOF the Purchaser and the Supplier have caused this Agreement to be duly executed by their duly authorized representatives the day and year first above written.

Appendix 1. Supplier's Representative

In accordance with GCC Clause 1.1 (b) (iv), the Supplier's Representative is:

Name: *[insert: name and provide title and address further below, or state "to be nominated within fourteen (14) days of the Effective Date"]*

Title: *[if appropriate, insert: title]*

In accordance with GCC Clause 4.3, the Supplier's addresses for notices under the Contract are:

Address of the Supplier's Representative: *[as appropriate, insert: personal delivery, postal, cable, facsimile, electronic mail, and/or EDI addresses.]*

Fallback address of the Supplier: *[as appropriate, insert: personal delivery, postal, cable, facsimile, electronic mail, and/or EDI addresses.]*

Appendix 2. Adjudicator

In accordance with GCC Clause 1.1 (b) (vi), the agreed-upon Adjudicator is:

Name: *[insert: name]*

Title: *[insert: title]*

Address: *[insert: postal address]*

Telephone: *[insert: telephone]*

In accordance with GCC Clause 43.1.3, the agreed-upon fees and reimbursable expenses are:

Hourly Fees: *[insert: hourly fees]*

Reimbursable Expenses: *[list: reimbursables]*

Pursuant to GCC Clause 43.1.4, if at the time of Contract signing, agreement has not been reached between the Purchaser and the Supplier, an Adjudicator will be appointed by the Appointing Authority named in the SCC.

Appendix 3. List of Approved Subcontractors

The Purchaser has approved use of the following Subcontractors nominated by the Supplier for carrying out the item or component of the System indicated. Where more than one Subcontractor is listed, the Supplier is free to choose between them, but it must notify the Purchaser of its choice sufficiently in advance of the time when the subcontracted work needs to commence to give the Purchaser reasonable time for review. In accordance with GCC Clause 20.1, the Supplier is free to submit proposals for Subcontractors for additional items from time to time. No subcontracts shall be placed with any such Subcontractors for additional items until the Subcontractors have been approved in writing by the Purchaser and their names have been added to this list of Approved Subcontractors, subject to GCC Clause 20.3.

[specify: item, approved Subcontractors, and their place of registration that the Supplier proposed in the corresponding attachment to its proposal and that the Purchaser approves that the Supplier engage during the performance of the Contract. Add additional pages as necessary.]

Item	Approved Subcontractors	Place of Registration

Appendix 4. Categories of Software

The following table assigns each item of Software supplied and installed under the Contract to one of the three categories: (i) System Software, (ii) General-Purpose Software, or (iii) Application Software; and to one of the two categories: (i) Standard Software or (ii) Custom Software and to one of the two categories: (i) Proprietary or (ii) Open Source.

Title	(select one per title)			(select one per title)		(select one per title)	
	System	General-Purpose	Application	Standard	Custom	Proprietary	Open Source
[insert Title]							
[insert Title]							
[insert Title]							
[insert Title]							
[insert Title]							
[insert Title]							
[insert Title]							

Appendix 5. Custom Materials

The follow table specifies the Custom Materials the Supplier will provide under the Contract.

Custom Materials
<i>[insert Title and description]</i>
<i>[insert Title and description]</i>
<i>[insert Title and description]</i>
<i>[insert Title and description]</i>
<i>[insert Title and description]</i>

Unofficially Copy

Appendix 6. Revised Price Schedules

The attached Revised Price Schedules (if any) shall form part of this Contract Agreement and, where differences exist, shall supersede the Price Schedules contained in the Supplier's Proposal. These Revised Price Schedules reflect any corrections or adjustments to the Supplier's proposal price, pursuant to the ITP Clauses 30.3 and 38.2.

Unofficially Copy

Appendix 7. Minutes of Contract Finalization Discussions and Agreed-to Contract Amendments

The attached Contract amendments (if any) shall form part of this Contract Agreement and, where differences exist, shall supersede the relevant clauses in the GCC, SCC, Technical Requirements, or other parts of this Contract as defined in GCC Clause 1.1 (a) (ii).

Unofficially Copy

2. PERFORMANCE AND ADVANCE PAYMENT SECURITY FORMS

2.1 Performance Security Form (Bank Guarantee) (Bank Guarantee)

[The bank, as requested by the successful Proposer, shall fill in this form in accordance with the instructions indicated]

[Guarantor letterhead or SWIFT identifier code]

*[insert: **Bank's Name, and Address of Issuing Branch or Office**]*

Beneficiary: *[insert: **Name and Address of Purchaser**]*

Date: *[insert: **date**]*

PERFORMANCE GUARANTEE No.: *[insert: **Performance Guarantee Number**]*

Guarantor: *[Insert name and address of place of issue, unless indicated in the letterhead]*

We have been informed that on *[insert: **date of award**]* you awarded Contract No. *[insert: **Contract number**]* for *[insert: **title and/or brief description of the Contract**]* (hereinafter called "the Contract") to *[insert: **complete name of Supplier which in the case of a joint venture shall be in the name of the joint venture**]* (hereinafter called "the Applicant"). Furthermore, we understand that, according to the conditions of the Contract, a performance guarantee is required.

