**2<sup>nd</sup> Responses of Queries for Supply, Installation and Commissioning for Expansion of Existing Private Cloud Platform  
(DC & DR) in National Data Center at BCC  
(Contract Package # EDGE-G1C)**

Sl. No.	Page/ Clause Number/ Item Name	Clause/ Requirement	Question/Clarification Sought	Project Response
1	2	3	4	5
1	Section VII – Purchaser's Requirements	Section VII – Purchaser's Requirements	When we look at the layers in the design in the appendix, we see OpenStack as the Cloud Service Layer, but some of the items in the specification are not among the OpenStack Services. Can you explain this?	This is a high-level overview of the existing Huawei Cloud Stack. The OpenStack capabilities are extended in their stack thus may be there are services which are not available in the core OpenStack.
2	Section VII – Purchaser's Requirements	Section VII – Purchaser's Requirements	Also, CMP is not written next to some items, in this case, should we understand that these items should be met by the Cloud Service Layer?	CMP is part of the Management Layer which will use API of Cloud Service Layer.
3	Section VII – Purchaser's Requirements	Section VII – Purchaser's Requirements	Is there a product planned in the layer considered as the Management Layer?	Yes, if the question is about CMP, it shall be considered in the Management Layer.
4	Section VII – Purchaser's Requirements	Section VII – Purchaser's Requirements	Could you please provide information about the existing cloud infrastructure to be integrated?	The existing cloud infrastructure is based on Huawei Cloud Stack (version 8)