At the request of the Applicant, we as Guarantor hereby irrevocably undertake to pay you any sum(s) not exceeding *[insert: **amount(s)¹ in figures and words**]* such sum being payable in the types and proportions of currencies which the Contract Price is payable upon receipt by us of the Beneficiary's statement, whether in the demand itself or in a separate signed document accompanying or identifying the demand, stating that the Applicant is in breach of its obligation(s) under the contract without the Beneficiary needing to prove or to show grounds or reasons for their demand or the sum specified therein.

On the date of your issuing, to the Supplier, the Operational Acceptance Certificate for the System, the value of this guarantee will be reduced to any sum(s) not exceeding *[insert: **amount(s)¹ in figures and words**]*. This remaining guarantee shall expire no later than *[insert: **number and select: of months/of years** (of the Warranty Period that needs to be covered by the remaining*

¹ *The bank shall insert the amount(s) specified and denominated in the SCC for GCC Clauses 13.3.1 and 13.3.4 respectively, either in the currency(ies) of the Contract or a freely convertible currency acceptable to the Purchaser.*

guarantee)] from the date of the Operational Acceptance Certificate for the System,¹ and any demand for payment under it must be received by us at this office on or before that date.

This guarantee is subject to the Uniform Rules for Demand Guarantees, (URDG) 2010 Revision, ICC Publication No. 758, except that the supporting statement under 15 (a) is hereby excluded.

[Signature(s)]

[Note: All italicized text (including footnotes) is for use in preparing this form and shall be deleted from the final product.]

¹ *In this sample form, the formulation of this paragraph reflects the usual SCC provisions for GCC Clause 13.3. However, if the SCC for GCC Clauses 13.3.1 and 13.3.4 varies from the usual provisions, the paragraph, and possibly the previous paragraph, need to be adjusted to precisely reflect the provisions specified in the SCC.*

2.2 Advance Payment Security Bank Guarantee

[Guarantor letterhead or SWIFT identifier code]

Beneficiary: *[insert: Name and Address of Purchaser]*

Date: *[insert date of issue]*

ADVANCE PAYMENT GUARANTEE No.: *[insert: Advance Payment Guarantee Number]*

Guarantor: *[Insert name and address of place of issue, unless indicated in the letterhead]*

We have been informed that on *[insert: date of award]* you awarded Contract No. *[insert: Contract number]* for *[insert: title and/or brief description of the Contract]* (hereinafter called "the Contract") to *[insert: complete name of Supplier, which in the case of a joint venture shall be the name of the joint venture]* (hereinafter called "the Applicant").

Furthermore, we understand that, according to the conditions of the Contract, an advance payment in the sum of *[insert: amount in numbers and words, for each currency of the advance payment]* is to be made to the Supplier against an advance payment guarantee.

At the request of the Applicant, we as Guarantor, hereby irrevocably undertake to pay the Beneficiary any sum or sums not exceeding in total an amount of *[insert amount in figures] ([insert amount in words])¹* upon receipt by us of the Beneficiary's complying demand supported by the Beneficiary's statement, whether in the demand itself or in a separate signed document accompanying or identifying the demand, stating either that the Applicant:

- (a) has used the advance payment for purposes other than toward delivery of Goods; or
- (b) has failed to repay the advance payment in accordance with the Contract conditions, specifying the amount which the Applicant has failed to repay.

A demand under this guarantee may be presented as from the presentation to the Guarantor of a certificate from the Beneficiary's bank stating that the advance payment referred to above has been

¹ *The Guarantor shall insert an amount representing the amount of the advance payment and denominated either in the currency(ies) of the advance payment as specified in the Contract, or in a freely convertible currency acceptable to the Purchaser.*

credited to the Applicant on its account number *[insert number]* at *[insert name and address of Applicant's bank]*.

The maximum amount of this guarantee shall be progressively reduced by the amount of the advance payment repaid by the Applicant as specified in copies of interim statements or payment certificates which shall be presented to us. This guarantee shall expire, at the latest, upon our receipt of a copy of the interim payment certificate indicating that ninety (90) percent of the Accepted Contract Amount, has been certified for payment, or on the *[insert day]* day of *[insert month]*, *[insert year]*, whichever is earlier. Consequently, any demand for payment under this guarantee must be received by us at this office on or before that date.

This guarantee is subject to the Uniform Rules for Demand Guarantees (URDG) 2010 Revision, ICC Publication No.758, except that the supporting statement under Article 15(a) is hereby excluded.

[signature(s)]

[Note: All italicized text (including footnotes) is for use in preparing this form and shall be deleted from the final product.]

3. INSTALLATION AND ACCEPTANCE CERTIFICATES

3. Installation and Acceptance Certificates

3.1 Installation Certificate

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name and number of Contract]*

To: *[insert: name and address of Supplier]*

Dear Sir or Madam:

Pursuant to GCC Clause 26 (Installation of the System) of the Contract entered into between yourselves and the *[insert: name of Purchaser]* (hereinafter the “Purchaser”) dated *[insert: date of Contract]*, relating to the *[insert: brief description of the Information System]*, we hereby notify you that the System (or a Subsystem or major component thereof) was deemed to have been correctly installed on the date specified below.

1. Description of the System (or relevant Subsystem or major component: *[insert: description]*)
2. Date of Installation: *[insert: date]*

Notwithstanding the above, you are required to complete the outstanding items listed in the attachment to this certificate as soon as practicable. This letter shall not relieve you of your obligation to achieve Operational Acceptance of the System in accordance with the Contract nor of your obligations during the Warranty Period.

For and on behalf of the Purchaser

Signed:

3.2 Operational Acceptance Certificate

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name of System or Subsystem and number of Contract]*

To: *[insert: name and address of Supplier]*

Dear Sir or Madam:

Pursuant to GCC Clause 27 (Commissioning and Operational Acceptance) of the Contract entered into between yourselves and the *[insert: name of Purchaser]* (hereinafter the “Purchaser”) dated *[insert: date of Contract]*, relating to the *[insert: brief description of the Information System]*, we hereby notify you the System (or the Subsystem or major component identified below) successfully completed the Operational Acceptance Tests specified in the Contract. In accordance with the terms of the Contract, the Purchaser hereby takes over the System (or the Subsystem or major component identified below), together with the responsibility for care and custody and the risk of loss thereof on the date mentioned below.

1. Description of the System (or Subsystem or major component): *[insert: description]*
2. Date of Operational Acceptance: *[insert: date]*

This letter shall not relieve you of your remaining performance obligations under the Contract nor of your obligations during the Warranty Period.

For and on behalf of the Purchaser

Signed: _____

Date: *[insert: date]*

in the capacity of: *[state: “Project Manager” or specify a higher level authority in the Purchaser’s organization]*

4. CHANGE ORDER PROCEDURES AND FORMS

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name or System or Subsystem and number of Contract]*

General

This section provides samples of procedures and forms for carrying out changes to the System during the performance of the Contract in accordance with GCC Clause 39 (Changes to the System) of the Contract.

Change Order Log

The Supplier shall keep an up-to-date Change Order Log to show the current status of Requests for Change and Change Orders authorized or pending. Changes shall be entered regularly in the Change Order Log to ensure that the log is kept up-to-date. The Supplier shall attach a copy of the current Change Order Log in the monthly progress report to be submitted to the Purchaser.

References to Changes

- (1) Request for Change Proposals (including Application for Change Proposals) shall be serially numbered CR-nnn.
- (2) Change Estimate Proposals shall be numbered CN-nnn.
- (3) Estimate Acceptances shall be numbered CA-nnn.
- (4) Change Proposals shall be numbered CP-nnn.
- (5) Change Orders shall be numbered CO-nnn.

On all forms, the numbering shall be determined by the original CR-nnn.

Annexes

- 4.1 Request for Change Proposal Form
- 4.2 Change Estimate Proposal Form
- 4.3 Estimate Acceptance Form
- 4.4 Change Proposal Form
- 4.5 Change Order Form
- 4.6 Application for Change Proposal Form

4.1 Request for Change Proposal Form

(Purchaser's Letterhead)

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name of System or Subsystem or number of Contract]*

To: *[insert: name of Supplier and address]*

Attention: *[insert: name and title]*

Dear Sir or Madam:

With reference to the above-referenced Contract, you are requested to prepare and submit a Change Proposal for the Change noted below in accordance with the following instructions within *[insert: number]* days of the date of this letter.

1. Title of Change: *[insert: title]*
2. Request for Change No./Rev.: *[insert: number]*
3. Originator of Change: *[select Purchaser / Supplier (by Application for Change Proposal), and add: name of originator]*
4. Brief Description of Change: *[insert: description]*
5. System (or Subsystem or major component affected by requested Change): *[insert: description]*
6. Technical documents and/or drawings for the request of Change:

Document or Drawing No.	Description
-------------------------	-------------
7. Detailed conditions or special requirements of the requested Change: *[insert: description]*
8. Procedures to be followed:
 - (a) Your Change Proposal will have to show what effect the requested Change will have on the Contract Price.
 - (b) Your Change Proposal shall explain the time it will take to complete the requested Change and the impact, if any, it will have on the date when Operational Acceptance of the entire System agreed in the Contract.

- (c) If you believe implementation of the requested Change will have a negative impact on the quality, operability, or integrity of the System, please provide a detailed explanation, including other approaches that might achieve the same impact as the requested Change.
 - (d) You should also indicate what impact the Change will have on the number and mix of staff needed by the Supplier to perform the Contract.
 - (e) You shall not proceed with the execution of work related to the requested Change until we have accepted and confirmed the impact it will have on the Contract Price and the Implementation Schedule in writing.
9. As next step, please respond using the Change Estimate Proposal form, indicating how much it will cost you to prepare a concrete Change Proposal that will describe the proposed approach for implementing the Change, all its elements, and will also address the points in paragraph 8 above pursuant to GCC Clause 39.2.1. Your Change Estimate Proposal should contain a first approximation of the proposed approach, and implications for schedule and cost, of the Change.

4.2 Change Estimate Proposal Form

(Supplier's Letterhead)

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name of System or Subsystem and number of Contract]*

To: *[insert: name of Purchaser and address]*

Attention: *[insert: name and title]*

Dear Sir or Madam:

With reference to your Request for Change Proposal, we are pleased to notify you of the approximate cost of preparing the below-referenced Change in accordance with GCC Clause 39.2.1 of the Contract. We acknowledge that your agreement to the cost of preparing the Change Proposal, in accordance with GCC Clause 39.2.2, is required before we proceed to prepare the actual Change Proposal including a detailed estimate of the cost of implementing the Change itself.

1. Title of Change: *[insert: title]*
2. Request for Change No./Rev.: *[insert: number]*
3. Brief Description of Change (including proposed implementation approach): *[insert: description]*
4. Schedule Impact of Change (initial estimate): *[insert: description]*
5. Initial Cost Estimate for Implementing the Change: *[insert: initial cost estimate]*
6. Cost for Preparation of Change Proposal: *[insert: cost in the currencies of the Contract]*, as detailed below in the breakdown of prices, rates, and quantities.

4.3 Estimate Acceptance Form

(Purchaser's Letterhead)

Date: *[insert: date]*

Loan/Credit Number: *[insert: loan or credit number from RFP]*

RFP: *[insert: title and number of RFP]*

Contract: *[insert: name of System or Subsystem and number of Contract]*

To: *[insert: name of Supplier and address]*

Attention: *[insert: name and title]*

Dear Sir or Madam:

We hereby accept your Change Estimate and agree that you should proceed with the preparation of a formal Change Proposal.

1. Title of Change: *[insert: title]*
2. Request for Change No./Rev.: *[insert: request number / revision]*
3. Change Estimate Proposal No./Rev.: *[insert: proposal number / revision]*
4. Estimate Acceptance No./Rev.: *[insert: estimate number / revision]*
5. Brief Description of Change: *[insert: description]*
6. Other Terms and Conditions: *[insert: other terms and conditions]*

In the event that we decide not to order the Change referenced above, you shall be entitled to compensation for the cost of preparing the Change Proposal up to the amount estimated for this purpose in the Change Estimate Proposal, in accordance with GCC Clause 39 of the General Conditions of Contract.

To: *[insert: name of Purchaser and address]*

Attention: *[insert: name and title]*

Dear Sir or Madam:

In response to your Request for Change Proposal No. *[insert: number]*, we hereby submit our proposal as follows:

1. Title of Change: *[insert: name]*
2. Change Proposal No./Rev.: *[insert: proposal number/revision]*
3. Originator of Change: *[select: Purchaser / Supplier; and add: name]*
4. Brief Description of Change: *[insert: description]*
5. Reasons for Change: *[insert: reason]*
6. The System Subsystem, major component, or equipment that will be affected by the requested Change: *[insert: description]*
7. Technical documents and/or drawings for the requested Change:
Document or Drawing No. Description
8. Estimate of the increase/decrease to the Contract Price resulting from the proposed Change: *[insert: amount in currencies of Contract]*, as detailed below in the breakdown of prices, rates, and quantities.
Total lump sum cost of the Change:
Cost to prepare this Change Proposal (i.e., the amount payable if the Change is not accepted, limited as provided by GCC Clause 39.2.6):
9. Additional Time for Achieving Operational Acceptance required due to the Change: *[insert: amount in days / weeks]*

10. Effect on the Functional Guarantees: *[insert: description]*
11. Effect on the other terms and conditions of the Contract: *[insert: description]*
12. Validity of this Proposal: for a period of *[insert: number]* days after receipt of this Proposal by the Purchaser
13. Procedures to be followed:
 - (a) You are requested to notify us of your acceptance, comments, or rejection of this detailed Change Proposal within *[insert: number]* days from your receipt of this Proposal.
 - (b) The amount of any increase and/or decrease shall be taken into account in the adjustment of the Contract Price.
